Denies the Instruction.

M. D. Roche, the late county clork, states that the county commisseners are in a great hurry to cast reflections upon his record as an efficial in the matter of the road record and fund, in which there is a shortage of \$180 reported. He states that there has been no final settlement made between him and the new county clork, and that he is ready to turn over the \$190 at any time. He also says the commissioners need have no fear as they are amply secured. There is a warrant in the clerk's office drawn to Mr. Roche ender for \$120, and there is a shortage of \$61.00 in the fees of the last quarrant of 1880, making a total of \$180.00 which the county holds, but which belongs to Mr. Roche. That is the trouble with some people; they have no time to walt for results. Some women will take a dose or so of Dr. Pierce's Favorite Prescription and expect to feel well immediately. True, some do find marvelously speedy effects from its use, but chronic, or lingering, diseases, which have had possession of the system for years, cannot generally be cured in a day. Such malufles are generally slow in their inception, slow in their progress, and must be cured, if at all, by slow degrees and regular stages. Perseverance in the use of the "Favorite Prescription" for a reasonable length of time will cure all those chronic weaknesses, irregularities and distressing degangements with which so many females are afflicted. But the use of this world-hamed medicine must be persisted in for a considerable time
