

THE CITY.

The city clerk is now ready to issue dog tags to owners of canines at the rate of \$1 per dog.

The plumbers at the hospital building have been compelled to quit work on account of the extreme cold weather.

Rabbi Rosenau will deliver a lecture at the synagogue this evening on "The National Sunday Bill." All are invited.

W. F. Kelle, the hatter at 215 South Thirteenth street, has given a chattel mortgage on his stock for \$2,330 to George Frank of New York city.

Mr. Birmingham, who succeeds Mr. McGarry as sidewalk inspector, entered upon the duties of his new position yesterday and all the city officials in the court house celebrated the event with a smoke.

The funeral of the late Mrs. Margaret Mulligan will take place from her late residence, 34th and Hart sts., to St. Cecilia's church, Walnut Hill, at 9:30 o'clock this morning. Galena, Ill., papers please copy.

There has been considerable complaint lately that flowers have been stolen from the graves in Prospect hill cemetery and on Sunday afternoon a number of flowers were stolen from the grave of Mrs. Bath.

Governor Thayer has appointed J. B. Erlon of this city as representative from Nebraska to the interstate cattlemen's convention to be held in Fort Worth, Tex., on March 1st. Hon. E. P. Savage of South Omaha will also attend the convention as a delegate of the National exchange.

Personal Paragraphs. C. Smith of Curtis is at the Millard. C. M. Bader of Curtis is at the Casey. H. J. Dunken of Gibson is at the Casey. D. F. Cornell of Holdrege is at the Murray.

William Murr of Grand Island is at the Casey. J. A. Gunn of Lexington is a guest at the Paxton. E. O. Kretzmeier of Beatrice is at the Paxton.

J. F. Allen of Fremont is stopping at the Murray. L. P. Crane of DeWitt is stopping at the Paxton. M. J. Welch of Lincoln is a guest at the Murray.

E. Sparks of Valentine is stopping at the Millard. J. Hollenbeck of Fremont is a guest at the Millard. H. W. Hunter of West Point is stopping at the Casey.

Charles Young of Bassett is a guest at the Merchants. Dr. Abbott of Fremont is registered at the Paxton. J. F. Wolfe of Bertrand is registered at the Murray.

E. W. Peterson of Tekamah is a guest of the Millard. A. R. McMullen of Stola is registered at the Merchants. D. J. Harrington of Lincoln is registered at the Casey.

St. H. Webster and J. W. Stewart of Ord are guests at the Casey. J. M. McCarthy of Fremont is among the arrivals at the Millard.

F. W. Kruse, wife and child of Lincoln are stopping at the Millard. Mr. and Mrs. H. P. Hatley were registered at the Sherman in Chicago yesterday.

Mr. and Mrs. W. L. Parrotte were registered at the Grand Pacific in Chicago yesterday. John W. Paul has been attending a Land and Improvement company's meeting at St. Louis the past week and represented a large block of the stock of the company.

The new executive committee of the company, including Mr. Paul, left St. Louis Wednesday evening for New Orleans by steamer.

At the Windsor—George W. Gill, New York; Ed J. Cooney, Denver; P. D. Tierney, Albany, N. Y.; George J. Armbrister, Lincoln; S. C. Sizer, Kansas City; J. M. Mayo, Atchison; Joseph Grable, Chicago; George Swain, Engle, Ia.; John Johnson, Anawash, Neb.; J. H. Johnson, Chicago; W. E. Pfeiffer, Lincoln; D. J. Collins, Waverly, Ia.; J. H. Harkin, Lincoln; J. E. Spencer, Lincoln.

An Absolute Cure. THE ORIGINAL RHETINE OINTMENT is only put up in large two-ounce tin boxes, and is an absolute cure for all sores, burns, wounds, chapped hands and all skin eruptions. Will positively cure all kinds of piles. Ask for the ORIGINAL RHETINE OINTMENT. Sold by Goodwin Drug Company at 25 cents per box—by mail 30 cents.

The Bostonians Coming. Mr. DeWitt M. Devey, business representative of the Bostonian Opera company which comes to Boyd's for three nights next week, arrived yesterday. He says the repertoire to be given here includes "Don Quixote," "Thursday night," "Suzette," "Friday night," "The Poachers," "Saturday matinee," "Tytania and Galatea," "Saturday night."

Bank of Omaha Notes. Local creditors of the Bank of Omaha will not be affected by the order made by Judge Grinnell of Chicago for the sale of certain notes of the bank held as security by Herbert Hammond. These notes were deposited as collateral by the Bank of Omaha to secure a loan of \$10,000 from I. A. Kohn & Co., Chicago bankers. They were sold to Hammond, and Judge Grinnell's order simply enables Hammond to realize upon his collateral security by selling the notes, which have never been in the hands of Assignee Connor.

Death of a Leading Italian. Santa Antonio, a sort of wholesale merchant from whom the Italian hawkers of the city procure their supplies, died at his home, Thirtieth and Leavenworth streets, Wednesday. He passed the greater part of his life in his native country. During the last ten years he has lived in the United States. He was forty-two years old and unmarried. The funeral will take place from St. Philomena's cathedral at 10 o'clock tomorrow morning. All the Italians in the city are making preparations to attend it.

A Deserted Husband. C. W. Freed, a big, stout, innocent-looking man, entered central police station yesterday morning, and with tears in his eyes related his tale of woe.

His wife had eloped with a handsome man named Fred Hodson. Freed is a hard working laborer and lives at Waterloo, Ia. He had been married only a few months and had all the confidence and affection in his great big heart that a true husband should have. But he was deceived. The destroyer of his home had been there nearly a year and he had been deceived. Freed intends to continue the search until he finds Hodson.

Claims from Another Side. Assistant City Attorney Shoemaker is becoming tired of doing double service. Since the county commissioners have refused to allow pay for any regular deputy county attorney, he has been making out all or nearly all of the state as well as the city complaints. "It is too much work," said Mr. Shoemaker. "In fact one man cannot possibly do the work and do it right. The county commissioners have refused to pay for any regular deputy county attorney, but someone certainly is, and the matter should be attended to at once. Prisoners are kept in central station frequently for twenty-four hours longer than they should be, simply because there is no attorney to prosecute for the state."

Mr. Shoemaker was called on the county board Wednesday and only Mr. Anderson, who asserted that the county should pay for the work he did in prosecuting state cases. Mr. Anderson took exception to the case, and a lively war of words between both was the consequence.

WENT WITH A RUSH.

Grand Opening Sale of the Patti Opera Tickets. When the box office window at Boyd's theater was open yesterday morning, there were 117 men in line waiting to buy season tickets for the Patti-Tamagno operatic engagement next Monday and Tuesday.

As early as 5 o'clock Wednesday afternoon three messenger boys, entrusted with orders to secure and purchase first choice of seats, took their place in the vestibule and patiently waited there until after 11 o'clock at night, when the manager gave out position numbers to those who were present.

Considering the fact that single admissions were not sold yesterday, also that the very cold weather early kept many away from the sale was fairly large, if not larger, than was expected it would be. Long before noon the \$5 seats were all sold and a big hole was made in the \$20 sections, so that for the day the receipts reached \$5,000.

"I am well satisfied," said Manager Boyd, "and feel certain now that the event will prove a grand success. The sale of single admissions on Saturday will, I predict, run close up to \$10,000 and the general admission, especially at the matinee Tuesday, when Miss Patti sings, is sure to be large."

There is every assurance that the attendance from interior points, both in Nebraska and Iowa, will be greater than any one has anticipated. Over one hundred orders for parties of from five to twenty each for seats were filed yesterday, and tickets that number requesting tickets to the matinee alone, have been taken by the treasury.

The railroads agreed to put in a rate of one and one-third fare for the round trip from points east of and including Norfolk, Columbus, York, Hastings, Beatrice and Nebraska City, and the Northwestern in Iowa, at all points along the line within 100 miles of Omaha. The Milwaukee, Rock Island, Burlington and Wabash will follow suit.

It is quite gratifying to note that the Monday night audience will be very much larger than the management really hoped for. While that is a great thing, it is not the only thing to see and hear here than can get into the Coliseum, there is much more to see and hear than the king of tenors.

There are twelve sections of reserved seats on the main floor, as shown in the accompanying cut, of the following capacity and price per seat:

Section A, 300 seats at \$3.00. Section B, 300 seats at \$2.50. Section C, 250 seats at \$2.00. Section D, 250 seats at \$1.50. Section E, 250 seats at \$1.00. Section F, 250 seats at \$1.00. Section G, 250 seats at \$1.00. Section H, 250 seats at \$1.00. Section I, 250 seats at \$1.00. Section J, 250 seats at \$1.00. Section K, 250 seats at \$1.00. Section L, 250 seats at \$1.00.

In addition to this there is the gallery or raised portion of the building above the main floor, which will accommodate between two and three thousand more, and to which a general admission has been fixed at \$1. It is quite likely that a portion of this gallery may be reserved. People who are unable to attend the opening sale of reserved seats this morning can clip out the diagram of the seating plan as here printed, mark with red ink about the spot where they would like their seats located, put the marked slip and the cash or a check into the hands of a messenger boy with instructions to take his turn at the box office window, and they will stand just as good a chance of getting what they want as if they personally picked out their seats.

Don't Feel Well. And yet you are not sick enough to consult a doctor, or you refrain from so doing for fear you will alarm yourself and friends—we will tell you just what you need. It is Hood's Sarsaparilla, which will rid you of that nervous, unaccountable, dangerous condition, into a state of good health, confidence and cheerfulness. You've no idea how potent this peculiar medicine is in cases like yours.

GENERAL LIST'S WORK. The duty of recording the indebtedness of the city of Omaha is a very important one. The work which will devolve upon General List as special agent of the census, to which he has just been appointed, will be the compilation of the recorded indebtedness on Nebraska real estate for six or more years prior to December 31, 1889, and if necessary, the index thereto, which will be a work of considerable magnitude. The magnitude of the work is necessarily very great, as it will cover every county in the state. It will be taken from the county records, for which there are an equal number of officials appointed for each congressional district. It is difficult to say how long it will take to do the purpose to push it as rapidly as possible.

The information will be verified by inquiry from the lender and the borrower whenever necessary. Cancellations and partial payments will receive special attention. As to the number of clerks required it is difficult to say. It will depend altogether on the requirements of the work.

"If the list," says General List, "will make the request to the people of the state to be made in the most judicious and dated previous to December 31, 1890, entered on the county records, it will greatly simplify the work. Entry of cancellations is dated after January 1, 1890, it will be considered an existing lien. The purpose of securing this record of indebtedness is to show the amount of indebtedness of the people of Nebraska actually own on their real estate."

Dr. Birney, practice limited to catarrhal diseases of nose and throat. Box 1142. IS BURT A STRIKER? A Question That is Agitating the Council Committee.

The council committee on streets and alleys has its hands full of the Burt street matter. For ten years past the street has been opened and used for street purposes. For the past two years Hogg & Hill have been designing the council with communications in which they claim that the ground used for Burt street from Twenty-ninth to Thirtieth belongs to them, was a part of Hillside addition No. 2 and was never given by them for street purposes and was never condemned by any ordinance. Two weeks ago an ordinance was rushed through the council declaring the necessity of appropriating property for the purpose of extending Burt street. Appraisers were appointed and duly submitted a report to the council on Tuesday, awarding Hogg & Hill \$1,000 damage for the property so taken.

The property owners along the street have remonstrated and the entire matter has been referred to the committee on streets and alleys for examination.

Mr. Burt is a contractor. "It requires a good deal of skill for Hogg & Hill, after selling us out to come in and want us to pay them \$1,000 for a street that has been opened for a street for the past ten years. The council has to pass an ordinance declaring the necessity of extending a street that has been opened for a street for the past ten years, and notoriously and openly in the possession of the city. If the property ever donated to Hogg & Hill they should have done so by ordinance, for street purposes when their addition was laid out."

One of Dr. J. H. McLean's Little Liver and Kidney Pills, taken at night before going to bed, will move the bowels; the effect will astonish you.

THE FAIR'S FAREWELL. Getting Ready to Close Up the Annual Show. It will require about a month in which to close up the affairs of the Omaha fair and exposition association. Secretary McStean and Assistant Secretary Tibbs are busy on the matter and are anxious to have it taken of their names.

The association has been in existence five years. It was organized when the state board of agriculture sent the state fair to Lincoln. The capital stock was \$30,000, of which only 35 per cent, \$10,500, was subscribed. Of the latter amount, \$1,500 were never realized because of the death or insolvency of the subscribers. Since the opening of the fair, the association has had really but one good season, rain interfering with the underwriting in a serious manner. As a consequence, the receipts in most instances failed to satisfy the expenses, and this resulted in assessments which were not at all pleasing to the stockholders. Notwithstanding, there are now \$10,000 in the treasury. This will be decreased by about \$500 for the current expenses and the balance will be divided among the 500 shares of stock.

In the closing up of the treasury there was a balance in the treasury from less of \$8,111.53. The receipts of the fair of 1889, less the expenses of the fair, less the expenses reduced the total by \$21,841.05, leaving a balance of \$4,670.92. This was further reduced to the sum mentioned above by the sale of the treasury.

The grounds upon which the fair has been held belong to Jim and Charles Brown, who own the tract, and John D. Creighton, who owns one-twelfth.

They contain a number of buildings especially appropriate to a fair grounds, and race track. What use will be made of the buildings has not yet been determined. Should they be sold to advantage the amount to be divided among the shareholders will be somewhat increased. The fair has had a most successful career. It has been rebuilt three times, having been burned down and blown by tornadoes twice.

THE RAILROADS.

A Feasibility of Cars. The demand for cars is so great just now that operating departments are kept agitated and excited by their frantic efforts to fill orders. Car Accountant Hockinsham of the Omaha Pacific has been sent out on a hunting expedition to obtain a better car than he has secured every station, yard and side-track on the entire system for cars that may be standing idle. The great movement of corn is what causes this extraordinary activity. By the way there is considerable discrepancy between statements given out by the Omaha elevator company and reports received at Union Pacific headquarters as to the prices now being paid by grain buyers in Nebraska for corn. Yesterday the former quoted 10 1/2 cents as the outside figure at Omaha, while the latter showed a general telegram from its agents to the effect that at Hastings, a station on the Omaha & Republican Valley just below Lincoln, Grand Union had secured 11 1/2 cents a bushel, which was the prevailing price. Some of the quotations are as low as 10 cents, but they have reference to grain of the most inferior grade, while the best quality commands as high as 17 cents.

One official who has not heretofore offered an opinion on this great problem of rates and benefits observed yesterday when discussing the situation that nothing so beneficial to the farmers had ever been devised that would benefit the consumer as well as the producer. "Then," said he, "the big grain buyers could afford to pay farmers more than the actual market value in Chicago and other eastern markets."

"But everybody couldn't get the rebate!" "No, only the heavy shippers, the small dealers, however, could sell to them and receive a profit, thus they do under the present arrangement."

The Union Pacific Advantage. There is great approval in corn-raising circles because of the Union Pacific's strong alliance with two such corporations as the Northwestern and the Atton, and to what the future will bring forth. On Saturday the agreement by which a solid vestibule passenger train of the Union Pacific and equipment will be run through to Denver from Chicago, by way of Kansas City, goes into effect. This not only put the Atton on an equal footing with the Northwestern, but gives the Union Pacific a great advantage over every other continental line. Such powerful combinations as exist in the West are making desperate efforts to devise some means of concentrating their lines. With Chicago-Denver trains over both its main lines, the Union Pacific has no fears, however, of any combination being formed that will effect its position.

A Chair Car Conflagration. Last Sunday night a chair car in the Burlington Denver train, which left near Holbege by the expiration of a lease, and was totally destroyed. The passengers nearly all lost their personal effects. Those in the sleeping car, which became filled with smoke, were routed out into the cold air with nothing on but their night clothes.

The Manchester, Mo., city, with one of the crowd, and during the excitement lost its vest, which contained \$25 of gold and some money. It had to be recovered by the firemen. The fire was caused by a man who was smoking a pipe in the car. The fire was extinguished by the firemen. The man who was smoking the pipe was arrested and charged with arson.

The Bold Achievements of a Colored Outlaw. Jim Ashford is a burly negro whose profession is that of a horse thief of ill-fame. The police say that he is a thief. About one year ago he was employed by Jettie Reynolds on Ninth street. One night Miss Reynolds missed \$150 in bills. The money was taken from her room. Ashford was not suspected, but a few days later he was seen to come up his position and said he was three of Omaha and was going to Kansas City. Six months later he came back and was given work at the same place. He had only been in the house a few days when the landlady missed \$50. Still Jim was not suspected.

A week ago Ashford and the cook that he was going to inform on the landlady. The police first opportunity he got. The cook protested and said if he attempted anything of the sort she would tell the police. The next day Ashford was seen coming out of the landlady's room which she had left so carefully locked. Nothing was missed but Ashford was discharged. The money was taken for John Kearns in his saloon, but soon lost that job, and a night or so later this saloon was entered and the money was carried away. The police were notified, and yesterday morning at 7 o'clock Ashford was placed under arrest.

When searched at the station house he had in his possession twelve door keys, nearly all of which would unlock different doors in Reynolds' building. He is therefore strongly suspected of the robbery.

When Last Heard From. When last heard of the famous "Golden Gate Special," which created so much admiration and comment in these parts a few months ago, was in use on the Vermont Central route near Portland, Me., and Montreal, Canada.

Notes and Personal. O. H. Brown has been appointed assistant general freight agent of the Santa Fe to take effect March 1.

It is reported that St. Paul road has obtained the franchise to run its trains into Kansas City from Leavenworth. John T. Page, agent of the Burlington at Pacific Junction, was in town yesterday.

Jack Dowling, ticket agent of the Q. & N. road, has been appointed agent of the Northern & Omaha road. Old Daisy gave birth the other night to six pups that are thoroughbred beagles.

The new rates from Boston and New York put into effect Wednesday by the Chicago, St. Paul, Minneapolis & Omaha road are \$1.12 per hundred on first class goods, 30 cents on second class, 74 cents third class, 55 cents fourth class, 45 cents fifth class and 74 cents per hundred on dry goods. These rates apply by way of the Northern or "Sooner" route.

Nervous debility, poor memory, dimmed eyes, sexual weakness, pimples, cured by Dr. T. J. McLean's Little Liver and Kidney Pills, at Kuhn & Co.'s, 15th and Douglas.

Richard Kitchen Seriously Ill. Mr. Richard Kitchen is lying at the Paxton hotel. He is confined to his bed, being deprived of the use of his limbs on account of a paralysis of the muscles of the back, which makes it impossible for him to stand or walk. His mind is clear, however, and as a rule he is bright and cheerful, and it is apparent to his friends that he is gradually recovering, and no hopes are entertained of his recovery.

Mr. Kitchen was taken to Baltimore last September in the hope that a cure might be found there. He has since been in St. Louis a stay of about two months he was brought back to Omaha and to his room at the hotel. Mr. James Kitchen, a brother, watches over him constantly and sends to him the sufferer has every thing which can aid to his comfort.

Mr. Charles Kitchen, another brother, who is at present in the hotel business in Leadville, is in the city and will remain with his brothers for a few days.

New Central House, Kan. City. Absolutely fire proof. Finest and largest hotel in Kansas City. Uncollected in its appointments.

MARKET. KINNEY-SMYTHE. At the residence of the bride's brother, Mr. J. J. Kinney, at 1522 North Twenty-ninth street, on the 26th inst., by the Rev. Dean Gardner, Orrin D. Kinney of Ely, Minn., to Charlotte A. Smythe of Omaha.

Dr. Birney, practice limited to catarrhal diseases of nose and throat. Box 1142. IS BURT A STRIKER? A Question That is Agitating the Council Committee.

The council committee on streets and alleys has its hands full of the Burt street matter. For ten years past the street has been opened and used for street purposes. The council has to pass an ordinance declaring the necessity of extending a street that has been opened for a street for the past ten years, and notoriously and openly in the possession of the city. If the property ever donated to Hogg & Hill they should have done so by ordinance, for street purposes when their addition was laid out."

One of Dr. J. H. McLean's Little Liver and Kidney Pills, taken at night before going to bed, will move the bowels; the effect will astonish you.

THE FAIR'S FAREWELL. Getting Ready to Close Up the Annual Show. It will require about a month in which to close up the affairs of the Omaha fair and exposition association. Secretary McStean and Assistant Secretary Tibbs are busy on the matter and are anxious to have it taken of their names.

The association has been in existence five years. It was organized when the state board of agriculture sent the state fair to Lincoln. The capital stock was \$30,000, of which only 35 per cent, \$10,500, was subscribed. Of the latter amount, \$1,500 were never realized because of the death or insolvency of the subscribers. Since the opening of the fair, the association has had really but one good season, rain interfering with the underwriting in a serious manner. As a consequence, the receipts in most instances failed to satisfy the expenses, and this resulted in assessments which were not at all pleasing to the stockholders. Notwithstanding, there are now \$10,000 in the treasury. This will be decreased by about \$500 for the current expenses and the balance will be divided among the 500 shares of stock.

THE RAILROADS.

A Feasibility of Cars. The demand for cars is so great just now that operating departments are kept agitated and excited by their frantic efforts to fill orders. Car Accountant Hockinsham of the Omaha Pacific has been sent out on a hunting expedition to obtain a better car than he has secured every station, yard and side-track on the entire system for cars that may be standing idle. The great movement of corn is what causes this extraordinary activity. By the way there is considerable discrepancy between statements given out by the Omaha elevator company and reports received at Union Pacific headquarters as to the prices now being paid by grain buyers in Nebraska for corn. Yesterday the former quoted 10 1/2 cents as the outside figure at Omaha, while the latter showed a general telegram from its agents to the effect that at Hastings, a station on the Omaha & Republican Valley just below Lincoln, Grand Union had secured 11 1/2 cents a bushel, which was the prevailing price. Some of the quotations are as low as 10 cents, but they have reference to grain of the most inferior grade, while the best quality commands as high as 17 cents.

One official who has not heretofore offered an opinion on this great problem of rates and benefits observed yesterday when discussing the situation that nothing so beneficial to the farmers had ever been devised that would benefit the consumer as well as the producer. "Then," said he, "the big grain buyers could afford to pay farmers more than the actual market value in Chicago and other eastern markets."

"But everybody couldn't get the rebate!" "No, only the heavy shippers, the small dealers, however, could sell to them and receive a profit, thus they do under the present arrangement."
