

THE CITY.

Special Master in Chancery Shaffer has just returned from Antelope and York counties, where he appraised a mortgaged farm property on foreclosure to the amount of \$5,500.

A complaint was yesterday morning filed with the police judge charging W. M. Nestlehouse and W. W. Sawyer with the robbery of S. F. Hale, the Bontrio lawyer, of \$900 at The Cottage road house.

Four thousand ounces of quinine for the Richardson drug company from Frankfort-on-the-Main and three barrels of leaf tobacco were passed through the customs house yesterday morning by Collector Alexander.

Van Every and Christianson, the motor men held on the charge of manslaughter in the killing of Forsman, have been dismissed by Judge Halsey, the coroner's jury having exonerated them from all blame in the case.

The Dawson brick company is incorporated yesterday by N. J. Kuhn, C. D. Woodworth, Jeff W. Bedford, A. G. Charlton, Richard Smith, W. S. Gibbs and A. H. Cooley, with a capital stock of \$50,000. The office of the company is to be in Omaha and the works in Dawson, Iowa.

J. S. Bennett yesterday received his instructions which define his duties as sanitary commissioner, which officer takes the place of that of garbage inspector. In addition to the other duties, the instructions provide that the official shall be a member of the board of health.

It has been arranged by the Grand Army of the Republic, committee on memorial exercises to have wagons call at the various school buildings of the city Thursday, the 29th inst., for such floral contributions as may be offered by the pupils.

Miss Daisy Whitehouse, the young lady who was injured in a runaway at Council Bluffs last Sunday afternoon, was brought to this city yesterday, and is now at her father's house, where she is getting along nicely. Her version of the accident is, that Sunday afternoon, in company with Walter Jones, she was riding through the eastern part of the city in a carriage, and one of the front wheels ran into a rut, which frightened the horses and they started to run, throwing Miss Whitehouse out and through a barbed wire fence at the side of the road, bruising and cutting her quite severely.

Saved by a Flagman. Dick Richards, a Union Pacific flagman, is entitled to the credit of saving the life of a pretty sixteen-year-old girl who lives on Sixth street. She was standing on the track watching an incoming freight train with her back toward an approaching passenger.

CUSHING GOES.

The Circular Regarding His Departure Makes Its Appearance.

The circular announcing George C. Cushing's resignation as master mechanic of the Union Pacific was issued yesterday and takes effect June 1. His successor, Harry Middleton, does not take charge, however, until June 15. This gives John Wilson, the present chief assistant, an opportunity to distinguish himself for two weeks, as he will have control until Mr. Miller appears. "Why was Mr. Cushing discharged?" has been asked more than a hundred times, but no one, however, seems to have definite information on the subject. There are various rumors afloat.

Coming Into Omaha.

All arrangements have been made for the Milwaukee to commence running its trains across the river next Sunday. For a time the road will use the Union Pacific's old depot. Whether the Rock Island proposes to come in right away is not known. The supposition is, however, that it will not remain out very long. The Washburn has also commenced to make excursions for admission, and it is expected that within six weeks every eastern line reaching Council Bluffs will be running its trains into this city. The Washburn is the only one that has not entered into an agreement, but it signified its willingness to do so long before some of the others did.

Low Rates Still in Effect.

All the Iowa lines are selling \$1 Omaha-Chicago tickets, with the exception of the Milwaukee, which evades a flat rate by making round trip fares \$3, and the Daring rate one way. This scheme, it claims, enables the company to get the out and at the same time protect its local business. Heavy sales continue. Every east-bound train is crowded with passengers. The Burlington and Missouri Pacific carried enormous loads of excursionists, Saturday, to Kansas City and St. Louis—people who went for pleasure.

Was Well Pleased.

A telegram was received at Union Pacific headquarters yesterday morning from Tom Lee, general passenger agent at Portland, stating that George Francis train arrived there Saturday and expressed himself as well pleased with his trip over the road from Omaha.

Notes and Personal.

William J. Shotwell, a bright young man of Denver, has been appointed commercial agent for the Missouri Pacific at Pueblo. He succeeds C. S. Tripp.

Lieutenant Palmer of the Rock Island staff spent Sunday with his family in Auburn.

Next Saturday the B. & M. will commence running regular trains from Denver to Riverside, Col.

H. H. Flanagan, joint agent of the Chicago, St. Paul and Missouri Pacific, carried enormous loads of excursionists, Saturday, to Kansas City and Missouri Valley in this city, left for Kansas City last evening on official business.

Sleeplessness, nervous prostration, nervous dyspepsia, dullness, blues, cured by Dr. Miles' Nervine. Samples free at Kuhn & Co's, 13th and Douglas.

United States Court.

John Gilmore of Wallace, Neb., convicted a year ago for delaying justice in the Kit Carson cattle company case, was arraigned before Judge Dundy. The court, however, would not pass sentence, stating that he would have to look further into the matter.

Frank Malloy and John Conroy, indicted by the grand jury on the charge of breaking into a government warehouse in this city pleaded not guilty. They had no attorney to defend them and the court will appoint one. Nelson Legato was brought in from Emporia, Neb., charged with selling liquor without a license.

The Helfenstein cases were called just before the opening of the morning session of the court and Judge Dundy stated that he would try them serially.

Fred C. Copeland was sentenced to one year in the penitentiary yesterday afternoon for forgery.

John Ryan, who was indicted for selling liquor without first having obtained a government license, was tried by jury and found guilty, after which he was remanded to jail to await sentence.

John Kress, one of the Fort Omaha soldiers who had charged with the commission of a crime upon the person of Lora Ziegler, was tried by jury. The defendant put in but little testimony and after being out fifteen minutes, a verdict of guilty, as charged, was returned. Kress will probably be sentenced to prison.

Judgments Against Helfenstein.

Yesterday was a busy day with Elmer Frank, clerk of the district court, as during the afternoon he entered up forty judgments against John P. Helfenstein, the plaintiff in the ejectment cases brought by that party to suit residents from their possessions in the town part of the city. The cases were called before Judge Dundy yesterday afternoon and judgments rendered as rapidly as the papers in each individual case could be read. The cases are not victories for the property owners, as they have no effect, either in law or in fact, but merely put matters in better shape to get action at the next term of court.

District Court.

The following prisoners will be arraigned before Judge Charles this morning:

James Reynolds, charged with the murder of young Nestle, the clerk who was shot while chasing a thief; William A. O'Leary, charged with grand larceny; George Brown, robbery; Richard Hall, assault with intent to kill; John Lamb, assault with intent to kill; Robert E. Taylor, forgery; Wommelsdorf, forgery; Martin Drake, assault with intent to murder; Bert Brewer, grand larceny; Adam McClure, assault with intent to kill and murder; Frank Mann, adultery; George McFarland, larceny from person; John J. McManara, robbery; James Claidin, burglary.

Herman C. Schultz has brought suit in replevin against Sheriff Boyd, claiming possession of four horses, a wagon and a set of harness, valued at \$900, and damages in the sum of \$100.

John I. Redick has commenced suit against the Union Pacific railway company to recover possession of lot 4, block 94; lot 3, block 22; lot 4, block 314, and lot 1, block 322. The petition alleges that the property was taken by due process of law or was decided by the plaintiff to the railway company on the representation that it was wanted for railway purposes. It is alleged that the property has not been used for the purposes for more than twenty years and he asks for the title to the property be vested in him.

The Bank of Commerce has brought suit against John W. Gray, C. E. Dunsen, C. E. Fanning, Dennis Cunningham, Henry Gibson, Patrick Ford and Adam Snyder to recover \$4,500 on a note given to the Omaha banking company.

A similar suit has been commenced by the same bank against Henry Gibson, Patrick Ford, John W. Gray, Dennis Cunningham, John Riley and Charles E. Fanning to recover \$1,500 on a note to the Omaha banking company.

James Ryan in the case of Green Swank against Patrick McEvey returned a verdict for the plaintiff, awarding him \$200.

County Court.

Mrs. Nellie Frank Bouten has brought suit in the county court against Bertie Mann to recover \$50 on two notes.

The will of Charles Silverick was admitted to probate in the county court by Judge Dundy, and Arthur Silverick, the brother, were appointed executors.

A Correction.

OMAHA, May 26.—For the Editor of The Bee: Allow me to call your attention to the editorial in yesterday's Bee regarding the action taken by the retail merchants at their convention held in this city the past week, and if the same is worthy of space in your paper we would ask that you make the following correction, as the merchants want to have the work in that convention come before the public without any mistake of fact.

You say the convention approved the draft of a bill that would reduce the exemption on a homestead from \$2,000 to \$500. This is a mistake. The only change that was made in that bill was that sixty days' wages, and not \$2,000, should be paid to the debtor. A debtor's wages may be garnished for necessities. But that only three bills of this kind could be filed at one time. This, you see, would work no injustice to any one, as it would leave the debtor 70 per cent of his income. Again, you say the merchants possess a mistaken idea regarding the amendment to the garnishment law passed by the legislature. Think you will find very few merchants but what understand this amendment.

What the merchant objects to today is that if he should sell a debtor's claim to Smith, Smith should be allowed to sue the debtor, and would sue the debtor and garnish his wages in another state, no matter if six months afterwards, the debtor could come back on to the merchant and sue him for damages and have him arrested. This has been done no later than in the last two weeks right here in our city; and with the way that law is today no man is hardly safe in selling any kind of a claim.

We think if you will look this matter up carefully that you will find that the day is doing a greater injustice than it did before it was amended. Very truly yours, K. F. HODGINS, General Secretary.

Deadwood's Coming Boom.

George F. Foster, a Nebraska real estate owner, who was at the Palmer in Chicago the other day, told a Tribune reporter about the attempts of rival roads to tap Deadwood.

"The entire northwest," he said, "was benefited by the coming of the Burlington, now constructing a line into Deadwood. Now another boom comes in the official news that the Northwestern is going to connect Deadwood with the outside world. For some years the Northwestern has been within eight miles of Deadwood. The efforts of the citizens to have this gap spanned were of no use, and the company put them off with half promises. The right of way was offered the company, but that was refused. Within a few months the Burlington quietly bought up the right of way through the county to Deadwood. When all the necessary property was bought it was announced that the Burlington was about to lay tracks over the lands supposed to have been purchased by an eastern syndicate as an investment. Then the settlers were gay and the Northwestern was frightened. That road began to accumulate a mountain of earth overnight. This cost them \$100,000, and three years ago the same lands were offered free. The two roads coming into Deadwood will cause a boom unlike the days of the gold fever. D. D. Stretcher of Denver has contracted with the Northwestern to build the line from the present terminus—Whitecourt—into Deadwood. The work is heavy and includes a 1,200 foot tunnel.

The Passing of British Supremacy.

That an old European nation like Great Britain, forming an integral part of the European system, the mogul empire, a set of purely British colonies in the South Sea, and set apart from purely British on the southern point of Africa, another set on the continent of North America with a large French community in the middle of them, and the black population of the West Indies, are destined to form a nation, and that the "problems" relating to each of them are to be treated on that hypothesis is surely a most precarious assumption, writes Prof. Goldwin Smith in the Forum.

What has been the real bond of this empire, or whatever it is to be called? Command of the sea, which Great Britain had when it was formed, but which she now has no longer, steam and the growth of other naval powers having taken it from her. Her real bond was not doubt by far the most powerful, the current of events is setting steadily, not toward centralization, but toward self-government. Moreover, democracy in its most extreme form gains ground in England, and democracy cannot govern an empire.

The Sleepless Eye of Justice.

Many stories are told at the expense of the well-known German oculist, and with the glass-eye, says the Cincinnati Times Star. One day while trying a case with a jury he fell asleep, but as the glass eye was open the lawyers and those interested in the case knew it, not that their testimony was all for naught. They only discovered that the general jury was sound asleep when one of the lawyers arose and asked for the decision of the court, and not receiving an answer demanded of the judge what was the matter. The constable then hastily awoke the sleepy jury and formally stated to the assemblage that the eye which had been open was glass. The case had to be tried again from the start, as the judge hadn't heard a word of the testimony.
