THE COURTS.

Little Business of Importance Disposed of Yesterday.

Three or four petty criminal cases were called before Judge Clarkson yesterday morning, but none tried.

James Ashford had no attorney but will be defended on Monday by one appointed by the court. Ashford is the negro who is accused of having burglariously entered the residence of Jettie Reynolds on February 23. The State vs John Wilson and John Hartey was an action in which the defendants

were accused of having burglarized the residence of Elkan Seligson and carried away some bracelets, watches and other jewelry to the value of \$145, the property of Hattie Nadra. The valuables were found in their possession, but the county attorney had sat-

isfied himself that they had come by them honestly, and the defendants were dismissed. Charles E. Stratton was to have answered

to the charge of assaulting Elizabeth Kuhi-man, but failed to appear and his bond, secured by John Thomas, was forfeited. The attorney for the defense in Johnson vs Hammond before Judge Doane moved for a non-suit yesterday morning, but the motion was overruled and the case is dragging

along Judge Hopewell heard the case of N. J. Burnham vs. Bernhard Sachsse, a suit to recover \$100 or a promissory note. The jury

After this case had been disposed of Judge Hopewell took up the case of Thomas O'Neil against the American water works company for \$200 damages for injuries caused by the aving in of a trench in which O'Neill was

working. Judge Clarkson will take up the case of Jack Quinlan this morning. Quinlan is the grader who assaulted Lewis Klopman,

another grader, with a single-tree last fall and nearly killed him. He will be tried on the charge of assault with intent to kill. The case of Ed. Culver was postponed un-

til Tuesday. When the case of Charles Moore vs. Ed Stratton for disturbing the peace was called no one appeared, and bond was declared for-

F. R. McConnell applied for permission to sell real estate as the guardian of Charles

County Court.

The will of Mrs. Mary Falk was admitted to probate yesterday and Samuel J. Bergstrom appointed executor. Mrs. Mary Dillon was appointed adminis-

tratrix of the estate of Sidney Dillon, deceased. George M. Winkleman was appointed ad-

ministrator of the estate of Ida Belle Winkleman.

In the case of Bouscaren against Brown & Heugen, a suit for rent of livery stable, judgment was rendered for plaintiff in the sum of \$558.

#### The Standard.

"I regard Hood's Sarsaparilla as having passed above the grade of what are commonly called patent or proprietary medicines," said a well known physi-cian recently. "It is fully entitled to be considered a standard medicine, and has won this position by its undoubted merit and by the many remarkable cures it has effected. For an alterative and tonic it has never been equalled."

IT IS NOT A SINECURE.

The Garbage Inspector's Job Not a Paying One.

Judging from the present indications the office of city garbage inspector will soon be a thing of the past, as no one will want it. Shortly after J. S. Bennett was appointed to temporarily fill the vacancy caused by "Goldsmith's resignation, a swarm of men who had teams and wagons began soliciting trade, Bennett repeatedly attempted to prosecute them, but did not win a case. Hotel men who formerly paid Goldsmith \$20 per month for carrying away their garbage can now get it done for \$10 and \$19 by out-siders. But the work is not carfully done,

and the regular city garbage man is com-polled to go over the route and clean up the teenth street, appeared before Judge Heisley

THE PLANS ARE ALL RIGHT.

The Board of Public Work : Approves the Viaduet Specifications.

The board of public works held a meeting vesterdayafternoon to consider the remodeled plans for the Tenth street viacuet. The city engineer was also presect and the plans were carefully examined. The new plans were considered by the board to be superior to the old ones, and wherever changes were made it was to make the structure stronger. Ail the parts that were formerly planned to be made of wood were

changed to iron and steel. Mr. Kierstead urged that as time is pre-cious and the citizens are anxious that the work commence soon it would be best not to defer action on the matter, but to pass upon it at once. He supplemented his suggestion with the statement that the structure would not cost the city anything and that it was a great public improvement. He made a mo-tion that the plans be approved. Major Balcombe seconded it and the motion pre-

vailed. The mayor had refused to approve of the ordinance until he heard concerning the ac-tion of the board. After the plans were ap-proved the mayor was immediately notified

and he signed the ordinance. This is the last action necessary to be taken by the city officials. Nothing now rem .ins except for the railroads to push the work to completion.

Mr. Tisdale thinks it was about the last day in January on a very cold moning when a man drove up to him on the road-way and asked where the Pinney farm was. Mr. Tisdale showed him, and the stranger drove away. What particularly attracted Mr. Tisdale's attention was that the horse which the stranger was driving was in a per-fect foam of sweat, and the day was ex-tremely cold. A half hour later Mr. Tisdale saw the man driving away at a rapid gait. The descrution which Mr. Tisdale gives of The description which Mr. Tisda's gives of the stranger tallies exactly with that of Sherman. When the latter is brought to Omaha Mr. Tisdale will be given an oppor-tunity to identify him.

The Southern Flood Sufferers. John W. Paul has returned from an extended trip south and reports great distress along the Mississippi. At New Orleans the water in some places is At New Orleans the water in some places is within eight inches of the top of the "lovees" and at Vicksburg the river has shifted its channel so as to leave the wharfs three miles inland. "This is a great country," said Mr. Paul. "People in Dakota are suffering from drought and cattle are dying for want of means of subsistence, while all along the river below Memphis people are suffering in-tensely from flood and in many places cattle could be seen from the pilot house standing in water up to their sides and nibbling the bark off young trees and saplings, at the same time the weather was intensely cold for that section of the country.'

## HOPE FOR THE AGED.

A Prominent Man Shows How Elderly People Can Prolong their Lives and Avoid Weakness and Suffering.

Charles Dickens never wrote a truer thing than the following:

"Can anything be more pitiable than the sight of el leriy men or women who realize that the strength of earlier years is departing? Lown the plane of life, whose end is in departments, they lock, and wonder if their weary steps will earry them painlessiy to the en 1.º

Any elderly person, who feels a trembling of the nerves, a weakening of the muscles, leasened vitality, decreased vigor, chilled hands or fact, needs, nay, must have, assistance. Money cannot reeder it. Drags should be worked. Here is what one of the greatest of modern physicians, a no less personage than Dr. Gardner says on the subject:

"Ederly persons, who in winter suffer from cold "In derig porsens, who in winter suffer from cold feet and find artificial heat applied externally fail to afford relief may with undoubted propriety and ad-vantage, take whiskey and hot water on going to bed. If a headache or foul to gue follow, the inference is the spirit was impure, probably containing fused oil. A very light trace of this noxious ingredient in spirit will in some constitutions produce headache, as ac-curate a test of impurity as chemistry can employ."

There is only one absolutely pure whiskey free from fusel oil, and that is the well known and fustly popular Inffy a Pure Mail Whiskey. It has all the properties that contribute to health and vigor, and none that injure. It cannot harm the stomach even of a child. It is sold universally and well merits its wonderful popularity. Be sure and take no other.

WE ARE READY

For the new season with a new stock. Our spring goods are open and on our counters and every present and prospective purchaser of a spring suit should turn his footsteps in our direction. We will show you something worth coming for-We are constantly increasing our business, and the stock of goods we are showing this season is on a much larger scale than formerly. It has no equal in this part of the country, and-always progressive-we are also with every season trying to improve upon the quality and make of our goods. We handle and sell only such goods which will give satisfaction, and nothing comes on our tables that is not perfect in make, fit and workmanship.

Advertiseing talk does not count for much nowadays. We do not use as much space in the papers and may not put things so forcibly as others do-as we avoid all sensational methods of advertising, BUT OUR GOODS AND PRICES TALK MOST CONVINCING-We rely upon our customers for this constant and steady increase of our business-as, we sell them such goods which not only brings them back every season, but causes them to recomend us to their friends. This is the most forcible way of advertising and is sure to bring the biggest returns. We do not blow a big bargain horn, because with us bargains are a daily occurence, and no exception. All our goods are bargains compared with the prices of other houses.

Our Mail Order Department is now in working order. Write for samples of our spring suits and wo will send you a good line to select from and will also send blanks for self-measuring.

#### The City Hall Work.

Now that the spring has fairly opened Contractor Coots is making preparations to push forward as rapidly as possible the work of construction on the new city hail building. The foundations were nearly all laid last fall and the next work is the piling up in a stapely mass of the Dodlin granite that is to be used in the construction of the lower part of the building. The derricks are already being pressed into service, swinging the blocks into a place handy for the builders.

#### Hendricks Meets "Mama."

John Hendricks, the corpulent "groom for a day," is still languishing at central police station. His wife, "maina," called to see him yesterday and had a long private conversation. Later on his attorney arrived and the three talked for an hour.

Henricks refuses to talk to reporters Private information has been received from Deadwood that Hendrick's formerly lived there, but so far as his wealth is concerned, the informer doubts his stories. Several years ngo Miss Mann made a trip to Europe with Hendricks.

The St. Mars's Avenue Grade. "I understand," said Major Balcombe, chairman of the board of public works, "that Herman Kountze and the other property owners on St. Mary's avenue between Sixteenth and Twenty-first streets expect that in the proposed elevation of the avenue the city will stand one half the expense of filling in the of stand one half the expense of filing in the street with dirt and all the expense of re-paving the streets at their intersections, Now, Mr. Kountze and the other property owners are mistaken if they believe this can be done without the passage of a special or-dinance to that effect by the city coun-cil. The city has paid its share of the expense of bringing that thoroughfare up to the grade asked for and has also paid for the pavement of intersec-tions. The city has therefore discharged its duty and can not be forced to pay for the regrading and repaving unless the city council and mayor, the agents for the city, so specify by special odinance. So if Mr. Kountze expects the city to share the expense he will have to win over a majority of the city council and the chef magistrate also."

leavings without pay. In fact, under the new regime the office is worth nothing to the garbage master. Bennett has turned over all of the garbage hauling to Charles Westergard and Louis Lazarus in consideration that they haul all

the dead animals to the city dump for him free of charge. "The office, as it now stands," said Mr. Bennett, "will not pay expenses, and if some change is not made in the near future I shail resign.'
