#### Milwaukee 4, Omaha 3,

MILWAUKER, Wis., May 23,-[Special-Telegram to Tue Bee.]-Prettier ball playing has seldom been seen on the Milwaukee grounds than that in the game this afternoon between the Omaha boys and the Brewers. It was narrowly and nobly fought until the last man had retired in the last inning. Until that time if was nobody's game, but when it was all over the Milwaukees had scratched out a victory. Fanning pitched in phenomenal form until the eighth, up to which time only one hit had been found out of his curves Urquahart backed him up in his usual strong shape. Davies, who has been unusually wild this season thus far, did marvelous work, only in the third, when the visitors got their three runs, was he hit with any effect.

Fanning opened with a hit. Waish got to first on an error of the pitcher, and then Kearas brought Fanning home with a hit, while both came in on a double by Andrews that would have retired him but for poor management, Shock fail ing to name the man who was to catch Andrews' fly. After this inning Davies was hit for but two singles. In the fifth Canavan and Walsh struck out in suc cession. In the sixth three men were fanned out in one, two, three style, and in the sev enth the university student could have any thing he wanted. He struck out two more and gave the other a pop fly to the second baseman. The Brewers got their first run in the second, when Kreig started, while his predecessor was called out at second, though Canavan dropped the ball thrown him by Walsh. Kreig went to third on Welch's hi home on Willis' wild throw to Urqua Two singles and an error an's let in another in hart. Canavan's The Brewers won the game in th right right. The Brewers won the game in the ninth. Morrissey hit to Walsh and touched first, while Andrews went up in the air after the ball. Alberts followed on a gift. Here "Old Reliable" Kreig laid down on the ball for two bases, but was shut off at third, when the three men who followed him were re-tired. The local club put up a great game in the ninth, and only hard scratching pre vented the Nebraskans pulling the game out.

DUN'S REVIEW OF THE WEEK.

The Volume of Legitimate Business Gradually on the Increase.

COMMERCIAL CREDITS UNDISTURBED.

Exports and Imports in Excess of Last Year-Reports from Various Cities Encouraging-Increase in

## Failures.

NEW YORK, May 23 .- [Special Telegram to

THE BEE.]-R. G. Dunn & Co.'s Weekly Review of Trade says: All ordinary business indications grow mor favorable. While speculations in some lines is active, possibly nearing the point of

danger, it is undeniable that the volume of legitimate business is on the whole greater than it has been at this season in any previous year. Money is comparatively easy and commercial credits undisturbed. The volume of business at New York has been swallowed by heavy speculation and at Boston sales of stocks are three times those of last year. Bank

clearings at Boston, Philadelphia and Chicago are 29 per cent larger than a year ago, while the aggregate at all points outside of New York is 25 per cent above last year. The railroad earnings still tell the same story. The foreign trade shows less change, and yet it is heavy. Exports in May of this year are 14 per cent larger than a year ago and imports here 6 per cent larger. In all these compari-sons it is to be remembered that last year's movement was about the largest ever recorded.

The reports from other cities are more en couraging than usual. At Boston a very fair business is reported, with money easy and the lumber trade not affected by the carpenters' strike. At Philadelphia business is of fair volume at low prices and money in plenty and cheap; iron improves. At Chi-cago the movement in grain and meats ex-ceeds last year. The dry goods trade is good, though not up to last year. Liberal orders for boots and shoes and larger sales than for

some time are noted, but there is a slight resome time are noted, but there is a sught re-lapse in clothing. The money market is un-changed and the prospect is deemed good. St. Louis reports favorably as to nearly all lines of trade, with money in good demand. At Milwaukee and St. Paul trade is good and bus-iness at Omaha and Kangas City is up to the ness at Omaha and Kansas City is up to the average, with some duliness at Detroit be-cause of the cool weather. But at that and all other reporting points this week collec-tions are fair, the money markets are undis turbed and there is apparently much confidence in the immediate commercial feature The great industries also look better, and even at Pittsburg, where the recent decline in iron was felt more, there is a decided im-provement, Pittsburg being higher and Bessemer fully \$1 per ton, with manu-factured iron stronger. At Philadelphia prices are slightly improved. Nothing favorable can be reported of the woolen manufacture of the trade in woolens, except that makers appear to have adjusted themselves to the situa-tion, and though buying only for present needs, are still buying with the hope that a change in the tariff may loosen foreign com

In the speculative markets wheat has been In the speculative markets wheat has been stronger, rising 2 cents on sales of 33,000,000 bushels here, and the exports continue fair. Corn has declined nearly 1 cent and oats risen as much. Pork products are all a shade lower and coffee unchanged, but oil has risen over 5c and cotton 7-16c. In general the prices of pro-ducts are hencer then a mach are and rid! ducts are lower than a week ago and aturally decline as new crops approach. #### Washington Notes.

WASHINGTON, May 23 .- Ex-Senator Mc-Donald made a motion today before the supreme court for a rehearing of the Mormon case and to vacate the mandate. The court refused a rehearing, but allowed the latter part of the motion. It was satisfied the conclusions reached were correct, but not the term of decree entered and took the matter under adadvisement until next term. It is under-stood the object is to ascertain if there be not some method by which the money accumu-lated by the church of the Latter Day Saints can be returned to some source that will not use the funds for propagation of polygamy, there being a reluctance to absolutely confis cate the property. The interstate commerce commission today
