THE CITY.

The old cable on the Harney street line has been removed and the new rope put in. The cars on that line have resumed their regular trips.

Sarah Weldon and J. E. McPierson, both of South Omaha, have been confined in the county jail on the charge of being insane.

Corlies, Chapman & Drake have commenced suit in the county court against A. S. Collins to recover $250.45 on account of lumber sold and delivered.

Mr. William Dyer of Kansas City and Miss Minnie Spotts of this city were married in Lincoln on Wednesday. The bride is well known in Omaha.

Neal and Shellenberger occupy their respective cells in the county and city jails awaiting their preliminary examinations, which take place on next Monday and Tuesday respectively.

Mr. Thomas Riley filed a complaint in the police court charging Mr. P. Milestone with selling coal without a license. Mr. Riley says he will file a half dozen more similar complaints today.

"There has not been a serious accident on the railroads or in the shops to one person within my jurisdiction for the last six weeks," said Dr. Galbraith, the company surgeon. This fact the doctor considers phenomenal, as it has not occurred before within the last six years.

TO AVERT FRAUD.

The Chicago News Waxes Warm Under the Collar.

The following "special" appeared in the Nebraska State Journal and probably in other Nebraska journals:

"WILL WRITE UP NEBRASKA.

"OMAHA, Neb., Feb. 25.—[Special.]—The Chicago News, now that the world's fair location has been decided, is going to get out an edition of 100,000 copies to be called the Nebraska edition, and it will contain 'write-ups' of the principal cities and the state and an article favoring Omaha for the two political conventions of 1892."

Every statement in this so-called "special" is false, the "special" itself is bogus and it is published with intent to defraud. Whoever subscribes for copies of a Nebraska edition of the Chicago News or pays for advertising in such an edition will be swindled.

The Chicago Daily News is the only paper that has right or title to the name of the "Chicago News." It does not intend to "get out an edition of 100,000 copies to be called the Nebraska edition."

Robbed of His Shoes.

Swan Swanson walked into the police court at noon in his bare feet and detailed a strange experience.

He said that he had been working on the river cutting ice and came up town to buy a new pair of boots. While passing a boarding house on Cass street between Twelfth and Thirteenth a gang of toughs pulled him into the house, took off his boots and then forced him out. He was then compelled to walk barefooted on the snow and ice to the jail.

Court Officer Keyser gave the man an old pair of shoes and the latter disappeared without filing any complaint against his assailants.

A QUESTION OF LAW.

Attorney General Leese Defines Powers of Metropolitan Cities.

Withing the past few days a question has been raised in this city as to the authority of the council under the charter to pass ordinances regulating saloons—notably the passage of the midnight closing ordinance. It was stated that when the legislature amended the charter clothing the police commissioners with full power to issue liquor licenses, that by mistake all provisions giving the city council authority to regulate the liquor traffic in metropolitan cities were stricken out.

Attorney General Leese was asked for an opinion on this point, which is herewith given:

THE OPINION.

LINCOLN, Neb., March 6.—To the Editor of THE BEE: In answer to your favor asking if there is any authority in the charter of metropolitan cities for the council to pass police regulations—ordinances, such as closing saloons at midnight—I will say in my opinion there is such power.

Section 92 of the act creating metropolitan cities, provides that the mayor and council shall have power to restrain, suppress and prohibit tippling shops, etc.

Section 15 of the same act provides, the mayor and council shall have the care, management and control of the city, etc., and shall have power to pass, amend or repeal any and all ordinances not repugnant to the constitution and laws of this state.

In creating the board of fire and police commissioners, the power to license the sale of intoxicating liquors was omitted, but under the provisions of the general laws of the state, the power was given to issue a license by such board.

Section 25 of chapter 50, entitled, "Liquors," provides, the corporate authorities of all cities, shall have power to license, regulate, and prohibit the selling of any intoxicating, malt and spirituous liquors, within the limits of such city, the license not to extend beyond the municipal year, and to determine the amount to be paid for such license, not less than $1,000.

There is a proviso that in metropolitan cities the power to license shall be vested in the board of fire and police commissioners. This, I understand, only goes to the extent of granting the license; the power to regulate rests with the corporate authorities, and the corporate authorities are the same in all cities and villages, i. e., the mayor and council or board of trustees, and I am of the opinion that the regulation of saloons, the fixing the amount to be paid for a license, is within the power of the mayor and council, and the granting of a license to the proper person on a proper application is vested in the board of fire and police commissioners.

Yours very truly, WILLIAM LEESE, Attorney General.

A Small Train Wreck.

A small wreck occurred on the Union Pacific yesterday at Millard. Three cars of corn on train No. 28 coming east, were thrown from the track. Very little damage resulted. The derrick crew was sent out, and within an hour all the derailed cars had been lifted back into place, and the track was cleared and the train proceeded on its way. A misplaced switch caused the accident.

Mrs. Sara C. McVittie.

Mrs. Sara C. McVittie, who died Thursday morning at her home at Thirtieth and Maple streets, had been a resident of Omaha for many years and was widely known and esteemed, especially by the earlier settlers of the city. Her illness was of short duration and its fatal character was not suspected until shortly before the end came. She was the wife of James McVittie, who survives her, and the mother of W. A. Runkles, of THE BEE, K. W. Runkles, of the Western newspaper union, and Mrs. A. W. Dickerson, of Atlantic, Ia. The latter arrived Thursday evening. Funeral services will be held at the late residence Saturday morning at 11 o'clock, Rev. Dr. Harsha, of the First Presbyterian church, officiating. Interment will be at Prospect Hill cemetery.

Not One in Ten

of the people you meet from day to day has perfectly pure, healthy blood. The hereditary scrofulous taint afflicts the large majority of people, while many others acquire diseases from impure, improper food and wrong indulgences. Hence the imperative necessity for a reliable blood purifier like Hood's Sarsaparilla, which eridicates every impurity, and gives to the blood vitality and health. It cures scrofula, salt rheum, humors, boils, pimples, and all other affections caused by impurities or poisonous germs in the blood. All that is asked for Hood's Sarsaparilla is that it be given a fair trial.

Deceived and Robbed.

There were six burly laborers and one woman with set teeth and glaring eyes in the office of the Albright labor agency Thursday evening.

They had paid in $16 each for transportation to Milford, Utah, where they had been promised employment on the railroad Albright was out of the city it seems and the money was paid over to a new clerk named Frank Cone. As soon as the latter got the money he made an excuse to the laborers that he had to go down to the railroad ticket office and secure the transportation, but would return shortly. The men waited for over an hour before they suspected anything wrong and then they discovered that they had been robbed. Cone had skipped for parts unknown with $115 of their hard-earned cash.

Another labor agent took the matter in hands, and secured the transportation for seven people. Albright was wired and the police notified.

A Bold Assertion.

The People's Church.

The People's church is doing well. Many worship with the congregation at Boyd's opera house who would not go to divine service anywhere else. Many young men are found in the congregation. Mr. Franklin Smith's chorus is becoming justly celebrated. On Sabbath the pastor, Rev. Charles W. Savidge, will preach on "Laughter" in the morning; in the evening he will deliver his noted sermon on "Marriage." The Omaha Commercial college has promised to furnish six young men to act as ushers.

CLOSE THE GAP.

A Road Which Would be of Advantage to Omaha.

The real estate exchange entertained a delegation of citizens from Niobrara yesterday. The latter came to ask the co-operation of the exchange and the business men of Omaha in a railway project. The committee consisted of S. Draper, banker; H. E. Bonesteel, merchant; Frank Nelson, county clerk; John Levger, merchant, and Sanford Horton, civil engineer.

After the business of the meeting Mr. Draper was introduced by President Hartman and explained the object of his mission. The Norfolk branch of the Elkhorn road, Mr. Draper showed, runs to Verdigris. From this point to Niobrara, a distance of twelve miles, a road bed has been graded and could be equipped for operation at an expense of about $75,000. This would give Omaha direct communication with Niobrara and the new country just opened in the Sioux reservation. It would also furnish Omaha connection at Niobrara with the Milwaukee line to the Jim river valley. The managers of the Elkhorn line have refused to close the gap between Verdigris and Niobrara on account, they say, of the feeling that exists in Nebraska against the railroads. The Niobrara people wanted the real estate and business men of Omaha to join them in urging upon the Elkhorn management the necessity of extending the line to Niobrara if this extension should be made, Omaha would get a large trade that now goes to Sioux City over the Milwaukee via Scotia, Dakota.

President Hartman announced that the matter would be referred to the railroad committee of the exchange and that the board of trade and business men generally would be asked to join in an effort to induce the Elkhorn people to build the proposed line.

Mr. B. Fowler, a member of the Chicago board of trade and president of the Fowler elevator company of Omaha, was a visitor at the exchange meeting. He was called upon by President Hartman and expressed his pleasure at meeting the members of such a well-organized body as the exchange. He said he was more than well satisfied with the results of his business venture in Omaha and was here to arrange for an enlargement of his present business establishment.

The following resolutions were reported to the exchange and adopted:

Whereas, The Omaha real estate exchange appreciates the value to the commercial interests of this city of the extension of the Niobrara branch of the Fremont, Elkhorn & Missouri Valley railroad to Niobrara, be it

Resolved, That the exchange, in the name of the people of Omaha, request of the officers of that road that everything be done to further the construction thereof at as early a date as may be possible.

Whereas, The citizens of Niobrara have appointed a committee of citizens to confer and work with the Omaha real estate exchange for an extension of the Elkhorn Valley railroad from Verdigris to Niobrara, and

Whereas, The construction of the twelve miles of road would be of great value to this community in opening up to our merchants a large traffic, be it

Resolved, That the Omaha real estate exchange heartily endorse and co-operate with the committee in such action as they may deem best, and

Resolved, That this exchange request the Omaha board of trade to appoint a committee of representative business men of the city and South Omaha to confer with the officials of said road, in conjunction with the Hon. Mr. Draper's committee.

Joe Has a Pain.

Shellenberger created a slight ripple of excitement at the city jail at about 5 o'clock yesterday afternoon by giving a low cry of pain and calling for a physician. While the city medicus was being sent for the prisoner exclaimed, "O, it's nothing serious, but it hurts me like the devil." A few minutes afterward Dr. Gapin arrived, and after attending the suspect came from his cell with a big smile on his face and remarked: "Shellenberger was probably quite right; 'it' must have hurt him mighty bad, but 'it' wont kill him—not by a long ways."

OMAHA'S BREATHING SPOTS.

The Park Commission Preparing to Develop and Embellish Them.

The park commission met yesterday afternoon at the headquarters in the Paxton block. A letter was read from Mr. H. W. S. Cleveland, the landscape gardener employed by the commissioners, in which he stated he would be here on March 15 with the perfected plan for the re-platting of Hanscom park. He will also draw plans for the new Leavenworth and Belt line parks.

The following communication from the committee on designation concerning Bemis park was read:

"Your committee to whom was referred the question of the proper treatment of Bemis park beg leave to report that they have carefully examined the grounds, and do recommend that said park be filled to very nearly the level of Cuming street, leaving a gentle slope toward the centre from all directions save the east end, which is the natural watershed of the land. We believe that the ground is now so low and so dominated by the surrounding land that its value as a park is next to nothing, while the raising of it as proposed will give the city a beautiful park of about five acres in a most eligible and central place. We think of no objection to the proposed treatment except the cost thereof, and we believe that the greatly increased beauty and utility of the park would justify the expense.

"Its treatment as originally proposed necessitates about half as much filling, which, when done, leaves the park in such condition that an indefinite expense (perhaps equal to the cost of the proposed plan) will have to be incurred before it could be made attractive.

"And your committee do further recommend that the necessary steps be taken to buy or condemn block eleven of Bemis Park addition, including ten lots. The acquisition of these lots by the city would about double the size of the park, would give a frontage of 800 feet on Cuming street, and when treated as above proposed would make a beautiful park of no mean size (about ten acres), so central and so easily accessible that we believe the benefits would warrant the cost."

This was signed by Augustus Pratt, Alfred Millard and George B. Lake, and the report was adopted.

Mr. C. H. Howes reported to the board that he had made an approximate estimate and found that it would require 94,000 cubic yards of earth to fill Bemis park to a grade that would leave the lots between the park and Cuming street on a good grade fronting north.

The matter concerning the removal of the house, barn and dancing platform in Hanscom park was deferred until the next meeting.

Garbageman Bennett's Troubles.

Garbageman Bennett had Henry Coombs and John Walburn arrested again yesterday on the same charge as before, that of violating the ordinance pertaining to the office of garbage master. Coombs and Walburn were tried and acquitted on this charge only two days ago. Bennett is the real prosecutor in this case, although the city has to foot the bills for costs. The defendants immediately gave bonds for their appearance.

ERRORS OF YOUTH.

SUFFERERS FROM Nervous Debility, Youthful Indiscretions, Lost Manhood.

HOPE

Be Your Own Physician!

Many men, from the effects of youthful imprudence, have brought about a state of weakness that has reduced the general system so much as to induce almost every other disease, and the real cause of the trouble scarcely ever being suspected, they are doctored for everything but the right one. Notwithstanding the many valuable remedies that medical science has produced for the relief of this class of patients, none of the ordinary modes of treatment effect a cure. During our extensive college and hospital practice we have experimented with and discovered new and concentrated remedies. The accompanying prescription is offered as a certain and speedy cure, as hundreds of cases in our practice have been restored to perfect health by its use after all other remedies failed. Perfectly pure in ingredients and can be used in the preparation of this prescription.

℞—Erythroxylon coca, 12 drachms.
Jerubebib, 12 drachms.
Helonias Dioica, 12 drachms.
Gelsemin, 8 grains.
Ext. ignatiæ amaræ (alcoholic), 8 grains
Ext. lupulin, 2 scruples.
Glycerine, q. s. Mix.

Make 60 pills. Take 1 pill at 5 p. m., and another on going to bed. In some cases it will be necessary for the patient to take two pills at bedtime, making the number three a day. This remedy is adapted to every condition of nervous debility and weakness in either sex, and especially in those cases resulting from imprudence. The reparative powers of this restorative are truly astonishing and its use continued for a short time changes the languid, debilitated, nervous condition to one of renewed life and vigor.

As we are constantly in receipt of letters of inquiry relative to this remedy, we would say to those who would prefer to obtain it of us, by remitting $1 a securely sealed package containing 60 pills, carefully compounded, will be sent by return mail from our private laboratory, or we will furnish 5 packages, which will cure most cases, for $3.
