Related to Montenegro Royalty.

In THE BEE'S foreign news Monday was a telegram announcing the assassination at Cettinje of Colonel Martinovich, commander of the body guard of Prince Nichols, ruler of Montenegro. The colonel was a cousin of the prince. The assassin was immediately lynched in the market place where the colonel was killed.

Stephen Martinovich, care-taker of the chamber of commerce and proprietor of a fruit stand near the tracks on South Thirteenth street, says that the murdered man was either his cousin or his brother. He has a brother, Savo Martinovich, and a cousin, Busko Martinovich, both of whom were cousins of Prince Nichols and officers in his body guard. Mr. Martinovich does not know which of his relatives was the victim of the assassin.

Matt Martinovich, who died in Colorado, and who formerly lived in Omaha, was a cousin of one of the Martinovich officers of Prince Nichols' body guard, a brother of the other, and a cousin of the one now living in this city.

Mr. Martinovich expects to receive definite news from Montenegro soon.

The figure was $5,000, Messrs Bell & Roeder to assume liens to the amount of $22,000. The valuation of the property over above these liens was placed at $7,000, and the amount ordered to be obtained was $4,189.48 or over. The bidding was very slugrish, being opened by W. I. Kierstead at $1,000.

In reply to questions on the subject, Mr. Roeder said that the building would be continued as a place of amusement.

Deputy Coroner Martin went out to 3107 Miama street yesterday afternoon to hold an inquest on the remains of Mrs. W. W. Lemmon, who died last Sunday afternoon while under the care of Mrs. Fenn, a Christian scientist. A jury composed of John S. Stoerl, Harry Gablanche, B. T. Leggett, O. C. Johnson, L. A. Webb and H. C. Crane was empanelled. Owing to the fact that an attorney was not present, the inquest was postponed until 10 o'clock today. A post mortem was held, however, but the result was not made public. The evidence of the physicians who made the examination will be given at the inquest at Burket's undertaking establishment this morning.

It is stated that criminal proceedings will be instituted against the scientist on the grounds of malpractice and illegally practicing as a physician. A great deal of feeling is manifested in the matter by the members of the medical profession.

IN RAILROAD CIRCLES.

The New Rate War to Be Discussed—Other News.

"The Western Passenger association will meet next Monday," said E. L. Lomax, "to ascertain by discussion and thorough investigation whether there were any other than strictly honest motives behind the Burlington's action in making a $16.70 round trip rate from Kansas City to Western Springs, a sort of summer resort on its line about fifteen miles out of Chicago. When it became known to the association that such a rate as this had been made all the other Chicago-Kansas City lines set up a great howl and entered complaints charging every kind of trickery that is known to the business. General Passenger Agent Eustis explained, but his explanation did no good. He denied that this special rate, which was made to accommodate delegates attending a thirty-day camp meeting at Western Springs, had any effect on the Chicago business, but his denial was repudiated and the Alton declared its intention of having revenge by making the $16.70 round trip a permanent rate. As soon as the Alton gave its notice Chairman Goddard ordered all other competing lines to follow suit. The big effort on foot now is to keep this cut confined to Kansas City, but the Burlington may put it in at St. Joseph and Omaha."

Still Under Consideration.

The rearrangements for paying coal miners at Rock Springs has not been settled yet. The committee of miners appointed to prepare a new wage schedule met last Sunday, but failed to accomplish anything and adjourned to meet again today. In the meantime matters at Rock Springs are going along in the quiet every-day rut and no disturbances are threatened.

Trouble With the Telephones.

Telephone subscribers have experienced considerable difficulty in the past few days in making connections with phones in the central portion of the city, especially those between Dodge and Farnam and Fifteenth and Ninth streets. The telephone people are putting in a new cable for this district, the old one having become defective. It is expected that this work will be completed by Thursday next.

The Farnam street motor has been a prolific source of annoyance to telephones along that street and it has been decided to place return wires in each circuit the same as has been done along Park avenue and other streets. This work will take some time but it is the only remedy. It is expected it will be completed in about two weeks.

The declining powers of old age may be wonderfully recuperated and sustained by the daily use of Hood's Sarsaparilla.

HE WAS NOT POISONED.

The Coroner's Finding on David Hurd's Strange Death.

David Hurd died suddenly Sunday night under circumstances which appeared suspicious, but a thorough investigation has developed the fact that his death resulted from natural causes.

Hurd was a brother-in-law of William Thomas, of the firm of Thomas Brothers, ice dealers, and drove one of the ice wagons. He lived with Thomas at 1237 North Twentieth street.

On Friday Hurd complained of pain in the abdominal region and said he had strained himself. He was also suffering from an attack of malaria. He consulted a physician and was treated in accordance with his symptoms. Sunday he went down town and consulted another physician, walking up several flights of stairs to reach his office. When he finally reached the office he was so exhausted that it was necessary to administer stimulants and allow him to lie down.

To this physician he said nothing about having been hurt and at that time he was suffering from congestive malaria. He was given a stimulant and some quinine capsules.

He went home and was taken very ill. Calling his wife he asked for his apron and attempted to spread it out on the floor, but the effort proved too much and he vomited freely, the blood spurting from his mouth all over the room.

His wife picked him up and placed him on the bed and then called for help. The other inmates of the house appeared helpless and it was some time before Mrs. Hurd could make it understood that a doctor must be summoned.

When a physician was finally called the man was dead.

Rumors were at once circulated that the man had been poisoned and the neighbors became greatly worked up over the matter.

Nothing was done until yesterday when the coroner was notified. He fully investigated the case and decided that no inquest was necessary, the attending physician signing the necessary certificate as to the cause of death.

The remains were interred yesterday afternoon.

No Land on which the Sun Shines

Possesses greater natural advantages than our own, but there are portions of the great grain-bearing west and fertile south where atmospheric influences prejudicial to health militate against them, in some degree, as places of residence. Heavy rainfalls and the overflow of great rivers, which upon their subsidence leave dark vegetation exposed to the rays of the sun, there beget malarial fevers, and there also the inhabitants are periodically outraged to use some medicinal safeguard against the scourge. The most popular is Hostetter's Stomach Bitters, a preventive that has for over a third of a century afforded reliable protection to those whom experience in the futility of ordinary remedies for fever and ague has taught to substitute for them. Whether intermittent or remittent, miasmatic fevers are conquered and averted by the superb anti-periodic and fortifying medicine as they are by no means preparation in use. Use it and abandon impure local bitters.

THE SLOCUMB LAW.

The following is a synopsis of the Nebraska high license, local option law:

Section 1 provides that the county board of each county may grant license for the sale of malt, spirituous and vinous liquors, if deemed expedient upon the application by petition of thirty of the resident free holders of the town, if the county is under township organization. The county board shall not have authority to issue any license for the sale of liquors in any city or incorporated village, or within two miles of the same.

Section 2 provides for the filing of the application and for publication of the application for at least two weeks before the granting of the license.

Section 3 provides for the hearing of the case if a remonstrance is filed against the granting of a license to the applicant.

Further sections provide for the appealing of the remonstrance to the district court; the form of the license; the giving of a $5,000 bond by the successful applicant for the license.

Sections 8, 9 and 10 make it an offense, punishable by a fine of $25, for any licensed liquor dealer to sell intoxicating liquor to minors or Indians.

Section 11 provides that any person selling liquor without a license shall be fined not less than $100 nor more than $500 for each offense; and section 12 provides for the trial of such offenders.

Section 13 makes it an offense, punishable by a fine of $100 and a forfeiture of license for any licensed liquor vender to sell adulterated liquor.

Section 14 makes it an offense punishable by a fine of $100 for any person to sell or give away any liquor on Sunday, or on the day of any general or special election.

Sections 15 to 23 inclusive, define the liability of saloonkeepers for damages sustained by anyone in consequence of the traffic and provide the steps necessary to collect such claims.

Section 24 relates to the issuance of druggists' permits.

The local option feature of the law is contained in section 25, the salient part of which reads:

"The corporate authorities of all cities and villages shall have power to license, regulate and prohibit the selling or giving away of any intoxicating, malt, spirituous and vinous liquors, within the limits of such city or village. This section also fixes the amount of the license fee, which shall not be less than $500 in villages and cities having less than 10,000 inhabitants nor less than $1,000 in cities having a population of more than 10,000.

Sections 26 and 27 relate to druggists' registers and penalties for violation of the rules governing the same.

Section 28 makes drunkenness an offense punishable by a fine of $10 and costs or imprisonment not exceeding thirty days.

Section 29 provides that the doors and windows of saloons shall be kept free from screens or blinds.

Some women are "bothered to death" with corsets breaking. There is a "bone" that never breaks; it can't be broken—by wear. The only way it can be broken is by bending it back the other way—which is never done in wear.

Don't believe it, perhaps?

Very well. Go to your own store and get a Kabo corset; and, if it breaks in a year, go back and get your money.

The steels may break—the Kabo never!
