An Elegant Stock. For the past two or three days the immense quantities of wall paper and decorating materials that have been unleaded at the new establishment of Gillette & Freeman at 28 Pearl st, has attracted as much public interest as the new hotel. The establishment of these enterprising young men will certainly bear all the inspection that can be attracted, for outside of wholeale houses they have the largest lock in the state. A close in-section shows more than five hundred different styles of papers, and all are of this season's make, ranging from the cheap and common grades to the richest and finest goods that have ever been produced. This is simply a plain statement of a fact, for all the styles this season are indescribably beautiful. Many of the combinations are perfections of art. As all the fine work that has been done in the city for several years past has been done by Cillette & Freeman while working for other firms, it can be readily understood what kind of work they can do now with such a magnificent stock to select from. Every taste can be satisfied, from the humblest to the highest.

Mayor Macrae Appoints Wade Cary Chief of Police.

THE COMMITTEE OF THE WHOLE.

Alderman Everett's Stand on the City Printing-Peter Lewis' Fearful Fall - Strong Medicine for the Vags.

The New Chief of Police. It is at last definitely settled who is to be the new chief of police, the appointment having been formally tendered to Wade Cary, and the council expressed approval at the committee meeting held yesterday afternoon in the office of Alderman Everett. The appointment gives general satisfaction, as it insures an efficient and thoroughly disciplined police force for the next two years. The present incumbent, O. H. Lucas, will be supplanted next Tuesday afternoon, at which time the council holds its next meeting, and will approve the bond of the newly appointed chief. It was stated by an alderman last evening that the appointment of Chief Carey met with the approbation of every member of the council. A great deal of discussion was caused by the hat submitted by the mayor for places as patrolmen. He stated that he proposed to retain several of the old men for the present, including Officers Martin, Kemp. Clough, Cusick, Fowler and Doyle, as ,he desired to give the men a chance, but that if they were unable to live up to the rules and failed to comply with the regulations they would be promptly discharged. He asked the council if they desired to retain Patrol Driver Hen-dricks on the force, but they unanimously declared that he was not fitted for the posi-tion, and he will accordingly be dumped into the soup with some of the others.

The rules that have been drawn up to govern the new force are scorphers and will prove quite surprising to the members who have heretofore held positions on the force. Among other things patrolmen will be prohibited from drinking or smoking while on duty; will not be allowed to converse with citizens except on business relating to their duties and then for only a short time; will not be allowed to leave their beats while on duty; will not be permitted to enter opera houses, saloons or houses of prostitution except for the purpose of making an arrest or o do so by the chief; required to provide themordered to will be selves with a regulation uniform at their own expense; will not be permitted to speak disrespectfully to or about any other member of the force while a member of the force; and will not be allowed to use the club to excess or in any angry manner in making arrests unless absolutely necessary. The rules are very strict and will be rigidly enforced. Aside from the strict discipline under which the men will be placed, special attention will be given to their training, and a military bearing will be carefully cultivated.

It is certain that there are several men on the list who will fail to properly fill the bill, and changes will come as a matter of course. This is expected, and for this reason the force will not be required to purchase uniforms until the men are tried and it is proven to the satisfaction of the chief that they are flited for the position. It will be seen that the purpose is to have only good men on the force, and appointees will find their respective terms governed solely by their fitness or unfitness, as the case may The size of the force will be increased to sixteen men, and the day and night forces will be wholly distinct and seperate organizations. There will be none of the changing about from day to night duty, and vice versa, as has been the custom heretofore, but the men will become properly trained and fitted for certain positions and will then remain there. The appointment of a captain rests with the chief, but it is understood that A. S. Clough will be called upon to continue in that position, for the present at least.

The new appointee is well known in the city, and needs no introduction to the citizens of the Bluffs. That he will make an efficient chief and do his share in making the new administration a successful one is a foregone conclusion. He is a strict dis-ciplinarian, and will greatly clevate the standard of the police force. Such a change has long been needed, and the public will not be slow to appreciate it.

The Committee of the Whole. At the meeting of the council committee of the whole yesterday afternoon, the committee consisting of Alderman Everett, Knepher and Woods, appointed Monday afternoon to revise the rules of order governing council meetings, made a report, and it was decided that at all future meetings the reading of petitions and memorials shall come last. Bills will be allowed only at the first meeting of each month, and this will be the first business to be considered after the minutes are disposed of. The reports of committees and all new business is also moved up a notch, but otherwise the old

rules were unchanged. Mayor Macrae desired to consult the council with reference to the appointment of committees, Heretofore there have been only six committees, as there were only six aldermen, but now that there are eight members of the council the mayor deemed it necessary to create two new committees, so that each alderman might have a chairmanship. This will also lessen the work devolv-ing on some of the old committees, which has frequently proved quite onerous.

The mayor and aldermen discussed several matters of importance relative to the policy to be pursued in various branches, but of course no official action will be taken until next Tuesday, at which time the mayor will report the new committees and the organization will be completed. The session was a most harmonious one and proved mutually agreeable to both the mayor and the aldermen. The present indi cations are that the new administration wil not be hampered in its work by any internal dissensions, but on the contrary that all

will work together for the best interests of The Manhattan sporting headq'rs 418 B-way.

The City Printing. The resolution introduced in the council by Alderman Everett in regard to the city printing has caused some stir. The resolution named the Nonpareil as the official organ, and was based on a written proposal of the Nonpareil to do the city printing at the following prices: Twenty cents per square for the first insertion and 15 cents per square for subsequent insertions, and for figure work 40 cents for the first inser-tion and 15 cents for subsequent insertions. The proposal was to do the printing at a little over one third reduction from the prices paid the Globe the present year, or an

agaregate saving to the city of \$2,000.

Alderman Everett expresses himself as inclined to the opinion that the Globe so grossly overcharged the city the city the past year as to forfeit all claims for chance to bid this year, and especially as he was thwarted last year in his attempt to get the city nrighting decided by hids instead of features.

ity printing decided by bids instead of fa-The council has decided to consider bids however, and the door is opened for the Globe to throw in a bid. The chances seem pretty fair for a reduction of city expenses so far as printer's ink is concerned. The first proposal of the Nonparell is to do the work at two-thirds of last year's prices, and the competitive bids will doubtless reduce the prices still further.

It Will Bring Good Results. If Judge McGee keeps up his present clip he will very shortly succeed in not only making a name for himself and becoming the terror of all evil doers, but will rid the city of a large number of thugs, bums and worthless vags who now infest the city. He deals out justice with a liberal hand, and the vic-

time do not relish the doses. William Lambert was before him yesterday charged with disturbing the peace. William had allowed his temper to run away with him, and he knocked in a door in order to get at the object of his wrath. The court informed the offender that his offense was really burglary, as he had broken into a building for the purpose of committing a public offense, and that is what constitutes burglary under the laws of Iowa. However, the charge was disturbing the peace and as the limit for that offense was a fine of not more than \$50, the court concluded to let the culprit off on a fine of half that a nount and costs. The defendant could not produce a red cent and was fired back into

Four vags were next arraigned, and in less time than it takes to tell it they were each assessed \$30.10, which, in default of payment, means twenty days in the city jail.

The judge recommended that arrangements be made at once for working prisoners on the streets, and it is very likely that today these live husky fellows will be started out under an overseer to labor on the public thoroughfares and pay for the provisions so generously furnished them by the city. A Scotch Social Club. About thirty of the Scotch residents of the Bluffs met last evening at the office of Kerr & Gray, room 214 Merriam block, for the purpose of organizing a St. Andrews' society. The following officers were elected: President. A. C. Graham: vice president, John T. Oliver; secretary, Henry Stevenson; treasurer, Joseph R. McPherson. Messrs. M. P. Rac, D. S. Kerr and Henry Stevenson were appointed a committee to draft a constitution and by-laws. The club is organized as a social institution, and it is very probable that it will also be made a benevolent organization. The next meeting will be held next Wednesday evening at the same place, native Scotchmen, their sons and grandsons are cordially invited to be present and be come members. All who join during the next week or at the next meeting will be included among the charter members of the club. It is expected there will be at least fifty charter members, and the membership will undoubtedly reach 100 in a very short time. Much interest was manifested at the meeting last evening, and it is the intention to make the ciub one of the most popular or-ganizations in the city. It certainly starts out under very promising auspices.

LATEST GOSSIP IN POLITICS.

A Kansas City Couple Under Arrest-They Came to South Omaha to Marry, but Didn't Have Time to Do It.

What is Heard in Politics.

Tickets and slates are as thick as hogs on a good market day in South Omaha now. Most of them are the outgrowth of prople who set themselves up as political bosses. but whose influence is found sadly wanting when the hour comes to push their favorites through.

Tom Hoctor said yesterday that he was going to get out today and do some work in his own interest for the city treasurership. And for that office the fight is going to be. This becomes more and more apparent as the campaign draws nigh. Tom Geary is displeased muchiy that Hoctor should aspire to his fat place and is reported to have said that he will run independent in ease Hoctor is nominated by the democrats. The way the thing looks now Hoctor is sure of the nomination and Geary's independent candi-dacy is going to divide forces somewhat in

case he is true to his word.

An influential democrat said yesterday that he hoped something would be learned soon of a definite nature in regard to the candidacy of Mayor Sloane. "We have got to know about this matter quick," he said. "If Sloane isn't going to run we have got to decide on another man. As long as there is a belief that the present mayor can be induced to serve the people for another term it will be impossible to centralize on another available man. If Sloane won't accept the nomination I am in favor of putting up George Parks. Either one can poll more votes than any man in South Omaha for mayor of the city."

The composition of the school board is very liable to depend on the result of the party conventions. While there is a strong sentiment in favor of a non partisan school ticket no one seems inclined to take the initiative in calling a meeting for the purpose of placing a ticket in the field free from the

taint of politics. Neither the democratic or republican city central committees have met as yet to issue the catls for primaries and conventions. The primary elections of both parties will be governed this year by Nebraska's stringent primary election law, which provides heavy penalties for repeating and illegal voting. The primaries must open at 12 o'clock noon and close at 7 o'clock p. m.

Proceedings of the Council. It had to be done some time, and City Clerk Hoctor might just as well work his vocal organs now as later in the political

campaign. At the last meeting of the council the reading of the minutes was dispensed with, so when the meeting was called to order Tuesday night there was an half hour's work on the city clerk's hands reading the lengthy minutes of the two previous meetings. lust before he commenced the roll was called and Councilmen Boyd and Burke were found absent. The first business was the approval of the

plat of Durrah's addition to South Omaha. F. Pivonka, J. Pivonka and A. Gary sent in a remonstrance against the grading of the alley between K and M and Twenty-fourth and Twenty-fifth streets. It was referred to the city attorney.

An ordinance was introduced ordering a sidewalk laid on the west side of Twenty-fifth street from Q to N street. The ordinance was referred to the committee on via-

ducts, streets and alleys and was subsequently reported on and passed.

The property owners on Twenty-fifth street from M to Q street asked that the street be ordered paved with Colorada sandstone. It was referred.

Laffenburg & Clark asked permission to use a portion of N street in front of their new building for an area way. The petition J. F. Ritchart and others asked for a fire alarm box in the neighborhood of Twenty-third and I streets. It was sent to the com-

mittee on fire and water. with power to act.

A petition for the appointment of a milk inspector went to the mayor for a recommendation in connection with the request. for his services as street commissioner. The finance committee will consider the request.

A replat of two blecks of McGavock & O'Keeffe's addition facing on N street and Missouri avenue was presented for approval and referred to the committee on streets,

riaducts and alleys. The replat was acacepted and approved.
Charles Cumming was appointed on the Fourth ward registration board in place of J. C. Huff, and Thomas Kelly in place of Charles King on the board for the Third ward. The committee on public property was instructed to secure suitable quarters for the registration boards during their sittimes and report the places selected in time for publication previous to the sittings of the boards.

The council adjourned to meet on next Monday night.

It may have been a coincidence that they brought some eggs with them-eggs hard boiled, eggs soft boiled, and eggs not boiled at all. Threats of Another Outbreak in the Passenger Rate War-Those Plans. Indications are strong that further reductions will be made very shortly in the Chicago-Missouri River-Colorado passenger rates. The fare from Missouri river points to Denver, Colorado Springs and Pueblo, by all lines, is now \$10, though there seems to be a mutual understanding that only continuous train tickets can be sold at that figure. This restriction, it is claimed, was put on to prevent scalpers man pulating the rates between Denver and On the failure of certain lines to comply with the rule is based a prevailing upposition that another break will be made A report has been circulated to the effect that the Union Pacific allows a two days which enables scalpers tickets from Omana and sas City to Deuver over that road at \$5 and make up the other \$2 by selling the Denver-Pueblo coupon separately

As a result the Union Pacific scoops in moi Denver business than its competitors and they don't like it. Another road, whether the B. & M. or the Rock Island is not stated, is charged with paying \$4.50 commission on every Denver ticket, which gives the scalpers an opportunity to make a cut of at opportunity to make a cut of at least \$3 between Chicago and \$2 from the Missouri river, to Colorado points. first-class rate to Colorado \$8 The Sum it Can Stand.

In the course of his address before the engressional committee on railroads last Monday, President Adams, of the Union Pacific said, among other things that it was not for the best interests of the government to hamper this corporation or embarrass its performing the work it was credited to do. As matters stand now the company is enabled to pay towards the interest and in liquidation of its debt to the government \$1,500,000 a year. Anything more than that, he declared, would tax the property beyond its strength. This sum rep resents 214 per cent interest on the computed debt and ought, Mr. thinks, be sufficient. A settlement on that pasis would give the road some chance for
