

THE SPECULATIVE MARKETS.

Wheat Did Not Know Its Own Mind Today.

OATS BULLISH AND VERY LIVELY.

Provisions Pass Another Uneventful Season—Cattle Slow and Hogs Active, Strong and 5c Higher—Money Shows Strength.

CHICAGO, June 9.—(Special Telegram to THE BEE)—The wheat market was a mystery all day. There was some waiting early because of the visible supply, the figures for which came straggling in up to noon. There was some waiting for the public cables, which were "mixed," and were returned for correction. The market was quiet, but there were no new news than those to hand early.

Butter—Steady; western dairy, 6@10c; creamery, 6@11c; Elgin, 6c.

Cheese—Stronger; western, 6@7c.

Corn—Higher, cash, 33@34c; July, 33c.

Oats—Higher, cash, 33c; July, 29c.

Pork—Quiet at 41@42c.

Barley—Dull; 5c higher, 41c.

Whisky—Steady at 40c.

Butter—Firmest; creamery, 6@11c; dairy,

KANSAS CITY, June 9.—Wheat—Steady; No. 2 hard, cash, \$17; July, 75c; No. 2 red, 87c; June, 88c.

Corn—Steady; No. 2, cash, 33@34c.

Oats—Higher; No. 2, cash, 27c bid; June, 30c.

MINNEAPOLIS, June 9.—Wheat—Receipts for two days, 128 cars; shipments, 30 cars; cash market steady; no grain inactive. Closing of 3/4 to 5c, and this was followed by a fatty market. As in July, and about 5c for the month, the market for both grain and oil yielded to about the bottom figures early. A depression in both instances was the result of poor weather, and the market was feeling in the pit. Hutchinson was a seller all day, apparently wishing others to sell, and that was true. The other market supplied for that purpose. The outcome of the market was due to the prospect of a very large decrease in the visible supply and to private cable advice which was received from New York. New York, which about that hour was up about 1c, Jones & Remmitt's cablegram said that English crops were late, and the price of wheat was up. The visible supply, however, showed a decrease of 66,000 bushels, or about half the decrease of a year ago. Ingraham, who had been a buyer, said that whatever the government figures may be, they will not show any damage since June 1. The action of the market was July 92@93c to 93@94c; Aug. 92@93c to 92@93c; September 92@93c to 92@93c to 92@93c; December 92@93c to 92@93c to 92@93c to 92@93c; January 92@93c to 92@93c to 92@93c to 92@93c; February 92@93c to 92@93c to 92@93c to 92@93c; March 92@93c to 92@93c to 92@93c to 92@93c; April 92@93c to 92@93c to 92@93c to 92@93c; May 92@93c to 92@93c to 92@93c to 92@93c; June 92@93c to 92@93c to 92@93c to 92@93c; July 92@93c to 92@93c to 92@93c to 92@93c; August 92@93c to 92@93c to 92@93c to 92@93c; September 92@93c to 92@93c to 92@93c to 92@93c; October 92@93c to 92@93c to 92@93c to 92@93c; November 92@93c to 92@93c to 92@93c to 92@93c; December 92@93c to 92@93c to 92@93c to 92@93c.

The market was fairly active all day, and the close of the day was steady at the bottom price of the day, while the deferred futures were higher. There was a firming tendency, which was early, and very fair gains were made. June sold up to 33c and off to 34c; July 31@32c to 34@35c; August 33@34c to 35@36c; September 33@34c to 34@35c; October 33@34c to 34@35c. There was a great deal of changing from July to September, weakening the former and adding to the latter. The market buying was on the expectation of an unfavorable government report on the growing crop. The receipts were large and the visible supply of grain, however, limited, giving great increase in the stock here. The weakness toward the close was on this feature.

The market was steady at the bottom price throughout the day.

The close of the day was steady, and there were the same on the Saturday, while the week was up. There was nothing done in pork and only a moderate trading in other products. Mr. Hutchinson sold July ribs early and there was a pretty good local buying on call.

CHICAGO LIVE STOCK.

Cattle.

Monday, June 9.—Estimated receipts of cattle, 2,500, compared with 1,433 Saturday and 1,565 Monday of last week. The market opened 10c lower on beans and firm on corn, and 10c lower on hams.
