A SILHOUETTE OF CONKLING. A Peculiar Result of a Recent Storm at Baltimore. A peculiar freak of a recent hailstorm is apparent upon one of the windows of the face of Senator Conkling's building on the southeast corner of the Baltimore and Calvert streets. The immense hailstones struck one of the windows on the third floor on the Calvert street side, and the break which it occasioned has resulted in leaving in the pane a perfect silhouette of the late Senator Roscoe Conkling of New York, who died as a result of exposure in the blizzard of March 12, 1888, says the Baltimore Herald. Hundreds of persons gazed at the broken window and remarked the close resemblance to the features of the senator. His large head raised high, his thick hair and the peculiar nose and full beard, for which he was noted, being the most prominent features of the picture. Then, again, one could easily distinguish the look of hair which fell from his forehead in an apparently careless manner. None who had ever seen the remarkable face of Senator Conkling could fail to recognize the likeness and the bystander frequently heard the remark: "That's a perfect picture of Conkling." It is strange that the distinguished statesman whose death was caused as the result of a storm should have had his likeness formed by a window break caused by another storm. COUNCIL BLUFFS SWEAT MILLS. Another Attempt to Be Made to Drive Them Out of Existence. Mr. J. W. Taylor has filed a petition in the district court on behalf of J. H. Coffman against Peter C. Nisson, George C. Nisson and William H. Alford of Omaha, and D. M. West, an attorney; N. Schurz, justice of the peace; John Fox, constable, and D. C. Tucker, all of Council Bluffs. The petition prays for \$5,000 damages, alleging willful, corrupt and unlawful conspiracy to evade the laws of Nebraska concerning the exemption of laborers' wages. Coffman was an employe of the Union Pacific railway company and became indebted to Nisson, Alford & Co. of Omaha in the sum of \$15, which debt the firm assigned to Tucker, a resident of Council Bluffs. It is charged that Tucker and the other defendants conspired together and brought suit in garnishment against the railway company for the amount of the debt assigned to Tucker, which fact was proved in Schurz's court, but while the assigned had the law on his side, that made no difference to the combine, and a device was resorted to in favor of the combine. The case was taken to the superior court and reversed. The parties then garnished the railroad company again, and as the costs, etc., grew, the annoyance caused the company increased and Coffman was discharged in consequence. Hence he resorted to the present suit. It is charged that a regular sweat-mill exists over the Big Muddy engaged in this nefarious business, the tickets showing hundreds of similar cases aiming to snatch from the laborer his earnings to fill the maw of these men, banded together for fees, commission costs, and expenses, and to prevent the debtor's family want in pinch and want for the wages which never come. This action, it is claimed, is in total disregard of the law passed by the legislature, which exempts for sixty days the laborer's wages intended for the benefit of himself and family, and is manifestly to assist in the debtor's purpose of evading the protection of the laws of this state. It is proposed to make this a test case and a strong effort will be made to break up the practice. The plaintiff's attorney claims that by coming to the policy of each state and giving force to the proved laws of another state. Pizzoni's complexion powder is universally known and is considered as the only powder that will improve the complexion, eradicate tan freckles, and all skin diseases. MILITARY ROAD PEOPLE. They Want the Street Railway Company to Fulfill Its Promises. There is considerable uneasiness experienced by the residents along the military road regarding the extension of the motor line into that section. They claim that the Omaha street railway company seems to have forgotten its promise or at least has a very slow, methodical way of redeeming them. It will be recalled that several months ago the Omaha street railway company had agreed for a consideration to extend its military road to the terminus of what was known as the Benson line, about two and a half miles from Lowe and Meeker avenues. The consideration offered by the property owners was \$5,000 in cash, with which the poles could be purchased; the right of way along the road which had been enjoyed by the Benson line and lots, some of which are rated at less than \$500 apiece. This tender was accepted by Dr. Meeker in the name of the company and an agreement was entered into by which the motor company promised to have the desired line in operation by July 1. Three days or thereabouts later, the Omaha street railway company lost itself in the Omaha street railway company. Since that time deeds to the property in question have been made and are held by trustees. The company, especially as it operates part of the way on Lowe avenue, ought long since to have commenced work on the proposed line because the assistance offered it is greater than the company have ever experienced before. It was announced yesterday afternoon that the directors would soon give the matter their earnest attention. Entitled to the Best. All are entitled to the best that their money will buy, so every family should have, at once, a bottle of the best family remedy, Dr. Williams' Pink Pills for Pale People, in costive or bilious. Mayor Cushing received private notification and very attractive proposals, recently, for constructing a reliable and profitable project designed to unite the republics of the southern continent with the more stable and vigorous sister of the north of the old world. The project contemplates all-rail connection between North and South America, proposing a road from the Texas coast southward, with a detouring branch to San Antonio. The preliminaries are all perfected, the plans matured, and the money secured with which to prosecute it to a speedy consummation. The road will be known as the Corpus Christi & South American and will first devote its energies to the development of the richest resources lying in the magnificent stretch of territory through which it will run, which is said to be as rich as any in its wealth. The road will hug the coast nearly its entire distance. In nearly the entire district traversed, a field of cotton is grown to the acre, and twenty to thirty bushels of corn. Sugar cane grows rank and strong. There are hundreds of thousands of pounds of sugar were obtained by one man last year from 200 acres of cane, and sold at a clear profit of \$50,000. The growing season commences eleven months and two crops can be produced as easily as one. The Mexican government has granted a subsidy of \$10,000 a mile from Matamoros to Guaymas, and the government of Central America have pledged substantial aid. As projected, this line passes along a great and beautiful coast, all the way from the Rio Grande to the City of Mexico, while the point of entrance into South America is the Aransas pass, which is 600 miles from the City of Mexico. For burns, scalds, bruises and all pain and soreness of the flesh, the grand household remedy is Dr. Thomas' Electric Oil. THE COMBINE'S DICTATOR. How Davis Engineered the New City Jail Improvements. COUNCILMAN WHEELER AS LIEUTENANT. How Fellow Committeeman O'Connor Was Ignored Except When His Signature Was Wanted—Original Estimate Lost. Councilman O'Connor was asked why he had demanded an investigation into Councilman Davis' administration of affairs in connection with fitting up the new city jail. "I went on the building committee," said Mr. O'Connor, "and had out of me those fellows were doing. I thought it would be a good place to look into matters a little. From the first Davis and Wheeler undertook to run everything. Sometimes they would bring bills to me to sign and sometimes they would ignore me entirely and make their reports without reference to me at all. "At the time the matter of the new city jail came up the building committee was instructed to confer with the fire and police commission on the subject. Davis was out of town, but Wheeler and I met the commission and drew of similar cases aiming to snatch from the laborer his earnings to fill the maw of these men, banded together for fees, commission costs, and expenses, and to prevent the debtor's family want in pinch and want for the wages which never come. WARM WEATHER. Is slow but its coming sure. We are prepared for it, we have made last week the heaviest purchase of summer clothing ever made by any retail clothing house. Owing to the backward season manufacturers are overstocked, and we have closed a deal for a very large stock at prices far below the cost of manufacturing. We mean to sell the goods without any profit, just for the sake of making a big advertisement with them, as we find this the most effective way of advertising. Our customers will remember how we monopolized in former seasons the trade in summer clothing. We mean to do the same this year, and if it is possible to give greater values we will do so. We have prepared for a greater rush—more than half of our second floor is filled with summer coats and vests.—If you will look at our stock you will think we have enough of them to supply every man in this state, and such a variety has never been seen in any retail clothing house in this country. The season will be short and we intend to make short work with the goods. We predict that this will be the most sensational sale in this city. SUMMER NECKWEAR. In connection with this coat and vest sale we commence to-day our annual sale of Summer Neckwear. Our patrons need not be told what this means. Thousands of dozens will be distributed at mere nominal prices. We say "dozens" purposely because the most of our Summer Ties are sold by the dozen for the same price as other houses charge you for one or two single ties of same quality. For instance, the Pique Tecks, which you see in our window marked 25c a dozen, can not be bought elsewhere for less than 12 1/2c or 15c apiece. They come in handsome new patterns and latest shapes. Other Summer Ties and Scarfs in proportion. We keep them in the finest grades. One of the prettiest novelties in summer neckwear this season is the new Ring Scarf, made of Washable material. This is the very latest. We have a large variety in handsome shades and patterns, guaranteed to stand washing. Our price for these is 35c each—other houses charge 75c for them. SUMMER SHOES. Our assortment of men's low shoes is the largest in the city. What you can't find in our stock is not worth looking for, and our prices are by far the lowest. We sell you a good Oxford tie shoe with solid leather sole and counter, made neat and shapely, for \$1.15. You could not buy the same shoe elsewhere for less than \$1.75. Russet low shoes, of a good quality which will stand service at \$1.40, worth \$2; and excellent Dongola southern ties, stock and well made, at \$1.90, worth fully \$2.50. Very fine calf Oxford and southern ties, very flexible and easy shoes, at \$2.15 and \$2.25. Shoe stores would charge at least \$3 for such qualities. We can save you considerable money on your footwear. Nebraska Clothing Co. Corner Douglas and Fourteenth Streets. WEDDING PRESENTS. MAX MEYER & BRO.
