J. H. REINITART, Draggist, Allon, Kunsas. All members of the license Board. All members of the license board, except Messra Gilbert and Beunett, were present at a three hours' sension of the board yester-day afternoon. A rehearing of the question of permitting a saloon at Eleventh and Pioree streets was the first thing considered.

Judge said there were no rooms in the court house which could be used as a court room, and augented that rooms be secured in nome other building. He said the judges of the court have viewed some rooms in the New York Life building sud thought them en-tirely suitable. On motion a committee, consisting of Missara, Berlin, Corrigan and Turner, was spoolned to conter with the judges and re-port on the advisability of securing additional room in another building. The beard them adjourned until Saturday withding of and the committee, under the New York Life building, repaired to the New York Life building to the New York Life building of head of the rest orner. There are two rooms will hold is some in the third for the board, one issue for these rooms is \$1,000 per announ. asternoon. A renearing of the question of pormitting a saleon at Eleventh and Pierce streats was the first thing considered. Joseph Behm, who has been running the place, was refused a renewal on the grounds that he had sold liquor on Sunday, and that the saleon was only a block from the Tenth Street M. E. church. The principal point made by those asking for a rehearing was that the saleon would bereafter be run under the personal supervision of Adoibit Fester, to whom it was asked that a license be granted. The paster and unmbers of the oburch were mainly instrumental in having the license reviced before, and they were on hand yesterday presenting a very determined front. They reiterated their arguments as to the close proximity of their buse of worship to the saleon, and also the fact that there was a public school only a block from the intended to employ Behm, the former proprietor, in the saleon in case a know was granted, and he ropied that be had't thought anything about that.
