Omaha 3, Des Moines 2.

DES MOINES, Ia., May 15.-[Special Tele-gram to THE BEE.]-The Omaha team was victorious today, a fact which was probably as much of a surprise to themselves as to the spectators and the local club. But anything was likely to happen and it was anybody's game all the way through. Clarke went into the box for Omaha and gave it out in the beginning that he was in the game to win, and cautioned the rather incompetent umpire that he wanted no rank decisions. Billy Hart twisted for the locals and up a remarkable game unput last inning, when four the of the six hits were made off his delivery. Clarke kept the hits well scattered except in the third, when the first score was made on triple by Hart and singles by Patton and triple by Hart and singles by Patton and Flanagan. Omaha scored in the fourth by a base on balls to Kearns, who stole second, went to third on a passed ball, and crossed the plate on a wild throw by Traffley. Des Moines got the lead again in the sixth through went to third on a passed ball, and scored on Clarke's hit. Nothing more was done until the minth, when Omaha won the game by a fortunate streak of batting. Andrews was first to bat, but flew out to left. Then Kearns got a hit for a base, went to second on Cleveland's single and crossed the plate on Moran's single. Cleveland was put out trying to score on Clarke's short in-fielder, but Moran had stolen second and made the winning run on Urounhart's single. The score:

has had unequivocally the best of it. Prince, too, apparently has exerted himself to the utmost to break even with his military antagonist, but in each instance has been com tagonist, but in each instance has been com-pelled to content himself with second honors. Whether Prince, who is known to be one of the tricklest and foxiest of all professionals, is really riding for all he is worth in these spurts the spectators must judge for them-selves, but if he is riding honestly and doing his best it is a foregone conclusion that he might a wall derate the concer for he is no might as well elevate the sponge, for he is no match for the soldier. Both contestants received floral tributes last evening, but even these tokens of admira-tion failed to accelerate their speed. They have no time for sweet violets yet awhile. In the pools the two men are selling evenly, but ns yet no big side wagers have been made. No one seems to be satisfied with the showing so far, and they are walting for the tip

which the first vantage gain will surely supply. At the finish last evening the excitement was intense. Reading never rode better or with more velocity in his life, and Prince's efforts to overhaul and pass him were unavailing, the soldler shooting like a meteor across the tape fully two lengths in the lead. in attendance.

The attendance this evening will undoubtedty be very large, as the interest in the con-test grows with each day. For Saturday night several of the private boxes have already been sold, and it is no exaggeration to say that a concourse of eight or ten thousand copie will be present to witness the close of he most famous bicycle race ever run in imerica. The world's record so far has been caten nearly two miles and a half. The Miles. Laps.

Miss O'Brien's Injury. Miss Kittie O'Brien, one of the lady bicycle

riders who rode in the recent race here, suffered a serious fall while practicing a few mornings ago, and has been confined to her bed ever since. In addition to a severe gash in the head, she fractured the upper jaw, necessitating the extraction of three front eeth, and sustained some painful contusions. Miss O'Brien, who is a very lady-like and de serving young girl, is anxious to return to her home in the east, and a subscription paper for her assistance is in the hands of the Wheel

THE SPEED RING.

The Brooklyn Handicap.

BROOKLYN, May 15 .- The Brooklyn Jockey club today probably had the largest attendance seen at its track since the opening day, the occasion being the beginning of its spring meetings. Added to this was the attraction of the Brooklyn handicap, one of the great winter betting events. There were at least 20,000 people present. The weather unpleasant, the rain coming down in a drizzle during the afternoon. The track was very muddy, though not exactly "holding." The event of the day, the Brooklyn handicap, resulted in a somewhat unpleasant surprise for the bulk of the backers, inasmuch as a horse that had been running coorly at the winter track won in a conven

ient kind of a canter. Los An-geles, the favorite, to the surprise of everybody, was never in the race and the only animal that made any pretension to covering the ground was Badge, but it was a good race under the circumstances, however, and the time made was surprisingly fast, the first half being run in 51 seconds, and the mile in 1:43.

The great handicap was the fourth event. The great hand(cap was the fourth event, distance one mile and a quarter for three-year-olds and upwards. Starters: Sir Dixon (Garrison), Los Augeles (Barnes), Come-to-Taw (Day), Badge (Hayward), Eric (War-wick), Orithamme (Anderson), Cynosure (Regan), Castaway H, (Dunn), Vengeur (Martin).

(Martin). Just before the star event of the day the betting paddock was a sight to behold. Men fought like tigers to reach the bookmakers. Old race-goers say they nover saw such intense excitement around a track. The

fair, the weather cool and the track slow.

THE DISCIPLES OF CALVIN. blessing Hev. Opening of the Presbyterian General Assembly at Saratoga. 1 -MODERATOR ROBERT'S ADDRESS.

The Privileges of Presbyterians and Their Consequent Obligations-Wealth of the Church-Creed Revision.

SARATOGA, N. Y., May 15.-The Presbyterian general assembly was opened this morn-ing by Rev. Dr. Herrick Johnson of Chicago with between one and two thousand persons President Roberts of Lake Forest (Illinois)

university, the retiring moderator, delivered an address on "The Privileges and the Consequent Obligations of the Presbyterian Church." He reviewed the work of the church, etc., at length and dweit upon the matter of revision. This was in the enumerating of the special privileges, among which were, he said, a "clear cut, strong and scriptural creed. Notwithstanding the few objectionable passages the alleged incorrect

interpretations of the scripture and the questionable philosophy of two or three paragraphs in our standards they are a marvel of skill and dialectic acumen. They have been justly classed among the best specimens extant of clear thought and cogent reasoning. They

were prepared in troublous times for purposes of uniting in one church all Christians of Great Britain and Ireland. Every paraof Great Britani and Tranad. Every para-graph was heated in the fires of controversy and forged into bars of gold, not only by the best theologians of the church, but by the ablest statesmen also of both houses of parli-ament. The shorter catechism has been pro-

nounced by many who have had no sympathy with its doctrines, the best compendium of scriptural truths this world has ever seen. The standards are not only clear cut, but exceedingly strong. They are based largely on God's sovereignty. It is no such sovereignty, however, as implies arbitrariness or injustice, but such as abases the proud and encourages

the lowly. "It is loudly preclaimed in these days that "It is founly preclaimed in these days that the doctrines of our standards are destitute of the breathings of God's love. This is largely true. The tender phase of the divine character is not so clearly set forth as it ought to be in this age, but it must not be forgotton

that the church has been undergoing a process of evolution from her infantile days to the present time. Grace and truth come by Jesus Christ, but those lovely qualities could have come only after the way had been prepared for them by the sterner qualities of the law which came by Moses. The strong truths of our Calvanistic creed are not to be looked

upon, therefore, as monstrosities, but as the necessary antecedents to milder and more lovable doctrines. These doctrines have been drawn out of God's word in such a way as to forbid the making of any essential changes in them without doing violence to that word." Among other privileges of the church enumerated and dilated upon were: A government more in keeping with scripture than that of any other branch of the church; the championship in the cause of education; superior missionary appliances and her con-ceded wealth. On this latter point Dr. Roberts said, in part: "It may seem doubtful at first sight whether riches can be regarded as one of the privileges of the church of Christ. In them-

selves considered they cannot be an indica tion of moral power or usefulness; neverthe less, they do acquire, according to the best known principles of ethics, morality as well as strength when viewed as a trust for God's glory and the good of the world. It is often alleged that our church owns and controls

more money than any other church in our land. One of the congregations in New York city is said to possess more than \$100,000,000. The Presbyterians of Chicago have under their control, not in their possession, \$300,000,000. This is a fair sample of what is to be found in other communities east and west. It is certainly a great privilege to be entrusted with so much of Lord's money, if we have the grace to use it as good and faithful servants."

Dr. Roberts added that the obligations arising from these privileges come under the ever much is given of nto whom him shall much be required," and Wednesday night on the Chicago, St. Paul & reat length on the duty of the church. The Kansas City train from the west, and in the "There is evident looseness not only in adabsence of an express wagon left his trunks in the depot with instructions that they be mitting men into the ministry, but also in sent to his hotel in the morning. During the giving church sessions unlimited license to supply their own pulpits. In many congrehigh burglars effected an entrance to the depot and rifled both of the trunks, which gations the ministers are hired by the year, like a clerk. The community in which they contained \$20,000 worth of watches, jewelry ried into a field adjoining the depot where it live regards them not as permanent factors in their social or religious life. The value of the permanent pastorate is beyond all compuwas found, together with the less valuable portions of its contents. All of the diamonds, about two hundred and fifty gold and silver tation. THE SCHOOL BOND QUESTION. AN ORIGINAL PACKAGE STORE. One Opened in Kansas City, Kan., as

Disposed of at Last Night's Meeting of the ogram to THE BEE.]-Today the first real Board of Education. original package store, under the recent decision of the supreme court, was opened. One

WILL HOLD A SPECIAL ELECTION.

On Saturday, May 31, the Matter Will Be Resubmitted to the Voters of the City-Interest Fixed at 4 Per Cent.

A special meeting of the board of education was held last night to again consider the question of submitting a bond proposition to a vote of the people.

President Goodman stated the object of the meeting and the roll call showed all the members present.

On motion of Mr. Coburn the report of the committee of the whole, which had been proented at the last meeting, was read.

On motion of Mr. Clarke the board went into committee of the whole with Mr. Points in the chair.

Mr. Clarke wanted to have the rate of in terest on the bonds fixed at 4 per cent instead of 5.

Mr. McConnell advocated fixing the rate at 415 per cent, as he had looked into the matter and thought the bonds could be floated to better advantage at 414 per cent. Mr. Clarke was of the opinion that there would be no difficulty in floating school bonds

at 4 per cent. The credit of the city was of the best, and he thought there would be no delay in selling the bonds at a good premium The question of fixing the rate of interes interest at 4 per cent was proposed and was lost. Mr. Robinson moved to fix the rate at 414 per cent. The motion carried.

Mr. Felton moved that the proposition to submit bonds be divided, placing the \$75,000 proposed to be appropriated for the high school addition in a separate proposition and the balance of the items in another proposition.

Mr. Martin supported the motion and ex-LONDON, May 15 .- In the commons tonight plained that if the high school proposition had merit enough to carry it would go through as well by itself as in the proposition with the other schools, and if it was not the debate was resumed on the license bill. Sir James Larkin, Mr. Gladstone, Sir William Harcourt, Secretary Matthews and strong enough to carry of itself there was no use in having it a dead weight on the balance Mr. Smith spoke. Gladstone said the means proposed were utterly futile and extremely dangerous. The

of the proposition. Mr. Robinson made a strong argument against the motion. He said the district about the high school had cast over one-third of the votes cast in favor of the bonds at the last election. He was strongly opposed to making a separate proposition of the high school question unless the proposed appromanner unfavorable to the doctrine of vested interests. He certainly never contemplated approving such a bill as this, which proposed priation for each school were made separate

Mr. Felton said the board had tried severa times to carry a proposition with the high school question included, and had failed e, and he predicted that they would every ti keep on failing as long as that question was

made a part of the whole. Mr. Wenrer surpassed himself and made a strong argument against jeopardizing the whole proposition by tacking the high school clause onto it. He said he would be in favor of buying a lot in that vicinity and putting up a \$50,000 building, but he was opposed to erilling the whole question by insisting on bading it down with the high school.

Mr. McConnell opposed making a separate proposition of the high school. He said the members should not be governed entirely by the newspapers. The members were in position to learn the general sentiment of the people as well as the editors of the papers. Every man was entitled to his own opinion, but he thought the citizens in the vicinity of the high school should be allowed all facilities for educating their children which were accorded people in other localities. It was only a question of time, he said, when the high school would have to give way to the graded schools if provision was not made for

Mr. Felton attempted to withdraw his motion, but his second, Mr. Martin, would not consent. The latter said the question was purely one of policy. A great many people wanted the two questions separated, and he thought it was policy to do as public sentiment dictated.

that in which the canteen is located, when-ever he is satisfied that giving to the men the opportunity of obtaining such beverages within the post limits has the effect of pre-venting them from resorting for strong in-toxicants to places without such limits and Mr. Wehrer arose to the occasion again and wanted to know why the people in the Fourth ward wanted everything in the centre of the city. He said the people in the outtends to promote temperance and discipline among them. The practice of what is known skirts wanted their children given as good an as "those of the high ne couldn't afford to send their children five or six miles to school. The motion to make separate questions of the proposition was put to vote and lost. Mr. Felton then moved to add a clause ap-propriating \$25,000 for the erection of an Hamburg. At New York-The California, from Hamburg; the Waesland, from Antwerp. At Boston-The Istrian, from Liverpoo supported it by saying this vicinity was badly

THE LIFE IN A GLASS.

It Does Not Seem to be Very Much but It Is Often Enough to be the Reginning of Death.

Did you ever hold a glass of drinking water up to the light and notice how completely filled it was with little particles of matter] It looked perfectly clean and pure when you poured it out, but yet it was recking with animal or vegetable matter. Do you immagine it can be healthy? Do you wonder why, in a little while, your month tastes had, your appetite is poor and you feel a general disgust with the world? But if water is so impure what shall we do? Bollit? No, that may kill the germs, but does not remove

them. A far better way is to use pure whiskey with It. The best physicians in America, unhesitalingly declare this now, but - and bear this carefully in mind it must be PURE whiskey, for impure whiskey is worse than impure water.

Doctors, chemists, scientists and professors, ara now fully agreed that no whiskoy used in America to-day is so chemically pure or free from fusel oil, as Duffy's Pure Mall. It has successfully withstood the enuity of all other whiskles, the prejudice of weak minded and the bigotry of narrow minded people Why? Because it has produced results, restored health, prolonged life, awakened the lagging faculties and counteracted the evil effects of poisonous water. Indeed, it is a pure, medicinal whiskey. Do not, however, allow any unscrippious dealer to impose upon you by declaring he has some concoction of his own that is "just as good," or some bottled whiskey that is "much better." It is the very popu larity of Duffy's Pure Mail that has caused these un worthy decoctions to come into the market.

TWENTY-SIX MINERS BURIED.

A Terrible Cave-in Reported From Ashley Pennsylvania.

LITTLE HOPE FOR THE VICTIMS.

Old Coal Diggers Say the Chances of the Entombed Men Are Very Poor-Three Brought to the Surface.

WILKESBARRE, Pa., May 15.-Information has just reached here from Ashley that an extensive cave-in occurred at noon today in a mine operated by the Lehigh & Wilkesbarro coal company. It is rumored that twenty-six tide of public opinion against the liquor traffic miners are entombed and have as yet no way of escape. Many houses in the vicinity of the accident are reported as in a toppling condition.

There is great excitement at the some of the cave-in, many thousands of people being congregated there. The company took prompt action toward liberating the imprisoned men, but things are in such a chaotic condition that the results are by no meancertain. Many believe that the rescue of those twenty-five men alive is nearly impossi The present cave in extends over half a mile square and includes a portion of thickly settled village called Moffett's Hatch. A large number of houses have gone down with the surface, but only a few of them have been badly damaged. Later-It is now known that there were

twenty-seven miners entombed in the mine. The cave-in occurred at 9 o'clock this morning in No. 6 colliery, covoring an area of more than ten acres. The surface almost as than ten acres. The surface almost as far as the eye can reach was scaned and cracked, with long circular dissures, some of which were over two feet wide. Thousands rushed to the scene of the disaster and the lamentations of wives and little ones were heartrending. Rescaing parties were immediately organized and gang after gang relieved one another until a o'clock, when the news passed that they had succeeded in breaking through the chambers beneath the cave-in. About 6:30 the charred and blackened form

About 6 30 the charrent and obackened form of Anthony Froyne was hoisted to the sur-face. He was still alive, but his injuries are considered fatal. Old miners say that the fact of Froyne being, so badly burnt lent very little hope for the safety of his companions. Wreck and ruin were wrought of the surface of the each as well as in the fatalipit. Nearly a score of houses were shuttered and destroyed and the families compelled to flee for their lives.

Up to 11 o'clock two men have been taken out besides Froyne. Fireboss John Allen and

beer. They are wrapped in blue paper and they cost the purchasers just 20 cents. As soon as the people became aware of what had happened they commenced to flock toward the depot. John Michael, the package vender, expected a rush, but he was hardly prepared for the thirsty horde that swooped down on him. Some of the most enthusiastic imbibers tucked bottles under their arms and danced down the avenue shouttheir arms and danced down the avenue shout well known citizen, as soon as he heard th

Baseball at Ulysses.

ULYSSES, Neb., May 15.-[Special Tele-gram to THEBLE.]-Ulysses is wideawake on the baseball question this year. The club has been reorganized, with a paid up capital of 50. A strong team has been engaged and e first game of the season will be played \$350 tommorrow and Saturday with the Lincoln

The Bicycle Race.

The audience at the Coliseum last night was a sight in itself, there being a few short of three thousand paid admissions. Without question it was also the best attendance in point of quality that ever assembled in the building there being many of the most prominent citizens there. The concert selection by the Second Infantry band was truly a grand one, the cornet duet, "Verwandte Seelen," Ellenberg, and the polka, "Firemen's Novelty," Ripley, eliciting the most pronounced applause. The band is certainly one of the best trained musical organizations in the country, and

these concerts are a treat all lovers of artistic music should not miss. There is but little new to relate of the bicyclistic efforts of Prince and Reading, as

the riders still continued to carry out the programme each laid out, for himself on the inaugural night. And that is, Reading sets the pace, riding as if his life was in geopardy, and Prince imperturbably degging his trail. Some think that the Englishman, realiz-ing that he has a hard man to beat, has resolved to take no chance—that he will stick close to the sol-dier's wheel until the last moment, then call into requisition all his reserve forces and spurt him out of both laurels and simoleons. Others are included, basing their opinions upon the condition of the two men and the nature of the efforts each have called forta, to believe that Reading is the superior man both as to speed and endurance, and that Prince is already a defeated man. On every apart that has been made thus far the soldior

scene when the bell rung was an animated one, men ran hither and thither to gain points of vantage. After a short delay the flag fell to an excellent start. Castaway at once took took the track and passing the

nechanic of the Chicago, St. Paul & Kansas lity railway, was in the city today and stated that negotiations are being made for the pur chase of the Mason City & Fort Dodge rail-way by the former company.

DR. GRACEY'S LECTURE.

A Missionary's Experience in the Dark Continent.

Rev. Dr. J. T. Gracey of Buffalo, N. Y., delivered a locture at the First M. E. church last night in the interest of the Woman's Foreign Missionary society of Omaha. Dr. Grugey has a charming person ofinitia. Dr. Gring y nis a trans a broad, ality. He is not, wharge man, has a broad, white forchead a mobile face, graced by gray side whiskers. One of his chief characteristics is a frank, winning smile and a happy knack of making witty replies to the greetings of new ac doom. The northwest is trembling on th qualitatives. They dector is now mainly en-gaged in literary work, being the associate editor of two of the leading Methodist Episcopal journals of the east, besides con-tributing largely to contemporaneous religtop of a volcano that may at any moment shake into pieces its proudest political and religious fabrics. The southwest is groaning under the domination of Rome. The Wahsatch mountains are holding today in ous literature.

For seven years the doctor was a missionary in India, during which time he gathered a vast fund of information regarding missionary work which he imparts during his desultory lectures throughout the vastate the contiguous states and tarritories. The Pacific coast is threatened with heathen Infidelity, intellectual and practical, i ism. Innocentry, intellectual and practical, is everywhere striving to overthrow our protes-tant christianity. It has the tongue of the orator and the car of the populace. It is becoming every day more and more resolute, formidable and boastful. What, but Christ's

In 1877 the doctor made a trip along some two thousand milles of the west coast of Africa, in company with Bishop Gilbert Ha-ven and his nephew, looking after the various missionary stations. Their ship proved ungospel, the power of God into salvation, can meet such threatening evils. Dr. Roberts added that notwithstanding all this hopeful prospects are not wanting to encourage the church in home missionary

missionary stations. Then simp prove were compelled to abandon it. The doctor's discourse was a chatty and friendly description of his experiences. He described the manners and customs of the work and urged a renewed effort. "More men are needed, particularly in the west. The foreign field is also calling for more men Another task to which the ould bend her energies truct her members in different tribes visited, their peculiar relig ous rites, their language and mode of living, with imitations of their different dialects. the meaning of true stewardship and the use of money. No department of Christian work the meaning of true stewardship and the use of money. No department of Christian work is so poorly developed as that of pecuniary of the mission and their friends.
