Haffice Out on Bail.

Herman Haffice, the man who shot Frank
Johnson out in the northwestern portion of
the city one week ago last Sunday, was last
evening released on \$700 bail.

One Fact
Is worth a column of rhetoric, said an
American statesman. It is a fact, established by the testimony of thousands
of people, that Hood's Sarsaparilla does
cure scrofula, sait rheum, and other discases or affections ariring from impure
state or low condition of the blood. It
also overcomes that tired felling, creates a good appetite and give strength
to every part of the system. Try it.

More Charges.

Erick Johnson, one of the brothers who was arrested a few days ago on the charge of burglary, was released yesterday on \$1,250 bail. Its brother Swan is still in jail. A number of additional charges of larcent will be longed arminst the two men as soon as the detactives have completed their work of securing ovidence.

Wood filed the complaint.

Wood tells that Shelby was in his employ
as a hostler. Shelby owned a pheton and
berrewed Wood's norse to haut his pheton
tones after he had been discnarged, and has
never brough an animal back.

On the other hand, Shelby claims to be
noding the horse as scourity for pay due
him for labor.

Redeemed the Present.

Ars. A. E. Estay of Hangor, Me., has written Chief Seavey to go to Sam Snyder's pawn shop and cievate a gold watch which her reckless son had pawoed for \$5.75. It was a Christmas present from the mother. Young Estay came to Omaha to look for work, but did not secure employment and pawned his watch for money to get out of Omaha. He then sent his pawn ticket to his mother renting the fact. Mrs. Estay has forwarded the ticket to Seavey, who will secure the time-piece and forward it C. O. D. to the lady.

The New 2 tyle Stamps. The New rivie Stamps.

The new style of postage stamps ordered by the postmaster general arc now on sale at the postofile. The stamps are all smaller in size and different in color from the old ones. The ordinary 2-cent stamp is a beautiful carmine instead of green color, as formerly. The old stock of stamps will be disposed of first, before the new kind will be offered for sale. At present there are 1,000,000 old style 2-cent stamps in hand, but these will be disposed of at the rate of 20,000 per day.

No Dead Heads. No Dead Heads.

For the season of grand Italian opera next Monday and Tuesday afinual passes to the Collecum will not be recognized. Those holding them who want to attend either one or both performances must buy their tuckets the same as other people. "The free list," says Manager Hoyd, "is entirely suspended." A large force of carpenters and the stage hands from Hoyd's theater remmenced work on the stage yeaterday, and if nothing happens expect to have everything in readiness by Saurday might for the opening.

Dr. S. L. Williams, Claronce, Ia., says:
'I have used it to grand effect in a case of neuralgic fever, and in uterine difficulties.
Also in cases where a general tonic was needed. For a nerve tonic I think it is the best have ever used, and can recommend it most confidently."

Judicious (?) Advertising.

The county commissioners hold an adjourned meeting yesterday afternoon. One bid was received for supplying the county with drugs. The bid was from the Goodman with drugs. The bid was from the Goodman drug company and it was explained that the advertisements for bids had been inacrted in the county organ, which accounted for the fant that no other pronessis were received. The bid was rejected, and the county clerk directed to sand out notsal cards to all drug houses requesting them to send in bids, which will be opened Saturday sext.

A bid was also received supplying the county with pants and shirts, and referred to the committee on court house and jail.

The board then adjourned until Friday afternoon.

THEIR OWN MASTERS.

The Condition of the Union Pac fic Northwestern Combination. Last January the Omaha roads expressed a desire to put in effort the same rates on cearse grain from Omaha to St. Paul and Minnerpolis are Minneapolis as exist from Omaha to St. Louis, and it had the matter referred to the Lous, and that the matter referred to the borthwestern division of the Western freight association for consideration. Objections being raised by the Interstate commercial railway association it was delogated to that heavy. At its February meeting a disgreening resulted whereupon the Omnha took an appeal to arbitration. Chairman Walker gave his decision, which denies the request last Saturday. Trouble is likely to ensue.

Mr. Walger in his ruling, among other

water gave in decision, which denies the request last Saturiay. Trouble is likely to ensue.

Mr. Walaer in his ruling, among other things said:

"Tota application is quite different from that under which attrough rate was recently authorised on traffic from Boston to Neurasia points via. St. Paul. The representative of the Chicago, St. Paul, Minneapolis & Omsha company, in his communication in respect to the present case, refers as a precident to the 'establishment of the same rates was some more precident to the 'establishment of the same rates was some more precident to the 'establishment of the same rates was some properties of as are applied from Minneapolis Mismanippi river, part of as are applied from the same rates was the properties of the same properties. The properties of the same rates was some one of the properties of the same rates was respected and considered as a proposition for a through rate strictly; it was claimed that its introduction would make no change to the tariff charged shippers, to whom other routes were open at the same rate; that it could not have any effect upon intermediate rates; that it was intended simply to put the through line via St. Paul upon an equal with other existing lines without changing the rates at any local noints or on any other lines.

"The application, on the other hand, is a proposed reduction in the local rate between Omaha and St. Paul. If granted to the Omaha it necessarily becomes onen to all the lines between those points, including at least three routes which hass through the state of lows, where it, would reduce the present local tariffs materially; it would also onen a question of differentials as between Chicago and St. Paul which no award or action taken in this material print at which no arain originates, but where the application of the proposed rate would strurb agreed relations in other large sections of territory where much gram is produced and shipped locally. "It is understood that a rate of 16 cents from Sloux City proper to St. Paul is now i

practically be of use to the Omaha com-many."

There is, what seems to be a well-founded rumor, that the Omaha well apply its pro-posed reduced rate regardless of Mr. Valli-er's decision. As the Union Paicine and Northwestern cease to be members of the "Gentiemon's association" today they are not under obligations any more to abide by the rulings of that organization's chair-man and may make rates to suit them-selves.

Dan King, commercial agent of the Mis-souri Pacific, is just back from a business trip to Sloux City which throw him into conact with some of the public-spirited men o there, consequently he is very favorably impressed with the town. In telling of their creat enterprise he said: "Why, do you know these fellows have built a railroad fleety miles long without one cent of outside assistance, without issuing a single bond, and have actually got it paid for. There is not another instance of the kind on record. Purthermore they are now preparing to build an elevated road through the city, and when I remarked about there not being peonie enough who would ride to make it pay, they said: "We don't care whether it pays or not. If the people don't want to give up a nickie and ride on it, we will furnish them with passes."

"Is the Missouri Pacific going to extend its line from Omaha to Sioux City?"

"As to that I am not posted and can't say, but they are wild to have us come." there, consequently he is very favorably is

A Smooth Railroad Man Colonel H. B. Murray, the blonde beauty of the Grand Trunk road, Chicago, is in town, quietly worsing up some scheme to capture a big lot of business and down his contemporaries. Murray is such a smooth popular young man that the city agents of other lines have great suspicions every time he pats in an appeara nee that there is something unusual afloat. When asked yesterlay morning whether the disturbances in weatern rates were not effecting his business, Mr. Murray replied:
"No, I can't see any difference. Roads east of Chicago decided to hold up and insist on their standard proportions, therefore the A Smooth Railroad Man

east of Chicago decided to hold up and insist on their standard proportions, therefore the cut must all be borne west of that point. However, should any one eastern line enter into an allimice, any with the Burington and distribute these reductions on through traffic so as to make the burden equal, then you might see a general demoralization of rates. I don't think, however, that there is any incelhood of such as allimice being formed."

Burlington Passenger Agents Several general passenger agents of the Burlington read will meet at John Francis office in the B. & M. headquarters, this city odice is the H. & M. headquarters, this city, today and discuss lines of policy to be pursued in handling 1880 nusiness. Colonel A. C. Dawes of the Kansas City. St. Joe & Council Birlis, St. Joe: & S. W. Wakeley of the Calcayo Burlington & Quincy, Chicago; Howard Eillett of the St. Louis, Kansas & Northwestern, St. Louis, and W. J. C. Kenyon of the Unicago, Burlington & Norten, St. Faul, were the representatives who will be in attendance of this meeting Mr. Francis and: "Objects of this meeting Mr. Francis and are under the point on the system the line Treadury in every mouth, compare notes and agree upon plans for the enesting their days. There will be nothing of public impertance in our session here."

Notes.

The employes of the Johnson Car Seat company, Chicago, are out on a strike on account of the discharge of a foreman for some unknown cause. The strike, occurring as it did in the busy season, puts the firm in a bad predicament. They had large orders to fill from the Pullman Car company, the Union Facilic and the Northern Pacific rail ways. E. N. Glifflien, the superintendent, was in Tuxa when the strike occurred, and he was telegraphed for, but knows nothing of the cause of the strike.

The Spring Overcoat we have this season placed on sale at the above price excites the admiration of all customers. Besides those advertised last week we have today opened another style which we have marked at the same price, an elegant Melton of a beautiful brown shade with fine silk facing. We have also opened several other styles of very choice garments which we ask you to examine. We are making special low prices on them as an inducement to get your Spring Overcoat early.

In Boy's and Children's Clothing we intend to monopolize the entire trade in the city this season. We have already received many styles and our Spring Stock will be complete in a few days. The entire space on the second floor which has heretofore been used for our winter Overcoats will in addition to the former room be now filled with Boy's and Children's Clothing. When you see the prices you will think it impossible to manufacture them for what we sell them for,

The 95c Darby's we place on sale this week are made of full fur stock, with silk lining and fine silk trimming. They are excellent quality, come in the latest shapes, and are sold by every Hatter for \$2,50.

If you intend to buy a pair of shoes, this week is the best time. We have a few styles which we want to close out to make for new Spring Goods. You will save from \$1,00 to \$2.00 on every pair of shoes as we sell them that much cheaper than Shoe stores.

Spring samples are really and as our stock will be complete in a few days we are now in shape to fill all mail orders. Samples winh rules for measuring will be ent upon application.
