The following is a synopsis of the Nebraska highmece, local option law:

THE RAILROAD BUDGET.

No Truth in the Rumored Strike at Rock Springs—Other Notes.

Vice President Holcomb said yesterday that there was absolutely no truth in the report of a strike at the Rock Springs coal mines. Some time ago an agreement was entered into providing that a change should be made in the system of payments, and until that matter can be settled work has been partially suspended. But, if Mr. Holcomb's correctly informed, the mines have not been shut down nor are the miners creating any trouble. Henceforth wages have been paid on the coal as it came out of the mines, and as a consequence much dissatisfaction has existed among the miners and the men of the company.

The revenue collections yesterday amounted to \$15,942.6. The special tax stamp sales amounted to \$500,575, seven-eighths of which came from the two Dakotas.

Office Collier thought he heard heralding in the house building Sunday night, but an investigation by Sergeant Masterson found a squad of men failed to reveal anything of the kind.

The List Completed.

The list of appointments and promotions in Union Pacific freight circles has finally been completed.

The rail service policy announced some time ago by President Adams was very closely observed through the entire line.

It commanded that the Republic be responsible for the flop made by the Republicans on the prohibition question; that he be endeavoring to expose the work of the Bankers and Business Men's association, and incidentally stirring with the prohibition vote.

An effort was made at the time the Republican did its great blunder to discover the extent of the damage done to the slate, but nothing definite was learned of it.

Later developments, however, indicate that the Tammany club is busily at work in its most "fascinating" manner, in effect to capture the prohibition vote in support of his principles.

It is to be hoped that the Tammany club is not as yet been reported to Mr. Holcomb.

In our Shoe Department we have opened to-day another invoice of 25 dozen fine Patent Leather Shoes, of same quality as we advertised a few weeks ago at \$2.50. The first lot of these shoes went off like hot cakes, and was sold out in a few days. We were at first reluctant to handle them, as the manufacturer does not guarantee patent leather, consequently we could not guarantee them to our customers. But we have not heard of a single complaint about them, though we have made it our business to find out how they wear. They seem to give good satisfaction—in fact, some customers told us they are as good shoes as those for which they formerly paid \$6.00 and \$7.00. Try a pair, and indulge for \$2.50 in the luxury of a patent leather shoe. They are a nice thing for the summer, do not need blacking, and always look dressy and neat.
