Not only that, but they are jastin constantly imposed upon, and the greatest imposition is practiced by the city and county City and county patients are sent to both places and are carefully cared for, and then it is almost impossible for the hospital management to collect a cent for the work. I know that the papers have frequently condemned this system, and I hope they will keep it up, for I don't see as we can effect a change without a constant agitation of the subject. There should certainly be some arms of the subject in the city and rangement made by which both the city and county would pay for the care of patients such a sum as is commensurate with the labor and care rendered. What is the pittance of \$2 a week for the board and care of a sick person, together with washing medicine, etc! There was a bewildering entanglement of

LINCOLN, Neb., April 25. - [Special to Time BEE.] - The governor has addressed the following interesting letter to Senator Paddock: STATE OF NERRASSA, EXECUTIVE DEPART

MENT, LANCOLN, Neb., April 19. Hon. A. S. Paddock, United States Senator, Washington, D. C.—Dear Sir: I address you more especially as you are chaleman of the committee on agriculture, in reference to a matter of vital interest to the farmers of the west. In addition to the oppressive rates of transportation to which they are subject in sending their grain to market, there is another equally grievous wrong which they are compelled to

There is no question in my mind but that the farmers of Nebraska have been defrauded of hundreds of thousands of dollars within the last few years by the wrongful classification of corn at Chicago and other great corn

There are three grades, viz: No. 2, which is the best; No. 3 and 4, inferior and poor grade, and then no grade at all. Much of the Nebraska corn is rated as No. 5 and 4, and here comes in the great injustice to our far-mers. It is a well known fact that nowhere n the civilized world is better corn raised than in Nebraska; and yet by a false system of grading we are grossly robbed every year, and the only way to prevent it is, in my judg-ment, for the United States authorities to

If doubts exist as to the right of the gov-

ernment to interfere, I answer, the government appoints gaugers to inspect whishys and grade them, the department of agri-culture appoints cattle inspectors at different points; congress legislates to prevent the adulteration of lard; by legislation it regu-lates the manufacture of oleomargarine; it is seeking to overturn the monstrous evil of gambling in food products. May it not legis-late to prevent frauds in the grading of corn? If it be answered that this is a state matter, I answer, the states do not apply the remedy, and I ask that the United States do it. The object of the government as set forth in the preamble of the constitution is "to establish justice", and "to promote the general wel-fare." Justice and the general welfare wil be promoted by suppressing the evil of which I am complaining. If United States in-spectors, with United States statutes prospeciors, with United States statutes providing heavy pains and penalties for their violation, could be appointed at Chicago, St. Louis, Baltimore, Philadelphia, New York and Boston, the system of false grading of corn and other grains would case.

I ask your carnest attention and that of the delegation to this subject. Very truly yours, John M. Thaver. The governor says: "Now let them howl, bidding for votes," looking for a third term. I am working for the interests of the people of my state iny constituency, my friends and as their servant I am pledged to do this. There are pulpable wrongs that ought to be suppressed, and false grading of Nebraska's king cereal and extortionate freight rates are chief among them. Again, I repeat, let the

EIGHT CENTS IN DEBT TO HIM. Receiver Hudson of the United States land office has received his settlement for the quarter ending December 31, 1889. A short time since it will be remembered it was rumored that Mr. Hudson was a defaulter to the government in the sum of \$2.303 for the quarter ending June 30 of last year. At the time it was shown that whatever error there may have been was on the side of the government, and the last report shows that it was very properly corrected and that the United States owes him just 8 cents. Mr. Hudson has been furnished with three certificates for each deposit and, one for the treasury, one for the general land office and one for

INTERESTING STATISTICS. The report of Live Stock Inspector Robder to the city council shows some interesting statistics. During the past month 200 beeves and 1.543 sheep have been shipped in from various points for the slaughter. The conmotion of meat in the city for the past year is estimated at 5,000 cattle, 4,000 logs, 3,500 sheep, and 2,000 calves. The inspector states that Armour & Co. control almost the entire meat shipment. If the home market supplied this meat it would give employment to 100 men. The inspector also states that he has condemned 14,265 pounds of stuff, 86 boxes of berries and 20 bunches of bananas. He pronounces the milk furnished the public by the several dairymen of the best class and says that the cows are healthy and well fed.

The meeting of the board of equalization last evening was quite lively. One of the interesting features was the word war between E. H. Sheafe and A. B. While the bill which passed does not provide any penalty for an absolute failure to make bi-monthly returns to the county auditor, there is a section which some construe as itor, there is a section which some construe as being clastic enough to cover such a case. It provides that the possession of a droggist's permit will not protect the holder from being prosecuted and punished under the general prohibition law, provided he does not exce-cise his trust in good faith. The Chantauqua Motor. To the Editor of THE BEE: Statements are appearing in the papers that are calculated to onycy a wrong impression of the relations of the motor company and the Chautauqua to the public, and are, I think, unjust to the motor company. The subscriber has for one year and more tried to induce the motor company to extend the electric street car line to the Chautauqua grounds, and the company has as persistently declined, as they believed it would not pay. I have vigorously insisted that it would pay the motor company, but I

each one justly can. The Chautauqua is entitled to some recog-
