Motorman Blake Badly Injured. Yesterday afternoon Motorman Blake of the Walnut Hill electric street car line met with a very painful accident, which may prove fatal. With his train he was rounding the curve at Twelfth and Howard streets. and in loosing his brake, his hand slipped, allowing the brake handle to turn around with great force, striking him in the lower portion of the abdomen. He fell from his car, was picked up and carried into an office near by, where Dr. Hyers was called, to render what assistance he could. Blake suffered great pain, and becoming unconclous, was taken to his home at Twenty-fifth and Izard streets, whert he new lies in a very precarious

Albert Columbus had a scheme yesterday, which if he could have worked it successfully, would have netted him a fortune ere the winds of another winter blow.

The man is young and has every appearance of coming from the country, but he is not as fresh as he looks. Yesterday he arrived in town from the west, and instead of going about his ousiness, he filled up with liquor, hired a team of horses and an hour later was arrested on the charge of fast and reckiess driving. At the station Columbus was searched, and among his effects was found a one-dellar bill that had been skilfully changed in such a manner as to represent a ten-dollar bill, and would pass for such if it was not closely inspected. The figures on the face and back had been cut away and others pasted in, giving it a genuine appear-

Motor and Cable.

The residents in the western part of the city are highly indignant over the fact that the western end of the Harney cable is to be abandoned. A petition is in circulation asking the council to compel the company to operate the line.

The street railway officials say that the arrangement is only temporary, and that they are doing the best they can under the circumstances in going up to Creighton college with the motor. The expense of the cable on that line they say they cannot stand.

In a general way they have been consider-ing some means of reaching the people west of Twenty-fourth and between Farnam and Cuming, but have as yet devised no Petitions, they say, are what they want, as they give them an idea of the needs and wishes of the people.

A Petition Circulated by Citizens Who

Wish Them Voted. At a mass meeting of citizens from various portions of the city Thursday night at therooms of the board of education the following resolutions were unanimously adopted and signed, with request for their publication in the city

press;

Whereas. There is an urgent demand and necessity for additional and better school buildings and facilities in different parts of the city, arising from the large increase in population; and

Whereas. The board of education, in obedience to the wishes of the voters, submitted a bond proposition at the December election that received 4,500 votes for and only 2,972 votes against it, and said proposition was defeated, not by the voters, but through a technicality; and

Whereas, The board of education have resubmitted the proposition, and it is a fair one, the amount \$250,000 reasonable, the interest at 4 per cent low, and the necessity for additional buildings urgent; and

Whereas, The board is compelled at present to reat private buildings unfitted for school use, in different localities, the annual rentals amounting to about \$3,800 for school purposes, and this outlay must necessarily be increased and continued if the bonds are not voted and new buildings erected, and

Whereas, The interest on the bonds, if voted, will be but \$10,000 per annum, this is not more than will soon be required for rented buildings; and

will be but \$10,000 per amount, this is not more than will soon be required for rented buildings; and

Whereas, The new buildings, if constructed, will do away with the use and outlay for rented buildings and will give additional rooms, properly equipped for school purposes that are needed; and

Whereas, The bonded indebtedness of the school district of the city of Omaha is but \$250,000, of which \$50,000 high school bonds mature in 1895, the money is now in the sinking fund to redeem them; and

Whereas, The \$75,000 required for the crection of an addition to the high school building, for high school purposes, which is to be a fire-proof structure, and to be so constructed as to afford escape into it from the present structure in case of fire. Is for the benefit and free use of the high school pupils from all parts of the city, and so far as the bonded indebtedness is concerned, amounts to only the refunding of the 50,000 10 per cent high school bonds for the next twenty years at 4 per cent interest and an increase of \$25,000 additional for the completion of said structure as originally contemplated by the regents, and for which there is urgent necessity at present; and.

Whereas, The rapid growth of the high school has encroached upon the rooms of the grades known as the Central school to such an extent that during the past five years twenty-one of the graded school rooms have been given up to the high school, the grades being destroyed, it is but right, fair and just that the graded school should be maintained and a full course of study and complement of tenchers and sufficient room for its use be provided; and

the graded school should be maintained and a full course of study and complement of teachers and sufficient room for its use be provided; and Whereas, The bonds are needed for the advancement of the educational interests of the city, the expenditure of the honey will mean Omaha brick, mortar, material and labor in the construction of the buildings, and modern school buildings with all the late improvements for the use of children of all classes; Therefore be it resolved. That we endorse the entire proposition for bonds, and commend the board of education for its action in resubmitting such proposition to the voters, and we call upon all interested in the welfare of schools, to east their influence and their vote in favor of the proposition.

"Well, now I'll tell you that on the square I don't think they are. I shall you to accept it, I guess, but I'm inclined to think from some things that I've heard that there is going to be a grand kick on the part of some of the commissioners when it comes to the finish."

OMAHA GUARDS. The Drill Corps Goes Through the

Farewell Evolutions. Last night the drill corps of the Omaha guards which goes to the national encamp ment at Kansas City had its farewell drill. It was hard work. The uniforms were

gorgeous with gold buttons and white belts and stripes and the young gentlemen who wore them were shapely and erect. A double file of fair faces, rosy cheeks smiling lips, sparkling eyes, beckoning fans and summer dresses lined two sides of the armory. The perfume of dainty handker-

chiefs and the breath of flowers filled the

room, but it was hard work nevertheless. They marched and counter marched by twos, fours, eights and company; they wheeled and obliqued, forward and backward, up and down the hall; they shouldered arms, supported arms, se rured arms, trailed arms, and no doubt before they were through with it ached arms, on the walk and on the run, standing and kneeling; they loaded, aimed and fired, "volleyed and thundered," and when the smoke had cleared

away they repeated the performance.

The programme carried out was that outlined for the maiden competition at the Kansas City encampment, and it was well carried

out.
The boys have been drilling for weeks, and last night showed their friends what they can last night showed their friends what they can
do. All the complicated evolutions were performed like clockwork. Though the pro
gramme was a long one, the spectators were
interested to the last and testified to their
appreciation of many of the movements with
frequent rounds of applause.

The corps consists of sixteen men, two
guides and three commissioned officers, Sergent Wilson on this occasion going as a

WE ARE NOT

Overstocked, but we are determined to do the clothing business of this town, and our goods are marked to obtain that end in view, and because our prices are lower than others, don't let it prejudice you against the quality and workmanship of our goods. Depend upon us to sustain our reputation for honest and reliable clothing.

We are the originators of, and have been since we started, the leaders in popular prices, not only for clothing, but for all other goods which we handle. Our large business gives us advantages that are not enjoyed by other dealers, and we assure you that we can always save from 25 to 50 per cent by availing yourself of the popular prices at which we mark all our goods.

During the ensuing week we shall offer some extraordinary bargains in our Undewear Department. We have closed from the manufacturers 25 cases of fine Summer Underwear at an enormous reduction from what the same goods cost us early in the season. That explains why we are able to make slaughtering prices on them.

Fine Balbriggan Shirts and Drawers at 35c; regular price 65c.

Fine Balbriggan Shirts and Drawers at 60c; regular price \$1.00. Extra fine Balbriggan Shirts and Drawers at 8oc; regular price \$1.50.

These goods are of an extra fine quality and handsome shades, and are worth fully the regular prices stated above.

NECKWEAR.

Another immense purchase just made. We have bought the entire stock of Tecks made by one of the leading manufacturers in the country. There are about 500 dozen; all this season's novelties, and we shall almost give them away. We have classified them into three grades: 35c, 45c and 65c. Remember, these are all high grade goods, and the prices we quote represent just one-quarter of what such qualities would sell at regular retail prices.

SHOES

One of the season's choicest offerings in the Shoe Department is the following: Russet Low Shoes, excellent stock, solid leather throughout, at \$1.40. They are worth fully \$2.50; and Russet High Cut Lace Shoes at \$1.75, positively worth \$3.00.

In Men's and Boys' Shoes you will not find anywhere such values as we are offering, and we keep only shoes from reliable makers, such as we can recommend and as we can guarantee.

TRUNKS.

In our basement we offer as large a line of Trunks and Traveling Bags of all descriptions as you can find in this city. Our prices for these goods will astonish you. Mail orders solicited. Samples of cloth with rules for measuring sent to
