### Started the Month Badly.

Frank A. Kirk, who resides at 1621 Howand street, celebrated the first day of June by giving his wife a terrible beating. Frank was promotly jailed and will be called to ac-count in Judge Heisley's court this morning.

Some remarkable cures of deafness are recorded of Dr. Thomas' Eclectric Oil. Never fails to cure earache.

#### Struck by Lightning.

German Lutheran chuch at Twentyfifth and Caldwell streets was struck by lightning about 6 o'clock Saturday evening and badly damaged. Several large holes were torn in the spire and the timbers inside the spire were broken and wrenched from their place. The roof was also damaged, but the extent could not be ascertained. It is ight that \$500 will cover the damage. The building was insured.

#### The North Platte Wreck.

Brakeman W. C. Jordan of the passenger train wrecked at North Platte had just left the baggage car when the collision occurr and got off with nothing more than a shaki up. He reports that Irwin, the visiting en-gineer, had his leg amputated this morning and is so badly scalded that his recovery is scarcely hoped for. Fireman Clark, who jumped from the leading engine, had his hand

smashed and it was amputated. The wrecking train with Division Superin-tendent Barr on board was just behind the passenger and cleared the road at once.

This curious bird is the kea (Nestor notabilis), or mountain parrot, and comes from New Zealand. Its general color of dumage is green; its length from point of bill to extremity of tail, twenty-one inches; its bill, two inches, with upper mandible much curved and very strong It inhabits the higher wooden glens and dark recesses of the mountain districts of the island above named, and, like the owl, is generally nocturnal in its habits. Although the kea has been known to ornithologists since 1856, the above specimen is the first of its kind that has ever been exhibited alive in Britain. In the time of the Maori rule in New Zealand the bird was as innocent and harmless as any of the parrot species, and i was not until the higher tracts of this country were utilized as sheep runs that the kea was tempted to desert its fruiteating habits and join the destructive

army of the carnivora. About 1868 it was noticed that the sheep of the uplands were suffering from sores and scabs in the region of the loins, and that almost invariably the sufferers were those fattest and healthiest. Many discussions followed as to what could be the cause of this singular state of affairs. At last a herder said that he believed the parrot did it, but was laughed at, yet subsequent events proved his theory a correct one. Soon after some of the shepherds saw the

feathered cannibal seated on the hips of a sheep helping himself to a dish of live mutton. From that day forward the bird was known as the sheep-eating parrot-the feathered wonder of the antipodes.

THE DOCTORS

## IN OMAHA.

### First 3 Months Free of Charge.

Five eminent doctors arrived on May 19th are located permanently at their residence, 1009 Douglas street, Omaha. All who visit the doctors before Jano II will receive services for the first three months free of charge. The only favor desired is a recommendation from those whom they cure. The doctors do not publish the names of their patients but sim-ply use them as reference. These Gorman and English physicians treat all diseases and deformities, but never accept an incurable case. If your mailady is beyond all hope they will frankly tell you, also can-tion you against spending money for useless treatment.

WE ARE NOT

Overstocked, but we are determined to do the clothing business of this town, and our goods are marked to obtain that end in view, and because our prices are lower than others, don't let it prejudice you against the quality and workmanship of our goods. Depend upon us to sustain our reputation for honest and reliable clothing.

We are the originators of, and have been since we started, the leaders in popular prices, not only for clothing, but for all other goods which we handle. Our large business gives us advantages that are not enjoyed by other dealers, and we assure you that we can always save you from 25 to 50 per cent by availing yourself of the popular prices at which we mark all our goods.

During the ensuing week we shall offer some extraordinary bargains in our Undewear Department. We have closed from the manufacturers 25 cases of fine Summer Underwear at an enor mous reduction from what the same goods cost us early in the season. That explains why we are able to make slaughtering prices on them.

Fine Balbriggan Shirts and Drawers at 35c; regular price 65c.

Fine Balbriggan Shirts and Drawers at 60c; regular price \$1.00.

Extra fine Balbriggan Shirts and Drawers at 8oc; regular price \$1.50.

These goods are of an extra fine quality and handsome shades, and are worth fully the regular prices stated above.

## NECKWEAR.

Another immense purchase just made. We have bought the entire stock of Tecks made by one of the leading manufacturers in the country. There are about 500 dozen; all this season's novelties, and we shall almost give them away. We have classified them into three grades: 35c, 45c and 65c. Remember, these are all high grade goods, and the prices we quote represent just one-quarter of what such qualities would sell at regular retail prices.

### SHOES

One of the season's choicest offerings in the Shoe Department is the following: Russet Low Shoes, excellent stock, solid leather throughout, at \$1.40. They are worth fully \$2.50; and Russet High Cut Lace Shoes at \$1.75, positively worth \$3.00.

In Men's and Boys' Shoes you will not find anywhere such values as we are offering, and we keep only shoes from reliable makers, such as we can recommend and as we can guarantee.

### TRUNKS.

In our basement we offer as large a line of Trunks and Traveling Bags of all descriptions as you can find in this city. Our prices for these goods will astonish you.

Mail orders solicited. Samples of cloth with rules for measuring sent to any address.

The Andress circus opened on North Seventh street last night to an audience that filled nearly every inch of the seating and standing room. It is not a large show, but makes up in excellence what it lacks in size. Interest is largely centered in the circus branch, and this feature commends itself to those who enjoy skillful acrobatic per-formances. The professional club swinger, the contortionist and trappee artists are especial clever people. Willie Sells, the famous young bareback rider who has won Buch an envisible reputation with the Sells Brothers and Barnum shows, will join Mr. Andress today and add his talent to the con-

They are as follows:

A lady starting on a long journey with two children, placed in her satchel some pieces of cardboard, scissors and lead pencils, says the Boston Globe. After the novelty of car riding had worn off, this wise woman produced her treasures. One child cut the cardboard into pieces three-quarters of an inch square, the other printed on each square a letter. The alphabet was repeated many times. Then each formed words from the letters and gave to the other to make out. In this way they amused themselves for

hours. The mother might have taken the game from home with less trouble to herself, but well she knew there would be more satisfaction in making it for themselves. Paper dolls were cut and extensive wardrobes fashioned from bright-colored paper that had been thoughtfully provided. At the end of the journey the passengers declared the children wonderfully well behaved, and wished they might always travel with such happy little people. The fact was the children were ordinary children, but their hours had been so pleasantly occupied there had been no opportunity for becoming weary and then disagreeable.
