

THE COOK REMEDY CO'S MAGIC REMEDY

FOR THE CURSIVE OF THE WORST CASES OF SYPHILIS IN 20 TO 60 DAYS.

Read the following Testimonials, and write for names of some we have cured. COOK REMEDY COMPANY, 13th and Dodge Sts., Omaha, Neb.

Sworn Testimony:
STATE OF IOWA, ss.
COUNTY OF MARSHALL, ss.
I, J. L. CARNEY, of Marshalltown, Marshall County, State of Iowa, being duly sworn, depose and say that in December, 1887, I went to the Cook Remedy Company, of Omaha, to be treated for what is known as Syphilis. Prior to going to them I had treated with prominent physicians for about six months, and all the time continued to grow worse, until I was completely covered with sores, having thick, warty scabs from an eighth to one-half inch thick, many of which had run together so that some were as large as my hand. The bottom of my feet were one complete scab, which would crack open if I attempted to walk. My hair had fallen out and I had several large sores on my scalp and face. Physicians that had treated me had given up all hope of ever doing me any good, and frequently said they were using the best remedies known to the profession, to cure the disease, but that they had no effect on me whatever.

I treated with the Cook Remedy Company for thirty-five days and returned home free from all sores, and feeling as though I had a new lease of life. I began to fresh up, and to this day am in perfect health, and my hair has grown thick and long. It is now nearly ten months since I took their treatment, and as yet have not seen any symptoms of the disease, all which is true to the best of my knowledge and belief.

[Signed]
Subscribed and sworn to before me, J. L. Carney, a notary public in and for the county of Marshall, state of Iowa, this 20th day of October, 1888.
[SEAL.] J. L. CARNEY, Notary Public.

The following affidavit is made by one of the physicians who treated Miss— for nearly six months, and he was confident in his own mind at the same time she came to us that she would never recover. He has since died her as much:

STATE OF IOWA, ss.
COUNTY OF DALLAS, ss.
I, C. H. Stull, M. D., of Perry, Dallas Co., State of Iowa, being duly sworn, depose and say that I am a regular physician, and licensed to practice under the laws of the state of Iowa. I have read the foregoing affidavit of Miss— and can truthfully say that I am knowing to all the facts therein stated, and can further testify that I was one of the physicians who treated her and had given up all hope prior to her going to the Cook Remedy Co. She had been gradually growing worse, and this too, while under the treatment of the best remedies known to the medical profession at that time. Her statement as to her condition before going to them is true in every particular, and on her return, after treating with them a little over a month, she was apparently well and free from all sores, and up to the present time, there has been no manifestations of any return of the disease, and I have every reason to believe that she is permanently cured.

C. H. STULL, M. D., Sworn and subscribed to before me, a justice of the peace, in and for Dallas county, state of Iowa, this 20th day of October, 1888.
R. L. LUCEY, Justice of the Peace.

We have the originals of both these statements on file in our office. Three years after treatment the above patient writes us as follows:

March 27, 1890.
Cook Remedy Co.—Dear Sirs: Your most welcome letter was received yesterday and I was pleased to hear you were interested enough in me to write. My health could not be better than it is at the present time, and has been for the past five months. The sores are all healed and has been for a long time. I have no reason now to think that I am not as well as I ever was in my life. I suppose you think I have forgotten you all and am not thankful for what you have done for me, but such is not the case. I often speak of you and often think how well I would like to go to Omaha once more and see you all. I know I have no way of getting there so there is no use of my thinking of seeing any of you again. But I will never forget what all you did for me, if I did I'll treat you while I was there. You would hardly know me as I have changed so much since I left Omaha; I was pale and poor while there. I now weigh 140 pounds with my coat on. I had been at work for a lady for the last four months but am at home now.
Yours truly,
Miss N.

From Another Patient.
September 24, 1889.

Cook Remedy Co., Omaha, Neb.—Sirs: In answer to your request for a testimonial of my personal experience in taking your Remedy, an only too glad of an opportunity to tell of the great benefit I derived from it. When I went to you, had on the different parts of my body a fine running ulcer, two of which were on my left leg and had been running sores for over six months. Had been to Hot Springs, Ark., for two months, also doctored with five different doctors in the three years that I was afflicted with that terrible disease. At last I made up my mind that it was incurable, and when I was told of your remedy and its effects, concluded to try it as my last chance. But to fully describe my happiness when in only eight days my sores were drying up and the scabs falling off, is something I cannot describe with a pen, and when after 21 days every one was gone, I was the happiest man in Omaha. Before I went to you experienced great trouble at different times from the effects of the great amount of mercury

that I had taken previous to going to you. Whenever I got wet either my arms or legs would have sharp pains and my arms would have to be rubbed and hot fannels applied before the joints would bend. Also, always had a sore feeling in my joints, and my legs were always tired; but since I have taken your Remedy have not felt a mercury pain and my joints are as limber as ever were, and I sincerely believe the last vestige of mercury is completely eradicated from my system.
S. A., Lead City, Dak.

Six Months Later.
LEAD CITY, DAK., April 16, 1890.
Cook Remedy Co.—Gentlemen: I feel as though it were a duty I owe to you to my race in general who are afflicted with the worst of all diseases, Syphilis, to write a letter telling of my wonderful cure of that disease by the Magic Remedy. There is no use describing my condition; it makes me shudder to contemplate its gravity one year ago. My heart was broken,—all my courage gone trying to find a cure. I had been to Hot Springs, Ark., and had spent nearly eleven hundred dollars treating with Drs. Garnet & Greenway of that city. They pronounced me cured, but in two weeks afterwards the eruptions returned again. Then I spent two long years suffering all the pain and mental agony a human being ever endured and lived. In that time I was under five different doctors without receiving enough benefit to give me even a ray of hope that I would ever get well. I had up to this time taken enough mercury and potash to salivate a regiment of soldiers. It had salivated me thirteen times, and no one but those who have taken large quantities of these medicines can sympathize with a person in my condition at that time. My joints would swell and refuse to bend, and there was a continual pain in my legs and arms, and a tired, worn out feeling all over my body. When it is understood that at the same time I was covered with ulcers and sores, my feelings can be appreciated. The remembrance of this period impels me to write this letter and say I am a well man to-day; that six weeks' treatment under the Cook Remedy Co. of Omaha cured me; that for the last five months I have worked in a mine at hard labor four and five hundred feet under ground; have been soaking with water a great many times, also have drank to excess and used tobacco continually, and as yet have not seen a symptom of my old disease. What other remedy could make I know not;—if I did would certainly put myself to it at once. My wish for you, gentlemen, is success to your magic Remedy, and may God reward you for the good you are doing to human race. I do not wish my name published at large, but I will only be too glad to answer any letter from any individual, to whom I shall willingly reveal my name and locality.
S. A., Still later, as showing what our patients are doing for us and the afflicted, we publish another letter from the above party:

Lead City, S. D., May 14, 1890.
Cook Remedy Co., Omaha, Neb.—Gentlemen: I received your letter and course of treatment the 29th of last month, and Mr. — took them immediately. He took them and the result was copious movement of the bowels, the ulcer became very sore, but softened, and has now nearly healed up. His appetite is good and also his condition in general, and he thinks he is a well man once more.
—Enclosed you will find a letter from Mr. —, I answered it and told him you charged me \$— for treatment, but that your charges varied as to a man's condition.

Now, gentlemen, while I feel as though I were under great obligations to the company, and am willing to do anything I can for them, yet I must say, they are coming a little to think, as there is hardly a man that I don't get two or three letters asking about the company, and I know by not answering them I am doing you an injury, so up to date I have answered everyone, but you must consider I work all day in the mine, and it is no fun to spend my evenings writing letters. Now I am willing to write a few for you, but not one or two a day. How would it be if you referred the most doubtful ones to me, that is, the ones who think there is no cure and that you are frauds. Give me that kind, and if they don't change their minds, they can't be changed.
Very Respectfully,
C. H. STULL, M. D.

Another Cure Made Years Ago.
Detroit, October 7, 1887.
Cook Remedy Co.—Gentlemen: I am willing to write you a testimonial, but do not wish it printed over my name. If you wish to refer anyone to me by letter or person, I will gladly give them the history of my case. I will recite, in brief, my case as told you at first. In 1857 I was treated for chancres, and my blood was cured. I had no further trouble until the fall of 1859, when I broke out with sores on my hands, and had a very aggravated sore throat. My doctor at that time pronounced it "syphilis" of secondary stage, and said I must go to the Hot Springs. I went and spent eight months under expense I could not well afford. When I returned, I was apparently well, but in less than six months it came on again. I was unable to go away, and though doctoring for a long time in Chicago, I continued about the same for two years, and a huge sore broke out on my ankle, and I was confined to my bed. After about a year of this doctoring, the time with different physicians and specialists, my friends sent me to the

Hot Springs again. I began to improve, but slowly, and in about a year or so returned, and to make a long story short, I kept this thing up for about thirty years. I have taken mercury and all kinds of preparations advertised enough to fill a good sized drug store, all the time being at first bitter, and then down again, and so on through these long years, in the end much worse. This spring my friends were about to send me to a celebrated physician when one of them wanted me to go to you. I began taking your remedy in June, 1887, and today I am as well as any man, and feel no bad effect from the disease. I may add that my improvement began in five days after taking the first dose, and, having the old sores, no one would ever know that I had been afflicted for thirty years, your remedy ought to be known to all sufferers. You know how grateful I am for your treatment. One afflicted as I was, cannot express sufficient thanks for the benefits received, but I can never forget you, and silent offerings go out from my heart to you every day.
Gratefully yours,
J. T.

Three years later: In answer to the inquiry from us, "do you consider your cure permanent," the author of the above letter writes us as follows:
Detroit, May 10, 1890.
Cook Remedy Co.—Gents: I am as well as I ever was in my life. I never had a return of any symptom. Thanks for your interest. As ever
J. T.

Dallas, Texas, July 3, 1887.
I hereby certify that I came to Omaha from a distance of four hundred miles on my way to the Hot Springs, where I was intending to get the second time for treatment for syphilis. I was induced to stop and see the Cook Remedy Co., their advertisement being so strong. I thought there was a bare possibility that they could do something; after consulting with them, and owing to their very favorable proposition I concluded to try the treatment, and am happy to say that in fourteen days I was cured and am to leave this city for home on the morning train. I saved at least six months time and several hundred dollars in mere hospital fees. This time coincident that I am permanently cured, as I feel much better than before for years, and better than when I left the Hot Springs supposed to be cured a little over a year ago.
Respectfully
—

In answer to our letter as to my present state of health, and the permanency of his cure, this patient writes us again as follows:
Dallas, Texas, May 8, 1890.
Cook Remedy Co.—Dear Sirs: I certainly consider myself cured permanently. It seems to me that I never enjoyed such perfect health as I have since taking your treatment, three years ago. I can eat, sleep and work with positive comfort. I am usually very busy, but shall always take time to answer the inquiries of any unfortunate whom you may refer to me.
Sincerely yours
—

The following illustrations represent the condition of patients leg when he came to us for treatment, they show side and rear view of the leg. The difference in size is due to the different sittings when the picture was taken. This patient has been with us less than 30 days, but the sores are now all filled in with growing flesh, and in a few days more we will send him home, a perfectly well man. Any person can call on this patient at our rooms while he remains, or on application we will furnish his name and address at any time in the future.

mist challenge or insult his reasoning faculties by demanding more? Prior to advertising enough to fill a good sized drug store, all the time being at first bitter, and then down again, and so on through these long years, in the end much worse. This spring my friends were about to send me to a celebrated physician when one of them wanted me to go to you. I began taking your remedy in June, 1887, and today I am as well as any man, and feel no bad effect from the disease. I may add that my improvement began in five days after taking the first dose, and, having the old sores, no one would ever know that I had been afflicted for thirty years, your remedy ought to be known to all sufferers. You know how grateful I am for your treatment. One afflicted as I was, cannot express sufficient thanks for the benefits received, but I can never forget you, and silent offerings go out from my heart to you every day.
Gratefully yours,
J. T.

The following is a very recent letter from the above writer:
Chicago, April 30, 1890.
Cook Remedy Co., Omaha, Neb.—Gentlemen: Replying briefly to your inquiry of 25th inst., I have much pleasure in saying that my absolute recovery is as complete and satisfactory as on the date of my last letter, Oct. 8, 1889. These conditions, of course, do not absolutely establish the permanency of the cure beyond the period actually covered, but in my estimation, and in the light of my experience with other "sores" and "syphilis," I am feeling no uneasiness as to the future; and while I now take good health and entire freedom from the damnable scourge philosophically and as a "matter of course," I none the less respect the magical power and blessed efficacy of the Cook Remedy. I have answered many inquiries since last writing you. I shall never so long as I live forget or cease to bless the person who incidentally brought the remedy to my attention.
J. H.

Oct. 25, 1889.
Cook Remedy Co.—Enclosed please find draft for remainder due the 25th inst. I am now beginning to feel more like myself than for a long time. I think this medicine is a grand thing and seems to do just what you represent it will. I am very grateful to you and certainly do not regret having tried the same, and if ever I find anyone in the same condition I shall do my best for you. As a rule one generally keeps such things to themselves as much as possible, but I would not be back where I was three weeks ago for twice the price. Sometimes I am ashamed of myself. I feel so good I am afraid people will think I am a little overdone. I have had that cloud hanging over me so long that if the old trouble does not return in time to come I shall know that a miracle has been performed. You may refer anyone to me, should I wish to do so, and your thanking you very kindly for all your trouble and advice, I remain,
Yours respectfully,
—

Nov. 4, 1889.
Cook Remedy Co.—Gentlemen: It is with pleasure that I write this to let you know that I am all right, and all signs of the disease have left. I feel better than I have for three years. Of course I don't know whether it is all out of my system or not, but I feel just as good as before I had it; in fact, my appetite is better than it has been in ten years. I will write you again in two weeks. If at any time you wish to refer anyone to me you are at liberty to do so, for I shall never be able to repay you for what you have done for me. I will be sure to refer you to me, and will be sent someone this week. There are one or two others that will send soon. With kindest regards, I am yours truly,
—

OMAHA, NEB., Nov. 14, 1889.
Cook Remedy Co., Omaha, Neb.—Gentlemen: In reply to your request for a statement of my experience in treating with the Cook Remedy Co., I desire to state that I contracted syphilis about six years ago. At the time of going to you the symptoms present were ulcers in the mouth and running sores on the body, although I had been constantly treating with the best physicians for more than two years, during which time it was utterly impossible for me to use tobacco in any form. I also had hardness and a stiffness in the limbs and joints, which was almost unbearable. I then applied to the Cook Remedy Co., and at the end of only fifteen days treatment I was as sound as a dollar. It has now been more than three years since you treated me, and I have never felt the return of any symptom whatever. I know that I am cured permanently, and you are at liberty to refer any parties to me.
Yours truly,
ROBERT STALL.

SHILOH CITY, IOWA, Jan. 7, 1890.
Cook Remedy Co., Omaha, Neb.—Gents: Well, as my condition is in a fair way for the better, I must thank you for the improvement, which certainly is wonderful, and I must say that my confidence in the Magic Remedy is and was stronger when I received your letter acknowledging the receipt of same being satisfactory to you. This makes me believe that your remedy will do the work, if it does not, you don't know it. My appetite is something that I never enjoyed before, and am feeling better

every day. Allow me to congratulate you on your frank way of doing business, which can only be done by honorable men. I will do all I can to make your business increase, when it comes my opportunity to do so. I have a few cases I mean to put in your hands the way you instructed me to do. I have at present one with the gonorrhoea, will you please let me know your terms. The case is eight months standing, and if the remedy will do as well with it as it does with syphilis, the party can pay will pay \$5.00 for a cure. You may send a little printed matter to me at Sioux City, and also answer my letter here. Awaiting your further favors I remain yours, with best wishes for your success.
D. H.

January 6, 1890.
Cook Remedy Co.—Gentlemen: I will drop you a line to let you know I am still alive, and able to do a man's work. At present am working hard every day, and feel like I never felt before in my life, and many times do my thoughts go to Omaha and bless the Magic Remedy. I had the pleasure to-day of telling a poor unfortunate, in Hot Springs, Ark., who wrote me a letter asking me about your company, and will only add, if he don't come to Omaha it won't be my fault.
Well, I am in a hurry to-day so I will cut this short. Ever your friend,
—

August 17, 1887.
Cook Remedy Co.—Gentlemen: In answer to yours, I am perfectly well, as far as I can see; feel better than I have for years before, and weigh considerable more. Your remedy is the only thing that ever helped me at all. I took Royal Remedy and the three S. specific, but it did me no good whatever. I had but little faith in your doing me good, but little good in the short time you required, but I am as sound as a nut.
Yours thankfully,
—

IND. TY., Feb. 23, 1890.
Cook Remedy Co., Omaha, Nebraska.—Gents: Your last rec'd, asking me to make a full report of my present condition. I am now just getting up from a gripe and of course am not feeling O. K. You ask about the sore in my mouth. At the time of writing my last there was a small sore just back of my throat, but it has now disappeared. I have entirely gone and there is not a sore spot about my body, inside or out that I know of. I appear to be in perfect health and think I am. I will give you some names that need your remedy and I think possibly you can do some business with some of them, but of course you would not have them know where you got your information for the world. Your firm and my old physician are the only living people that know that I ever had any disease, and that is the limit. Let me know in your next if you desire their names.
Yours very truly,
S. E. S.

TEXAS, Feb. 2d, 1890.
Cook Remedy Co.—Dear Sirs: Am very sorry to say I did not get your letter until yesterday due to some unavoidable delay at Denison, as we have our mail forwarded to us from there. Would say that the sores I spoke of have all disappeared and have all been gone for at least three weeks, and at present there is not a sign of syphilis on my person that I know of. And am still having the utmost faith in your remedy, which is a God-send to humanity. I am, as ever, one that will speak most highly of you and your cause.
— N. Y., 2-9-1890.

Cook Remedy Co.—Gents: The two weeks being again up for me to report progress, I hasten so to do. I can see quite an improvement in my condition since my last report, the sore spot on arm has continued to heal gradually and has nearly disappeared, my general health is better, my bowels more regular, my appetite excellent. I am very well pleased with the treatment thus far, and sincerely hope it will be permanent. If so I shall forever sing the praises of the "Magic Remedy."
Yours very truly,
T. F.

Feb. 19, 1890.
Cook Remedy Co., Omaha, Neb.—Gentlemen: Yours of the 12th inst. received in due time. You may be sure I will do all I can to help you along, any time or place I can. You need not answer this letter if you think it unnecessary, as I think it will reach you all right. You may refer anyone to me, and will be sent someone this week. There are one or two others that will send soon. With kindest regards, I am yours truly,
J. B.

Colorado, April 30, 1890.
Yours of the 27th was kindly received and contents noted. You state that it was a year since you treated me, but it is only about nine months, and in that time I have had no signs of the disease to show. I have had letters from different parties, and I always recommend them to give you a trial.
Yours truly,
F. P.

"A Meritorious Remedy"
Read what the Nebraska Homestead says:
"The Homestead is not in the habit of endorsing all that appears in its advertising columns or recommending the public the various remedies guaranteed as cure-alls for ills to which the human flesh is heir, but it does want to say a strong word in behalf of a preparation formulated by the Cook Remedy Co., of Omaha. Their advertisement appears elsewhere in this journal, and readers are directed thereto

for fuller information as to the guarantees set forth for the speedy and permanent cure of one of the most loathsome maladies in the category of disease.
The Cook Remedy company has been in operation for four years, and within that time has permanently cured some of the worst cases of syphilis that could be produced from all sections of the country. Indeed it is the most aggravated cases that have been invited, for the company feels strongly fortified in its ability to deal most successfully with the most difficult subjects that can be presented, no matter of how long standing or by whom heretofore treated. Hundreds of testimonials in their possession is stronger proof of this fact than anything that can be set forth in the editorial columns of the Homestead. The writer has been permitted to glance at these testimonials in the hand writing of their authors, and if additional proof were needed of the efficacy of this great remedy it would be found in the grateful words coming from the hundreds who have not only been benefited, but cured permanently by its use. The signatures of the testimonials are, of course, not made public, being, as set forth in the advertisements preparation, the company scrupulously guarded from public gaze, but The Homestead knows of their absolute possession and of the strong commendations they bear for a preparation that has proved, and is from day to day proving, a great boon to the afflicted.

The Cook Remedy company, it should be added in the columns of this paper printed in the town of its organization, is composed of some of the most reliable and trustworthy men in the metropolis of Nebraska. They are, in addition, gentlemen of large financial standing, abundantly able to make good their contracts. Having implicit confidence in the efficacy of the medicine, they stake their reputations and financial ability in support of this quick and radical cure of this dread disease for which it is recommended. The Homestead, having ample proof of the efficacy of the preparation, and knowing the high standing of the gentlemen who are putting it before the public, cordially endorses all that can be said of it, and them in a meritorious way."

And this Omaha Bee of Jan. 15th, 1890, says:
"A close examination of any of the hundred reliable works on medicine will reveal the fact, that, in spite of the wonderful claims made in medicine and surgery in the last century, there never has been a cure or specific discovered for that most terrible of diseases, syphilis, until the "Magic Remedy" was introduced by the Cook Remedy company, of Omaha, Neb. There is no disease that "clashes its heir to," older than syphilis, cases of it being mentioned in many parts of the Bible, but in spite of this fact, it has always baffled the skill of the most eminent physicians of the United States. By the introduction of their specific the Benefit conferred upon humanity by the Cook Remedy Co. is nearly every school have treated Syphilis upon almost the same principle, using various combinations of Sarsaparilla, Iodine of Potassium, Mercury, etc., the result being on only to suffer the same experience, time and time again, the inevitable result, sooner or later, being death, in its most horrible form. Even worse than the advertising quacks who infest each city, as in most cases the know nothing about the practice of medicine, and after bleeding their victims of the last possible cent, leave him in a thousand times worse condition than when they began to treat him. Knowing the above to be true, having seen the effects of the mercurious practices of hundreds of cases, those afflicted should investigate a remedy, which promises not only relief, but a complete and undeniable cure in every case.

A few words as to the reputation and financial standing of the Cook Remedy Co. The company is composed of men of the very highest standing in business, financially sound and able, and have a financial backing exceeding \$300,000. Those who doubt the truth of this statement can satisfy themselves by addressing any of the following concerns: K. G. Dun & Co., Bradstreet's Commercial Agency, The Merchant's Union Credit Co., or the Western Newspaper Union. Nothing could be fairer than this.
Now as to the remedy. The Cook Remedy Co. claim and are willing to back that claim with proof, that there is not a case of Syphilis on earth, no matter how severe, or of how long standing, that their remedy will not cure. Hundreds of cases have been treated within the past five years, and not a single failure has been recorded. They do not simply cure it for a time, being but eliminate all syphilitic poison from the system and effect a complete and lasting cure. They solicit cases that have been given up as incurable, having cured scores of patients who were in the last stage, and who had been given up to die.

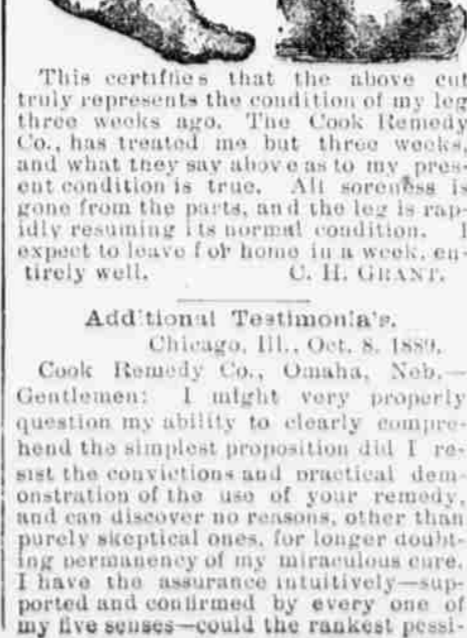

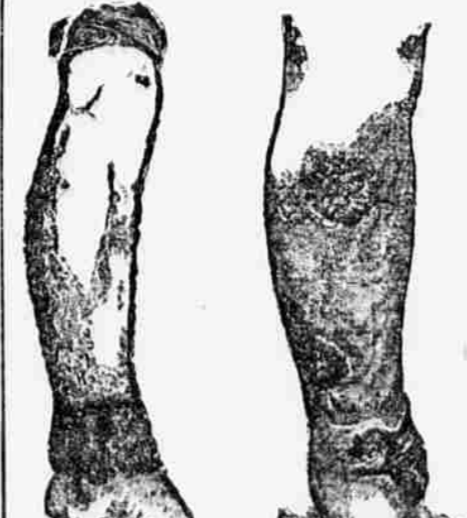

Competent physicians attend all patients visiting Omaha, but when a personal visit is impossible or inconvenient, the patient can be cured as well and quickly at home, providing he acts strictly according to directions.
Hundreds of letters testifying to almost miraculous cures, are on file at the office of the company, but for reasons plain to all, can not be published in this article. Parties suffering from this most horrible of all diseases should consult this company."

Our experience in the treatment of other diseases of the genito-urinary organs has impressed us with the needs of a class of sufferers who in the past, have known nothing but disappointment and imposition. This field of practice has proven a veritable bonanza to quacks and charlatans, who, by flooding the country with strongly worded advertisements of so-called cures, are reaping a harvest of golden shickles, and leaving only the stubble of disappointment. No class of sufferers deserve more sympathy from the profession, and no disease requires more intelligent and skillful treatment. Most of the remedies now in use are not only inefficient, but positively harmful. They over-stimulate for a time, but when stimulation ceases, the reaction leaves the patient in a worse condition than before treatment, and not unfrequently leaves them almost incurable.

In the interest of this class of sufferers the Cook Remedy Co. has been experimenting for years, and have succeeded in formulating a remedy which has a specific influence on the diseased sexual organs, changing them into healthy condition, and thus giving rise to the whole generative system.
The specification of our remedy has been demonstrated many hundreds of times in the treatment of the following diseases: GONORRHOEA—Swelling of the seminal vesicles of the testicles.
STERILITY—Barrenness, non-secretion of the vital fluid.
VARICOCELE—Enlarged congested veins of scrotum and spermatic cord.
HYDROCELE—Dropsy of water in the scrotum.
ONCHITIS—Inflammation of testes.
CYSTITIS—Inflammation of the bladder.
PROSTATITIS—Inflammation of the prostate gland.
ATROPHY—Wasting and shriveling of the parts, and the various other ailments resulting from indisciplinatory excesses, colds or accidents, etc.

Young, middle aged or old men, suffering from any of the errors of youth, or from excess and dissipation of mature years, can now come to the Cook Remedy Co., with the most positive assurance of a permanent cure. Our remedy is put up in small courses, thus enabling the patient to purchase without trial course or a complete treatment. Improvement will be felt almost from the first week.
The 50 cent box contains five days' treatment, while the \$5 box contains as much as six 50 cent boxes, and if the directions are followed, every box will permanently cure the worst case.
Money can be sent by draft, money order, postal note or registered letter.
Address all orders to

Cook Remedy Co., Omaha, Neb.
13th and Dodge Sts.

Early Decay

Errors of Youth

Nervous Debility and

Lost Manhood

An Infallible Cure in 5 to 30 Days.

Our experience in the treatment of other diseases of the genito-urinary organs has impressed us with the needs of a class of sufferers who in the past, have known nothing but disappointment and imposition. This field of practice has proven a veritable bonanza to quacks and charlatans, who, by flooding the country with strongly worded advertisements of so-called cures, are reaping a harvest of golden shickles, and leaving only the stubble of disappointment. No class of sufferers deserve more sympathy from the profession, and no disease requires more intelligent and skillful treatment. Most of the remedies now in use are not only inefficient, but positively harmful. They over-stimulate for a time, but when stimulation ceases, the reaction leaves the patient in a worse condition than before treatment, and not unfrequently leaves them almost incurable.

In the interest of this class of sufferers the Cook Remedy Co. has been experimenting for years, and have succeeded in formulating a remedy which has a specific influence on the diseased sexual organs, changing them into healthy condition, and thus giving rise to the whole generative system.
The specification of our remedy has been demonstrated many hundreds of times in the treatment of the following diseases: GONORRHOEA—Swelling of the seminal vesicles of the testicles.
STERILITY—Barrenness, non-secretion of the vital fluid.
VARICOCELE—Enlarged congested veins of scrotum and spermatic cord.
HYDROCELE—Dropsy of water in the scrotum.
ONCHITIS—Inflammation of testes.
CYSTITIS—Inflammation of the bladder.
PROSTATITIS—Inflammation of the prostate gland.
ATROPHY—Wasting and shriveling of the parts, and the various other ailments resulting from indisciplinatory excesses, colds or accidents, etc.

Young, middle aged or old men, suffering from any of the errors of youth, or from excess and dissipation of mature years, can now come to the Cook Remedy Co., with the most positive assurance of a permanent cure. Our remedy is put up in small courses, thus enabling the patient to purchase without trial course or a complete treatment. Improvement will be felt almost from the first week.
The 50 cent box contains five days' treatment, while the \$5 box contains as much as six 50 cent boxes, and if the directions are followed, every box will permanently cure the worst case.
Money can be sent by draft, money order, postal note or registered letter.
