It is said of Mr. Kennedy that he will not ask a councilman to vote for his confirmation; that he is not an office seeker. This fact led a friend of his to say this morning that the combine would perhaps sit down on him when his name came before the council for confirma-tion. OMAHA, Neb., June 9, 1890 .- To the Editor of THE BEE: I am in receipt today of the following letter from our governor. I would respectfully request that it be published in full, so that our citizens may fully realize the extent of the disaster and of the destitute condition of the citizens of that unfortunate village. Very respectfully,

R. C. CUSHINO, Mayor. R. C. CUSHINO, RAYOF. STATE OF NESRASKA, EXECUTIVE DEPART-MENT, LINCOLN, JUNE 6, 1800 — Mayor Cush-ing, Dear Sir: Having visited Braishaw yesterday and made a personal inspection. I am enabled to say, that the whole truth as to the effects of the terrible visitation upon that towar has Thursday night has not been told. town last Thursday night has not been told. There were in the hamiet about two hun-dred and fifty buildings of all classes; only dred and fifty buildings of all classes; only seven are left in a standing position though badly wrecked and warped. All the rest are totally destroyed. A fair calculation of those familiar with the town say that not less than \$00,000 worth of property in Bradshaw and the immediate vicinity was wiped out. It is all sunk and nothing to show for it. Happy homes are gone. Not a vestige is left. The inmates have nowhere to lay their heads, and have nothing to start with again. There were about six hundred inhabitants in the village. Their condition is deplorable. It appeals with distressing earnestness to all charitably disposed people.

At the request of the local committee, and in accordance with my own feelings, I ad-dress to you this appeal and ask that you will be pleased to take prompt measures to secure the aid which I know your liberal minded measure will be given to be a secure of the secure people will be glad to give. The articles most needed, and for immedi-nte use, are money and lumber. The city of York has met the demands of the distressed people thus far for edibles and is still supply-ing them, but staple groceries will be needed from other points. Hardware will be needed; cheap matresses and bedding; clothing and shoes of different sizes for men and boys; also all kinds of underwear of different sizes for mon means and children concluse and all kinds of underwear of different sizes for men, women and children; cooking and gaso-line stoves; anything for the relief of the needy and suffering will be most acceptable. It must be borne in mind that some months must clapse before these people can sustain themselves. In the meantime they must be helped. From the very moment news reached York of the awful calamity to Bradshaw, the mayor and all the people of the city responded with the utmost alacrity and promptness, and with a spirit of the and promptness, and with a spirit of the most unselfish generosity which commands the admiration of all. They are doing, and will continue to do, all they possibly can, in aid of their most unfortunate neighbors. Nearly all of the wounded have been taken York, whose people and physicians are tenderly nursing them.

tenderly nursing them.
I appeal to you to bring this matter immediately before your people that they may have an opportunity to contribute to the rehef of their suffering fellow citizens. I know the magnanimous and liberal spirit of the people of Nebruska so well that I can readily say I know this appeal will be nobly responded to.
All contributions should be directed to T.

and upon the board he would do his own thinking. He is thoroughly acquainted with the city, and has acryed as city appraiser now and then for years past. He is a man of integrity and stands well in the community. In the early days he was an enthusiastic volent to the city comptroller for certification. Then and then only did it develop that there were no funds with which to meet the payment of such an enormous expendiunteer fireman, and for years took an active place among the fire-fighters of young Omaha. He is a leading member of the veteran firemen's association. It is said of Mr. Kennedy that he will not ask a councilman to

City Comptroller Goodrich, by whom the discovery of the state of affairs was made, was called upon and asked concerning the matter. Mr. Goodrich said:

Mr. Goodrich said: "The report that I have declined to certify to the big bunch of grading contracts awarded by the heard of public works last Saturday is true. The reason of my refusal to do so is very plain and simple indeed. At this time I don't know of a dollar available with which to meet the contracts. I propose to make a statement of expenses incurred and money extended from the general fund for the money expended from the general fund for the last five months, and from that I shall estiiast five months, and from that I shall esti-mate the monthly expenses for the next seven months. If there isn't a balance sufficient to warrant my certifying to these contracts I most certainly shall not do so." "Judging from what you now know of the condition of things do you think the balance will prove sufficient!" was asked. "Most certainly no. I do not think there is a dollar available for meeting these grading contracts. If, however, there should be enough for one contract I shall not hesitate to certify to one contract, or. If there is enough for two, three or more—though I know there won't be—I shall certify to that many."

won't be—I shall certify to that many." "How did this situation of affairs come about, Mr. Goodrich?" "Well, a complication of causes produced it. Expenditures which might perhaps be

termed extras, go to make up one cause. Under this head of extras come the compil-ing of the city ordinances for which Mr. Connell receives \$2,000, then there is their print ing which alone costs \$4,000 more; the print ing of the various reports, which comes in for another big item, and the cost of cross-walks which is a still bigger matter. Then there was an Item or three or four thousand dollars for fixing up the Goos property for city jail and police court purposes. And so I might go on specfying these many extras of which no account whateverseemed to have

might go on spectrying these unity extrast of which no account whateverseemed to have been taken by the council. "Still another general cause," confinued the comptroller, "is that the valuation of Omaha-much as I dislike to say it—is about \$200,000 less this year than last. It was ex-pected that it would be at least \$22,000,000, and it turns out to be only about \$20,000,000, "Without the least possible desire of court-ing any praise for my office, and simply to re-mind the children of the present generation how wisely their fathers builded," said the portly comptroller with a large smile," I want to say that this is one of the times when it seems quite evident that had it not been for the wisdom of the ordinance compelling all contracts to go through this office before the council can act upon them, I think that the last named body would have gone ahead and plunged the city of the best of a contract the city

would have gone ahead and plunged the city of Omaha into a seriously unpretty mess, to say the least, for their previous action re-garding this big lot of work indicated that they were bent on going headlong in just such a direction " ch a direction."

Not Mr. Dickenson's Views. An impression has gone abroad that the con-

Dickenson resigned as general manager of the Missouri division of the Union Pacific, took place with that gentleman himself. The impression is an erroneous one. Mr. Dickinson was in no way responsible for the sentiments expressed, which were those of a man who had long been an em-ploye of the company and who spoke simply as he himself felt.

There is another "9" which has also come to stay. It is unlike the figure 9 in our dates in the respect that it has already moved up to first place, where it will permanently remain. It is called the "No. 9" High Arm Wheeler & Wilson Sewing Machine. The "No. 9" was endorsed for first place by the experts of Europe at the Paris Exposition of 1889, where, after a severe contest with the leading machines of the world, it was awarded the only Grand Prize given to family sewing machines, all others on exhibit having received lower awards of gold medals, etc. The French Government also recognized its superiority by the decoration of Mr. Nathaniel Wheeler, President of the company, with the Cross of the Legion of Honor.

The "No. 9" is not an old machine improved upon, but is an entirely new machino, and the Grand Prize at Paris was awarded it as the grand-est advance in sewing machine mechanism of the age. Those who buy it can rest assured, there fore, of having the very latest and best.

"For the state's proportion of cancelled taxes. As you know, the state levies its pro-portion of the tax on the valuation, and this is charged against the county and paid. There is a large proportion of the total tax which is never collected, much of it being cancelled by the county commissioners. Every cancellation, of course, reduces the total and, consequently, the state's pro-portion. No claim has ever been made against the state for these cancelled taxes, which have been accumulat-ing since 1859. Large amounts of taxes are

ordered cancelled every year by the com-missioners, so that the charge against the state must be very large by this time" An investigation in the county treasurer's office showed that no record of the cancellations ordered by the commissioners had been kept previous to January 16, 1886, except what appeared on the treasurer's books from time to time, so orders for cancellation were entered against the taxes as charged.

William Schwariek, the bookkeeper in the treasurer's office, stated that on August 7, 1888, a statement was sent to the state auditor showing taxes cancelled amounting to \$2,158.12 from January, 1886, up to that date. No reply was received from the auditor and no further statements were forwarded. Mr. Schwarick also stated that Frank Zimmer, the county druggist, had commenced making up a list of the cancellations since 1859, but he did not know how far the work had proresseut.

Inquiry of Mr. Zimmer revealed the fact that he had commenced the work last fall and had taken all resolutions of cancellation from the commissioners' records from 1859 up to about 1887, but had not made comparisons with the treasurer's books to see if the ecords agreed, nor had anything been done n the matter since. It is impossible to say what the total of the

cancellations amounts to, but it is safe to say that it would be large enough to form an ef-fectual offset to the claim of the state.

The ordinance ordering the board of pub lie works to have this grading done is No. 2433. It was passed May 14, and approved by the mayor on May 17. "I am utterly and entirely at a loss to ac

count for the unparalleled revelation, and can form little or no idea whatever as to how such a state of affairs should be brought about, all things considered." Another prominent city official said : "The list of streets ordered graded under

the ordinance by which these contracts were let was made up entire, from beginning to end, oy the council combine in secret session. The two council committees, and the only ones, to which this entire and exceedingly unfortunate affair is chargeable are the finance and the grades and grading commitcees. The finance committee is composed of tees. The inflate committee is composed of Wheeler, Davis and Olsen-all of them com-bine Imen. Olsen, McLearie, Cooper, Morearty and Madsen-the first three of whom are combine men-compose the com-mittee on grades and grading. The fact that all the ordering of all this grading, dis tributed, as the list of streets will show, in a flagrantly partial manner, or in a way cal-culated to benefit those who were personally interested in its designation, only makes the matter, to my mind, at least, all the more puz-zling, Daniel H. Wheeler, Clarence L. Chaffee, and Edgard P. Davis constitute the head and Edgard P. Davis constitute the head and shoulders of that nefarious clique of fellows. They are the only men who really know all about the combine, and are the only ones who do the head work and lead in the gang. I occurs to me that their order for so much occurs to me that their order for so much grading, given, as it is now plain as day that it was, in the very face of an impossibility of which they were well aware, was simply a grand blufi intended as a sort of an attempt to cement the rest of the combine—the tools of Wheeler, Chaffee and Davis—to them, the ringleaders of the combine. Wheeler keeps very close cases on the finances of the city and peakably no man in Omaha knew or now very close cases on the finances of the city and probably no man in Omaha knew or now knows just how many dollars there or are to spend better than he himself. Therefore, it would be very hard for anybody to make me believe that Wheeler and Chaffee, and Davis too, for that matter, didn't know at the time that they brought that ordinance into existence and compelled their tools to help push it through that it could not accomplish its face purpose, and that it would not fail to accomplish the purpose of their trickery for a certain the purpose of their trickery for a certain personal gain, and that, too, at the assured isk of Omuha's getting a black eye before

MADE THEIR POINT.

The Union Pacific Conductors Have Been Granted Nearly All They Ask. The Union Pacific conductors, brakemen and baggagemen are jubilant over the result of their demand for more crews, less mileage and additional pay. Vice-President Holeomb, they say, gave them nearly everything asked. Freight conductors will hereafter receive 3 and 2 cents per mile for 100 mile runs, 30 and 20 cents an hour for over time. The number of passenger crews between Omaha and North Platte is to be increased from six to ten, including the fast mail and Grand Island local, from North Platte to Cheyenne five, and between Kansas and Denver twelve, six

and between Kansas and Donver tweive, six on each division. On local freight runs con-ductors are to be paid \$45 a month and brakemen \$70; baggagemen ou the main line \$55 per month. Train men shall, after continuous service of sixteen hours or more be allowed eight hours off. A conduc-tors of the second base more block tor at full pay must be sent with every light engine that goes across the road. The wages of passenger conductors are not interfered with, though the mileage is cut down consid-amble. erably.

Rates Were Restored.

Passenger rates on all roads went up yesterday morning to what they were "befo" de wah,"Fred Nash, of the Milwaukee, exhibited a large pair of sheep shears on the wall of his office and said : "These I used to cut rates with, but their services are no longer needed. They have become relics of the unpleasant

that they'll let him and Joe take her another nice long trip in chair cars, away back down to her New Jersey home.

IS a blood disease. Until the poison is expelled from the system, there can be no cure for this loathsome and dangerous malady. Therefore, the only effective treatment is a thorough course of Ayer's Sarsaparilla - the best of all blood purifiers. The sooner you begin the better ; delay is dangerous.

"I was troubled with catarrh for over "I was troubled with catarrh for over two years. I tried various remedies, and was treated by a number of physi-cians, but received no benefit until I began to take Ayer's Sarsaparilla. A few bottles of this medicine cured me of this troublesome complaint and com-pletely restored my health."-Jesse M. Boggs, Holman's Mills, N. C.

"When Ayer's Sarsaparilla was rec-"When Ayer's Sarsaparilla was rec-ommended to me for catarrh. I was in-clined to doubt its efficacy. Having tried so many remedies, with little ben-efit, I had no faith that anything would cure me. I became emaciated from loss of appetite and impaired digestion. I had nearly lost the sense of smell, and my system was bally deranged. I was about discouraged, when a friend urged me to try Ayer's Sarsaparilla, and re-ferred me to persons whom it had cured of catarrh. After taking half a dozen bottles of this medicine, I am convinced bottles of this medicine. I am convinced that the only sure way of treating this obstinate disease is through the blood." - Charles H. Maloney, 113 River st., Lowell, Mass.
