Those Bridge Passes.

Those Bridge Preses.

The Omaha & Council Bluffs railway and bridge company passes, about which there has been so much talk, are very handsome bits of pastoboard. They were engraved by Chase & Eddy of Omaha, the designers of the annual pass of the Union Pacific, said to be the most striking ever issued by any railway company. The latter pass is steel plate, the words "Union Pacific system" running across the top, beneath which appears in raised red letters the name of the division over which the pass is issued. In the corner is emboseed in blue, red and gold the "trade mark" of the great read, the American shield. The bridge motor passes are also steel plate, printed in green, with a vignette, "1890," embossed in vermillion at the side. The same house turnishes the annual passes for a number of other corporations, including the Omaha Street railway company, the St. Joseph & Grand Island, embred and the Paufic Heide company. pany, the St. Joseph & Graud Island railroad and the Pacific Hotel company This is a straw, by the way, showing the direction of the wind, an Omaha establishment competing for and successfully turning out work heretofore done by the Western Bank Note company of Chicago and similar well established institutions.

They were Satisfied.

E. B. Everts of Lyons. Nob., and W. A. Howard of Northboro, Ia., who are undergoing treatment for catarrh with Dr. Birney in Tile Beg building, returned to their homes yesterday. They were very enthusiastic as to the doctor's new electric method and declare that they are satisfied that no catarrh can remain after the doctor pronounces his patient cured. Dr. Birney limits his practice to catarrhal diseases of the nose and throat.

LEESE'S LETTER.

LEESE'S LETTER.

Mr. T. L. Kimball Seems to Think But Little About it.

After a hasty peruaal of Attorney General Leese's complaint filed in Washington against the Union Pacific and protesting against its obtaining further government aid. Thomas L. Kimball of that road expressed himself regarding the matter, as follows: "It is not difficult," observed Mr. Kimball, "to distinguish Mr. Leese's ear marks in the construction and complexion of the document. Heining a rehash of the old story, I can't see wherem his effort is going to have much weacht or cut any figure.

"One of his charges accuses us of building the Oregon railway and navigation line and securing by purchase the Oregon Short Line, in order to divert traffic away from the Union Fact the facts must smile at the assemble. The great bulk of our traffic last year came from those roads. They are the most valuable feeders the main line of the West encourage us in the building of branches, appreciate the fact that we have been able to thus occupy territory naturally tributary to the Union Pacific and build up its business.

"That policy is certainly a great benefit to Omaha and Nebraska. We ought to do more building in Nebraska. but the great teadency to legislate railroad extension out of the state has had the effect of preventing eastern capitalists from coming here to invest their money."
