George H. Tzschuck, secretary of The Bee Publishing Company, does solemnly swear that the actual disculation of The Daily lies for the week ending July 3, 1800, was as fol-Tuesday, July I 92,585 Wednesday, July 2 92,98 Thursday, July 2 92,98

GEORGE B. TESCHUCK. Eworn to before me and subscribed in my presence the 5th day of July, A. D., 1890, [Sent.] N. F. Fills, Notary Public

| Senil N. P. Fair, Notary Public, State of Nebraska, County of Bougias, iss. County of Bougias, iss. George B. Trachuck being daly sworn, deposes and says that he is secretary of The Bee Publishing Company, that the actual average daily circulation of The Board Bur for the month of July, E80, E738 copies; for August, 1889, E456 copies; for Soutemiser, 1880, E746 copies; for Cetoher, 1889, E936 copies; for Necember, 1889, 19,30 copies; for December, 1889, 20,518 copies; for January, 1890, 19,55 copies; for February, 1890, 19,56 copies; for March 1890, 23,305 copies; for April, 1890, 20,564 copies; for May, 1890, 20,186 copies; for June, 1890, 20,301 copies.

Sworn to before me and subscribed in my Sworn to before me and subscribed in my presence this 2nd day of July, A. D. 1800.

N. P. FEIL. Notary Public.

PRIVATE enterprise is steadily solving the irrigation question, Seven ditches under construction in New Mexico will reclaim eleven hundred square miles of arid land.

lion ownces of silver a month will absorb the product of the mines of the country, which is all the most avaricious bullionaire could reasonably hope for,

gine houses, it is an open secret that the low. architect has already been selected by the gang.

THE republicans of the house furnished another conspicuous example of political fairness by reporting in favor of two democratic members from Mississippi retaining their seats. Such incidents refute the democratic charge of partisanship.

THE St. Paul Globs compliments Omaha as one of the few thriving cities whose population claims were affirmed by the census, and calls attention to the painful disappointments of Kansas City and Denver. The Globe forgets that Kansas City and Denver are still count-

whisks the lion's tail and insists on an early evacuation of Fount. This will lift is to be passed, should be carefully serve to divert the attention of the warlike Britons from the Behring sea, and defer the confiscation of Alaska, for which the sultan deserves the thanks of Uncle Sam.

THE Texas fever has developed among cattle in many parts of Kansas, and thousands of cattle are dying. The authorities of Nebraska will do well to see that our quarantine law is strictly enforced. Two thousand head in Chautauqua county, Kansas, have died. They were brought in from Texas.

THE Burlington and Elkhorn roads have reached an amicable settlement of the question of right of way into Deadwood. This result insures the early completion of both roads to the metropolis of the Black Hills-an event of incalculable value to the trade and industry of western Dakota and Ne-

FINE Worker Mackin, whose zeal in behalf of "purity in elections" was rewarded with a five year term in Joliet, stands a first class chance of becoming a permanent boarder of the state. He signalized his return to political life by issuing a batch of forged affidavits intended to prop up, the political heelers of Chicago.

EX-GOVERNOR GRAY has stepped on Hill's feeble boom in Indiana. Gray does not propose to take a back seat in '92. While the second place on the ticket of '88 was all he cared for, he announces his readiness to lead the democratic forlorn hope two years hence. Such patriotic self-sacrifice deserves a bourbon reward.

THE owners of the Dakota tin mines should get to work and develop the mines. Promises amount to nothing. The time wasted in efforts to secure a tariff on importations of tin would be far more profitably employed in developing the mines and demonstrating to the country that the home product equals in quality and quantity the imported article

HAVING practically monopolized the production of text books, the school book trust is working for the endorsement of the National Educational association. The announcement that the association would roast the combine brought the leading book men to the convention. A profound silence reigns, but the assembled educators need only give the hint to have their wants supplied regardless of expense.

THE Chinese ambassador to the United States announces that unless congress repeals or modifies the exclusion act, the Chinese government will retaliate in kind. Several demands for the repeal of the law have been made, and unless a favorable answer is soon given, the Chinese government will adopt similar tactics. The result will be sastrous to American interests in

AN EMBODIMENT OF IMPUDENCE. When a man presents himself before the republicans of Douglas county for an endorsement for the highest position within the gift of this state and has for his chief backer a democratic newspaper, a democratic postmaster and a gang of oath-bound political conspirators he is the embodiment of impudence. When a man who has held two offices at the same time for years at the hands of the republican party with a salary of twenty-five hundred dollars a year each office, and because his failure to retain one of of the two offices turns traitor to his party and consorts with democrats and political boodlers to defeat the republican candidate, who was fairly and honorably nominated as his successor, he has no claim upon republicans, even for the smallest office within their gift. And yet such a man has the audacity to parade his claims upon republicans in a democratic sheet that supports him for no other purpose than to disrupt the republican party in this county. For months and months this man

has been plotting and scheming with his democratic allies to repeat at the next republican primaries the scandals and crimes that were perpetrated by him, through him and for him in last December, when wagon-loads of repeaters were trundled from one ward to another and when judges of election were suborned to commit rank perjury in certifying to fraudulent election returns as was done in the Third ward.

Can the republicans of Douglas county afford to range themselves under such infarnous leadership? As well trust a man-of-war ship under the pilotage of a pirate.

And who are the republicans that are now openly supporting the candidacy of this man? Are they not almost to a man the same set of cowardly political assassins that accepted the hospitality of George W. Lininger last fall, broke bread with him, drank to his health, and pledged their honor to fight for him until victory perched upon republican braners, while each of them carried a dirk in his bootleg to plunge it into Lininger's back within THE purchase of four and a haif mil- a few hours after they had raised their hands to God and solemnly pledged themselves to stand by Lininger from first to last.

Will the republicans of Douglas county endorse such dastardly work? Will THE council combine is at its old they put a premium upon treachery and tricks. While going through the form | dishonor? We do not believe that the of soliciting plans for proposed fire en- | rank and file of the party has fallen so

> This chief of political scuttlers who talks aboutpurifying our elections in one breath while money is being freely promised to venal scalawage and ward bummers, can only hope to win next Friday by the corruption of the ballot box, by the aid of democrats and repeaters, and by the help of a gang of renegacies whom he has foisted upon the city payroll and kept at the public crib by the aid of Mayor Cushing and Birkhauser. This is the truth, the whole truth and nothing but the truth.

THE VALUE OF A FRANCHISE. At a recent meeting of the city council the city attorney returned an ordinance granting a franchise for the con-THE sultan of Turkey diplomatically struction of a water works plant, as "crude, vague and unsatisfactory, which, and completely revised." That the construction of the ordinance is faulty is not to be doubted. But what is most radically wrong is the method by which the franchise is conferred. The time has passed when the city should grant valuable privileges to individuals or corporations without return. The business of supplying water to the inhabitants of cities is recognized as a monopolistic industry, and, when the municipality does not itself conduct the operation, all possible benefits arising from it

should be reserved to the citizen. Franchises for waterworks, gas supply, street car systems and electric lighting belong all to the same class, In Baltimore the street railways pay nine per cent of their gross receipts into the fund for the maintenance of public parks. New York has received as high as forty per cent of the gross receipts in return for a similar franchise. In New Orleans the same system is in vogue. And in each of these cases the duration of the franchise is limited to a comparatively short and definite period. Many municipalities in England lease the privilege of supplying public and private electric lights to the highest responsible bidder. In this way they reap a portion of the profits accruing from the industrial value

of the franchise. We, in Omaha, have been giving away rights worth millions of dollars, A private person owning the streets of this city would undoubtedly exact the highest possible price for their use. The ordinary principles of sound business would require that the city should receive at least a partial compensation for franchises granted.

GROWTH OF SOUTHERN CITIES. Great as the growth in population of estern cities has been during the past en years, a number of cities in the south have realized a no less remarkable progress. The population of Memphis increased one hundred and twenty-three per cent. Atlanta's increase was one hundred per cent. Dalias rolls up figures showing a gain of two hundred and eighty per cent. Chattanooga's increase was one hundred and forty-eight per cent, while its suburbs also gained heavily. Fort Worth's increase was three hendred and sixty-five per cent, while Birmingham, Alabama, doubtless surpassed every other city in the country in the rate of increase, which is nearly eight hundred per cent. Of course none of these cities has gained as many people during the past ten years as the growing cities of the west, Omnha's increase in population since 1880, for example, being greater than the total present population of the largest of the southern cities named, while its per centage of growth was exceeded by only two of those cities, but still the progress of the principal towns of the

of the cities of the west.

south has been remarkable, under the

circumstances quite as much so as that

evidence of the changed industrial conditions at the south and the spirit of enterprise that has been developed there. At such centers of trade and industry as Atlanta, Chattanooga and Birmingham there is now the same devotion to material prosperity that distinguishes the more enterprising communities of the north. This change from the old order is largely due, doubtless, to the introduction of northern energy at those points, but it found the people ready for a change, and now the ambition for material progress and prosperity is as strong and eager there as in any other portion of the country. All of these southern cities have increased in wealth far more rapidly that in population, and very generally they have obtained a start that insures continued progress. Particularly is this the case with such industrial centers as Chattanooga and Birmingham, which are surrounded by a country whose resources are almost Inexhaustible, Already these cities are competing with the older manufacturing centers of the north, and will certainly do so still more vigorously in the future. The growth of these southern cities is a matter of interest in connection with a study of the economic conditions of the country as showing that all progress is not in one direction. DEMOCRATIC OBSTRUCTION.

The policy of obstruction which the emocrats in congress evidently intend to pursue, regardless of consequences, grave mistake from the point of view of party interest. Opposition to certain bine. measures involving vital principles regarding which the political parties are divided, carried on by every device known to parliamentary tactics, may be justified, but the American people will not approve a course that blocks all legislation and paralyzes

the work of congress. great deal of legislation is not at all of a partisan character, and when the representatives of a party unite to obstruct such legislation because of objection to measures which may properly be regarded as partisan, their action will not be approved by the intelligent, fair and patriolic sentiment of the country. This is the attitude which the demo

crats in congress are now assuming, They are inceased at the passage in the house of the federal elections bill, and by way of revenge they propose to put all the obstruction pos sible in the way of everything originating with the majority. A notable instance of this reckless spirit was in the case of the resolution requesting the president to return to congress the bill n his hands providing for an extension of the time in which purchasers of lands on the Omaha Indian reservation in Nebraska may make payments. The only piect of this was to correct an error in the bill, which of course has nothing whatever to do with politics, but the democrats saw an opportunity to embarrass the republicans and took advantage of it. It was a small and contemptible exhibition of spleen, from which there could be no reasonable hope of possible political capital. There was one other manifestation of this spirit during the proceedings at the house on Monday, and it was made very clear that the minority have fully determined to pursue this policy whenever there is an

Such opportunities will arise, but inder the present rules of the house they must be much more rare than formerly, and in view of the spirit the democrats are showing there is very likely to be an increase of public sentinent favorable to the new order of procedure under which the opportunities for obstructing legislation have been greatly reduced. A great many conservative republicans have doubted the wisdom of the policy adopted by the majority in the house for expediting egislation, but it finds strong support in the important legislation already accomplished, a considerable part of which would still be on the calendar but for this policy, while it finds more emphatic ustification in the present attitude of the democrats of the house. If this experience should lead to the adoption of similar policy in the senate, the minorty party in congress will have its own reckless and impolitic course to blame, and it will appeal in vain to the better judgment of the country for redress.

THE CLERK OF THE SUPREME COURT. The selection of Mr. David Campbell of Plattsmouth as clerk of the supreme court will give general satisfaction. Mr. Campbell, as county treasurer four years, of Cass county, proved his ability for his new position. His integrity has never been questioned and his loyalty to the party has always been manifest. Mr. Campbell is a comparatively young man, yet he has been prominent in Nebraska polities for many years.

The retention of Mr. Walter Leese as his deputy will cause nothing but favorable comment. The selection of a clerk has for a long time been under consideration by the judges of the supreme court, but the delay has in no way interfered with the business of the tribunal. Mr. Leese, temporary clerk, has given general satisfaction, and the selection of Mr. Campbell only assures more speedy disposition of the business of the office.

The fact that at least a dozen of prominent Nebraskans have applied for this position and been left, shows that the tax-eaters are still without occupation, and the selection of Mr. Campbell emphasizes the belief that here of late men are chosen for places of trust and honor rather than choosing themselves. Mr. Campbell is to be congratulated.

STATISTICS of railroad construction for the past six months show an increase of four hundred and fifty miles compared with the corresponding period last year. Nineteen hundred miles of track were completed up to July 1. The center of the greatest activity has temporarily shifted from the northwestern states to the Mississippi group, in which fifty-four percent of the total mileage was constructed. The significance of this change lies in the determination of the corporations to check the agitation for reduced rates west of the Missouri river by

timid. The assertion that a reduction would make the roads unprofitable is refuted by the fact that the corporations are extending and improving their lines in the Mississippi states, where the rates are from twenty-five to fifty per cont lower than in Nebraska. The volume of traffic is greater, but there is also a greater number of roads to divide the business. The statistics affirm what THE BEE has repeatedly claimed, that the refusal of the corporations to build necessary lines in Nebraska is a bluff, designed solely for its effect on the coming campaign. Corporation bluffs, however, have long since ost their terrors.

WITH the mercury hobbling around mong the hundreds, Mr. Broatch's attempt to draw sustenance from prohibitionists and saloons, is one of the most entertaining exhibitions of the season, While Apostle Paul protests his overwhelming love for the gospel of cold water, Broatch absorbs the foaming schooner, slyly nudges the barkeeper and sets 'em up for the crowd. Meanwhile his boom is exposed to the admiration of the guzzling throng. Asameans of cultivating votes the gang which pretends to oppose the use of money in elections, is flooding the lower wards with beer and boodle, while pledges and premises and original packages of fifty dollars and upwards are freely rolled out in the upper wards. The position of the Tammany chief recalls his woful antics last they will discover in due time to be a fall. The result will be far more emphatic and disappointing to the com-

THE indications are that the conference report on the silver bill will be promptly approved by both branches of congress and that the measure may become a law before the close of the present week. From the statement that the president will promptly sign the bill it is to be inferred that the administration has given congress to understand that the agreement reached is acceptable, and this is very likely the case. Advices from Washington are to the effect that the result reached by the conference is satisfactory to all classes of silver men, and it is expected the bill will receive a large majority in both houses.

THE BEE is the only newspaper printing full shorthand reports of the great debate at Beatrice. In this issue the concluding arguments of Monday forenoon are given verbatim. Tomorrow the opening arguments of Monday afternoon will appear in THE BEE. Other papers have contented themselves with garbled and unsatisfactory reports of the debate, while THE BEE is furnishing the people with the only unabridged and absolutely accurate report of what was said in the greatest debate in the history of the state.

THE Seventh ward has spoken in no uncertain tones. The home of the sanctimonious Chaffee and of Pete Birkhauser registered an emphatic rebuke against the mercenaries who have made office a source of personal profit and favoritism. The repudiation of the odious combine in its own bailiwick evidence the determination of republicans to rid the party of selfish schemers and chronic office seekers, and place men on guard who will command popular respect and support.

THE Rio Grande irrigation and colonization company proposes at an early day to commence operations to reclaim the millions of acres of arid land in New Mexico. The idea is to build two hundred miles of canals and will establish a system of reservoirs at intervals along the route. The outlay will be \$5,000,000 in money, but the returns will be still

THE corporate tax shirkers are practically secure for another year. Despite the tax discriminations pointed out by THE BEE, the under valuations and omissions of the assessors will stand, and the honest taxpavers must bear the burden of government, while rich corporations escape with a trifle. Such glaring favoritism calls for a very radical remedy.

THE democratic state central committee has fixed August 14, as the date and Omaha the place, for the next state convention. The vital party issue as heretofore is how to get office. Acting on this principle the date of the convention was deferred so as to enable the party to train its digestive apparatus for the grand swallowing act.

PETE BIRKHAUSER is making himself offensively prominent in republican neetings. The chairman of the public works must find some other means of paying his political debts to the combine. Republicans are competent to manage their own affairs without demomugwump interference.

THE republicans of the Seventh ward have done well. Their example should be followed by every ward in the city and the eath-bound dispensers of spoils repudiated for their treachery to the party and their base betraval of the pubic interests.

What has become of the council committee which promised to revolutionize the tax rolls? Have the taxshirkers joined the Tammany club to insure exmptions?

Now that Mr. Griggs has not been chosen clerk of the supreme court, he can go on in his wild desire to set everything in sight to music.

Chaigo Inter-Ocean.
The state of Kentucky has two counties without a single church. Why not recall a few Japanese missionaries!

Philadelphia Press. No administration and no party can afford a deficit in any year, least of all a year like the next, whose deficit must be discussed and met just before a presidential election. If neither the house nor the senate will put the brakes on the passage of appropriation bills President Harrison must.

> Will Keep Sam Busy. Chicago Times.

If, as it is reported, there are 50,000,000 folowers of Buddha on the earth, and if, as some believe, these followers of Buddha are but children of darkness, it does look as ifthe Rev. Sam Jones would have to jump around "right smart" to "stemp off all of the tail feathers of Satan." About Empty Jails.

Fremont Tribune.
Rosewater, in his speech at the Beatrice Chautangua, showed that there are more empty jalls in Nebraska than Iowa or Kansas, those in fifty-two counties at the present time having not a single lamate; that we have a smaller per cent of convicts in our penitentiary and fewer inmates of asylums than Kansas or Iowa. The contrary statement has done service a long time for the prohibitionists. It is interesting to know that Nebraska is a great deal better than it has been pictured.

David Will Be Remembered. Chiengo Neus

Addressing the Hendricks club at Indianapolis Governor Hill said: "An era of partisianship has been inaugurated by the party in nower such as has characterized no period of our history save that of the war. The interests and welfare of the country are forgotten and neglected in a mild scramble for the spoils of victory." Coming from so eminent a reformer as is David B. Hill, this note of alarm should sink deep into the hearts of the people. They will remember it when David trots out his presidential boom in 1892.

A Growing Sentiment.

As the time for the state convention draws on apace, the Standard is pleased to note a growing sentiment on the part of the repubtican press and voters at large in favor of General J. M. Thayer for a renomination to the office of governor. That our state executive has been subjected to a great deal of abuse and censure is an admitted fact, but as far as our observation extends, in nearly every case the dirty flings have enanated either from democratic journals or from socalled republicans whose disposition it is to continually flad fault with everything and especially to criticise the actions of those in offices of public trust. In accord with their own perverted natures, they are so ungenerous as to look upon every well intended move as prompted by selfish motives instead of a sincere desire to promote the public wel-

Governor Thaver's past record will bear the closest scrutiny. He has proven a faithful, conservative executive, always timely in moving and acting for the best interests of the masses, especially the farmers. No truer friend of the laboring classes ever occupied the position which he has so honorably filled. and discharged his duties with the same unswerving devotion to what he considered the proper and just course to pursue, than Governor Thaver, notwithstanding the perplexities that have surrounded him the past

MEETS MANY REQUIREMENTS. Something new under the sun, King Solo- the exhibition will be ready by fall. mon to the contrary notwithstanding. Some sor for it-something good as well as new.

Have you never, as you walked along the street cast a clance at the mass of trashy juvenile "literature" upon our news stands and wished you knew some charm whereby your boys might be secured against all danger of contamination from it? Well, we are prepared to furnish you the charm.

Have you never, while idling away an afternoon at home or sitting alone in the evening, with the rest of the folks gone out, wished for something to read-something not too heavy, something that you could be interested in from the first word and that should not be too long for the time at your disposal? Well, we are prepared to supply you with that something. Have you ever felt a pressing anxiety to

know all about some subject "right away!" Don't you find puzzling references in your newspaper occasionally, or hear matters mentioned in conversation that you would like to understand more fully or find vourself hesitating in your business for want of knowledge of some scientific principle or invention? We are prepared to fill that want, too.

Turn to the advertising columns of THE Ber and you will see just what we mean. We will furnish you a complete set of the Americanized Eucyclopædia Britannic, It will do all the things we have spoken of: supply your boys with attractive, entertainng and improving literature: farnish plenty of the most delightful reading for yourself, and tell you in simple, understandable language all you want to know about every subject in the whole range of human knowl-And the work which we are introducing to

you is no cheap or hastily gotten up affair. It is a better encyclopædia than can be bought elsewhere for three or four times the money. It has all the merits of the celebrated Encyclopædia Britannica, on which it is founded, with none of its defects. Every subject discussed in the latest English edition will be found within its pages. The articles that have been most reduced in length are those devoted to the subjects in which the interest of Americans is necessarily far less keen than that of Englishmen. No American, for exemple, wants to wade through solid pages of a description of an English county or parliamentary borough. He may want to know where the country or borough is, its population, the character of its industries, its modern or antique ob-Sects of interest; but, these things told him. his interest is at an end. On the other hand, when the question is of an American state or city, he wants to know all about it. It is to him what the English county or borough is to the Englishman, and he needs to have it treated in an equally exhaustive manner. The compilers of the Americanized Encyclo pædia Britannica have recognized this need, and, reducing the articles of exclusively English interest within reasonable limits. they have utilized the space thus gained for the exhaustive treatment, by American experts, of specially American subjects. Nor is this their only improvement. The original Britannica is singularly deficient in its biographies. It excludes all mention of characters living at the date-now fifteen years past-of the compilation of its latest edition. The American editors have remedied this defect by the insertion of a series of 3,000 biographical articles. In which the life of every living character is brought down to the present year.

The Encyclopædia Britannica, revised to date, improved by judicious pruning and copious additions, is furnished with a com-

predia Britannica. And in securing to every reader of THE BEE the opportunity for its possession on such reasonable terms we feel that we have taken a forward step in journalism and aided the progress of American civ-

KEEP IT BEFORE THE PEOPLE. For the benefit of voters who are interested the result of primaries this week, The Ben eproduces the following editorial which ap-

ared in its columns December 9, 1889; No amount of seif-praise and hypocritical totense can wipe out the ugly fact that roatch's career as mayor, from beginning to end, has been one of unceasing duplicity. A double-dealer by nature and training, he has paraded the upper wards with sanctimonious visage to hoolwink the law and order elements, while he was check-by-jewl with the lawless classes of the lower wards. He was all things to all men, provided he could use them to further the po-litical fortunes of W. J. Broatch.

Broatch waves aside as a trifle the fact that he sanctioned the payment of a month's sa he sanctioned the payment of a month's sal-ary to Tom Cummings without the warment of law. This is doubtless a specimen of the "backbone" about which he prates. It is paralleled by his brazen conduct in forcing on the payrolls of the city his chosen political pets. The power to create new offices is alone vested in the city council, but the mayor has ignored this express authority and created the office of clerk of the street commissioner, with a salary of \$3,00 per year. Placing H. I. Seward, an elastic tool, in that position, Broatch discovered the street of the stre played his "backbone" to the comptrolle and ordered that official to place Seward same on the pay roll without the nathefrity of

Broatch thanks God in one breath that Liminger was not elected mayor, and shows his hypocrisy in another by confessing that the voted the straight completion. republican ticket s conchinan to delikewise. Is that the net of an honest man? Does he not by his act prove himself a liar and double-dealer While he openty professed allegiance to the republican ticket, he had secretly scattered his hirelings over the city to work and vote

gainst himself and his coachman! Mr. Broatch refers to private matters that have no bearing on the question. The Bee might, if so disposed, furnish a few chapters on his connection with certain disorderly houses; but let that pass. We propose to hold up Broatch to the seorn of honest men on his record as an official and his duplicity as a politician. Palayer and faisehood and conceit cannot after the stubborn fact that be and his gang outraged the ballot box in an attempt to to continue in power, and after bein squarely beaten in the convention, notwith tanding efforts to bribe delecstanding efforts to brine delegates, he conspired with the leaders of the "Solid Twentyeight" to defeat the men they
had publicly pledged themselves to
support. They accepted democratic money to
betray the republican party. With treachers
on their lips and malice in their hearts, they
accepted Mr. Lininger's hospitality, while
hours before they had confected their when

hours before they had perfected their plans to shaughter him at the polls.
These are cold facts which will haunt Broatch and his gang 'till Judgment day.

still lives.

The indian farmers are bringing loads of new potatoes into Fort Pierre and selling em at 50 cents per bushel. Lead City miners have been called upon to sist the widows and orphans of the men who lost their lives at Dunbar, Pa. Burgiars broke up an original package

onse at Garretson, carrying away everything value in the place, including \$200 in money and a sliver watch. Among the laws that went into effect in North Dakota July 1 was the one making it crime to sell or give to a minor under sixteer

years of age cigars or eigarettes of any kind or form, except on the written order of purenter guardian, or tobacco in any form e penalty for violation being impri n jail not more than thirty days or a fine of not more than \$50, or both such fine and imprisonment. The supreme court of South Dakota re-

cently handed down a decision in the some-what peculiar case of Benedict & Co. vs. iya. The plaintiff in the case, a whole-clothing dealer, attagaed the goods of a defendant, who was a retail dealer at illow Luke. The defendant, as a reason of the cities of the west,

The facts are especially interesting as abandoning all plans for extensions and thereby frightening the Omaha has been one of the most slandered of trated. Such is the Americanized Encyclo-basket for safe keeping and that his wife

in kindling the fire had burned up the coutents of the waste basket, including the \$1,500. The motion to dissolve the attachment was tried before Judge J. O. Andrews, Brookings, being one of the first case fore him. Counsel for the plaintiff at before him. peared and opposed the motion to dissolv upon the grounds that the action being Clark county case the court sitting in chan clark county case the court sitting in chain bers at Brookings had no jurisdiction to en-tertain the motion, and that on the merits th-nitachment should be sustained. The circui-judge held that it—had jurisdiction, and the independent should be sustained. The circuit judge held that it had jurisdiction, and the while there were some features of defections as conduct peculiar, particularly the ciaim that his wife burned up his money, yet that strictly under the statute no sufficient grounds for an attachment had been shown to have existed at the time of the statute. have existed at the time of the suing our of the attachment. The supreme court sustains Judge Andrews both as to the ques-

THE SOUTHERN STYLE.

A Sheriff Has One Finger Shot Off in a Political Dispute.

TEXARKANA, Ark., July 8 .- [Special Telegram to THE BEE. |- News has reached here of an affray at Lewisville, Ark., in the adjoining (Lafayette) county. It seems that Dr. Chisma prominent republican politician, and Clint Lemay, a union labor man are sheriff of the county, got into a dispute co cerning politics, in the course of which Chism drew a revolver and shot one of the sheriff's fingers off. The latter retreated and went to his home, two miles distant in the country, where he has since remained. The trouble occurred Saturday night, and yesterday, it is reported, two brothers of Chism from a neighboring town went to Lewisville from a neighboring town went to Lewisville and took virtual pessession. Both of the latter are heavily armed, each carrying a Winchester and six-shooters. Lemay is popular and has many strong adherents, and it is feared there will be serious trouble whenever the men meet. Dr. Chism has frequently figured in shooting scrapes and was once driven from Lewisville by its indignant citizens but watered offer the excitement diszens, but returned after the excitement died out, and has since made the place his home. He is a man of talent, but quick-tempered and given to drink, while Lemmy is a sober man but game.
