

THE SPECULATIVE MARKETS.

A Very Uncertain Wheat Trade Most of the Day.

CORN CLOSES FAIRLY STEADY.

Outs Quite Active but Lower—A Feature Province Business—Cattle Slow and Irregular—An Advance on Hogs.

CHICAGO PRODUCE MARKETS.

CHICAGO, Feb. 24.—(Special Telegram to The Bee.)—The action of the wheat market was very uncertain most of the session. There was a general disposition to ignore weather news after the experience of last week. During the day dispatches reporting continued rains in California and another cold wave in the northwest were not heeded. There was an outside price of news of any sort to materially affect values. The market opened about steady for May at 77 1/2c, but went off at once to 77c, rallied to 77 1/2c, then dropped to 77c and at 1 o'clock was up to 77 1/2c with the pit dull. The bottom for June was 77 1/2c and July 75 1/2c. The feature of the day was the covering of wheat early by Partridge. His brokers bought a great quantity the first hour. At the same time the Cudahy and McCormack & Co. were free sellers. There was some buying by the northwest and later some New York buying orders. There was a decline in the price of wheat early in the afternoon. The price of May went to 77c. The wheat market was dull and steady at the close with May at 77c.

Corn was depressed about 1/8c for all futures at one time today by the large receipts, the still larger estimate for tomorrow and the large increase in the visible supply. The weather being generally warm and damp had a depressing effect also. February closed at 77c, March at 77 1/2c. May closed steady at 77 1/2c.

Cattle were fairly active, weaker and lower, due to the mild weather, fair receipts, the decline in other grains and also to the selling by long. Prices for deferred futures receded 1/8c early. The decline brought in good buying to cover by shorts and the loss was regained but in a more limited degree.

CHICAGO LIVE STOCK.

CHICAGO, Feb. 24.—(Special Telegram to The Bee.)—Cattle.—The demand for steers either good or medium, opened rather slow with a determination on the part of buyers to hammer prices, and for a time trade was almost at a standstill, as most of the salesmen stoutly held to the notion that under the circumstances there was no necessity of going away to any great extent, while on the other hand there were some who felt that the concession asked, especially if the buyer was one of the regulars, hence values receded irregularly, that is, from steady to the lower on about everything in the steer line. Cows were in good demand and steady. Huls and common stock ruled steady. There were no Texas steers offered today. There was a fair business in the stocker and feeder line, with prices about the same as any time last week. Choices to extra beefs, 100 to 1,500 lbs., \$5.00 to \$5.25; 1,200 to 1,500 lbs., \$4.50 to \$5.00; 800 to 1,200 lbs., \$4.00 to \$4.50; 400 to 800 lbs., \$3.50 to \$4.00; 200 to 400 lbs., \$3.00 to \$3.50; 100 lbs. and under, \$2.50 to \$3.00; calves, \$2.00 to \$2.50; calves and mixed, \$1.50 to \$2.00; bullock, \$1.00 to \$1.50; Texas corn fed steers, \$3.50 to \$4.00.

FINANCIAL.

New York, Feb. 24.—(Special Telegram to The Bee.)—Stocks.—There was a fair interest and a well distributed business in stocks this morning. The opening of the market was Nashville, Rock Island, New England, St. Paul and Burlington & Quincy most prominent. First prices as compared with the closing figures of Friday showed very irregular changes, Louisville & Nashville being down 1/8c per cent, while Cottol was up a like amount. There was considerable pressure on rail, in early dealings and fractional declines occurred over the line. New England and Louisville & Nashville leading with 1/2c per cent in the regular list and Sugar with 1 per cent in the unlisted department. Tennessee Coal was exceptional and after opening at 2 1/4c per cent at 9 1/4c it rallied to 6 1/2c, recovering slightly with the rest of the list. The recovery was full and complete as a rule and Greenways were especially prominent in the upward movement, Burlington rising 1 per cent from its lowest figure to 10 1/2c, followed closely by Rock Island, which again crossed 90, and St. Paul, Chicago, St. Louis & Pittsburgh preferred also showed marked strength and rose from 50 1/2 to 52 1/2. In the hour to 11 o'clock the market was weak all round. Sugar touched 64 1/2 with light rally and Burlington dropped back to 10 1/2. Rock Island again followed and touched 92 1/2, but recovered to 90 1/2 or 3/4 better than the close last week. The coal stocks attracted more than their share of attention. Tennessee Coal dropped rapidly from 65 to 59 against 60 1/2 this morning, a net loss of 10 1/2 per cent. There was a feeble recovery of 1 or 2 per cent. Colorado coal syndicate and declined from 4 1/2 to 4 1/4 but afterwards recovered most of the loss. Reading also showed a drooping tendency and dropped to 39, but rallied later. The stock market was much changed after midday. Tennessee Coal went off with a whirl to 51 but recovered to 58. There was an impression that the large short interest was nervous and covering under attack on a few specialties. Buying in coal shares became quite generous. Burlington led the advance, and went up to 100 1/2, closing at 102 1/2; Rock Island followed to 90 1/2, or 1 cent higher for the day. St. Paul touched 65, Missouri Pacific 72 1/2 and Union Pacific 63 1/2. Sugar was firm and Chicago Gas was 1/2 up at the close. The total sales were 20 1/2 shares of all the issues.

PRODUCE MARKETS.

CHICAGO, Feb. 24.—(Special Telegram to The Bee.)—Wheat.—Firm; February, 74 1/2; March, 70 1/2; May, 77 1/2. Corn—Steady; February, 77 1/2; May, 80 1/2. Hogs—Steady; February, 16 1/2; May, 17 1/2.

The Week's Business.

For the week ending Saturday, February 22: Swift & Co. 3,344; George H. Hammond & Co. 1,428; The Armour-Cudahy Packing company, 1,367; Omaha Packing Co., 800; C. H. Hammond & Co., 600; Shippers and feeders, 4,000; Local, 11,121; Total, 15,121.
