John Dunn was arrested last evening by Marshal Templeton on a warresteel last evening by Marshal Templeton on a warrest effaging him with larceny. The information was filed by one August Davidson. Dunn said he had no knowledge of what the information meant and denied being implicated in any manner with any one by the name of the informant. He was released on ball to appear today for

Senator Hearst's California stable of runners laid over at the transfer yesterday and was shipped to St. Louis on the evening train over the Wabash. There were nine runners and two trotters in the string, and they were all magnificent specimens of horseflesh. They attracted considerable attention.

The case of Adam Thompson vs Dan Car-Tige occupied the attention of the district court yesterday. The plaintiff such for \$125 for driving Carrigg's horse in a match race over a year ago. The case went to the jury about 5 o'clock and after being out three hours a verdict for \$55 was returned in favor of the plaintiff. The costs will swell this amount to 100 overlaging to attempts for Colored D 100, exclusive of attorney's fees. Colonel D. B. Dalley appeared for the defendant and A. W. Askwith for the defendant.

One of Norman Green's street sprinkling teams indulged in a lively runaway on Bry-ant street and Broadway yesterday. At the corner of the two streets above mentioned they came in contact with a telegraph pole and the collision was very disastrous to the sprinkler. The team continued up Broadway, but were stonged before further damage me but were stopped before further damage was

Justice Barrett has rendered a decision in the Brown-Brooks case in favor of the plain-tiff, who is the defendant's mother-in-law. She sued to recover for the care of defend-ant's wife during illness, and was awarded 229. She will accept only \$24 to prevent an appeal, but Brooks proposes to appeal just the same. The marriage was not a happy one, and the wife secured a divorce after a few months of double cussedness. To make matters worse, Burke & Tinley, the attorneys for the wife in the divorce case, yesterday sued the husband for \$100 as their fees in the case. Brooks is a motorman in the employ of the electric motor company, and his wages have been garnisheed. He is disposed to class marriage among the first class failures.

#### Water Works \$16.

Water Works \$10. Without doubt there are many persons now building houses here who want to use the city water, but are unable to pay the usual price for introducing the water into their premises. Appreciating this fact, the New York Plumb-ing company will locate a yard hydrant six-teen feet from the curb line, and connect the same with water main, with everything com-plete and the water ready to use for \$16. Cash plete and the water ready to use for \$16. Cash with order. This offer applies to unpaved streets where mains are laid.

of the proposed depot is now assured. Some preliminary work yet remains to be done, however, before work on the structure can be commenced. There is some little right of way business to be fixed up so that the roads can set to the depot grounds and it is thought that this will take about a month. Certain municipal legislation in the way of vacating certain streets and alleys will also be necessary, but this will occasion no delay. The most difficult part of the work—that of The most difficult part of the work—that of getting all of the roads to go into the scheme —has already been accomplished. #### Witty and Wise.

Rev. Dr. Henson of Chicago arrived in the ity yesterday afternoon and was the guest of Rev. Dr. Cooley. In the afternoon Dr. Henson visited the institution for the deaf and dumb and gave a short talk to the pupils. Last evening he lectured in the First Baptist church on "The Other Half," Dr. Henson captured this part of the country by his lectures at the Chautauqua assembly last year. He was therefore given a cordial wel-come last evening, and the audience was delighted with the happy mingling of wit and wisdom which characterized this lecture fully as much as any of those which he has formerly as much as any of those which he has formerly delivered here. Dr. Henson is one of the happiest of public speakers. He is a natural humorist, and yet uses his gifts not merely to cause laughter, but to make practical truth more attractive and its impressions stronger. To those who had heard him before, as well as those who heard him for the first time, his before last noted and are better the deas those who heard him for the first time, ins lecture last night served only to excite a de-sire to hear more of him. It is a cause of con-gratulation that he is engaged for other lectures at the coming Chautauqua.

before. N w, that is all wrong and it isn't going to particle of good-unless, percla e, they get ome sat's faction out of kicking. The second board has looked it to this matter and we understand the situa-tion better than a great many of these kickers do They say they must have eight grades. Now then just let me tell you that there is but one eighth grade in the city and there are about eighty pupils, divided between the Hill and Washington avenue schools, and the pupils come from all parts of the city. How

pupils come from all parts of the city. How many cighth grade pupils do you suppose there are in the west end of the city?" "There wouldn't be enough to be found in an ordinary sized school room. Out of the 160 pupils in the high school there are but two from Streetsville. I tell you that the West end is no different from other parts of the city and it is well known that overywhere the city and it is well known that overywhere pupils begin to drop out of school as they get older and there would not be enough pupils in the sixth, seventh and eighth grades at the proposed school building to half fill one room. We can't afford to hire a teacher for two or three pupils and we don't propose to encourage any such extravagance. "Then again, they say that the citizens didn't do anything of the kind. They voted to authorize the school board to issue \$20,000

in bonds, or any such part thereof as the board might deem necessary for the erection of the new building. The citizens didn't vote any new building. They voted to allow the school board to do as it thought best in the matter, but it must not exceed \$20,000. It can fall as far short of that figure as it may wish to.

"Now then, the lowest bid we received for the crection of an eight room building was \$15,000, and add to that the cost of the ground, \$15,000, and add to that the cost of the ground, heating apparatus, etc., and we would ex-ceed the appropriation by about \$3,000? We can build a six room structure for about \$12,000, which is a sav-ing of \$6,000. We would not use over six rooms if we had them, and we do not con-sider it economy to build an eight room house. Even if that part of the city grows as the west enders say it will, a six room house will be ample to accommodate all the pupils there for the next five years. We don't believe in for the next five years. We don't believe in putting in \$6,000 more than is necessary and letting it lie idle for five years and pay inter-est on it all that time. One thing is sure, the building would not improve with age. At the end of that time we can take the \$5,000 and build on an addition if it is necessary, and think that preferable to letting the rooms re-main vacant. With a six room building that end of the city will virtually have ten rooms. counting the houses on Avenue B and Fif-teenth street. That is more according to the population than any other part of the city has. These folks talk about getting out an injunc-tion to prevent the erection of a six-room building. As far as that is concerned we shall not try to stop them. If they want us to rent a lot more of these mission churches for school purposes we can do it, and that is what we will have to do if they enjoin us from erecting the school building. We know how many pupils there are down there. West of Fifteenth street there are but twenty-two sixth grade pupils, seven seventh grade and three eighth grade. That is a total of thirty-

two above the fifth grade, of which at least one-fourth are fully as near the Bloomer and Washington avenue schools as they will be to the new building at Twenty-third street. If we were to accede to the demands of these To be we would have to employ three teachers for those thirty-two pupils, supposing that all of them went to the new building, we have investigated the matter very fully, and we are positive that we are consulting the best interests of the public in taking the action that we have decided upon."

COMMITTEE ON MEAT PRODUCTS

Senator Vest Makes the Report-Four Measures Offered for the Considcration of the Senate-Customs Bill, Taken Up.

WASHINGTON, May 1 .- In the house today the committee on rates reported a resolution for the immediate consideration of bills reported from the judiciary committee in the following order: The senate bill relating to trusts; the house bill relating to copyrights; the house bill relating to bankruptoy, and such other bills as the committee may call up. This order is to be in force today and tomorrow. The resolution was adopted and the house proceeded to consider the senate bill to protect trade and commerce against unlawful re-

tect tr ade and commerce against unlawful re-straints and monopolies. This is the measure known as the "anti-trust bill." An amendment by Mr. Bland, making un-lawful any contract or agreement to prevent competition in the sale or purchase of any commodity trunsported from one state to an-other, was adopted and the bill passed with only one single negative vote. Mr. Adams of Illinois called up the inter-national copyright bill and explained its pro-visions. Without action the house adjourned. During the debate Mr. Cannon announced that the tariff discussion would begin next week.

week.

#### Senate.

WASHINGTON, May 1.-In the senate today Mr. Vest from the select committee on meat products made a report and accompanied it with an explanation. He said that the committee had investigated the subject very fully and had now reported four measures for the consideration of the senate. The first was a concurrent resolution asking the presi-dent to inaugurate diplomatic correspondence with the authorities of Great Britain to being about the repeal or modification of the exis-ting quarantine relations with the United Kingdom. The next measure was one pro-viding for a national meat inspection law and requiring that all live cattle shall be inspected when reported and also all cattle injended for exportation and all meat intended for exportation

The next measure was intended to prohibit the monopoly now practiced as to the storage capacity of steamships carrying cattle to for-eign countries. The evidence had shown that in New York the practice had obtained among the steamship companies belonging to foreign nations (there being no American lines) of leasing or contracting, sometimes a single vessel, sometimes all the vessels of a ine for months in advance to one person. The result was that the other shippers had no op-portunity of putting cattle in foreign markets at all. at all.

Another of the bills was one intended to prevent the discrimination which now ex-isted on all railroads belonging to the Trunk Line association, under which no mileage Line association, under which no mileage was given to any of the improved oattle cars carrying live cattle from the west to the east, while refrigerator cars do get mileage. Mr. Vest asked in, the name of the cattle raisers of the country that these bills be taken up and considered at an early day. Mr. Cullom recognized the importance of the measures and declared himself anxious to secure their early day.

the measures and declared himself anxious to secure their early consideration. He asked Mr. Vest whether the report was very long or whether it could be printed soon. Mr. Vest replied that the report covered about one hundred pages of type-written matter and he supposed it could be printed in a few days.

few days. The house amendment to the senate bill for

a public building at Aurora, Ill., was non-concurred in and d'conference asked. The customs administrative bill was taken up, the pending question being on Mr. Gray's

amendment securing to aggrieved importers the right to bring a common-law suit against the collector of customs.

Mr. Hiscock proposed an amendment to the effect that the court in its discretion may re-ceive additional evidence and send different questions of fact for trial to a jury. After a long discussion Mr. Gray's amendment was laid on the table by a party vote. The bill went over until tomorrow, with the agree-ment that the senate should proceed to vote

o A Flower and Fruit Palace. Sioux City's corn palace and Creston's palace of blue grass will be compelled to divide honors this year with Council Bluffs and Pottawattamic county. A project is fast maturing that will give this city a palace more beautiful and attractive than either of them. It will be constructed of fruit and flowers, and will be a prime attraction at the Pottawattamic county fair to be held at Union driving park in September. That is, this is the outline of the plan on which several of the city's representative men are now hard at work, hoping to carry it through to successful completion.

Some time ago the driving park association entertained the idea of holding a fair the coming fall, and decided that it would not coming hall, and decided that it would not only be a grand good thing but a financial success as well, provided everybody would take hold and help. A committee waited upon the city council to secure an appropria-tion, but as nothing had previously been said about it and there was a feeling that it might result no more favorably than had some of the recent meetings given by the association, the desired appropriation was not medo the desired appropriation was not made. Since then the driving park directors have been working on the matter, and several of the aldermen have also been giving the matter a boost, until now there is a feeling that the fair can be held and made a great success. A number of induce made a great success. A number of influen-tial and prominent stockmen through the county have been induced to assist matter, and it is about settled that Potta-wattamic county will this fall have one of

wattamie county will this fall have one of the finest fairs in the west. The palace of Flora and Ceres will be erected under the di-rection and supervision of Alderman L. A. Casper, and will be a gorgeous affair. Mayor Macrae, Aldermen Lacy and Caspar, Park Commissioner Peregoy and County Su-pervisor Graham are among those who are pushing the scheme in this city; and their ef-forts are being ably seconded by representa-tive men all through the county. It is thought that the fact that this county has not had a county fair for some time will be rather of a county fair for some time will be rather of a benefit than otherwise, and that a general in-terest can be excited among the farmers. The aplendid exhibit made by Pottawattamic county at the Blue Grass palace at Creston last year would pale into insignificance beside an exhibit that would be made at home. It is thought that a week's fair would draw thousands of visitors to the city. All that is needed to make such a fair an immense success is hearty co-operation on the part of all who are willing to assist, and this is what the projectors are trying to secure.

Six Rooms Enough. "Those folks down in the west end of the city don't really know what they are talking about when they make such a kick for an eight-room school building," said a member of the school board yesterday. "They have just got an idea into their heads that nothing else will do and they fly clear off the handle when we propose to put up a six-room building. They don't stop to investigate the matter at all, but they say that other parts of the city have eight-room buildings and they are and soon evoluted into William.

#### Women Quarrel Over a Corpse. There was a remarkable scene at De

vore's undertaking establishment, says a Pittsburg special to the Globe-Dem-ocrat, just before the body of James B. Morgan was borne away to the grave. Morgan kept a shooting gallery on the South side. Last night he died of pneumonia at the West Pennsylvania' hospital. The body was claimed by the present Mrs. Morgan and two friends, She says she married him several years pital. ago in Georgia. While arranging the remains a second woman, with three children, came into the undertaker's and took up her position on the opposite side of the coffin. She was wife No. 1, and after she had kissed the dead man's face and wept over him she declared

A Warning to Baggage Smashers. The baggage smashers had a scare to-day, says an Indianapolis dispatch to the Chicago Heraid. They pulled a trunk out of the car and threw it at the platform. As it fell with a crashing noise. there was a loud explosion, splinters went flying in every direction and a bul-let grazed the ear of Baggageman Tay-lor. A moment later smoke issued from lor. A moment later smoke issued from the hole in the trunk, and it had to be broken open in order to get at the fire. In the bottom of the trunk, which belonged to a Grand Army man, was found a navy revolver of the war period, one barrel of which had been exploded by

#### To Search for Sunken Gold.

The millions of gold that lie in the hold of the English warship De Braak, sunk a mile off Cape Henlopen, will not remain undisturbed this summer, as the Merritt Wrecking company of Philadelphia has contracted to begin work for the treasure on May 15. It is said that the Merritt company located the exact spot last summer where the sunken vesel now lies. All previous attempts have been made by novices, but it is the first time that a regular wrecking organiza-tion has searched for the treasure ship.
