A Deluge For the Thirsty.

A host of thirsty mortals gathered at the drug store on the corner of Twenty-fourth and Lake Thursday evening, the occasion being an opening given by Mrs. Crissey, the genial proprietress of the pharmacy, who had issued invitations to the public to come and refresh themselves with the cool and delicious beverage, soda water. Mrs. Crissey has lately refitted the store, and a new and elegant soda fountain now occupies a prominent place on one side, presenting an inviting appearance to the thirsty pedestrian. On the occasion mentioned everything was free, and those who had the good fortune to avail themselves of the opportunity say they never tasted anything better. The fountain is a work of beauty and art. The base being of rogue royal marble, surmounted by an elegantly carved ebony cabinet with white holly scroll work between the columns. It is silver mounted and has twenty-one receptacles for syrups, the apparatus complete costing $1,000.

Eugen D'Albert to William Knabe & Co.

[Translation from the German.]

During my sojourn here I had frequent opportunities to make myself acquainted with the Knabe pianos, and from fullest conviction I declare them to be the best instruments of America. Should I return here for artistic purposes—which may be the case very soon—I shall most certainly use the pianos of this celebrated make. I give this testimonial with pleasure, voluntarily and entirely unsolicited for by the house of Knabe.

"LAREDO the gateway to and from Mexico" is the title of a handy little pamphlet issued by the Laredo Improvement Company. We would like to quote extensively from it, but refrain, as this issue of the Manufacturers' Record tells in detail all about this wonderful place. This pamphlet well describes what Laredo is, and what it inevitably must grow to be, with such energetic men at the fore as are pushing it. The leading captions in the pamphlet are: Laredo the Gateway, railroad facilities, commercial resources, coal fields, a great manufacturing site, enterprises constructed, under construction and organizing, to capitalists, agricultural possibilities, two crops annually, cotton, sugar, fruit, flowers, climate, etc. Every person interested in the growth of the south and its marvelous progress will want to send to the Laredo Improvement company for a copy of this pamphlet—Manufacturers' Record, Baltimore, Md.
