The I. V. C. Association.

BEAVER CROSSING, Neb., March 13.—[Special Telegram to The Bee.]—The Platte river conference of the Evangelical association opened this morning.

Sold Mortgaged Property.

PAPILLION, Neb., March 13.—[Special Telegram to The Bee.]—G. J. Hess, who was arrested for selling mortgaged property on complaint of the Milwaukee Chief Threshing Machine company, has been bound over to the district court.

CARLETON APPROPRIATION.

Figures Dotted Arranged to Tell Whoppers.

PUNCTURED BY MR. CANNON.

Wanamaker Getting Pointers From Postmasters as to Why So Many Letters Fail to Reach Their Destination.

WASHINGTON BUREAU THE OMAHA BEE, 518 FOURTEENTH STREET, WASHINGTON, D. C., March 13.

This afternoon the attention of Mr. Cannon, chairman of the house committee on appropriations, having been called to an interview with ex-Speaker Carlisle about appropriations by this congress, Mr. Cannon said:

"Mr. Carlisle in his figure commits the error of setting against ordinary revenues of the government for the next year, \$35,000,000, the total possible appropriations, including a possible deficit of \$7,000,000, whereas if he had included in the revenues of the government, as he should have done, the postal receipts, the result would have been a surplus even by his liberal method of figuring.

In other words, Mr. Carlisle admits from his estimate of the revenues of the government the sum of \$65,000,000 to be received from the postal receipts, notwithstanding the fact that he includes in his sum total of the possible appropriations the whole amount for postal expenditures. Mr. Cannon's remarks, to say the least of them, are of a character to give the impression that this congress cannot do that which the three democratic houses over which he presided during the past six years utterly failed to accomplish, that is, reduce the revenues. We cannot fairly predict as to the future, except upon the basis of that which has actually been accomplished. In this connection it is to be noted that the first session of the Fifty-first congress with reference to the appropriation bills that have been prepared and reported to the house, namely, the District of Columbia bill, the army bill and the pension appropriation bill, have all been passed and in the aggregate the appropriations are \$350,000 less than by the last year.

"The army appropriation bill is now on the calendar and when you deduct from it \$80,000,000 for the army and \$100,000,000 for the fortification bill, and were provided for in that bill during the last congress, it appropriates \$35,000,000 less than the last year.

"The pension appropriation bill, which has already been passed and in the aggregate the appropriations are \$350,000 less than by the last year.

"The army appropriation bill is now on the calendar and when you deduct from it \$80,000,000 for the army and \$100,000,000 for the fortification bill, and were provided for in that bill during the last congress, it appropriates \$35,000,000 less than the last year.

"The pension appropriation bill, which has already been passed and in the aggregate the appropriations are \$350,000 less than by the last year.

NEW ORLEANS INUNDATED.

So Far the Damage Done is Not Serious.

THE FLOOD IN ARKANSAS.

Several Towns Under Water, Bridges Swept Away and Trains Abandoned—A Very Serious Outlook.

Fighting the Flood.

NEW ORLEANS, La., March 13.—The river here at 2:45 was 16 feet, 9 inches, and at 2:50 had reached 17 feet, but it remained at that point but a short while when it receded to 16 feet, 8 inches, where it seemed to make a stand. This was 9 inches above the record of other years, and the water went over the levee all along the city front at every depression or low place and soon flooded the streets and sidewalks of a large section of the city. Up town at the head of Jackson, Washington and Sapanar streets the waves washed over the levees and submerged the streets and sidewalks. The same thing occurred at other points down to Poydras. Here the water spread out over the broad space occupied by the Morgan road, then began to flow down Poydras street and into the cross streets on either side, filling the gutters back of the drainage canals in the city. From Custom House street to Conti the water came over the levees freely and completely submerged the streets, and in many places the sidewalks and lower floors of business houses from the north side of Canal street to Hospital street, a distance of four blocks, and from the river to Rimparr street a distance of eight blocks. The damage done so far is not great. The greatest damage was that sustained by merchants who stored their goods in the bonded warehouse on Levee street.

The Southern and Crescent oil mills were washed under by the water and the floors were broken up and the embankments built underneath.

The break occurred at Hatch place, near the intersection of the river and the levee, and promptly closed. It is still a dangerous spot, as the levee is very weak there. The levee at Hatch place, five miles above Grana, where there was a serious breach some years ago, is again creating anxiety, as it shows signs of weakening. From the levee at Hatch place, five miles above Grana, where there was a serious breach some years ago, is again creating anxiety, as it shows signs of weakening. From the levee at Hatch place, five miles above Grana, where there was a serious breach some years ago, is again creating anxiety, as it shows signs of weakening.

Mrs. E. Cameron was today appointed postmistress of Ono, Wheeler county, Neb., by the post office department.

Senator Paddock today reported from the committee on public lands a bill authorizing the secretary of the interior to survey and locate the public lands in the states of North and South Dakota. It authorizes the secretary of the interior to work on the survey for four months, but the survey is to be completed in six months, but the survey is to be completed in six months, but the survey is to be completed in six months.

The bill providing for a public building at Hastings passed the senate today. It has been favorably reported by the house committee.

TESTIMONY OF OFFICERS FAVORABLE TO THE COMMANDER.

NEW YORK, March 13.—The third day's testimony of the McCalla inquiry was opened this morning by the testimony of the first witness, Lieutenant Merlich, who was the first to testify.

THE BARONS DISPERSE.

A Resolution Favoring National Inspection of Cattle Passed.

FORK WORTH, Tex., March 13.—[Special Telegram to The Bee.]—The morning session of the cattlemen's convention was taken up with reading and discussions of resolutions referred to special committees. The afternoon session was occupied with the report of the committee on resolutions and the question of national and state inspection brought out a hot debate, resulting in passing in favor of the former and striking down the latter. A large number of resolutions were hurried through at the last moment which led to some dissatisfaction.

THE BLESSING THAT MCKINLEY'S BILL BRINGS.

WASHINGTON, March 13.—David Harston, president of the Ohio Wool Growers' association, and Judge Lawrence, a member of the same association, prepared for publication the following statement, explanatory of the wool schedule in the tariff bill now under consideration by the house committee on ways and means.

"We have examined for the first time today schedule K, providing duties on wools and manufactures of wool. It proposes a duty of 11 cents per pound on wool clothing, double on washed and treble on scoured wools. The duty on raw wool is 11 cents per pound and treble on scoured wool; on unwashed carpet wool valued at 12 cents per pound, the duty is 33 cents, and on carpet wool valued at over 13 cents the duty is 33 cents. It provides that standard samples to be deposited in custom houses for the use of the inhabitants of the United States, and that the duty on wool should be 11 cents per pound, and treble on scoured wools. As to the so-called carpet wools the duty is to be 11 cents per pound, and treble on scoured wool. These are the wools that just now are injuring the wool industry of the United States.

"We learn upon reliable authority that under the law as it now stands, 75 per cent of the wools that are imported into this country are washed and scoured, and the rest are raw. The duty on washed and scoured wool is 11 cents per pound, and treble on scoured wool. As to the so-called carpet wools the duty is to be 11 cents per pound, and treble on scoured wool. These are the wools that just now are injuring the wool industry of the United States.

"We learn upon reliable authority that under the law as it now stands, 75 per cent of the wools that are imported into this country are washed and scoured, and the rest are raw.
