## **OMAHA** Medical and Surgical Institute,

N. W. Cor. 13th and Dodge Sts., Omaha, Neb.

THE LARGEST MEDICAL INSTITUTE IN THE WEST

FOR THE TREATMENT OF ALL

Chronic and Surgical Diseases and Diseases of the Eye and Ear.

PARTICULAR ATTENTION PAID TO DEFORMITIES, DISEASES OF WOMEN, DISEASES OF THE URINARY AND SEXUAL ORGANS, PRIVATE DISEASES, DISEASES OF THE MERVOUS SYSTEM, LUNG AND THROAT DISEASES, SURGICAL OPERATIONS, EPILEPSY OR FITS.

J. W. McMENAMY, M. D., President, And Consulting Physician and Surgeon.

Organized with a full stall of Skilled Physicians, Sargeous and Trained Nurses.

Organized with a full star of Skilled Physicians, Surgeons and Trained Nations.

This establishment is a permanent medical institution, conducted by theroughly educated physicians and surgeons of acknowledged skill and experience. The Institute buildings, situated on the northwest corner of Tristeenth and Podge streets, is composed of two large three-story brick buildings of over ninety rooms, containing our Medical, Surgical and Comaltation Rooms, Drug Store, Labbratory, Offices, Manufactory of Surgical Appliances and braces, and the Boarding Department for Patients, in charge of competent persons, constituting the largest and the most thoroughly equipped Medical and Surgical Istablishment in the West, one of the three largest in the United States, and second to none.

We have superior advantages and facilities for treating diseases, performing surgical operations, boarding and nursing patients, which, combined with our acknowledged ability, experience, responsibility and reputation, should make the Omaha Medical and Surgical Institute the first choice.

You can come direct to the Institute the first choice.

You can come direct to the Institute, day or night, as we have hotel accommedations as good and as cheap as any in the city.

We make this explanation for the benefit of persons who may feel inclined to go further east for medical or surgical trextment and do not appreciate the fact that Omaha possesses the largest and most complete Medical and Surgical Institute west of New York, with a capital of over \$100,000.

DEFORMITIES OF THE HUMAN BODY.

Best Facilities, Apparatus and Remedies for Successful Treatment of every form of Disease requiring MEDICAL or SURGICAL TREATMENT.

In this department we are especially successful. Our claims of superiority ovall others are based upon the fact that this is the only medical establishment manufacturing surgical braces and appliances for each individual case. We have three skilled instrument makers in our employ, with improved machinery, and have all the latest inventions, as well as our own patents and improvements, the result of twenty years' experience.

## ELECTRICAL TREATMENT.

The treatment of discases by electricity has undergone great changes within the post few years, and electricity is now acknowledged by all schools of medicine as the great remedy in all chronic, special and nerve discases, for nervous debility, paralysis, rheumantism, discusses of women, etc., and in many eye and car discases it at the most valuable of all remedies.

In order to obtain its full virtues, it is absolutely necessary to have the proper apparatus. We have lately purchased three of the largest and most complete batteries manufactured, so constructed as to give the most gentle as well as the nost powerful current. Persons treated at this Institute by electricity recognize at once the difference between our expensive and complete electrical apparatus and the common, cheap batteries, in use by many physicians. Over 3,000 dellars nvested in electrical apparatus.

## PRIVATE, SPECIAL, NERVOUS AND BLOOD DISEASES.

We claim to be the only reliable, responsible establishment in the west making a specialty of this class of diseases. Dr. McMenamy was one of the first thoroughly educated physicians to make a special study of this class of diseases, and his methods and inventions have been adopted by specialists in Europe and America. He is the inventor of the Clamp Compress Suspensory, acknowledged the best in use. All others are copied after his invention. By means of a simple operation, painless and safe, recently brought into use, we cure many class that have been given up as incurable by medical treatment. (Read our book to men, sent free to any address.)

DISEASES OF EYE AND EAR.

We have had wonderful success in this department in the past year, and have made many improvements in surfacilities for treatment, operations, artificial eyes, see.

CASES TREATED BY LETTER.

We have greatly improved our facilities and methods of ment than ever before.

We are fully up to the times in all the latest inventions in medical and surgical operations, appliances and instruments. Our institution is open for investigation to any persons, patients or physicians. We invite all to correspond with or visit us before taking treatment elsewhere, believing that a visit or consultation will convince any intelligent person that it is to their advantage to place themselves under our care.

Since this advertisement first appeared, many boasting pretenders and frauds have come and gone and many more will come and go, remembered only by their information and foolish victims.

come and gone and many more will come and go, remembered only by their infortunate and footble victims.

"A wise man investigates first and decides afterwards,

"A foot decides first, then investigates."

The Omaha Medical and Surgical Institute is indorsed by the people and the press.

More capital invested, more skilled physicious employed, more modern appliances, instruments and apparatus in use, more cases treated and cured, more successful surgical operations performed, than in all other medical establishments in the West combined.
