

RAILROADS AND THE STATE.

Hon. G. M. Lambertson's Argument Before the Interstate Commerce Commission.

THE DEMAND FOR REDUCED RATES.

Universal Sentiment Throughout the West—A Discussion of the Powers of the Commission in the Premises.

Following is the first portion of the address delivered before the Interstate commerce commission by Hon. G. M. Lambertson on July 9, on the subject of freight rates in the state of Nebraska. The concluding portion of the address will be published in another issue.

Chairman and gentlemen of the Interstate commerce commission: This case, involving as it does millions of dollars to the railroads on the one hand and the producers on the other, is the most important that ever came before the commission. By your report of June 7th to congress you have put yourself on record as favoring a reduction of cents per hundred on rates from Iowa, Nebraska and Kansas. The critical question is, whether you shall make an order putting this reduced rate in effect. You have invited arguments on this point at the solicitation of the railroads.

Let me say, in the first place, that I appear on behalf of the Nebraska Farmers' Alliance, embracing 70,000 members. I am authorized by telegram from the governor to this effect: "Please represent the people of Nebraska before the Interstate commerce commission in favor of lower rates."

In addition to this I have been asked by one or two members of the board of transportation of the state of Nebraska to appear before it in favor of as low a rate as that found to be reasonable in the report made by you to the United States senate, of date of July 10, 1909.

In the second place, I think it proper to state the nature and extent of the demand for lower rates. For some time past this matter has been the subject of investigation through the state of Nebraska, and more particularly among the farming and stock raising communities. This investigation has resulted in the passing of numerous resolutions and made many petitions to congress, to the state of Nebraska, and to the Interstate commerce commission.

Let me say simply a word or two as to the character of a commission of this kind. I do not think it is a commission to be set up to investigate and report on a matter, and then to let the matter rest there. It is a commission to be set up to investigate and report on a matter, and then to let the matter rest there.

Subsequently I addressed a second letter to the board, in which I asked that a reduction of rates be made on the basis of the 1909 report. The board of transportation of the state of Nebraska, in its report of July 17, 1909, recommended a reduction of rates on the basis of the 1909 report.

Before proceeding to a discussion of the merits of the case, I desire to discuss the powers of the commission. The commission is created by the Interstate commerce act, and its powers are defined in that act.

Such lofty considerations, doubtless which are the province of the courts, are not the province of the commission. The commission is created by the Interstate commerce act, and its powers are defined in that act.

The Interstate commerce commission is created by the Interstate commerce act, and its powers are defined in that act. The commission is created by the Interstate commerce act, and its powers are defined in that act.

The Interstate commerce commission is created by the Interstate commerce act, and its powers are defined in that act. The commission is created by the Interstate commerce act, and its powers are defined in that act.

HEALERS AMONG THE HEATHEN.

How Christian Physicians Practice and Preach in Chicago.

The Experience of Dr. Mary Niles.

The Embarrassing Condition of the Y. M. C. A.—The Chimes of Trinity—Where the Lord May be Praised Today.

About thirty ladies gathered at the home of Mrs. Warren Switzer on St. Mary's avenue last Monday evening to meet Mary W. Niles, M. D.

The ladies were members of the missionary societies of the First and Westminster churches, and they were anxious to hear Miss Niles relate her experiences as a medical missionary in Canton, China.

The meeting was entirely informal and very pleasant. Dr. Niles has resided in Canton for eight years and during that time has had charge of the women's department of the American Presbyterian hospital there.
