

Secretaries Submit a Report in Accordance With the May Resolution.

STATE FROM COLUMBUS TO SOUTH OMAHA.

They Find That the Present Charge of \$20 Per Car on Live Stock is Excessive and Recommend a Rate of \$25.

LEWIS, Neb., June 23.—(Special to The Press.)—The state board of transportation met this afternoon at 2 o'clock at the call of the secretaries to consider a report submitted by the secretaries Garber and Gilchrist under the resolution adopted by the board wherein the secretaries were instructed to investigate as to the cost of the railroads and to report a schedule of maximum rates based on a reasonable rate of income upon the capital actually invested in the construction of the roads.

Incidentally a report was submitted with reference to the complaint of G. C. Barnum vs. the Union Pacific railway company concerning the rate on shipments of live stock from Columbus to South Omaha. The report given below was submitted by Secretary Garber: The complaint, in substance, is of the rate of transportation of live stock from Columbus to South Omaha.

The facts are as follows: The respondent's rate for the transportation of live cattle and hogs from Columbus to South Omaha is \$29 per hundred pounds, taking fixed percentages of that rate. The distance from Columbus to South Omaha by the railroad of the defendant company is approximately 100 miles. The rate from Columbus to Chicago by the line of the defendant and its connections was, at the time of the bringing of this complaint, 27 1/2 cents per hundred pounds, but a minimum charge of \$43.48 per car. This rate is the result of a war on live stock rates between competitive lines carrying the live stock traffic from Columbus to Chicago, the results of that conflict being to reduce the rate from Kansas City to Chicago from 25 cents per hundred pounds to 12 1/2 cents by such route.

The prevailing rates to South Omaha on live stock from stations within competitive distances of Columbus are as follows: Schuyler, about sixteen miles, by the Union Pacific, \$29 per car; Benton, half way between Schuyler and Columbus, \$29; Duncan and Gardner, eight and fourteen miles respectively, by the Union Pacific, \$29 each; Orono, Platte Center, Burrows, Monroe, Matson and Genoa, stations north and west of Columbus on the Republican Valley branch of the Union Pacific, the rates are \$29, the same as at Columbus. While Bellwood and David City, south-east of Columbus on the Burlington road (the last named city being nearer Columbus than between the Union Pacific, the Elkhorn and the Burlington), the rates are \$26 and \$25 respectively.

Columbus is a main line station on branch lines of railway traffic located so low as to not lower rates than are made from stations further distant and at a cost of the service not less than that of \$29 per car, standard length, on shipments of live cattle and hogs, from Columbus to South Omaha as compared with the rates prevailing from stations located in competitive territory with Columbus, is unjust and unreasonable and an act of discrimination against shippers at Columbus.

The carrying of live stock to market is peculiar in itself. The character of the service is of greater proportionate consideration than the charges thereon. The smallest limit in time of transit is the least consideration to shippers. An unnecessary delay of an hour or two results in a shrinkage in weight for which the shippers are liable. Freight charges is no adequate compensation. And yet it is undoubtedly true that the rates generally on live stock are lower in view of the service rendered than are rates on other traffic in transit by the carriers than on any other traffic. The rate shown are not to the road. From the rate is deducted 75 cents whenever a stock car is used and \$1.00 is paid the stock yards company for hauling the car to the pens and for unloading the same.

In the conclusion of the secretaries that \$25 per car, standard length, is a reasonable rate for shipments of live cattle and hogs from Columbus to South Omaha; other stations within competitive territory to Columbus to be adjusted in conformity therewith upon principles of equity and justice.

The following notarial appointments were made today by Governor Thayer: J. M. Ferguson, Hastings; B. F. Harbaugh, Armada; W. H. Jones, Broken Bow; E. A. Cook, Leavell; W. D. Hays, Lincoln; J. M. Tracy, Davidson; Johnson county; J. M. Tracy, Lincoln; O. V. Hoagland, Lincoln.

Mr. O. C. Bell, deputy secretary of state, left today for a ten days jaunt in Utah and Idaho.

OMAHA INDUSTRIES. The Union stock yards company (limited) of Omaha filed amended articles of incorporation with the secretary of state this morning. The principal amendment is that article 5, which increases the authorized capital stock to \$4,000,000 and that it may be further increased by a vote of two-thirds of the stockholders.

Articles of incorporation of the Dawson brick company of Omaha were filed this morning. The object of the organization is to manufacture brick and other articles from clay, to mine and sell clay, coal and other minerals and to sell and lease wells for natural gas. The capital stock is to be \$200,000. The incorporators are Norman A. Kahn, C. D. Whitcomb, J. W. Bedford, Alexander G. Charlton, Richard Smith, W. S. Gibbs and A. H. Cooley.

THE WORLD-BE LYNCHERS. At 8 o'clock this morning Charles Smith, the last of the world-be lynchers of G. W. Blakely left at large, was captured by the fellow who, it is alleged, drew his revolver and attempted to kill Blakely after the penalty had been imposed on the scene. The trial of the six men was set for 2 p. m. and the police court was crowded with spectators. Blakely was present and his neck still bore the livid marks of the rope that was used with his neck yesterday morning, and walked with a limping gait, showing the injury to his hip by being dragged by the rope. The prisoners objected to a trial before Judge Foxworthy, as he was a member of the pursuing party that captured them. A change of venue was taken to the coroner's court.

SMITH LEAVES TOWN. George Smith, the man who criminally assaulted little Mary Hayes, the ten-year-old sister of his wife, was arraigned this morning in the police court. He was the only prosecuting witness, but she refused to testify against her husband. He was therefor released from custody, but was given sixty minutes to get outside of the corporation.

BREX WANTS HER LOTS. Mrs. Hannah A. Nelson complains in the district court that Atkinson & Doty, attorneys, have refused to give her title to the lots of her two lots in Yolande Place, Mrs. Nelson says that she hired these lawyers as counsel in a certain matter and was persuaded to give as security for their fees the title to the lots; that they gave her a written agreement that they would return the lots to her as soon as their fee was paid. She says further that the case was compromised, and she offered her attorneys the \$150 that they demanded from her. She was astonished, however, to find that the title to the lots was not returned to her and that she had her lots and proposed to keep them. Entrustees were in vain and she has found it necessary to appeal to the courts to get her property back.

SLONIMSKI CLAIMS TO BE INJURED. Dr. Slonimski, whose notorious record is known to every citizen in Omaha, has caused the arrest of the proprietor of the Evening News of this city for criminal libel for the publication of the following: Dr. Slonimski, the duck whom THE OMAHA NEWS has exposed time and again, and who at one time attempted to slug an Omaha reporter, has opened up a so-called museum of anatomical curiosities that he has circulated about the city. He should be fined for violating the ordinance covering that point.

The trial will be held in Justice Cochran's court at 1 p. m. tomorrow.

WUNDT FAILED TO APPEAR.

The Pauley Vault Agent Does Not Answer the Charge of Bribery.

It was anticipated, with a great deal of anxiety on the part of county officials generally as well as many contractors, that the trial of Charles L. Wundt, charged with bribery in the Pauley vault job, would commence in the district court yesterday morning. There were many spectators present who had evidently come for the sole purpose of listening to the case.

Every one concerned in the case was prepared for a noticeable exception. The exception was Charles L. Wundt. It will be remembered that Wundt was indicted by the last grand jury for attempting to bribe County Commissioner O'Keefe in connection with the contracts for the vaults in the court house.

When the indictment was returned Wundt came forward and presented C. W. Hamilton, president of the United States National bank as his surety on the \$1,000 bond, fixed by the court. At the time of the hearing Mr. Mahoney informed General Covin, counsel for Wundt, that if he would agree to have his client on hand for trial this term he would require a surety of \$200,000. This bond is carried over from one term to another. Mr. Mahoney says that General Covin agreed to this last week. The court noted that the case would come up yesterday, but for some reason the general failed to have his client on hand.

Mr. Hamilton is expected to proceed against Mr. Hamilton if Wundt is not immediately produced.

The worst that could befall Wundt in case of conviction would be a fine of \$1,000. Judge Clarkson made an order fixing the bond of J. H. Clappitt at \$1,000. It was done at the request of prisoner's counsel. Before the trial of the case, the court called on Mahoney for his opinion in the case, the point being that the lover court had fixed the bond at \$1,000. Mr. Mahoney explained how the court had fixed the bond at \$1,000, but added that he thought a bond of \$1,000, if a good one, would be just as likely to hold him as one of \$200,000. The court prisoner said that his client had, in running away, acted upon the advice of those who were then, but are not now, his friends.

Wundt is in the first instance charged with Wm. A. O'Leary, the Council Bluffs hackman charged with robbing a passenger of \$100, was dismissed on motion of the county attorney, and he will be tried simply for larceny as before.

Judge Hopewell and a jury took up the case of John P. Morris, a German about thirty-five years old, against the Union Pacific railroad company, for \$1,190 damages for injuries received by being run into by an engine at Sheehey's station about four years ago. One of Wundt's attorneys was broken and his shoulder dislocated.

Judge Doane is still holding court in the equity court room, and restoring to the court records of the Lewis and Clark expedition to shippers. An unnecessary delay of an hour or two results in a shrinkage in weight for which the shippers are liable. Freight charges is no adequate compensation. And yet it is undoubtedly true that the rates generally on live stock are lower in view of the service rendered than are rates on other traffic in transit by the carriers than on any other traffic. A Suspicious Fire. At 4 o'clock yesterday morning Arthur Lee, occupying room 31 in the City hotel, found his room full of smoke and the house on fire. He went from room to room arousing the inmates of the house. Rescue men promptly responded and did excellent work. All of the inmates were rescued without injury, although most of them got out in their night clothes. The building is badly damaged and the furniture almost ruined. The fire is supposed to have originated in the kitchen and run up between the studding and broke out in the upper rooms. There was no fire in the kitchen at the time and no signs of incendiarism are as yet.

Storm Driftwood. The storm of last night did more or less damage in every part of the city. The Chicago store had some goods damaged, the cellar for J. J. Taylor's new block on N street west of Twenty-fourth was filled with water, Holmes & Smith's cellar wall was damaged, Charles Hanuse's saloon was flooded and his cellar filled, causing about \$500 loss. The tin roof of the Grand Union hotel was blown off and the house drenched and twenty inmates were driven in the corner of one room to escape the water. The tin roof of the chimney blown off the Lister block and more or less injury was done, including considerable damage to the tops of the chimneys were blown off, causing about \$500 loss. The rain and sleet and water ruined his carpets and some of the furniture. The streets are badly washed out in places. The damage all together will amount to several thousands of dollars.
