Sioux City 7, Omaha 4. Storx Crix, Ia., May 3 .- [Special Telegram to THE BEE.]-The score of today's game between the Omaha and Sioux City clubs tells the story better than any detailed description except as to Blogg's umpiring, which was indescribably rotten. He was cross-eyed on balls and many of his decisions were so obviously awry that the spectators yelled their protests. The visitors got the worst of it, but his decisions were aggravating to both sides from the start. But the home team won the game by heavy slugging and during base running. Fanning was hit freely and the hits were well bunched, while . the visitors found only five hits in Siebel's CUPVES.

In the first inning Cline hit safe and stole second. Black flew out to Willis. Kappell got his base on balls and then he and Cline farcenously advanced one base. Cline scored on Powell's safe hit, and Brosnan's hot liner let Black and Powell across the plate. Hanra-han and Genins flew out. Omaha went out and and Gennis new out. Online went offer one, two, three until the third inning, when Fanning hit safe and scored on Kearns' hot liner, Sloux City's run in the fifth inning was made on Cline's single, Black's sacrifice and Powell's safe hit. No more runs were made all the ninth inning, when Genins opened with a three bagger. Siebel followed suit, but was called out for not touching second base. Andrews' fumble let Murphy to first, and then Black knocked a clean home run. With Canavan and Kearns thrown out at first, Andrews made a single. Kearns got his base on balls, and Walsh brought both home on a two bagger. Walsh scored on Hines' hit. The game was an interesting one to the large crowd present, but was marred by frequent disputes with the umpire. The

Lew May, state fish commissioner, of South Bend, this state, was in the city yesterday, en route for Lincoln. He reports the piscatorial outlook for future Nebraska to be great, and that the commission is adding to its labors daily and doing the best kind of work. Mr. May will go to Put-in-Bay, Lake Eric, on the 13th, to attend the meeting of the American Fisheries society, which will be in session there the 14th and 15th. He will be accompanied by Mrs. May.

Staley Won.

There was quite a large crowd of sports at the fair grounds yesterday afternoon to witness the one-mile foot-race between Charlie D avis and Wally Staley for a gold medal and \$55 a side. Staley forfeited the medal to Davis by reason of his refusal to make his stake good. The boys ran, however, and Staley won, beating Davis by twenty yards. The time was five minutes and seventeen seconds, which wasn't so bad, considering this was their professional debut.

Jack Morrison's Great Dave.

Jack Morrison has received from a cele brated Chicago kennel a Great Dave puppy that promises to develop into one of the finest specimens of this noble dog there is in the country. Senate.

Mr. Frye, from the committee on commerce, said he was instructed by that committee to report two important bills. The first was to place the American merchant marine engaged n foreign trade on an equality with that of other nations. This, he proceeded to say, was the bill known as the shipping league tonnage bill. The other bill was to provide for ocean mail service between the United States and foreign states and to promote commerce. The two bills were read the first and sec-ond times and were placed on the calendar. IOWA NEWS.

The Meteor. FOREST CITY, Ia., May 3 .- [Special Tele-

gram to THE BEE.]-The meteor seen yesterday in Northern Iowa fell eleven miles north west of this place in about the center of Winnebago county. It fell in a shower of fragments in a field near which a man was plowing. The meteor had exploded from the heat developed by the intense friction in passing through the air. The pieces found range in size from chunks as large as a man's hand down to mere pebbles. They are of meteoric organization and are seared and blackened with the heat. As similar showers are reported in other parts of this section, it is

thought that they were all a part of that meteor that startled people yesterday after-noon and burst with a loud explosion like that

of thunder. ATLANTIC, Ia., May 3.-[Special to THE BRE.]-The meteor which was reported in the northern part of the state yesterday, passed over this city at 4:15 in the afternoon, headed northeast. The meteor left a trail of smoke which could be seen for fifteen min-

utes after its passage. The phenomenon was witnessed by a number of our citizens.

ase in which the plaintiff, an employe of the

defendant, was hurt by the running away of a horse which he was driving for defendant,

and secured a verdict for \$4,000. The case came up on motion for a new trial. The court said that the attorney for defendant

has cited a wrong line of authorities to the court. Instead of citing cases wherein the

liability of master to servant was concerned, the attorney had gone over those relating to the owner and the public.

In cases where injury results to the public from a vicious or unruly animal, in order for

damages to be recovered from the owner, it

must be shown that he knew the animal was vicious or unruly. In a case where the ani

mal of a master causes injury to a servant of that owner, the recovery of damages does not depend upou such knowledge on the master's part. After making a statement to this ef-fect, the court added that he considered the

verdict excessive-almost as much as is re-

covered in case of death-and therefore he would cut it down to \$3,500.

An action will be commenced against John Mitchell, son of Justice Mitchell of Valley, for \$1,000 by Mary Rhodes, a girl of some

THE THEATERS.

"Bluebeard, jr., or Fatima and the Fairy,'

which comes to Boyd's Monday night, is in four acts and a prologue. The latter takes place in "The Gloomy Grotto of the King of Chestnuts" and satires the traditions of the stage, "The Market Place of Constantinop olis" is the next scene. Here the principals of the piece are introduced and the first act closes with Bluebeard's arrival in a magnificent barge of state to claim his promised bride. In the second act is seen "The Glittering Grotto of Fantastic Fancy." This is said to be one of the most novel scenes devised for the American stage in many years. In "The Gloony Grotto" scene the ballet of birds and insects is introduced. It is danced by Clara Qualitz, Madaline Marondo, William Martini and a corps de grasshoppers, lady bugs, parrots, chickens, grasshoppers, lady burgs, parrots, chickens, harlequin butterflies, white moths, fireflies, etc. This is supplemented by the appearance of a troop of little children in a fairy like divertisement entitled "The Children He-roes" and "The Old Woman Who Lived in a Shoe." that the meeting was called to "consider matters connected with the labor troubles." was severely commented upon by a number of those present and the utter absurdity of the statement caused great amusement.

The principal matter which the grand mas-ter workman had to present was something connected with the session of the supreme Following this the grand master addressed

the meeting at some length in a powerful and eloquent manner. During his remarks he congratulated the members upon the wonderful strides which had been made in increas-ing the membership. In December last the total increase had been 205 and this rate had increased until during the month of April the increase had been 275. The membership in the state is now 7 500

After the address by the grand master workman an informal discussion was in dulged in, during which many points of the law of the order were raised and disposed of. The monotony of the discussion was varied by the passing of fruit and cigars by the mem-bers of North Omaha lodge.

Use it for a Dump,

In the portion of the river bottoms north of the Union Pacific shops, and on a line east of Grace street, there is a condition of affairs which demands immediate attention at the hands of some one. The region named is unoccupied, though surrounded with well populated districts. It is covered with marsh grass, pools of stagnant water and groves of scrub trees. Complaint has come to the health department that this region was used as a dump by that portion of the city, and yesterday Sanitary Officer Pettit and Gar-bagemaster Bennett made a tour of inspection. They report that they found there two or three dead horses, an unlimited number of dead dogs and cats and stacks of disease breeding refuse. The northwest winds carry the fumes of the filth over the city. This refuse is dumped on these grounds some time during the night and the chief of police will be asked to detail a man to the place.
