P. S .- In order that all juggling with the revenue returns be forestalled, we will add that the internal revenue district of Nebraska includes North and South Dakota, and the reports of stamps sold represent the three states together. The number of stamps sold for Nebraska alone for 1889 was 1,860, and that includes every drug store in the state. The only reliable statistics as to the saloons can be had from city and village officials, and those we have in our possession from all but the eight towns quoted.

THE craze for cheap wood pavement which spread over the city during past years, is bearing its legitimate fruit. Every well traveled street paved with wood blocks silently proclaims the costly folly of abutting property owners. Not only is the surface worn rough and uneven, but the heat absorbed and thrown off by the blocks, mingled with the odors of decaying wood, endangers the health of the residents. Sixteenth, Farnam, Leavenworth, West Cuming and other thoroughfares, illustrate rapid wear and decay the of the blocks. On these streets property owners will be compelled to repave long before the ten year limit for

payments has expired, and on the less traveled streets, dry rot is doing its ruinous work. In view of the fact that the city will be compelled to pay out large sums annually to keep decaying pavement in repair, not to speak of health considerations, the city authorities owe it to the taxpayers to exclude wood blocks from the list of paving material. Such action is demanded by considerations of economy, cleanliness and durability. Penurious and short-sighted property owners should be protected from themselves.

# THE fire department continues to

prove itself equal to all emergencies. The splendid work of the chief and his men at Monday's fire is commended on all sides. Considering, the force of the wind and the inflammable nature of the surroundings, it is a source of congratulation that the fire was confined to the block where it started. Had it crossed Fifteenth or Sixteenth streets, human appliances could not have checked the besomi of flame. The result emphasizes the importance of maintaining the department at the highest standard of efficiency.

RESUBMISSION is growing steadily in Kansas. Clubs are being organized in cities and country, and extensive preparations are going on for an active fall campaign. Business men, merchants and capitalists are uniting to overthrow the fanatic blight, which has all but wrecked the peace and prosperity of the state.

AID FOR GUATEMALA.

Arms Purchased and Negotiations in Progress for Troops.

New York, July 29 .- A morning papar says negotiations were completed yestenlay in behalf of the republic of Guatemala for the purchase of 20,000 stand of arms. It also says an army of 3,000 trained soldiers has been tendered that government. Consul General Baiz of Guatemala, in an interview yesterday, said one man, an ex-colonel of the Missouri infantry had offered to raise 3,000 recruits within two weeks time and have all equipped and ready to sail. He says the privates and officers will be men who have carried arms and seen a good deal of active fighting in the civil war. One point which seperates the two parties in the negotiations is in the provision made by the Colonei that a certain sum of money, \$30,000 be placed in this city to the credit of trustees and to be held as a guarantee fund for the troops.

Emotional Journalism Don't Go. Chicam News

The Macon (Ga.) Telegraph on Friday last made a canvass of the business community, and failed to find a single firm that was in favor of the boycott proposed by the Atlanta Constitution on account of the force bill. It is thus that newspapers of the emotional type sometimes succeed in misrepresenting the views and wishes of their own constituents.

### The Old Cry Maised Again. Rochester Chronic

Anything more senseless than this threat of a sectional boycott would be difficult to imagine, but the north will not fail to note the spirit of intimidation and rebellion which is breathed in the resolutions of organized meetings and in the public utterances of representative Bourbons. Resistance to the laws of the United States government is implied not only, but threatened, and again we hear the cry, so familiar thirty years ago. "Let us alone; that is all we ask."
