THE FIGURE "9". The figure "9" in our dates is with us and has come to stay. No mus or woman now living will ever date a document without using the figure 9. It how stands on the extreme right—1889. Next year it will, be in the third place, where it will remain ten years. It will then move up to the second place—1989—and there it will rest one hundred years.

There is another "9" which has also come to stay: it is called the No. "9." It is not like the figure "9" in our dates in the respect that it will have to wait until next year for third place, or ten years for second place, as it has this years stood in first place, and it will not move from there; it is the new

at every county fair where it has been exhibited.

No woman, if she desires to be happy should be without a "No, 9" No man should be happy until he has purchased the lightest rouning lock sitted machine in the world, the "No, 9" for his home. No agent is happy untess be sells the "No, 9." No desire will be happy and prosperous in this age of progress unless he furnishes his customers with the only perfect sewing machine mechanism for family use, the "No, 9." We are happy, for our trade has more than doubled since the birth of the "No, 9." WHEELEER & WILSON MFTG CO., 185 and 167 Wabash ave., Chicago.
