THE BEE PUBLISHING COMPANY, PROPRIETORS. The Bee Building, 15th and F streets, Omaha, Neb.

SWORN STATEMENT OF CIRCULATION. I, George H. Rosewater, Secretary of The Bee Publishing Company, do solemnly swear that the actual circulation of THE DAILY BEE for the week ending April 19, 1890, was as follows:

Table with 2 columns: Day of the week and Circulation. Total average for the week: 20,850.

Sworn to before me and subscribed to in my presence this 19th day of April, A. D. 1890.

Notary Public, State of Nebraska.

George H. Rosewater, Secretary of The Bee Publishing Company, being duly sworn, deposes and says that the actual circulation of The Bee Publishing Company, for the actual average daily circulation of THE DAILY BEE for the month of April, 1890, was as follows:

Table with 2 columns: Date and Circulation. Total for the month: 620,000.

Sworn to before me and subscribed to in my presence this 19th day of April, A. D. 1890.

Notary Public, State of Nebraska.

SOME incautious friend has let out the secret that Leand Stanford is a candidate for the presidency. This tallies with his recent remarkable bid for the farmers and workmen's vote.

The Southsiders are willing to pay one-tenth of the vindictive damages, or about thirty-five hundred dollars. As a specimen of liberality this crowds the best efforts of the postoffice site hoarders for first prize.

LARAMIE gives proof of improved public morals in refusing to renew gambling licenses. Her example should be promptly followed in all communities in the mining states and territories where gambling is rampant.

MARYLAND proposes to experiment with compulsory voting. Judging from the widespread desire to turn the bosses and rascals out in that state, a statute will not be necessary to bring out a full vote at the next election.

A MUNICIPAL hoodler in Melbourne was sentenced to thirty years at hard labor for selling his vote. The adoption of this Australian system in American municipal affairs would necessitate an enlargement of penal institutions.

THE arrogant Chicago bosses prefer to prolong idleness and strife rather than recognize the carpenters' union. To these petty contractors a union of employers is all right, but it is rank treason for workmen to organize for mutual protection.

CONGRESS did a worthy act in placing John C. Fremont on the retired list, with the rank of major general. It was a deserved recognition of his invaluable services as a pioneer and soldier, and a partial recompense for the shabby treatment he received in the early days of the rebellion.

THE regulators of Mississippi are losing confidence in the persuasive force of the shotgun to maintain supremacy in the state. Its efficacy in suppressing votes cannot be doubted, but it involves considerable funeral expenses. To avoid this cost and subsequent irritation they propose to remodel their constitution.

THE democrats rode into power in Ohio last fall on pledges to modify or repeal the Owen Sunday law. But the democratic legislature repudiated the pledge and the law remains unchanged. When it comes to working a confidence game, the Ohio hooligans can give valuable pointers to the bunco men of Boston.

FOR the sake of the business interests of the state it is to be hoped that the commercial agencies will not withdraw from South Dakota. The new law requiring them to deposit fifty thousand dollars with the state treasurer, to be held in trust to satisfy all suits for damages for alleged injurious reports, was evidently drafted in a spirit of revenge.

REPORTS from the northern pierces show a large increase in the log crop. In the district tributary to Minneapolis the cut is estimated at four hundred million feet, and is greater than the cut of 1887, and surpassing the great record of 1888 by sixty million feet. This enormous increase will have a tendency to lower the price of lumber throughout the west.

THE recent real estate transactions between the government and the Sioux and Chippewa Indians places both tribes beyond the danger of immediate war. Bills appropriating fourteen million dollars to close the deal and settle outstanding claims have been introduced in congress. This enormous sum will enable the Indians to live without work for several generations.

THE bitter opposition of the lawless elements of South Omaha to annexation is one of the best arguments in favor of the union of the cities. Congress reacts on those who attempt it. The law-abiding people of the city, the taxpayers whose interests are vitally involved, and all in favor of decency and honesty in governments, will, we are confident, overwhelm the hoodlazzers at the polls.

UNDER FALSE COLORS.

Three weeks ago the following resolutions, purporting to have been adopted by a Cherry county farmers' alliance, were received and published by THE BEE: Whereas, We believe the present agitation of our state officials is for the purpose of securing their own re-election, and Whereas, We believe that the farmers are more interested in securing money at six per cent to carry their crops and thus save the uncertain change of two or three per cent per month than they are in the election of men whose sole business is politics, therefore be it

Resolved, That we ask the state officials to cease their present agitation, which is resulting in our serious loss, by stopping all works of internal improvement and driving eastern capital from our locality and that if our state officers were as anxious to advertise our property and advantages of the state as we are in discharging our duty, our poverty, that it would result in the drawing of eastern capital to our midst and purchasers for our surplus lands.

The Omaha Bee and to other organs, the Alliance, and to the state board of transportation. GEORGE H. ROSEWATER, President. K. HOWARD, Secretary Alliance No. 1002.

Advised from Valentine brand this set of resolutions as a base fabrication. "There has never been a meeting of any Farmers' alliance at this place," says our correspondent, "and there are only two or three such organizations in this county."

Right on the heels of this THE BEE has been favored with a carefully prepared interview about the political tendencies of the Farmers' alliance in Nuckolls county as furnished by George H. Mendall, who is represented as one of the prominent farmers of Nuckolls county. This man Mendall, who was for years connected with the leading monopoly newspaper at Lincoln, asks himself some very remarkable questions, among these are the following:

Question: "Who has been promoting the agitation we see continuously in newspapers pertaining to the alliance?" Answer: "As a rule, aspiring carbonite politicians."

Question: "From whom does this talk of opposition in railroad rates come?" Answer: "An angry man who has been wronged by some railroad company."

Question: "What is the cause of the agitation we see in newspapers?" Answer: "The farmers and railroad companies are dependent upon each other, and it is to their mutual interest to cooperate."

Question: "What is the cause of the agitation we see in newspapers?" Answer: "The farmers and railroad companies are dependent upon each other, and it is to their mutual interest to cooperate."

Question: "What is the cause of the agitation we see in newspapers?" Answer: "The farmers and railroad companies are dependent upon each other, and it is to their mutual interest to cooperate."

Question: "What is the cause of the agitation we see in newspapers?" Answer: "The farmers and railroad companies are dependent upon each other, and it is to their mutual interest to cooperate."

Question: "What is the cause of the agitation we see in newspapers?" Answer: "The farmers and railroad companies are dependent upon each other, and it is to their mutual interest to cooperate."

Question: "What is the cause of the agitation we see in newspapers?" Answer: "The farmers and railroad companies are dependent upon each other, and it is to their mutual interest to cooperate."

Question: "What is the cause of the agitation we see in newspapers?" Answer: "The farmers and railroad companies are dependent upon each other, and it is to their mutual interest to cooperate."

Question: "What is the cause of the agitation we see in newspapers?" Answer: "The farmers and railroad companies are dependent upon each other, and it is to their mutual interest to cooperate."

FROM THE CAPITAL CITY.

Lincoln, Neb., April 20. (Special to THE BEE.)—The reformers in the city council will spring a new scheme on the aldermen tomorrow night, if the present arrangements are consummated. At present Lincoln's police force consists of but seventeen men all told, and it is proposed to double this number and yet make the present appropriation suffice for the increased force.

The wages of the men in the department are \$3 a month. Already numerous applications have been made for jobs at this salary. The present force will nearly all resign, and if the scheme is carried into effect municipal matters will be in a worse state than at present. The same doubling of force and cutting of salary is proposed in the fire department.

Municipal matters are in a rather chaotic state at present. The city engineer resigned the other day because the council refused to confirm the mayor's nomination of him as engineer, but agreed to retain him as special engineer until some one could be secured to work for the salary of \$150 a month. Gardner promptly refused the office, and the entire city without any engineering force. Consequently public improvements are at a standstill, and the mayor and the board of public works have been engaged in a fruitless effort to get some one to take the place.

The other city officials who hold office by virtue of appointment by the mayor are in a state of uncertainty as to who will have the honor of getting some one to take the place. Inspector Fleeharty because of his report declaring that the company run their works at so high a pressure that the gas registers by the meter was forced through the pipes, unaccounted, thus compelling consumers to pay for twice the quantity they actually use. The city engineer, however, has indicated the council pretty effectually, and the other remaining city officers will either be dispensed with or the duties so apportioned that one will have to do the work of two, if not more, as is accomplished by two. It is understood that Mayor Graham has expressed himself as having had quite enough of his present job.

A CROSS MOTOR. The Bee a few days ago gave a resume of the demands made by the Rock Island company as a consideration of their coming into Lincoln. The matter has been pretty well discussed since then, and the city council is uniting in refusing to cede the use of Eighth street to the company. A compromise is proposed, however, by the Burlington traction island the right to use the street from the Elkhorn and Missouri Pacific to the Rock Island depot is at present used by that road and the Burlington, Elkhorn and Missouri Pacific in a long shed. The proposition is to have all these roads enter into an arrangement with the Burlington traction island to use the street, and make a union depot out of it. The Burlington owns sufficient ground for the purpose, but it is necessary, in order to get the consent of such an arrangement, that it is proposed that instead of giving the Rock Island \$50,000 to purchase right of way, the Burlington should give the traction island \$50,000 to purchase right of way, and the Burlington should give the traction island \$50,000 to purchase right of way.

CITY NEWS NOTES. Arthur James was bound over to the district court on \$100 bonds for disorderly conduct. His mother had a lot of trouble with a warehouse company here, and young James forced an order, and secured the stuff, and the mother had a lot of trouble with it. He skipped out of town, but returned yesterday.

THE last dollar of the \$15,000 bonus demanded of property owners in the neighborhood of Fourteenth and P streets by Bigelow Bros., who propose erecting a new hotel there, will be paid to the city. The building will cost \$250,000 and be seven stories in height, with a frontage of 200 feet on P street and 140 on Fourteenth, and will contain 1,000 rooms. The building, the theater to be on the ground floor with a seating capacity of 2,000. Lincoln will have a sufficient number of hotels now. The foundation of the building will be completed in a few days, and the Bond European is nearly completed, a large addition to the Windsor is being started, and the new building of the Lindell, while the owners of the Capitol are talking of rebuilding.

L. A. Batton of Raymond was in the city yesterday, and he probably had a year or two. For every vault cleaned in the city a permit must be obtained, and the person doing the work is not allowed to charge more than 10 cents a cubic foot.

WE are compelled to keep a very complete record of births, deaths and burials, and a burial permit must be obtained for every corpse that is buried, passes through or is buried in the city.

OUR department consists of a commissioner of health, an assistant, the chief of police, the corporation attorney, ten health inspectors—all uniformed and having police power so far as sanitary matters are concerned—two inspectors of animals on the hoof, two meat inspectors, a stock inspector, one man in charge of the smallpox hospital, one inspector who takes charge of the garbage disposal, and a man who has charge of the city dump. This year the department will cost \$10,000, which included the gathering and disposal of garbage in the city. The department is thoroughly sustained by all the thinking classes of our people. Seven years ago—prior to the establishing of the department, the death rate of St. Paul was 16.2 to the thousand. Last year it was ten to the thousand. This shows what there is in a good sanitary system.

A THOUSAND ALFONSO. Upon the announcement to Queen Christina recently that the name Alfonso was to be given to the prince, the 1,000th time as having been conferred upon a Spanish child in baptism she sent the thousandth child, the son of a clerk, a complete layette, a silver cup, a case with knife, fork and spoon, and a saying: "May the child be happy and healthy, and may he be a man of honor." To the thousandth Alfonso, from a woman whom two Alfonsos have made happy.

ISSUE AGAINST PNEUMONIA. Use Baker's Pure Cod Liver Oil or Baker's Emulsion. The real reliable brand. All druggists.
