

THE CITY.

Ed Shinn of Ontario has been appointed mail clerk on the fast mail between Green River and Huntington, S. P. Hallway of this city has received the appointment of assistant transfer clerk at the Omaha depot.

The stockholders of the Nebraska Masonic home will hold their annual meeting for the election of trustees this afternoon at 2 o'clock at Freeman's hall. The Nebraska Veteran Freeasons will hold their annual meeting at the same place this evening at 7 o'clock. Dinner will be served at 8 o'clock.

The Omaha Title Indemnity Trust company was incorporated yesterday by J. W. Harris, J. W. Bedford, L. M. Anderson, J. J. Johnson, E. E. Savage, A. S. Churchill and George A. Mason, with a capital stock of \$500,000.

Personal Paragraphs. Mr. J. B. McCoy, revenue agent for Iowa, Missouri and Kansas, is at the office of the internal revenue collector of this city on official duty.

Robert Esson, a member of the wholesale grocery firm of Paxton, Gallagher & Co., has severed his connection with that firm. He goes to Lincoln, where he has purchased an interest in the firm of Hargreaves & Sons.

Mr. and Mrs. John Wittneil, 413 South Fifteenth street, left for the City of Mexico, last Tuesday evening. From that city they will continue their tour to the westward, and will visit Los Angeles, San Francisco and Portland. They will be gone three months.

George W. Floyd, the advance agent of the Grand Opera House, is in the city. This organization comprising sixty singers and an orchestra will be at the Grand opera house next week, with the charming vocalists "Ermine" and "Nady" each for two nights.

Still They Come. Another suit has been entered against Edholm & Akin. This time Joseph B. Mayer & Co. have brought suit on several notes aggregating \$1,522. Writs of attachment and garnishment were issued.

Who can foretell a sudden trial on the leg of a favorite? Keep Salvation Oil for the stable.

The early bird catches the worm, and sometimes a bad cold, which, however, does no injury to the old proverb, for with the aid of Dr. Bull's Cough Syrup colds are of no consequence. Price 35 cents.

A Dinner for Charity. The Women's Christian association will give a dinner Thursday and Friday in the basement of the J. J. Devos building, on the sixteenth and Douglas streets, from 11:30 a. m. until 2 p. m. The proceeds of the dinner are to be devoted to the charitable institutions sustained by the organization. They are the home on Hart street for aged and infirm women, the young women's home on Seventeenth street, and the Women's Exchange.

Wanted—Storage with truckage. Address or call on G. D. Edwards, 313 South 16th street, Omaha.

Re-Building Company. At the annual meeting of the Bee Building company, held Tuesday afternoon, the following directors were elected for the ensuing year:

E. Rosewater, Andrew Rosewater, Max Meyer, George H. Schmidt, N. P. Feil. The following officers were then elected: President, E. Rosewater; secretary and treasurer, N. P. Feil.

The Viaduct Ordinance Passed. The council met last night in special session, and passed an ordinance approving the plans, estimates and specifications of the proposed viaduct over the Union Pacific and B. & M. tracks on 24th street, and appointing appraisers to assess the damage to property owners by reason of the construction. Mayor Cushing was present and approved the ordinance and appointed T. S. Clarkson, P. W. Birchauser and T. A. Creigh as appraisers.

Miles' Severe Liver Pills. An important discovery. They act on the liver, stomach and bowels, through the nerves. A new principle. They speedily cure biliousness, bad taste, torpid liver, piles and constipation. For men, women and children. Smallest, mildest, surest. 30 doses for 25 cents. Samples free at Kuhn & Co.'s, 15th and Douglas.

County Court. William F. Slater has commenced suit against C. E. Hogart to recover \$186.42 on a note.

The First National bank has brought suit against S. K. Felton & Co. to recover \$500 on a note. The same bank has sued George W. Roberts for \$250 on a note.

The Chicago Lumber company has commenced two suits against Frank H. Wasserman and Maria C. Decker to recover \$500 and \$204.50 on notes.

Ernest Meites has commenced suit against Sam Kozoff for \$300 on account of money had and received.

William T. Seaman has sued S. A. Goodell to recover \$218.25 on notes.

In the case of H. J. Pickering against W. H. Dyer et al., judgment was rendered in the sum of \$223.84.

California, the land of Discoveries. Why will you lay awake all night, coughing, when that most effective and agreeable California remedy, Santa Abe, will give you immediate relief? SANTA ABE is the only guaranteed cure for consumption, asthma and all bronchial complaints. Sold only in large bottles, at \$1. Three for \$2.50. The Goodman Drug Co. will be pleased to supply you, and guarantee relief when used as directed. CALIFORNIA CAPT-CURE never fails to relieve catarrh of cold in the head. Six months treatment, \$1. By mail \$1.10.

The Boyle Inquest. The inquest over the remains of William Boyle, the man who was killed in the wreck on the Bell line, was held yesterday afternoon. The witnesses examined were E. W. Dickson, superintendent of the Omaha cable factory; W. R. Dean, engineer of the passenger train; A. Smith, engineer of the freight; James Devaney, fireman of the freight; C. W. Van Dorn, a passenger; P. H. Meehan, conductor of the freight; Ray Cook, brakeman on the passenger; W. W. Morrow, brakeman on the freight; John Manning, teamster at the cable factory; and W. F. Chandler, brakeman on the freight. The evidence did not develop anything except what has been already published. The jury found that Boyle came to his death by the collision, and also found that the accident was caused by the negligence of the railroad company, but from the evidence they were unable to fix the blame upon any one.

No Safer Remedy can be had for coughs and colds, or any trouble of the throat, than "Brown's Bronchial Trochoc." Price 35 cts. Sold only in boxes.

To the Omaha Clergy. Rev. Gentleman: I have read with unusual interest your discussion about Sunday newspapers, and with the permission of the Board I desire to ask you a few questions: Was the Sabbath changed from the seventh to the first day of the week? If not, why do you not keep Saturday and frown upon the Saturday paper? If the Sabbath was changed, when, where and by whom? By what authority do you keep the first day of the week as the Jews did their Sabbath? or do you thus keep it?

Do you object to the Sunday paper because it requires work on the Lord's day? If so do you approve of the Monday issue, which requires quite as much Sunday work? Or do you object to the Sunday paper because of its contents? If so, do you object to buy and read it on Monday?

The writer is a member of the Lord's day (first day of the week), and would prefer to see the Sunday papers discontinued, but he desires to see them opposed from a logical and scriptural basis. Hoping that some one of your honorable body will answer the above questions, I am yours for truth, and peace.

Peary's is the best and purest soap ever made.

ZURCHER'S LAND.

A Man Talks Who Thinks it Ought to Command its Price. Speaking on the subject of the condemnation of Mr. Zurcher's land adjoining Bellevue for the Fort Omaha site, a citizen remarked: "Several articles have been published in the Bee concerning the farm of Zurcher, at Bellevue, part of which the government wants for the new fort at that place. It seems unfair that the opponents of Mr. Zurcher should publish their side of the story without Mr. Zurcher's points being presented to the public. Mr. Zurcher came to Bellevue between 1870 and 1880, and acquired some government land. He and his wife experienced all the hardships of pioneer life at the place where he is now living. He raised his family there. He lost his wife there a few years ago. His house is built near a rich spring of pure water of uniform temperature summer and winter, which never falters during the dry or forty years of their living there to give all the wholesome water needed for family or farm purposes. They planted a grove around that spring which grows in the course of time so as to give ample shade in the heat of summer. Other improvements make their home valuable to them. In short, the surroundings of their name are associated with all that is dear and sacred to their memory.

"Now, the government comes and says, 'We want just that portion of the farm which the house is located, with the improvements, the grove and the spring.' Would it not be reasonable for the government to pay to the family that land is worth to them? But no, the family assume to have nothing to say to the appraising of the land. Appraisers are appointed who have no idea of the value of this spot, and those who have spent their lives there. The appraisers have, if I am correctly informed, not given any valuation to the spring near the house. Such a spring of plenty of pure and always fresh water is of almost inestimable value for a family, and here in Nebraska where such pure spring water is so hard to find, a spring of that quantity of water can fairly be appraised—everything considered—at from \$5,000 to \$10,000.

"In yesterday's Bee a real estate man is said to have estimated this land as of less value for the purpose of the government than the land he has sold to Mr. H. T. Clark. How would it be if Mr. Clark would sell to the government so much of the land he still owns around Bellevue, as to make up the deficiency, and leave this less valuable land to Mr. Zurcher?

"At any rate, if the land owned by Mr. Zurcher is indispensable for the purposes of the government, the value of this land to the family should be fairly taken into consideration by those representing the government's interests. The government cannot afford to rot its citizens."

MARENO MISTAKE—If you have made up your mind to buy Hood's Sarsaparilla, do not be induced to take any other. Hood's Sarsaparilla is a peculiar medicine, possessing, by virtue of its peculiar combination, purgative and preparative, curative power superior to any article of the kind before the people. For all affections arising from impure blood or low state of the system it is unequalled. Be sure to get Hood's.

VICTIMS OF THE COLLISION. They are all in a Fair Way to Recover from Their Injuries.

Dr. George B. Ayres, the Missouri Pacific surgeon who has been attending to the persons hurt in Tuesday's collision on the Bell line, reports that nearly all the injured are in a fair way to recover. William Schwarick, deputy county treasurer, has only a scalp wound and the effects of the slight concussion of the brain that he received have passed away.

James A. Harvey, the carpenter, who was paralyzed below the hips, is recovering. He is getting some sense of feeling in his limbs and will recover. The temporary paralysis was caused by concussion of the brain.

W. E. Vaiden, 424 North Bartlett, who was thrown through the window, will be around in a day or two.

Mr. Moore and Mr. Durkee will also be out again in a few days.

The Mitzlaff boys are not badly hurt as was at first supposed. Oliver Mitzlaff's skull was not crushed, but he suffered a scalp wound and was senseless for a number of hours. His brother, Max, has already recovered with the exception of a fractured leg.

Conductor Shields was the most badly hurt of all and is still suffering from the wounds and bruises he received. His condition is, fortunately, not serious.

Mr. Marsh of Walnut Hill, who suffered a fracture of the smaller bone of the leg, is able to hobble about.

La Grippe—A Few Pointers. Persons who have a cold are much more liable to take the influenza or so called, la grippe.

It is much more severe when accompanied by a cold.

The most critical time is when recovering from the disease, as slight exposure will often cause a relapse and that is almost certain to end in lung fever or pneumonia.

The feet should be kept dry and warm, the body well clothed and care used to avoid exposure.

The bowels should be kept regular and persons physically weak should take quinine to keep up the vitality.

With these precautions and the use of Chamberlain's cough remedy a prompt recovery is reasonably certain. That remedy is unequalled for a severe cold and this disease requires precisely the same treatment. For sale by all druggists.

Announcements. "Siberia," with Lizzie May Ulmer in the cast, will be played at Hoyd's opera this evening. All the beautiful spectacular features, which were such an attraction in the original production in Omaha several years ago, will be seen Thursday evening. Seats will be put on sale this morning.

The famous Grau opera company will appear at the Hoyd on Friday and Saturday next in two operas that are entirely new to Omaha, and which were great successes at the Casino, New York, where both enjoyed lengthy runs. The operas are "The Brigands" and "A Child of Naples." They will be presented on Friday evening and Saturday afternoon and the latter on Saturday evening.

Mr. Wesley Sisson, manager of Salvini, revived the city yesterday. A theatrical party will appear at the Hoyd on the first three evenings of next week. On Monday evening the great tragedian will appear in "The Outlaw" and on Wednesday evening in "Samson." On Tuesday evening Mr. Alexander Salvini, son of the tragedian, will take the leading part in "A Child of Naples."

Saratte and O'Albort, the renowned artists who took New York and Boston completely by storm, will appear at the Hoyd on February 15, under the management of Abbey & Grau.

An Absolute Cure. THE ORIGINAL ABETINE OINTMENT is only put up in large two-ounce tin boxes, and is an absolute cure for all sores, burns, wounds, chapped hands and all skin eruptions. Will positively cure all kinds of eruptions. Ask for the ORIGINAL ABETINE OINTMENT. Sold by Goodman Drug company at 25 cents per box—by mail 30 cents.

Fritchett's successor. Benjamin S. Baker, who has been appointed United States district attorney for Nebraska, will probably enter upon the duties of his new position by February 1. On the recommendation of the Nebraska congressional delegation, William Gurley is to be his assistant.

Mr. Baker is an attorney at Fairbury, Jefferson county, and is forty-two years old. He has resided there for eight years. He is well fixed financially, owning several farms in the vicinity of the town. He is quite a horse fancier, and owns some splendid steeds.

Mr. Baker was a member of the last legislature and acted as chairman of the judiciary committee. He voted for the submission bill, but it is claimed that he is not a prohibitionist.

MET READ TO HEAD.

The Belt Suburban Passenger Run Into Again by a Freight. At 8:45 yesterday morning another wreck occurred on the Bell line south of Seymour Park station, near the Barry county line, but fortunately no one was injured.

The train, freight No. 124, going west in charge of Conductor Rice and Engineer Pat Crow, and the suburban No. 365 in charge of Conductor P. W. Marshall and engineer Charles Huser, dashed into one another and smashed engines and cars in pretty generally. The engineers and firemen of both trains saved themselves by jumping.

The freight train, it is said, were late and misunderstood their orders, but it is reported that the freight was running on the passenger's time.

The dummy train contained only one passenger, who, with the remembrance of yesterday's disaster was almost scared into fits. The train should have passed at Seymour Park, but the passenger train having the right of way, pulled out, supposing that the freight was sidetracked further out.

A wrecking train was sent early to clear away the debris under the direction of Superintendent Gilmore. The first coach on the passenger was wrecked in front of line cars smashed and in fact looked very much like the rear end of the smoking car in yesterday's accident.

The tender of engine 213 of the freight was smashed all to pieces, and the boiler of the engine was broken and battered, and the passenger engine was in about the same condition.

At Seymour Park the station was crowded with railroad men and people from the adjoining country.

Frequently accidents occur in the household which cause burns, cuts, sprains and bruises; for use in such cases Dr. J. H. McLean's Volcanic Oil Liniment has for many years been the constant favorite family remedy.

"The Cross of the New Crusade." Father McGlynn at Exposition hall, Tuesday evening, Jan. 23.

FATHER AND SON. The Graysons are About to be Re-united.

After eighteen months of diligent searching William Grayson, a machinist at the Union Pacific shops, has located his runaway son at Cincinnati, O.

The boy's name is Willie. He will soon be fifteen years of age. One year and a half ago the lad was either kidnapped or induced to leave his home. His father made persistent inquiry everywhere, and even advertised a description of his son in all the Omaha daily newspapers. Not a word, however, was received by way of answer.

The parents had given up seeing their son again until they read a paragraph in the Bee that the boy was in a house of refuge at Cincinnati.

Yesterday Mr. Grayson requested Chief Seavy to write to the managers of the Cincinnati refuge and have the boy sent to the city at once. Mr. Grayson is willing to bear all the expense.

The strange part of the affair is that both the boy and manager of the refuge have written a number of letters to Grayson, but none of them have reached him. The latter is now living at Twenty-second and Iard streets, and his wife, the boy's mother, has died since the lad disappeared.

Dr. Birney, practice limited to curricular diseases of nose and throat. Rooms 248 to 250, Bee building.

MOTOR MEN COUPES. They Are Not Considered Practicable by the Company.

Mr. Goodrich, secretary of the Omaha Street railway company, says that the officials of that organization have considered the advisability of having glass coupes put on the front of the motor cars for the accommodation and comfort of the motorman, but have decided that they are not safe. It is necessary that the motorman should be in a position that he can watch the tracks and be ready for any perilous emergency. With the motorman in coupes this is not possible. Besides, the weight of the glass would crush the panes. The motorman themselves do not appear to wish for any coupes. They are generally content with their warm hats or buffalo robes and have become accustomed to the cold.

For Biliousness. [Use Horsford's Acid Phosphate. Dr. W. B. Gilley, Winfield, Manitoba, says: "I have used it in a typical case of indigestion with biliousness, and found in to be, without exception, the best thing I ever used in such cases."

WANTAGE. The United States gaugers here and the state gaugers of California seem to differ in the meaning of the word "wantage" as used in the ruling of the United States at the Willow Springs distillery to the great wine state.

The government tax on every gallon or portion exceeding half a gallon is 50 cents. Every portion less than half a gallon is not taxed. In filling the barrels, therefore, the distiller aims, after putting in a certain number of gallons, to add every half a gallon as possible without reaching that amount. If four-tenths of a gallon is added this amount is not taxed, and the distiller saves 40 cents thereby on every barrel. This fractional quantity is allowed as "wantage" by the government as the alcohol is liable to swell the barrel and lift it in high altitudes if it is filled to its utmost capacity. The gaugers here measure the barrels very critically to see if the fractional part of a gallon added does not reach a full gallon. A half gallon. The California gaugers say that the Omaha distiller aims, after putting in a certain number of gallons, to add every half a gallon as possible without reaching that amount. If four-tenths of a gallon is added this amount is not taxed, and the distiller saves 40 cents thereby on every barrel. This fractional quantity is allowed as "wantage" by the government as the alcohol is liable to swell the barrel and lift it in high altitudes if it is filled to its utmost capacity. The gaugers here measure the barrels very critically to see if the fractional part of a gallon added does not reach a full gallon. A half gallon.

ONLY A POSTAL CARD. With your name and address, mailed to the Swift Specific Co., Atlanta, Ga., is necessary to obtain an interesting treatise on the blood and the diseases incident to it.

SSS. Skin Eruption Cured. One of my customers, a highly respected and influential citizen, but who is now absent from the city, has used Swift's Specific with excellent result. He says it cured him of a skin eruption that had been tormented with for thirty years, and had resisted the curative qualities of many other medicines.

Robinson & Garmon. 15th FARM.

NEW. TRADE MARK. COLAR.

Coughing

IS Nature's effort to expel foreign substances from the bronchial passages. Frequently, this causes inflammation and the need of an anodyne. No other expectorant or anodyne is equal to Ayer's Cherry Pectoral. It assists Nature in ejecting the mucus, allays irritation, induces repose, and is the most popular of all cough cures.

"Of the many preparations before the public for the cure of colds, coughs, bronchitis, and kindred diseases, there is none, within the range of my experience, so reliable as Ayer's Cherry Pectoral. For years I was subject to colds, followed by terrible coughs. About four years ago, when so afflicted, I was advised to try Ayer's Cherry Pectoral and to lay all other remedies aside. I did so, and within a week was well of my cold and cough. Since then I have always kept this preparation in the house, and feel comparatively secure."

"A few years ago I took a severe cold which affected my lungs. I had a terrible cough, and passed a sleepless night without sleep. The doctors gave me up. I tried Ayer's Cherry Pectoral, which relieved my lungs, induced sleep, and afforded the rest necessary for the recovery of my strength. By the continued use of the Pectoral, a permanent cure was effected."—Horace Fairbrother, Rockingham, Vt.

THIS COLD SNAP

Prompts us to remind you that we have a few heavy Ulsters and Fur Trimmed Overcoats which we would like to close out and as this may be our last chance this season to dispose of them, we have cut the price in two, thus offering you a rare chance to get a garment for about one-half its value at a time when it will do you the most good. We call particular attention to a small lot of elegant fancy Chinchilla Ulsters with very fine Cassimere lining, choice satin sleeve lining and made up in first class manner—a garment which was gotten up to retail for about \$30.00, we offer them at \$14.75, and a few excellent Chinchilla Coats, Cassimere lined, and very long and trimmed with good Beaver Collars and Cuffs, at \$13.50. You could not buy this in the early season for less than \$25.00.

For small boys we still have a little lot of very neat Cape Overcoats, sizes 4 to 10; which we offer at \$1.00. They are worth even at this time of the year \$3.50.

For other reasonable bargains which will be appreciated these cold days we mention, Good Knit Caps at 20c, worth 40c. Good Woolen Mitts at 15c, worth 30c. Excellent all wool Sea-less Socks at 15c, would be cheap at 30c.

The prices on all these goods were double but as there was no sale for them and we wanted to force them during the warm weather, we reduced them to one half—it is not our custom to mark goods up again after they are once reduced.

Rubber Overshoes are said to be sold by all shoe dealers very cheap but you should see how we sell them.

Good Knit Caps at 20c, worth 40c. Good Woolen Mitts at 15c, worth 30c. Excellent all wool Sea-less Socks at 15c, would be cheap at 30c.
