United States Commissioner Anderson yesterday issued a warrant for the arrest of one E. F. Graham of Fremont, who is charged with using the mails for the charges that Graham sent out circulars, in which he could furnish "green goods" that were as good as gold and would stand the most rigid examination.

Yesterday Pietro Marie Pane was before United States Commissioner Anderson, where she swore to an information, charging that Peter Marculia called at the Omala postoffice, and, by making false representations, succeeded in obtaining her letters, which he opened, read and destroyed. The warrant for Peter's arrest was given to a deputy marshal, who located the man, finding him actively engaged in the occupation of running a banana stand.

Colliseum Affairs,

New complications have arisen in the affairs of the Coliseum. The association having falled to pay the rent, amounting to something over \$800, proceedings have been begun to oust the association.

Fastest on Record.

The fast mail on the Union Pacific from Grand Island to Council Bluffs made the greatestrun on record Wednesday, making 156 miles with eight stops in two hours and fiftymiles with eight stops in two hours and fiftynine minutes. The old-timed Jack Dolan was
at the throttle of his favorite engine and
Pat O'Brien was conductor. The train had
to meet the Q for the mail and as it sped
along the line, people saw lightning without
thunder. The fast mail system has been in
operation since December last but never was

ELEVENTH STREET VIADUCT. It Must Be Repaired by the City and Railway Company.

"The city engineer and I have made a careful examination of the Eleventh street viaduct," said Chairman Birkhauser of the board of public works, "and find that it should be repayed immediately. The rest of the structure we find to be all right. We shall go right to work to find out how much of the repaving the street car company is responsible for and then get them to arrange for doing their share which will probably take some little time, for it's always hard to get my of these corrections to act in such a get any of these corporations to act in such a matter. As for the city, it is ready to do its part without delay."

THAT BRUCE AGAIN.

Heroic Efforts to Get Him Out of the Toils of the Law.

Detective Pat Horrigan and a representative of the Boston store have returned from Marshall, Mo. They went there in response to a letter signed, "A Citizen," stating that soon after the robbery of that store a quantity of silk and other goods had been sent to that place, presumably to relative of Frank Bruce, the crook captured last week by Sergeant Ormsby.
They secured a search warrant, but after considering the situation, concluded not to

use it.

It is not generally known that the father of Bruce is in the city. He came here soon after his son's arcest and since his arrival has been devoting every minute of his time to his boy's interests. An attorney has been retained to defend

the young man and he and the prisoner's fa-ther are now looking up evidence. It is not generally known either that Bruce's partner whose right name, by the way, is Howard, is in the city, but he is and at present is stop-ping with a friend in the western part of the

AN IMPOSITION.

Halsted's Enemies Seek to Malign and Injure Him.

In the report published Wednesday of F. A. Balch's loss on E.O. Halsted's board account, endorsed by Frank Barnard, by a confusion of names an injustice was done Mr. Walter Bellard, who was represented as having endorsed Halsted's note to Mr. Balch. Mr. Bellard had nothing to do with the claim against Halsted.

of the Barker explains itself:

OMARA, August 14.—To the Editor of THE BEE: I wish to state in justice to Mr. Walter Bellard that he has paid his bills at my hotel promptly and without demur; that the party who endorsed the \$125 note in payment of E. TERMINAL FACILITIES.

The Burlington-Milwaukee Squabble

Over the Union Depot. There is no prospect for a speedy settlement of the union depot squabble. One side makes statements and the other denies them. This naturally widens the breach. "I can call your attention to another im-

portant feature that has not been publicly discussed," said an interested party, "and one upon which the entire controversy hinges. You say the Burlington people claim trying to negotiate a deal for the leasing | that nothing has been done, showing any disposition on the part of the Milwaukee road to come in and use their temporary joint depot. I am afraid they are given to prevarication because I know positively that the Milwaukee has been trying very hard to Milwaukee has been trying very hard to make a deal that will permit It to run its passenger trains solid into Omaha. But the Burlington wants to charge that company a big rent for terminal and rent facilities which it does not need and has no desire to secure. All it demands is simply the privilege of running its trains into and out of the depot and for that privilege is perfectly willing to pay a reasonable rental.

"The shoe that pinches the hardest, however, is worn on a different foot. The Min-

purpose of carrying on a fraudulent ever, is worn on a different foot. The Mit-business. The complainment in the case waskee is, and for a long time has been the wankee is, and for a long time has been the Barlington's strongest competitor on Omaha business, therefore it wishes to keep the Milwankee out just as long as it possibly can. When the engineers' strike was on two years ago the Milwankee took nearly every bit of the passenger traffic in and out of this city away from the Burlington and only because of the fact that its trains stopped at Council Bluffs, which made a transfer necessary, did the latter successi in cutting a nection of that the latter succeed in getting a portion of that traffic back."

A Jolly Crowd.

General Passenger Agent Lomax of the Union Pacific came in from Denver Wednesday and says the ticket agents whom he helped to escort in a special train of luxurious Pullman cars from Chicago to that city last Sunday and Monday, are having an elegant Sanday and Monday, are any light and a cleanted time. They left Chicago over the Alton road Saturday night 300 strong, took on an additional car load at St. Louis, secured more at Kansas City and some at Topeka, so that when the party reached Denver it numbered 450. the party reached Denver it numbered 450. General Passenger Agent Charlton of the Alton, was commander in-chief of the excursion as far as Kansas City, where a fine breakfast was tendered them Monday morning at the Midland hotel and from there Mr. Lemax, Inasmuch as the balance of the run was made over the Union Pacific, was first in command. A far a two days, meeting of the command. After a two days' meeting of the international association of ticket agents, at Denver the boys propose to take in all the mountain resorts as far west as Salt Luke before returning home.

Notes and Personals.

The general freight offices of the Chicago, St. Paul & Kansas City road win oe moved October 1 from St. Joseph to Kansas City. S. M. Herr, superintendent of the Galesburg division of the Burlington has resigned to accept a similar position with the Milwankee road.

Engineer Roberts of the B & M., who fell off his engine near Ashland Monday night and was badly injured, is at St. Joseph's hospital and getting along nicely. Ed Williams, for a long time chief rate clerk of the B. & M., has resigned to take a better position with the Rio Grande, Septem-ber I at Salt Lake.

Why It is Popular.

Because it has proven its absolute merit over and over again, because it has an unequalled record of cures, because its business conducted in a thoroughly bonest manner, and because it combines economy and strength, being the only medicine of which "100 Doses One Dollar" is true—these strong points have made Hood's Sarsaparilla the most successful medicine of the day.

The Sacred Heart academy for day pupils, situated on St. Mary's avenue and 27th st., is an institution devoted to the moral and intellectual education of young girls. The course includes everything from an elementary department to a finished claissical education. Besides the ordinary academical course, music, painting, drawing and the languages are taught. French is included in the ordinary course. Difference of religion is no obstacle to the receiving of pupils, provided they conform to the general regulations of the school. The scholastic term commences the first Tuesday in September. Classes begin at 9 a. m., and pupils are dismissed at 3:30 p. m.

FROM THE OTHER WORLD.

Hon. John A. McShane Arrives to Set the Eall in Motion.

Hon. John A. McShane, chairman of the democratic state central committee, has returned from his flying trip to Europe on business pertaining to gold mining property in Mexico and in which he and several other Omaha capitalists have large holdings.

"The trip was one for business almost exclusively," said the ex-congressman. "I visited Paris, London and made a little run over to Ireland. At the latter place I found the people a little down-hearted over the small potato crop, though otherwise very hopeful. Hearned more clearly than ever that Ireland and Scotland are bound to have home rule at no very distant day. The fact was conceded to me by many men who stand very high among the great anen of Europe and who would, I think, under no circumstances whatever, make such an admission if it was not inevitably foreshadowed by the facts. In the financial circles of London and Paris I found that American properties of nearly all kinds were becoming more exceed-

ingly attractive with the passage of every day. In other words, America's stock is enjoying a swifter rise in value than that of any other country on the globe. Therefore, I consider it nothing more or less than a certainty when I say that the purchase of American manufacturies, lands, stocks, etc., already made by London and Paris investors, is but the first few patters of rain preceeding a deluge of English and French gold seeking exchange for such things as I have designated

"In Paris I met Joe Millard and family; Lyman Richardson with his family, N. W. Wells and Mr. Neiman of Schuyler, and a large number of other Nebraska people. I also had chats with Oakes Ames and several other New York magnates whom I met in London.
"Paris is very gay with her races, etc., just now. There is where you see life for all there is in it, and I should have liked to have seen another month of the whirl. London is a trifle more sleepy in point of galety than what I had anticipated. The thunder of a mighty, a tremendous business drowns out the laugh of the merry-making in London."

PRODUCE PRICES ARE FIRM. There is No Need to Feel That They

Will Rise.

Omaha housekeepers have been excited the past ten days over the rise in the local provision market, and that the predictions made that the end has not yet been reached. There seems to be no necessity for worry over prices. In fact it is known lower than higher prices are likely to prevail. "The talk that potatoes are going to cost \$3

and \$4 per busher is pure nonsease," said the Peycke Bros. Co. "Potatoes are worth for choice Nebraska and Iowa stock, in sound lots, \$1601.25 per bushel. California and Salt Lake tubers sell at \$1.50. There will be a very good sapply of late potatoes from Utah, Colorado, Nebraska and northern Iowa.

failure, but California has an ample crop and, while some kinds of dried fruit may be higher, there will be an excellent canned assortment to choose from at the usual prices, perhaps ten per cent higher than last r. Butter, eggs, cheese and poultry are cheap and likely to remain at reasonable prices. Melons are plentiful and fine in flavor, and there is not any reason to com-

Everything Goes Wrong In the bodily mechanism when the liver gets out of order. Constipation, dyspepsia, contamination of the blood, imperfect assimilation are certain toensue. But it is easy to prevent these consequences, and remove their cause, by a course of Hostetter's Stomach Bitters, which stimilates the offinry organ and regulates its action. The direct result is a disappearance of the pains beneath the ribs and through the shoulder blade, the nausea, headaches, yellowness of the skin, furred look heataches, yellowness of the skin, furred look of the tongue, and sour odor of the breath, which characterize liver complaint. Sound direction and a regular habit of body are blessings also secured by the use of this cele-brated restorative of health, which is its best guarantee of safety from malarial epidemics. Nerve weakness and over-tension are relieved by it, and it improves both appetite and sleep.

A SENSATIONAL SUIT.

Geo. S. Smith Accuses Money Loaner

Corbett of Dishonesty. An amended petition containing some of the most sensational statements ever placed on public record in this city has been filed in the district court case of Annie W. and George S. Smith against Charles Corbett William F. Petty, Frank Elmore, Edward H Ratekin and S. B. Shirk.

The plaintiffs are husband and wife, married twenty-three years ago, and have three children, the oldest nineteen and the young-

est five years,
During the past five years Mr. and Mrs.
Smith and children have been occupying a handsome property, their homestead, situated in Presion and Williams addition. On June 13 last and for several months prior thereto the husband was greatly debilitated and wholly incapacitated for transacting business. While he was in this condition it is stated that the defendants—Ratekin excepted—wickedly and maliciously conceived a scheme to defraud plaintiffs out of their property.

If conceived a scheme to defraud plaintiffs out of their property.

Mrs. Smith alleges that at the time stated she was approached with respect to selling the property, but knew none of the defendants. After certain deeds had been executed by her she learned for the first time of the conspiracy to cheat and defraud her and her husband of their property. She says that she also learned that Charles Corbet was a money loaner and dealer in mortgages and notes in Omaha, and that Petty gages and notes in Omaha, and that Petty and Elmore were his accomplices. The Smiths set \$8,500,82,500 cash and other cortrage security as their figures on their

Defendants then proceeded and by numer-ous representations of a fictitious nature suc-ceeded in swindling the old folks out of their roperty. The man Edward Ratekin is Corbett's

father-in-iaw.

The principal incentive held out by Corbett and his partners is alleged to have been "valuable east side property in Pierre, Dak," upon which Corbett claimed to hold 10 per cent mortgages, which through tele-grams sent by his conspirators was made to appear as worth 90 cents on the dollar.

The prayer of the plaintiffs is that the de-modants be restrained from selling, transferring or encumbering the property out of which it is claimed they have so despicably swindled Mr. and Mrs. Smith and that the deeds of conveyance given by the latter be declared fraudulest and void.

A Magnificent Showing.

Superintendent W. N. Babcock kindly furnishes the following interesting and surprising comparative stockyards statistics: During the first twelve days in July last 3,306 cars of stock were handled at the yards and during the corresponding time this mouth 4,683 cars were handled, an increase of 1,377

or 41.65 per cent. Or 11.63 per cent.

During the first twelve days in July, 1889, there were handled 3,193 cars, and during August this year for the corresponding days, 4,983, a gain of 1,790 cars, or 56.06.

During the first eight months of the yard's

year, from December 1,1888 to August 1, 1889, the receipts of hogs were 797,665 and cattle 285,830, and during the corresponding months of the year 1889 00, ending the first day of this month, the receipts of hogs were 925,049, a gain of 127,384 or 15.58 per cent and 387,182 cattle, a gain of 101,202 or 35.44.

July Shipments. During the month of July the Armour-

Cudahy packing company shipped 931 cars of packing house product, an average of thirtysix cars per day. The largest shipments made in any one day were forty-eight car loads. The prepaid freight alone amounted to \$38,700. The value of the shipments was about \$1,800,000.

The magnitude of the business at this point may be understood when it is remembered that this is only one of the four large packing houses in this city and that it takes nearly twice as many cars to bring in the animals as to soln out the product
