Plattsmouth Graduates.

Plattsmouth, Neb., June 13.—[Special to The Bee.]—Tonight the Plattsmouth city schools graduated as follows: Misses Oliver, Robinson, Vass, Gering, Stimpker, Adams, Stiles, and Mr. Thomas Parmelee. Each read an essay bearing the imprint of originality and acquitted themselves creditably. This being Prof. Drummond's last year the citizens turned out en masse. Much credit is due him and his able assistant, Prof. Palmer. After the exercises the graduates repaired to the Hotel Ritz, where the alumni association had arranged a banquet. Next year Professor McClelland of York takes charge of the schools, and it is hoped that he will have as much of a success as his worthy predecessor.

The Annual Indian Scare.

Chadron, Neb., June 13.—[Special to The Bee.]—The annual Indian Scare, fifteen miles northeast of this city, have started their annual Indian scare. The reports of 2,000 warriors being on the war path are entirely unreliable. The Bee correspondent talked with Colonel Gallagher, the agent at Pine Ridge, Wednesday, who says the Indians are too full of fat to be taken out. The best season for a week was the largest and best for months. A few timorous tenderfeet have moved their families into Chadron, Hay Springs and other places. But the whole scare seems to be a fake.

Cheyennes Ready for War.

The Indians Now Making Medicine and Waiting to Be Reinforced. Rifles and Ammunition Have Arrived. Ranchers and Cowboys Unarmed and Settlers Forced to Abandon Their Homes and Seek Safety in the Towns. Miles City, Mont., June 13.—The attitude of the Cheyenne Indians continues menacing, though no overt act has occurred since the killing of Ferguson. Owing to the fact that the Indians have left their reservation and are scattered over the country, the ranchmen, settlers, and cowboys are all alarmed and are sending women and children into the towns in large numbers. Indian lookouts are on all high points and are constantly signalling by mirror flashes and the blanket code. Friendly Indians have reported to the whites that there is to be an outbreak and that they are now making medicine, which is generally accepted to mean they are waiting to be joined by allies from Standing Rock, Sioux and Pine Ridge Cheyennes, to whom messengers have been sent. At the agency of Rosebud, Major Carroll of the first cavalry and three companies of infantry left Fort Keogh yesterday to proceed up the Rosebud and co-operate with him. In compliance with the request of the sheriff of this county, 10,000 rounds of ammunition arrived here yesterday in charge of Colonel Curtis, aide to Governor Toole. The sheriff expects to be called upon to turn over to him the arms and ammunition, but Colonel Curtis will not do so unless in case of a great emergency, which is not anticipated. The arms are being arranged for Colonel Curtis and Stock Inspector Smith to go to Cheyenne agency and confer with Major Carroll, and on their return report the situation to the governor. The Indians are all well armed with Winchester rifles and government ammunition which the ranchmen and cowboys are unarmed. Calf branding and rounding up has been entirely stopped owing to this fact. If the Indians could be disarmed and put back on their reservation the settlers could take care of themselves, but in the present condition of affairs there seems to be nothing for them to do but to abandon their homes and business and congregate in the towns.

Court Martial.

The Millmore Case Being Thoroughly Sifted at Tucson. Tucson, Ariz., June 13.—[Special to The Bee.]—The court martial today for the case of the late Captain Millmore was completed. He testified for the prosecution. He testified that the lowest bid he had received for rent for offices for the paymasters and quartermasters was \$75 per month. This was to be added the pay for night watchman, which would bring the total expenses considerably above the amount now paid, which is alleged to be exorbitant. Captain Murray of the Fourth cavalry testified that Lieutenant Moore told him on several occasions that the property in which the Millmore resided was his own. Major A. S. Kimball testified that in 1889, during the Indian war, he asked the quartermaster general to send him the most efficient quartermaster he had for service in Arizona and asked for Captain Campbell. Captain Millmore reported to him for duty under that request. Millmore had been discharging quartermaster under him since that time, but he had distributed \$100,000 in cash. A note a question had ever been raised as to any expenditure. In Tucson, Ariz., the property was sent me for renewal and I understood it concerned the same two rooms as first leased. These leases being renewed, George said I inferred then that she was the actual owner and I have had no reason to change my mind.

An Immense Bond Sale.

\$5,500,000 Worth of Collateral Trust Bonds Sold Here. Boston, Mass., June 13.—[Special to The Bee.]—The \$5,500,000 Oregon Short Line and Utah Northern collateral trust bonds, issued today by Messrs. Lee, Higginson & Co. in Boston, New York, London, Amsterdam and Hamburg, the subscription to close next Thursday or earlier, were all taken today and applications continue to arrive. A few were taken in this country, a few in London, but the bulk is to go to Holland and upward of four million dollars to Europe. They will be payable directly and the United States will gain a million of money each year. The sale of the bonds indicates that the money is not given over to spare speculation.

Seriously Runaway Accident.

P. Kimmery, a contractor residing at 1331 South Fourteenth street, is the owner of a very spirited horse, and last night he was out on Leavenworth taking a spin, when the animal became frightened at a passing motor train, took the bits in his mouth and started off at a frightful gallop. At eighteenth street Kimmery was thrown from his horse and badly bruised, so much so that he was hauled home in the patrol wagon, where his wounds were dressed by a physician. This accident has resulted in the horse being continued to tear along the street until he reached Thirtieth, when, turning north, he ran to Dodge between the Holland and directed the secretary of agriculture to accord to such standards as he may prescribe, and the classification of the standard is fixed. It should be a matter of record in the agricultural department and no longer a matter of trade. When such a standard is fixed it will be known as the United States standard. Before the house committee on commerce today considered the bill, the Louisville & Nashville railroad company continued his argument in opposition to the bill allowing the interstate commerce commission to fix rates.

Boston, Mass., June 13.—[Special to The Bee.]—There has been a quiet market for wool during the past week and sales have amounted to only 2,075,000 pounds of all kinds, including 339,000 pounds of foreign. Barbarity of Indian Butchers.

The Indian papers are constantly declaring against the practice among native butchers of skinning dogs alive, and have asserted that once the barbarity of this practice evinced by native magistrates, says the London Truth. In one case recently the offense was punished by a fine of twenty rupees, and in another by a fine of twenty-five. It is to be hoped that the magistrates will be able to stop the evil, since the fines are covered over and over again by the additional value which flaying alive gives to the skin. I suspect that the native butcher will never be made to look at cruelty to animals as a European looks at it. The most effectual way of remedying this barbarous custom is to establish public abattoirs and restrict the slaughtering of animals to them.

Fees of Russian Physicians.

The comparatively few Russian physicians who have attained a conspicuous reputation in their own country are paid even more handsomely than are many of the leading members of the British faculty, says the London Daily Press. A few days ago a wealthy local notability at St. Petersburg, Mr. P. S. Raik, was operated upon for a cancer of the prostate by Dr. Sklifasofsky of St. Petersburg. The operation was successfully performed within twenty minutes. The fee demanded and paid was 11,000 rubles, equivalent to \$1,200. Incidentally, it may be mentioned that Dr. Sklifasofsky's visit to Odessa to have an operation performed for cancer, for which she paid the operator 2,000 rubles, or \$222. And yet, writes our correspondent, there are many other hard-working, conscientious and skillful young practitioners busily engaged among the poorer classes of the populous provincial centers in Russia whose yearly income does not exceed 600 or 700 rubles.

DUNN'S WEEKLY REVIEW.

The Volume of Legitimate Business Continues Unprecedented. CROP PROSPECTS RULE ALL MARKETS. Two Hundred and Twelve Failures, Seven More Than Last Week and Thirty-Eight Less Than Corresponding Week Last Year.

New York, June 13.—[Special Telegram to The Bee.]—R. G. Dun & Co.'s Weekly Review of trade says: "Speculation has been of neither a small nor large volume nor of an enthusiastic tone during the past week, but the legitimate business of the country continues unprecedented in volume for the season and highly encouraging in prospects. There has been quite a decline in exports from New York for two weeks past, the value having been 14 per cent below that of the same week last year. Imports here show a moderate increase over last week, but the flow of currency to this center supplies the demands and makes the market easy. Interior cities report rather more demand for money. At Boston the rates are rising, at Chicago and St. Louis they are steady and Philadelphia flat. There is not much commercial paper offering, but at most points the demand is fair with a sufficient supply. The crop prospects begin to rule all the markets at this season, and there are distinct indications that wheat is not buying freely at the high prices now asked. Wheat has declined 1 1/2 cts. oats 1 cent and corn 3/4 cts. Coffee is unchanged. Hops, lard and the same week last year.
