HATS AND SHOES.

In our Hat Department the arrangements for this spring are on a much larger scale than ever before. We are showing as large a stock as 3 or 4 ordinary Hat stores combined, and it is now a recognized fact that we are selling Hats at about one half the prices which Hat stores charge. Our patrons and regular customers know 4 that, but if you are one of those who bays Hais on the strength of a name, or a trade-mark printed in the crown, you ought to come and look at our stock and we will easily convince you that you have been paying from \$2 to \$3,00 more for a Hat than its worth. Our fine Derbys are made from the most correct blocks and come from the same factories that turn out the Hats for New York's test known and most fashionable Hatters. The quantities we handle enable us not only to buy them conside; abiy cheaper than the average hatter, but also to sell them with a much smaller profit, and thus you see how it is that our prices are so much lower.

As in our Hat department we have built up an immense trade in Shoes, and this trade has been built up on a solid foundation. Never were honest and well made shoes offered in this city at the prices we sell them, and the guarantee which is given with every pair is a sufficient proof of the quality and make of the shoes we are handling. If a shoe is not as represented, or if you have reason to be dissatisfied after you wear them, bring them back and we will give you a new pair free.
