Mr. C. R. Allen is now distributing his new map of Council Bluffs. It is a beauty, artistically, and is so complete and accurate as to make it indispensable in every well equipped office. All the additions appear, the the reaction of the start and accurate even to the very latest, and every street, alloy, lot and prominent building is plainly located. It is a credit to the city, and to Mr.

Allen's well known reputation in this line The Western Trail for June, issued in the interests of the great Rock Island route, con-tains a fine picture of the Council Bluffs and tains a fine picture of the Council Bluffs and Omaha Chautauque assembly building, and a full programme of the season, which opens duly 1st. Those who desire capies can secure them at the Rock Island office. The friends of the Chautauqua would do well to get cop-ies and mail to other friends. The same paper also contains a very complimentary write up of Council Bluffs.

A number of citizens in the vicinity of Tenth avenue and Fourth complain that there was a drunken row, general disturbance and free-for-all fight in that neighborhood Saturday night, lasting from shortly before mid night until 12.30, and that no policeman could found in that locality to put a stop to it L. Sheriff O'Neill received an order yesterday from Judge Deemer to adjourn court until July 5, when he hopes to be able to resume place on the bench. He also directed th sheriff to give the Smyth-Stont jury until 6 o'clock last evening to agree upon a verdiet, and if they could not agree by that time, which would allow them fifty-two hours, to discharge them. The whole of the regular anel of petit jurors was ordered discharged or this term

Theodore Brown was arrested last evening for drunkenness, disturbing the peace and using profane language. After being locked up he proceeded to smash out the windows in the jail and threatened to clean out the jail unless some of the other prisoners gave up a bunk for his use. He demanded to be put in the steel cell with Davis, declaring that cell to be his private and reserved property. The jailor found it necessary to sit on him for a while to get him quieted down, and after the operation he was as meek as a lamb.

The union gospel meeting at the First Pres byterian church last evening was well at tended and was full of the deepest interest Rev. Mr. Cullis preached on God: First, Our Rock; second, Our Light; third, Our Bread; fourth, Our Clothing, for our coverng, for our comfort and to prepare us to stand before the kin ie illustrations were ai and forceful. Mr. Cullis is a master in illus-tration and in diction. The singing of Mr. R C. Sargent is one marked feature of these services. There will be another of these meetings at the same place this evening at 8 o'clock; also a bible reading at 5 p.m. Sub-ject of the afternoon service: "What we do be faith " by faith. Sam Davis, the colored man arrested yes-terday for the attempted murder of Albert Smith, was handcuffed last evening and taken to the residence of John Smith on North First street, where the wounded man is being cared for. As soon as he was taken into the room where Smith was the latter immediately iden-tified him as the man who did the cutting, although Davis was dressed in different clothe from these he wore at the time of the cutting The police have that suit at the station. It is covered with blood and was found in his room. County Attorney Organ went along to witness the identification. Davis was locked up in the steel cell last night and will be taken to the county jail today. In regard to the stabbing affray at Big Lake on Sunday, Dan Ferguson, who has for three years been the special park policeman, says that he viewed the row from a distance says that he viewed the row from a distance of about three hundred feet. He did not deem it his duty to go off the park land, his authority dying on reaching that limit. He says the crowd was gathered in front of Wallgren's place, and the row was evidently there, and not at Pralor's, which is about a hundred yards distant. Smith, who was stabled, was lying about thirty feet from Wallgren's place what the way or dod ad the Wallgren's place when the row ended and the doctors were sent for. Ferguson claims that n injustice was done to the reputation of the Prafor place by locating the stabbing near it.

The Incoming Burlington Flyer Ditched Near Island Park. JUDGE DEEMER SERIOUSLY INJURED.

The Court Rules Against Open Barber

Shops on Sunday-Pets of the Police - Tricky Sam Arrested-Notes.

What may be termed a remarkably fortunate accident, in view of all the circumtances was the one that occurred at 9:23 'clock yesterday morning on the Burlington, about three miles southeast of the Bluffs The incoming No. 5, one of the "Q" fast trains that makes the run from Chicago in fifteen hours, was ditched a mile and a half this side of Island Park, by the spreading of the rails, and all the cars, including a baggage car, smoker and chair car, were thrown down the bank, which at that point is about eight feet high. There were about fifteen passengers on the train at the time and they and a very startling experience, but very fortunately no one was killed and no one was seriously injured, with the exception of Judge Deemer, who sustained a bad cut on his leg. which blod so much before the physicians ar rived that he was quite weak from the loss of blood.

The place where the accident occurred is about half a mile south of what is known as the Red bridge. The train came through Island Park station at 9:18 and was reported on time. The speed through was about forty miles an hour, but the train slowed up to about twenty miles an hour shortly before reaching the scene of the wreek, on account of a sharp curve. The acwhere k, on account of a sharp curve. The ac-cident occurred just after they struck the straight track after going around the curve. The brakes were set all around the curve, and Engineer Pat Sweeney had just released the air when the accident occurred. Fire-man Charles F. South states that the rear funds of the law states that the rear truck of the tender was the first to leave the track. The engineer instantly applied the air again, and the train was brought to a andstill within its own length. The three stands of within its own length. The three cars took a jump down the embankment, turned over on their sides and slid about thirty feet through the mud, landing in about a foot of water. They left the track on the inside of the curve. The engine did not go down the bank and would probably the the the the bank and would probably have remained on the track had not the car pulled it off. The only coupling broken was the one between the tender and the baggage car, and the three cars lay on the ground all oupled together. When Fireman Smith saw the tender leave

the rails he started to jump, but the jerking of the train threw him against the gate, where he was caught by the log. By the time he extricated himself the cars were going down the bank on that side and he slid for the other side of the cab. It was a most fortunate thing for him that he was unable to jump as he tried to do, or he would have been buried under the noker. As it was neither he nor the enginer were injured at all.

eer were injured at all. The scene in the chair car after the wreck beggurs description. Grips, bundles, um-brellas and passengers were pilled together in the wildest confusion. Through the broken windows the burne the state the procession. windows on the lower side of the car th water was pouring, and there was a scramble to reach the outer air. The wild acans of egress was through the door, and the passengers began to climb along the scats, it was while getting out in this man-ner that Judge Deemer received his injury. He stepped upon one of the windows and was precipitated into the water and mud beneath.

The broken ghass cut a frightful semi-circular gash on the inside of his right leg just below the knee, narrowly missing the artery. A large vein was severed and the blood spurted in a large stream. He was taken out and a lot of bandages were hastily improvised, but the flow of blood was not stopped until Dr. Macrae arrived and sewed up thereut. All of the other passengers got out without addi-tional injury. Word was at once sent to the yard office, and a switch engine and conch were sent down to bring the passengers to the city. The following is a list of

Beautiful Decorating.

The attention of the crowds of people travling on the Omaha & Council Bluffs motor ine has been attracted for some time past by the unique and showy office building the company is creeting at the car stables. But those who have admired the outside have been much more highly pleased with the interior when they have inspected it. The decorative work is being done by Gillette & Freeman in the new plastic relief which they are introducing, the samples of which in the show windows of their establishment at 28 Pearl street have attracted so nuch at ten-tion. The work is done on the naked walls in a special plaster that becomes as hard as stone and lasts as long as the wall itself. It is a perfect imitation of linerusta walton, without its summeness and machine-like ap-pearance. The plaster is put on the wall like an ordinary putty cout and the figures and designs are wrought while it is in a plastic condition. When finished it becomes as hard as stone and can be tinted and retinted to give any effect desired. The room referred to is a remarkable and original piece of art work done wholly in bronzes. The panel of the ceiling is an antique bronze effect hammered

and wrinkled, and a piece of art work worth going miles to see. The crinkles and corrugations are in heavy relief. The cove is made of soft blended bronzes separated from the panel by a rope meulding in terra cotta and gold. The freize is in three shades of bronze, copper, fire and orange. The designs are combed out in the material and the elevations tipped with the ighter bronze and it looks like the sun was hining on some old Romanesque bronze.

The work is unquestionably the finest little

FIGHTING THE WHISKY TRUST. New York Wholesale Liquor Dealers

Trying to Down It.

NEW YORK, June 16,-The wholesale liquor lealers of New York and vicinity are moving against the whisky trust and are determined to down it if possible. Today a meeting was held in this city to perfect preliminary plans to fight the trust. About forty wholesalers same together, including A. & H. Meyers of Philadelphia, Philip Kochler of Newark, M. Bird of Chicago and James Walsh of Cincinnati. The objection of the wholesale men is directed against certificates issued by the trust. When the trust secured control of all the distilleries they advanced prices 7 cents a gallon all around, but ssued a rebate certificate of 5 cents a gallon, payable six months from date of issue, provided the party to whom such certificate was issued bought goods exclusively of the trust. By this scheme the trust held about \$1,500,000 of money belonging to the wholesale men, upon which they do not pay a cent of inter-This is what the wholesalers object to r a lengthy talk, in which After ome wholesalers advocated building dis tilleries to knock out the trust if the latter proved too refractory, a resolution was adopted providing that a committee of ten leading wholesalers be appointed to confer with the trust to see if the 5 per cent rebate would be withdrawn and otherwise look after the interest of the trade. The sentiment de veloped was decidedly hostile to the trust.

A Saloon on Wheets.

MULLVILLE, N. J., June 16 .---- [Special Telegram to THE BEE.]-A bold attempt to sell liquor in original packages was made near here yesterday. Elihu Clark, a well known tough, with a large bottler's wagon loaded with bottles of beer and whisky opened business on the Malapa road just outside of the city, and for a few hours did a orisk business.

The police were apprised of the affair, and, taking no stock in the original package de-cision of the supreme court, started to arrest Clark, but as he was outside the city limits they were unable to do so. They sent word to the Vineland police, and just before night-

fall they swooped down upon Chark. When they got there the gang which had been patronizing the saloon on wheels was rumsoaked and several fights were in progress. Clark escaped. The police attempted to take the wagon, and, amid a shower of bottles, succeeded in getting the wagon to Vineland.

THE EAST AFRICAN QUESTION. Comments of the German Press on

the Terms of Settlement. BURLIN, June 10,- Special Cablegram to

THE BEE |-Sir Percy Anderson, the British representative in the East African negotiations, arrived here today. It is reported that his mission is solely preliminary to the actual negotiations, which will be conducted by Count Von Hatzfeldt, the German ambassador at London, and the Marquis of Salisbury

Sir Percy Anderson had a conference with Dr. Krauel, the head of the German colonial department, and a positive settlement of the east African question is certain, but it is probable that the arranging of the details will occupy nearly a fortnight. England is

likely to get all she asks in Nyamiland. The North German Gazette thinks that the coming agreement is not likely to please everybody, either in Germany or England. The National Gazette says that all appreusion is removed, and that Lord Salisbury has met the German claims in a spirit of perfairness.

The Hamburger Nachrichten declares that the outlined agreement is a fatal mistake that everything is conceded to England, and that the Germans are duped in a most ridic ulous manner.

English Traders Must Have Patience. LONDON, June 16.-[Special Cablegram to THE BEE. |- The Chronicle advises English traders to have patience and trust to the Americans own objections to the new tariff for its repeal. The bill, it says, was promoted by a small ring of wealthy American

manufacturers. The Times thinks that Lord Salisbury has chosen the least evil in allowing Germany to extend her African possessions to the Congo and southwestern Uganda. It is probable, it says, that we shall have to compensate Ger-many in some other quarter of the world for the cession of Vituland. On the whole we may be fairly satisfied with the German con cessions:

A Bad Man From Gibson Station.

George Steuffen disturbed the quiet of that portion of the city near Gibson station last night by threatening to kill Mrs. Anna Allen with a hatchet. Yesterday afternoon George visited the Allen residence and shot a dozen or more of the chickens and then chased Allen off the premises. Just at dark he again returned, and after hewing down the front door inti-mated that with his hatchet he would slaughter the whole family. This morning a warrant will be issued for Steuffen's arrest.

He was locked up in the city jail, where he now is, but no charge will be preferred against him until it is ascertained how severely Smith is injured and what the result of his injuries will be. Davis hus been identified by fully a dozen person as the man who York.

tified by fully a dozen person as the man who struck Smith with knackles, but there is a difference of opinion as to whether he is the one who did the carving. as was stated in these columns yesterday, Smith started to run when Davis drew his razor, and pursued him. The stabbing was done several yards from where the row heran and owing to the crowd several of the parties who saw the first part of it did not see the stabbing. One of the musicians who was playing for the dance at the Pralor place saw the whole affray and described Davis minutely before he saw him at the station, even stating that he had lost a front station, even stating that he had lost a front
