ARE SEPARATED IN OLD AGE.

Sochin Weiss and Wife Henceforth to Tread Diverging Paths.

THEY DIVIDE A PRINCELY ESTATE.

They Decide Never to Remarry and Dispense with Tedions Formalities of a Lawyer-Managed

Divorce.

One of the most striking illustrations of Will Carleton's world-famous farm ballad entitled. "Betsy and I are Out," was learned of by a Bee reporter vesterday afternoon.

The details are far more sensational than the story told in Carleton's beautiful lines, and involve one of the oldest, wealthiest and best known farmers and his wife living in Douglas county.

Douglas county.

Great care has been taken to guard the matter from the public, principally for the sake of the children of the aged couple.

The parties in question are none other than Jochin Weiss and wife, who for eighteen years past have lived on their 400-acre farm less than six miles west of Omaha.

On last Thursday afternoon Mrs. Weiss appeared before Squire Anderson in this city and privately swore out a complaint that will prove a startling revela-

and privately swore out a com-plaint that will prove a startling revela-tion to the hundreds of friends of the old couple. Mrs. Weiss made oath that her nusband had for some time past been acting very cruel toward her. She said that he had beaten and choked her, and had threatened to murder her.

A warrant was immediately issued and
Weiss was arrested, and being brought be-

Weiss was arrested, and being brought be-fore 'Squire Anderson, was bound over to the district court for trial in the sum of \$1,000.

Then Mrs. Weiss proceeded to have divorce papers drawn up. While the lawyer was engaged in doing so Mr. Weiss entered the office and proposed that they separate without going into court and getting a divorce. He offered her an undivided half-interest in all the property valued at more than \$200,000, the form of 400 acres, being alone valued at the farm of 400 acres being alone valued at \$300 an acre, Mrs. Weiss accepted the proposition. The

papers were drawn then and there.

The counie have ten children, the oldest of which is but seventeen years and the youngest is a babe only three months old. Mr. Weiss is about sixty and Mrs. Weiss about fortyfive, though she appears to be fully fifty years of age. The children, all of whom side with their

mother, will, with her, remain upon the farm, while the white-haired old father has commenced a lonely pilgrimage up and down the face of the earth, alone. Owing to the fact that both Mr. and Mrs. Weiss decided that neither would ever care

to marry again, they agreed that no divorce would be obtained.

Everybody Knows

That at this season the blood is filled with im-purities, the accumulation of months of close confinement in poorly ventilated stores, workshops and tenements. All these impurities and every trace of scrofula, sait rheum, or other disease, may be expelled by taking Hood's Sarsaparilla, the best blood purifier ever produced. It is the only medicine of which "100 doses one dollar" is true.

FROM SEVERAL DIRECTIONS. Roads Which Will Probably Be Ex-

tended to this City.

A railroad from Peru, Ia., to Omaha, such as the Chicago, St. Paul & Kansas City contempiates would, if constructed on an air line, pass through the southern parts of Madison, Adair, Cass and Pottawattamie counties, striking McPherson, Hebron, Griswold Carson and a great number of less important points. Peru is situated in the southeast corner of Madison county, a little west and some fifty or sixty miles south of Des Moines. It is not a large place, but happens to be well located for the junction of a branch road. If one were built the town might be made a division headquarters. Officials of the big Chicago roads try to make it appear that there is nothing serious in the proposi-tion of the Chicago, St. Paul & Kansas city. But the fact that with everything to contend against, it has since January 1 been taking more freight than any one line, and double the amount handled by others, out of Omaha, is inducement enough for the com-pany to want a connection of its own with this city. It is compelled now to affiliate with the Wabesh, and therefore must haul traffic nearly 200 miles further to reach Chicago from Omaha than either the Burlington, Rock Island, Milwaukee or Northwestern. What it can do with a direct line can hardly be predicted.

The same company proposes still another branch from its main system, starting at Savannah, Mo., and coming to Omaha by way of Tarkio, through Lincoln creek valley, passing Fillimore and Parker, two promising Missouri towns, crossing the Kansas City, St. Joe & Council Bluffs at Maitland, thence in a northerly direction, through Elkdale, Dawsonville in Nodaway valley, Burlington Junction, Ford Hollow and Plattsmouth, where the Missouri river will be bridged, General Manager Egan, will be bridged. General Manager Egan, Chief Engineer Fernstrum and several others of the Diagonal officials have just been over the route and expressed themselves as well pleased with its physical appearance. They held meetings at various points last week and received liberal offers of bonds from the people. Such a road would give the Chicage, St. Paul & Kansas City a line seven miles shorter between Omaha and Kansas City than that of any other road.

Thinks They Will Succeed. Colonel A. C. Dawes, general passenger

agent of the Kansas City, St. Joe & Council Bluffs, is in town, and speaking of the rate situation said that, unless western lines could succeed in their effort to reorganize the passenger and freight association, greater demoralization than has ever been known would certainly follow. He had spent the last two weeks in Chicago and was going there again to fight for a settlement of difficulties. He thought the prospects for reorganization were good. A plan was in course of preparation by one of the strongest committees that could be appointed and it was expected would be reported not later than Wednesday morning.

The Through Lumber Rate.

The new rate making a reduction of 3 cents per hundred on lumber from Chicago to points west of the Missouri river, went into effect yesterday. As this applies to through shipments, Omaha dealers are no better off than they were before the rate went into effect. When the rate from producing points to the river was lowered to 10 cents, the dealers could afford to bring lumber here and re-ship it, but a proportionate reduction on the brough rate shuts them out.

A Rock Island Appointment.

L. F. Kimball has been appointed first as sistant general freight of the Rock Island with headquarters at Denver and G. A. Kimball, now assistant agent at Denver, will be transferred to the general office in Topeka. L. F. Kimball comes from the Minneapolis & St. Louis road. His appointment takes effect on the 12th instant.

En Route to Omaha.

President Adams, F. L. Ames and probably one or two other directors of the Union Pacific are expected to arrive in this city this morning. They were in Chicago yesterday, where Mr. Adams attends the meeting of western railroad presidents held for the pur-pose of perfecting an organization to take the place of the late "gentlemen's agree-

Notes and Personals. General Traffic Manager Mellen is in Chi-

cago helping to reorganize the western freight association. General Freight Agent Crosby of the B. & M. has gone to a meeting of the Trans-Missorri freight association at Kansas City.

Assistant General Freight Agent Smith of the B. & M. is out on a tour of the Nebraska General Manager Dickenson and party re-

turned from their tour of inspection yester-

HE PUNCHED WITH CARE.

But Was Caught by a Watchful Spottinjaire. Conductor Welsh of the Sixteenth street

motor line is off duty, and at the same time charged with holding \$114 of money belonging to the Omaha street railway com-About ten days ago one of the bell-punches

was missed and a detective was put on the ines to locate it. Every conductor was shadowed. Sunday afternoon, as the spotter was coming up from Hanscom park, his eye caught the num-

ber on Weish's bell-punch, and at once re-membered it corresponded with that of the Welsh was taken from the train at the of-fice, and, upon further investigation, it was discovered that he had knocked down \$114 since he had been working the dummy regis-

The conductor explains that the latter was taken by mistake, and that his own was about the company's offices, while the officers of the company claim the register found about Welsh's neck was stolen by him.

Welsh's neck was stolen by him.

The plan of operation was to keep the stolen punch secreted, in the merning take out the punch belonging to the regular run, and, after getting out on the line, take this off and then slip the stolen one around his neck and the other one into his pocket.

By use of the bogus punch, to an observer, the cash was registered according to the most

the cash was registered according to the most approved style. At night, when it was time to run in, the location of the two punches was changed and the one that rested quietly in the conductor's pocket all day was pulled for a few dollars, that amount turned into the com-pany, and the difference into Welsh's private

If you do not use a whole bottle of Cook' extra dry imperial champagne at once, a rub ber cork will keep it fresh for days.

INQUEST AND BURIAL

Preliminary Steps to Ascertain Who was Nistel's Murderer.

The inquest on the remains of William Nistel, the clerk of J. Bamberger, the wellknown dry goods man, who was shot on April 30, and who died Sunday, was held at the late residence of the deceased yesterday. It was continued until this morning on account of the absence of important witnesses who, through inadvertence, had not been notified to appear.

A jury, composed of Messrs. Fuller, Beranck, Holmes, Erick, Henning and Richardson, was sworn, and the examination of the witnesses present was carried on by Assistant County Attorney Shea.

Dr. Oscar F. Hoffman testified that he had seen culled to attend the deceased immedlately after the shooting, and found him suffering from the shock produced by a gun shot wound in the right lung. The wound, he stated, was necessarily fatal.

George Stover, a candymaker, and friend of the deceased, stated that he was with him at the time of his death and said that Nistel had given credence as well as he was able to an account of the affair given by one of the persons present, just before he died. Witness described the death throes and delirium of young Nistel just before his death and said that it had taken four strong men to hold him in his bed.

Dr. W. J. Galbraith, who made the postmortem examination, in describing the wound stated that the builet had entered the body about three inches below the right nipple, had penetrated the lung and, taking a down-ward deflection had struck the spinal column, dropped into the abdominal cavity and was lost among the pelvic tissues. The lung, he said, was badly lacerated and had collapsed. The bullet, he judged from the appearance of the lung, had been projected from a thirty-eight caliber re-

E. E. Potter, a clerk in the office of the Omaha Rubber company, and a chum of Nis-tel, said that he had been present when Nis-tel was brought home. He also described his death and the nature of his wound.

Officer Sebek, who arrested Reynolds, the alleged murderer, had not been notified to appear at the inquest, neither had Hall the insurance man who drove Nistel to the police station, and the inquest was postponed until

the time given above.

The funeral of the victim occurred from the residence of his parents at 2 o'clock, the remains being interred in the Bohemian ceme-

The following gentlemen acted as pall bearers: George Stover, Wilber Forbish, O. Bayersdorfer, E. E. Potter, Frank Jellon and Joseph Novak.

Many and beautiful floral offerings were re-ceived from Mr. Bamberger, fellow clerks and friends of the dead young man. The bereaved father wishes to thank their who have remembered his family in those

Deaf Mute Society Reorganized. The deaf mutes of Omaha and vicinity met last Saturday evening at the Presbyterian church, corner of Lowe and Mercer avenues, and reorganized their society. They elected the following officers: President, Elmer E. | pany.

Smith; vice president, John Henzmann; secretary, Russell Smith; treasurer, Fred L. Reid; executive committee, Mrs. Reid, Messrs, Weinberger and John Clark. The object of the society is the intellectual development and good fellowship of its members. Its name was previously the Missouri Valley Deaf Mute society, but it has been changed to the Gate City Deaf Mute society. Hereafter the society will meet regularly every Thursday evening instead of every two every Thursday evening instead of every two weeks. A committee of three will be ap-pointed to revise the constitution and by-laws, which will probably be ready in two

The Sioux Reservation. After all the talk to the contrary it is now admitted that the lands on the great Sioux reservation opposite Pierre are very valuable not only for general farming but for stock

raising. There are thousands or head of horses and cattle in that porrion of Dakota that have never been fed a spear of hay, and they are in fine healthy condition. Pierre is reaping great benefits from the immigration now going in.

ANNEXATION AND BONDS.

Both Will Be Voted Upon in the Two Omahas Thursday.

On Thursday, May 8, the election on the question of annexing South Omaha will take

place in this city. This question will include several others, among them being the following: Shall the city in the event of including

South Omaha within its limits assume and pay all the indebtedness of the little place, supposed to amount to \$257,000, with accrued and unpaid interest, and also all outstanding contracts of the same city!

Shall Omaha recognize as valid all franchises heretofore granted in South Omaha to the same extent as they have been heretofore been recognized in that city? Shall the general floating indebtedness of

South Omaha existing at the time of elec-tion be assumed and paid by the city of Omaha! There will also be submitted to the citizens

the question of voting bonds to the amount of \$175,000 to run twenty years at 414 per cent. Of these \$75,000 are to be devoted to paying, repaying and macadamizing intersections of streets and spaces opposite alleys: \$50,000 for the construction and maintenance of sewers, and \$50,000 for the construction of four or more fire engine houses. The questions involved in annexation shall submitted entire as well as those concern-

ing the bonds.

All votes "Yes" shall be counted in favor of and all votes "No" shall be counted against the propositions.

The polls shall be open on Thursday next from 8 o'clock in the morning until 6 o'clock in the evening at the following places: ing the bonds.

the Rainbow of Promise

From the store-house of Nature came by intuition a priceless boon to the human race, through which physical sufferers in untold thousands are made to rejoice in the restoration of health, and all the blessings, joys and pleasures thereunto pertaining.

"IT HAS BEEN A BLESSING TO ME," Is the manner in which Mrs. M. A. Peeler, an estimable lady of Morgantown, N. C., expresses

her appreciation of Swift's Specific. The following is an extract from her letter: Swift's Specific (S. S. S.) has been a blessing to me. Afflicted with rheumatism and female weakness for a number of years, during which time I took a great deal of medicine, nothing giving me relief but Swift's Specific (S. S. S.) What I suffered and endured before commencing on Swift's Specific (S. S. S.) is painful to even think about; but after taking that medicine I got well, and have continued to enjoy the best health since. I cannot say more than I believe in the praise of Swift's Specific (S. S. S.)

CURED HER CHILD.

Two years ago scrofula appeared in the head of my little grandchild, then 18 months old After using a number of bottles of Swift's Specific the disease entirely disappeared. MRS. RUTH BERKLEY, Salina, Kansas.
