COMPLETELY OUT-GENERALED.

Frehibitionists Find Cold Comfort in the Work of the Convention.

THEIR PLANS FOILED BY ROSEWATER.

The Platform Don't Mention Prohibition, the Committee in the Hands of the Philistines, and the Party Machinery Out of Reach.

to THE BRE. |-It is beginning to dawn upon the prohibition people that they were completely out-generaled by Rosewater in the late convention. They expected that Rose water would try to make himself very conspicuous in the convention and attempt to force na endorsement of high license in the convention, and all their plans were laid with a view to beating Resewater at every turn and substituting a resolution in favor of prohibition for his expected license reso-But Resewater was not demonstrative , this time and shrewdly held himself in reserve for the moment when the convention was about to begin balloting for governor. Then he carried his point for the adoption of the platform before the nomina were made, and by getting into the committee on resolutions squelched the pro-hibition people. He folled the prohibitionist introducing any resolution in licens, and got a plat-liopted which it is now of licens , and adopted which known was his own work and had been drafted by him before he came down from Omaha. On the top of this he out generaled the probibition managers in capturing the organization of the state central committee which will not play into the hands of the pro hibitionists as was expected. Batler County Alliance. DAVID CITY, Neb., July 25.-[Special Telegram to The Ber.]-The alliance convention here today nominated W. H. Taylor, republican, and R. C. Carpenter, democrat, for the legislature; S. Hustings, democrat, for county attorney. Resolutions favoring the abolition of national banks, the unlimited free coinage of silver, government control and ownership of railroads, coal mines, telegraphs, the Sanford money loaning bill, Australian system of vot ing, were possed. The delegates to the dif-ferent conventions go instructed.

The People's Alliance at Hastings. HASTINGS, Neb., July 24.- Special to THE BEE . Tomorrow the people's alliance convention will open in this city for the purpose of placing in nomination a full county ticket. Inasmuch as the republican county legislative ticket, recently nominated, embraces a trio of representative farmers, there is considerable speculation as to who the alliance people will nominate.

The Apostles Today.

The Omahas and Apostles will meet for the econd game of the present series at the local park this afternoon, and notwithstanding it is a battle between the tail-enders, it will be just as brilliant and just as exciting a contest as if the two teams were striving for the lead. The Saints are playing a really excellent article of ball, and the wonder is that they do not win more games. The team is one of the nost gentlemanly and well behaved outlits in the whole association, and is deserving of a much more lavish bestowal of Dame Fortune's

Cline and Burdick Let Out. Monk Cline and Burdick, the pitchers, were released by Sioux City last evening, and it may be that the latter will be given a trial by Omaha. But so wags the baseball world. The clubs all over the country are unloading their superfluous talent, and within a few more weeks there will be more idle hirst-class ball players than at any one time within the history of the game. As Cal Broughten says, "These players who find themselves minus a job can send what thanks they have to spare to the moguls of the Brotherhood."

A Sioux City Stockyards Kick. Storx City, Ia., July 25,-[Special Telegram to THE BEE. |-There was a grand kick at the Union stockyards which brought about a settlement of long standing complaints against the Sioux City live stock market. The shrinking has been on an unprecedented and exorbitant scale, and has caused great complaint from shippers, while the dockage on cripples was equally unjust. Then the violent fluctuations of the market the packers having made a practice of running prices up above the of running prices up above the Omaha quotations when the receipts were light. This would cause a rush of hogs and then the prices would drop far below a proper figure. The result has been to impair confidence in this market and the receipts for several weeks have fallen off to a skeleton. The stock exchange held a meeting today and the result was an arrangement to correct the difficulty.

DUN'S REVIEW OF THE WEEK

A Satisfied and Confident Tone Pervades the Business World.

THE COMMERCIAL OUTLOOK IS GOOD.

Speculative Markets For Products Show a Tendency to Advance-199 Failures Reported For the Past Week.

New Yoak., July 25.-[Special Telegram to THE BEE.]-R. G. Dunn & Co.'s Weekly Review of Trade says: More money and higher prices meet the wishes of most traders, and accordingly the tone of the business world is more satisfied and confident. Meanwhile silver is accumulating, having risen a cent per onnce by Monday, and since declined three-quarters of a cent, and shipments hither from Russia have become known because of a speculation in grain and cotton and higher prices for some manufactured goods. The general average has risen during the week a half of I per cent and there are indications of renewal of the speculative fever which the prospect of montary expansion produced some time ago.

But in other respects the outlook is good.

Business is large for the season and the great industries are on the whole improving in condition. Latest reports of exchanges through clearing houses outside of New York shows a guin of 15 per cent over lust year. The woolen manufacture shows the least improve-ment of all the great industries. The failure of the senate to go on with the tariff bill operated as a wet blanket, dealers say. The boot and shoe trade is particularly healthy and active for the season. A most cheering statement is made by the iron and steel asso-ciation, showing that stocks of pigiron unsold have increased only 134,000 tons since January I, though the production in the six months is reckened by the Iron Age at 4,180,000 tons, which would indicate an in-crease of nearly a half million tons in the

The market for pig and rails is waiting at former prices, but bar iron is firmer and more demand is seen in structural, plate and bridge iron. The coal trade is phenomenally and the output for July has been re stricted to 3,000,000 tons. Copper rises steadily with the growing demand, while tin is an eighth lower and lead quiet. Wheat heisted again persistency in circulating unfavora-able reports of a yield at home and abroad. But exports are not large and the prospect in most of the spring wheat re-gions is very bright. Prices advanced 2% cents for wheat, 234 cents for corn and 3 cents on oats on small transactions. Cotton also rose 3-16 of a cent on sales of 230,000 bales in spite of highly favorable crop reports. Coffee was steady, and dealers claim that a better distributive demand begins to be felt Oli is a fraction higher with small trading, but hogs and pork products are lower. Raw sugar has been lifted a fraction in

spite of the depression of refined by Spreckies' sales. In general, the speculative markets for products show a tendency to advance, mainly because of more money and more speculation. The state of business at other cities is everywhere as favorable and at some more favorable than a week ago. Boston notes a trade steadily exceeding last year's, but quiet in some branches, and great activity expected. Philadelphia finds a bet ter demand for iron product, with difficulty in obtaining prompt deliveries. The tobacco business is fair and the trade in chemicals, drugs and liquors, though quiet as usual at this season, is in good condition.

this season, is in good condition.

Chicago enjoys, according to board of trade returns, a large increase in all grains and considerable in cured meats and cattle, with a dressed beef movement three times that of last year's, and sales of dry goods and clothing larger than a year ago. Wool receipts are small and the shoe trade quiet. St. Louis reports a fair volume of trade in nearly all lines and grood prespects for the fall. At all lines and good prospects for the fall. At Kansas City business is better and at Mil-waukee and Detroit fairly maintained for the season with good prospects. At Pittsburg iron is slightly weaker for a few grades, but manufactured products are in good demand and the class trade steady.

There is a remarkable absence of comaints regarding collections in the reports received and the money markets are now stringent. With nearly all conditions thus favoring business activity, there is a con-stantly growing embarrassment in all depart-ments of trade and industry which are likely to be affected by the passage or failure of the tariff bill. Foreign trade is naturally ad-verse under such circumstances, while exports from New York for three weeks of July show a decrease of 151-2 per cent. Compared with last year there is an increase of

no less than 33 per cent in imports here. The business failures occurring throughout the country during the last seven days number 199 as compared with 207 last week For the corresponding week of last year the

Against Lotteries. Washington, July 25.—The house post office committee today agreed upon a substitute bill in lieu of a number of pending bills adverse to lotteries and ordered it reported to the house. The substitute prohibits lottery circulars and tickets, lists of drawings, money or drafts for the purchase of lottery tickets or newspapers containing lottery advertisements or drawings from being carried in the mails or delivered by carriers; and a penalty of fine not exceeding \$5,000 and imprisonment not exceeding one year is imposed upon any person depositing such matter in the mails. The postmaster general is also to be author ized, upon evidence of the existence of a lot-tery or gift enterprise, to cause registered etters directed to the company to be stamped "fraudulent" and returned to the senders, and he may also forbid the payment of money orders addressed to the lottery or gift enter

prise company.

The house committee on military affairs has authorized a favorable report upon the bill authorizing the secretary of war to per-mit Lieutenant Colonel Corbin, United States army, to assume his duties in connection with the world's Columbian exposition with a provision that while acting in a civil capacity the officer is not to receive pay from the government.

Congo association has assured to France the right to Congo in the event of associations relinquishing a portion of its territory in 1817. The Congo had informed

France that in granting this right it did not intend to imply that the right could be used in opposition to Belgium, and France had formally noted this condition. The Congo bill was adopted, there being only one discontinuously. senting vote.

Sr. Paul, July 25. -Inspectors Sloan, Yeager and Knapp returned from Lake City and Red Wing last night, after making a successful search for all the survivors of the Sca Wing wreck. The inspectors secured affidavits of 105 persons who swear they were upon the boat when the cyclone struck it. Ninety-eight dead bodies have been identified. which makes a total of 203. The Sea Wing was authorized to carry only 175 passengers unless she towed two barges. Captain Wetheren and others testified that they carried less than the allowed number of passengers.

False Reports of Victories. CITY OF MEXICO, July 25 .- Yesterday the Salvadorian General, Ezeta, brother of Presidente Ezeta, defeated the Guatemalans at Atezeatempo, Chingo, in Guatemala, twenty leagues from the frontier, obliging the Guatemalans to abandon their fortifications at The Salvadorians captured an immense amount of booty, including the correspondence between the Guatemalan generals and Salvadorian traitors. General Ezeta sent a personal challenge to President Barillos of Guatemala, according to a special to the El Universal. The Guatemalan agents are spreading false reports of victories.

Opening Old Wounds.

Halifax, N. S., July 25 .- [Special Tele gram to THE BEE. |- There is indignation here over the coming to this garrison of the Seventeenth Leicester regiment. The cause is that bad blood has existed for a quarter of a century between Haligonians and the regiment in question owing to the mutiny and riots of thirty years ago. It is said a petition will be presented to the authorities asking the exited "Grenadier guards" be sent here in place of the Seventeenth. Should the Seventeenth come there is almost sure to be an outbreak of the old hostilities.

Joe Lockwood Returns to Omaha and is Immediately Arrested. Joe Lockwood is back again.

Joe is none other than the thief who stole the Garneau diamonds about two years ago. He was sentenced two two years in the pen, but was given credit for the three months he was in the county jail from the time that the term of court opened until the close, when he was sentenced. This, with four months gained by good behavior, secured his release two months ago.

The police received word vesterday morn ing from Lincoln that a sneak thief had stolen a watch the preceding night from a room in the Capital hotel, so when they heard last evening that a man answering to the descrip-tion of the thief was endeavoring to dispose of a watch on Douglas street lost no time in taking He was found in a saloon the corner of Fourteenth and Dodge. When he saw the officers approaching he was seen to slip something across the bar to the bartender. He was hustled into the patrol wagen and the officers then found that the property he had gotten rid of was a watch. It was secured and was found to tally exactly with the description of the one stolen the night before at Lincoln. The prisoner was taken to the station, where he gave 'he name

of George Fox.
Captain Mostyn immediately identified him as Joe Lockwood, as did also Chief of Detec-tives Haze. Joe denied it for a while, but finally acknowledged that he was indeed finally acknowledged that he was indeed Lockwood. He said he arrived in the city yesterday morning from Denver, where he bought the watch from a tender-loot who was broke and wanted to raise money to get back home. He denied having been in Lincoln since he was released from the peritentiary in May. Lockwood is one of the most dangerous sneak thieves and thoroughly bad men in the country. He has barely attained his majority, but he is a crook from the ground up. At the time of the Garneau ropbery be wore At the time of the Garneau robbery he wore rubber soles on his shoes. When arrested last night he had on a new pair of shoes, but he had already put on a pair of rubber heels in anticipation of any opportunity that might

arrest, and nonchalantly inquired whether the new police judge was any worse than the old one. He decided that he would give Judge Helsley a "stiff song and dance" this morning just for luck and see how it would go. He talked freely of his prison life, and chatted for an nour with the police about his cell-mates and the convicts sent from this county during the past few years. He declared prison life to be hard, and expressed a desire to have so more of it, but the indications are that it will be but ashort time until he is again at work in the penitentiary harness

shop.

If any of last night's big audience at the Grand ever attended a good old-fashioned blood and thunder play in the Bowery, they must have strong reminders of it. "After Dark" is the kind of play one can always see in the theatres on that famous New York street. It has all the teeth gritting speeches, tearful declamations and studied gestures necessary to set a gallery wild and delight gum chewing patrons of the parquette, and William A. Brady, the star of this company, who plays the part of an ancient, rag covered bum who has seen better days, is just the kind of actor to make the piece go. He knows how to work up the critical scenes and rouse the interest of his audience to the proper pitch of en-thusiasm. When the climax comes there are several clever features to "After Dark," not the least of which is the great tank of water representing the Thames river, and into which the short whiskered villain throws the suffering and deeply wronged heroine. In the fourth act two fine specialties are introduced. One is an exhibition of boxing by Kelly and Murphy, fine ex-ponents of the art, and the other an Irish song and dance turn, in which Bobby Gaylor has an opportunity to display his talent in that line. It would not be an exaggeration, either, to say that Mr. Gaylor is a very elever imitator of the every day, side-whiskered Irishman, Mr. Brady is surrounded by a company of very good actors, and his show gives excellent satisfaction.

Don't Like the Bill.

Kansas City, Mo., July 25,-The mass meeting of democrats tonight adopted resoluions deprecating the passage of the federal election bill. The resolutions say in part: "As the city is entirely cosmopolitan, neither allied to the north nor the south, we believe it will be for the interests of the whole country that no laws be enacted which will stir up strife and engender sectional feeling, and we denounce the attempt pass this bill as a deliberate blow at the liberties of the people and their inalienable right to elect their own representatives."

Last October Ruysschart took the contract to grade Emmett and Spring streets from Sixteenth to Twenty-first for \$3,400. He went to work hiring men and teams, and putting them onto the grade. The next move was when he went to Herman Kountze and borrowed \$4,000 on his contract. Work was continued for some time and until board bills and labor hire became due, when he threw up the job, leaving \$7,200 of unpaid claims, including that of Mr. Kountze. Yesterlay the members of the board thought they should stand by the laborers, and instructed the chairman and the city attorney to investigate and see if anything be collected of Ruysschart's bondsmen.

Upon motion the chairman was instructed to declare the grading contract cancelled and to hire men and teams to complete the work
