#### CHICAGO PRODUCE MARKETS.

CHICAGO, March 11 .- | Special Telegram to THE BEE. ]-This was an exceptional day in wheat. It was so more because of the uncertainty than because of any remarkable action. The range for the price of May wheat up to 1 o'clock was but 34c. The opening was %c under the close yesterday, but was in keeping with the curb price last night, and this morning after the crop figures from Washington were received. Statistician Dodge was as vague as usual. After making the very bearish statement that wheat in hands aggregated 156,000,000 bushels he adds that much of the wheat is in hands where it will not be sold it commands better prices. Before the session ovened both bulls and bears were getting comfort out of the government figures and comments. The more the report was studied the more the trade was puzzled. The action of the market seems to bear out the theory that the principal holders of wheat are not ready for an advance, and that the price will probably be let down to or below the bottom figures of a few weeks ago to catch a lot of long wheat, and then the advance will begin The big operators were divided today, Brosseau was on both sides of the market. Poole and Hutchinson were the best buyers. Irwin Green & Co. bought early. New York bought here on each decline. On the selling side there was at times a general letting go of long wheat. Driver led in this sort of selling. All foreign bouses sold on the crop figures, which had more ef-fect on the other side than here. Schwartz, fect on the other side than here. Schwartz, Dupee and Counselman were free sellers. When all others stopped selling Pardridge kept on. He was the big short seller of the day. The sharpest decline of the day, when May went to 77% on stop orders, placed around 78c, was stopped very largely by export clearances. The action in May was: Opened at 75% c, sold at 78% 18% to 78% c, off to 77% c, up to 78% of to 77% and up to 78% c. At 1 o'clock July sold at 76% 17% 27. The buying forces in the wheat pit succeeded The buying forces in the wheat pit succeeded in holding May at 78%c at the close. Other closing figures were: March 77%c, June 77%c, July 76c. Twenty boat loads were reported taken for export at New York, but not con-

The corn market was not excited at all, out fair volume of business was done. Grading was much improved, also with 437 cars of No. 2 grade. Chicago shipments were 201,000 bushels and exports were again were 201,000 bushels and exports were again large. Room was taken here for 170,000 bushels by lake to Buffalo. March was quoted at 28c. May sold 29%c and 29%c 20%c. Other closing prices were: April 28%c, June 28%, July 30%(30%c, August 28%c, September 31%c, October 32c bid.
Oats received considerable attention early in the day but as the session advanced the market dragged and ruled very quiet. The

market dragged and ruled very quiet. The feeling developed was weaker, the little advance of yesterday being lost. The chief weakening influence was the government crop report which came in after yesterday's close. The large receipts and the decline in wheat also induced free selling, but offerings were well absorbed by the "shorts." The weather was wet and unfavorable and had considerable influence with many operators. The speculative market opened \( \frac{1}{6} \) and \( \frac{1}{6} \) under the closing prices of yesterday, were steady for a time, then sold off \( \frac{1}{6} \) and \( \frac{1}{6} \), became firmer, closing at \( \frac{1}{6} \) and \( \frac{1}{6} \) led lower than yesterday. Cash property was more freely offered. A moderate demand evisted and prices averaged, i.e. lower mand existed and prices averaged 14c lower than yesterday and closed stendy.
Only a moderate business was transacted

in hog products and there were no particular changes to note. The advance in the price of hogs led to some buying on speculative account early in the day and prices roled slightly higher. Later there was a little more inclination to sel and prices settled back again. Near the close the market showed more life and prices rallied again, closing at outside fig-ures in most cases. Trading was chiefly in May, June and July deliveries, the former commanding the most attention and credited mainly to the short interest. The shipping demand was fair in the way of filling orders for small quantities but buyers were slow to meet the views of the sellers. Offerings were not very large and holders demanded former figures. Transactions were

## FINANCIAL

NEW YORK, March 11 .- | Special Telegram to THE BEE. |- STOCKS-It was conceded on all hands last night that the stock market must be very nervous and unsettled today, if not for several days, following the results of yesterday in Reading. On the contrary the opening was not at all unusual. Reading for a minute or two loaned at % and perhaps 10,000 shares were traded in the first five minutes. The price was first at 39, then off to 38%, up again to 39%, the closing figure last night, and then off to 38%. At the end of the hour the stock loaned at 14 and quiet reigned. It is thought the stock has not yet been strengthened by the recent whirl, Talk is very general that shorts in Sugar, St. Paul, Union Pacific, Rock Island and Burlington will have to make peace with the buils in short order. Chicago parties bought Grangers all day yesterday and were at it again early today. Attention was given to Reading during the first hour. Union Pacific was the only other stock in which there was any animation and that was caused by heavy selling by large traders, seemingly for short account. First prices of other stocks were quite irregular as compared with last night's prices, but the differences were confined to small fractions in all cases. Union Pacific yielded a small fraction but recovered later, and the whole list dis played a stronger tone. The hour to noon brought good buying all through the list. Sugar was slow to move and regained but 14 to 68%. Louisville went up 14 to 84% and Lackawanna gained 34 to 13634. Western railroad shares responded most quickly and under the lead of Rock Island and St. Paul the Grangers made excellent gains. Atchi-

son and Burlington each moved up % from

last night. Northwestern was steady.

Rock Island, after touching 100%, sold

quickly up to 913s, and St. Paul

made a bound of 1 per cent to

68. Missouri Pacific followed with a

gain of M, and Union Pacific recovered its

early decline and rose to 63%, or a 14 net gain. The day proved to be a good one for bulls. Shorts appear to be on the run. The Reading lesson was a dear one. Reading and Sugar almost dropped out of sight in general buying today. At the close the net gains in active stocks were as follows: Louisville, Atchison, Burlington, Northwestern and Union Pacific 36 each, Rock Island, 14. Missouri Pacific 14. St. Paul 15. Western Union 5. New Edgland 3. The total sales were 203,253 shares.

The Wool Market.

Boston, March 11.- Special Telegram to THE BEE. |-There is very little change in the market for wool. The demand continues fair, but manufacturers do not purchase much beyond their immediate wants Territory wools are selling more freely than other kinds, with sales of fine at 55@5Sc, and medium at 50@5Sc. Texas and California wools move slowly, but stocks of the former are not large. Oregon wool is quiet and steady. The best eastern is selling at 19@20c, and from that down to 16@17c. Fine washed fleeces continue dull and in favor of buyers, who do not care to take hold at even inside prices. Ohio X is offered at 31c, XX at 33c, and No. 1 at 37c. Michigan X fleeces are quoted at 29c and only very choice lots go any higher. No. 1 Michigan fleeces are offered at 36c. In Ohio fine delaine there have been sales only not detaine there have been sate at 35@36c, and in Michigan at 34@35c. No. I combing is steady at 38@39c. #### OMAHA LIVE STOCK.

Monday, March 11.
Cattle receipts estimated at \$4.400 compared with 2,130 yesterday and 2,229 last Tuesday.
The steer market opened active, and stronger, up 10c to 15c over Saturday's prices, and er, up loc to loc over Saturday's prices, and
from a shade to loc above yesterday's sales.
Nearly everything desirable was sold early
in the day. Nearly a dozen lots sold at or above
the \$4 line. The cow market was slow and sales generally were made at unchanged figures. Some very fine cows sold at \$3.50, while a bunch of helfers brought \$3.15. The quality of the receipts was poor, perhaps the poorest received any one day for weeks. poorest received any one day for weeks. Nearly forty loads of very poor cow stuff are Nearly lorty loads of very poor cow stuff are too much for this market on one day, and the result was slow sales with many left in first hands after midday. Nearly all the desirable cow stuff was cleaned up before the close. The market on the best grades of cows was active and firm, but the receipts of that quality were so small that they cut no figure in the sales. Feeders and stockers are reasonably plenty and the demand good with ready paid for good feeders. Bulls continue active and steady. A fine lot of calves were on sale, selling as high as \$5.50. The market was the most active had this month and in the language of the sellers was a "daisy."
With the bulk of steers selling at and above \$3.70 and the top reaching \$4.35, and the bulk f cows selling at and above \$3.50 with \$3.50 the top price, and nearly all sold by midday sellers may well call it a good day on mar-ket. Shippers were very liberal buyers, Lee Rothchild alone buying more than 500 for

Hogs. Receipts of hogs estimated at 3,300 com pared with 3.301 yesterday and 1.558 last Tuesday. The market opened active with heavy-weights and packing hogs up from a shade to 5c, and light-weights and fresh meat selections up a shade. The average sales increased from \$3.78 yesterday to \$3.81 today This increase was made by better prices on all the lower priced grades as the top both yesterday and today was \$3.85. Everything changed hands early.

Sheep receipts estimated at 941, compared with 1,408 yesterday and 983 last Tuesday. The market on good muttons continues active and firm and steady on other grades.
