A list of lots condemned for sanitary by the board of health and or dered filled by the council has been com-pleted by the board of public works and will be published officially on August 16, 17, 24, 26, 27 and 28. The list comprises about 100 lots situated in various portions of the city.

John Fitzgerald, a soldier from Fort Omaha, was arrested last night and is now in the county jail, where he will remain until United States Commissioner Anderson can dispose of his case. John is charged with having stolen razors, Edwin Boyle, the garrison barber, who is also a soldier.

Deputy United States Marshal Showalter came in from Fremont last night, bringing with him Ed. F. Graham, who a few days ago, attempted to sell United States Inspector Spooner a quantity of "green goods" at a discount of 75 per cent. At the time of Graham's arrest he was at a picule and had just selected a pariner for a waltz. He will have a hearing before United States Commis-Bioner Anderson this morning.

Diphtheria is working sad havee in the families living in the vicinity of Twenty-seventh and Pacific street. Yes-terday a child of John Clark's diedof the dread disease, it being the third death in that family within two weeks. Other children in the neighborhood are similarly afflicted and more deaths are expected. Surrounding the locality are a number of pools of stagmant water, partially filled with garbage and decaying animal matter.

A Rattling Game For Sunday. The two crack amateur teams, the City

Recreating Fireman.

An excursion under the auspices of the local lodge of locomotive firemen will leave this city for Walton at 8 o'clock this meruing. Twenty coaches will be required to accommodate the knights of the scoop and their friends. This being the first midsummer outing attempted by the brotherhood, no labor or expense will be spared to make the day one of wholesome pleasure and recrea-tion for all particleants. Engine 672 is booked to pull the precious load, with J. T. Fitz-maurice at the throttle and Frank Crowell as stoker. The decovations of the train will be

Chicago's Growth Duplicated in Portland.

Chicago's west zide, with 60 per cent of he people was long neglected. Portland, Oregon's peninsula, 18 square miles, with 18 miles of deep water front is to become to Portland what the west side is to Chicago. The old city of Portland contains only 8 square miles. The population is rushing across the Willamette river to the peninsula, so that three bridges and four ferries are already required. In 1900 her 400,000 people will chiefly dwell on the peninsula.

on the peninsula. A Card From Dr. Allen.

OMAHA, Neb., August 14 .- To the Editor of The Bee: Knowing that you prefer truth rather than a sensational mis-statement of facts, I am assured that you will willingly correct the erroneous impressions produced in today's paper regarding the death of Mrs. Marry E. Burgess.

At the inquest, Dr. Rosewater, who had conducted the post-mortem examination, clearly showed that with a disordered kidney a heart suffering with fatty degeneration, unnatural condition of the uterus, and a presentation of the child which prevented delivery. The case of Mrs. Burgess was one of those sad and rare ones in which death stares the physician in the face whichever way he turns and whatever he does. Three of the ablest doctors of Omaha were in attendance and they did everything that the circumstances justified and yet the woman died.

Now with reference to the misstatements.

woman died.

Now with reference to the misstatements. I was not "in attendance" at the case as reported, but when called in consultation after giving my opinion that she could not live without an operation and that all operations were exceedingly hazardous. I withdrew from the case, early in the day, and was not present when she died. I did not state that "it was an ordinary case of child-birth." I did not "charge \$30." norstate "that Dr. Connell would charge the same," but said that while the usual price for such work was as above, since he was a peor man doubtless he could get the best skill of the city for a nominal sum. I did not receive a ponny for the case, as I considered it one of charity from the start. Kindly correct these errors and oblige. Yours respectfully.

Officers Elected by the State Central

Committee Yesterday. The democratic state central committee met in the music room of the Paxton hotel at 9 o'clock yesterday morning. There were twenty members of the committee present and a temporary organization was effected by electing A.W. Price of Chadron as temporary chairman and C. S. Montgomery of Omaha as temporary secretary.

Hon. J. E. North proposed that the selection of a permanent chairman be left to the nominess for governor, Mr. Boyd.

The latter gentleman declined to name the chairman, but suggested Charles Ogden as a good worker and a man who was thoroughly familiar with the situation. On motion of Mr. Euclid Martin Mr. Ogden

Mrs. Alexander had a photograph taken of the ruips from the corner of Sixteenth and Capitol avenue, giving a full view of the burned buildings and this was sent to Wash-ington with the request for authority to have the ruins removed, but no reply has been re-

The block is not only a fire-trap, but a veritable death-trap as well. There are no accommo dations in the way of water supply, out-houses, etc., and as a consequence the gar-bage master has been dogging the footstops of the government officers with orders for the removal of garbage and a general renovating

of the entire block.

The old Planters' house and the adjoining buildings on Sixteenth street are occupied as tenements, and the usual collection of refuse matter is dumped in a heap for want of a better expedient. A single well supplies the entire lot of tenants in this portion of the block, and the surroundings are not such as to make the water the lost in the world. to make the water the best in the world

Everything Goes Wrong In the bodily mechanism when the liver gets out of order. Constipation, dyspepsia, con-tamination of the blood, imperfect—assimilation are certain toensue. But it is easy to prevent these consequences, and remove their cause, by a course of Hestetter's Stomach Bitters, which stimilates the billary organ and regulates its action. The direct result is a disappearance of the pains beneath the ribs and through the shoulder blade, the nausea, headaches, yellowness of the skin, furred look of the tongue, and sour odor of the breath, which characterize liver complaint. Sound digestion and a regular habit of body are blessings also secured by the use of this cele-brated restorative of health, which is its best guarantee of safety from majarial epidemics. Nerve weakness and over-tension are re-lieved by it, and it improves both appetite

and sleep. THE SILVER MARKET.

The Omaha and Grant Smelter Suppliesa Large Percentage.

Mr. Guy Barton said yesterday that the New York house of the Omaha and Grant smelter company had been notified to offer the government 100,000 ounces of silver. "We have been disposing of the bulk of

our silver to the government since the passour silver to the government since the passage of the Bland act," said Mr. Barton, "and shall continue to do so. We have been supplying about 1,100,000 ounces per month, which is about one-fourth of the amount the government will buy under the present law. None of our silver goes abroad. The balance of our product, over and above what is sold to the govern

over and above what is sold to the government, is used in the arts.

"The government buys is open market, and the price paid is kept a secret. The treasury department has made it known that the government whites the price of silver to advance, which disproves the rumor that the government was opposed to the present silver law and would do all in its power to cause the price of silver to decline. The present market price of silver is 81.14 per ounce, and the por value of silver is reckoned at \$1.2920 per ounce. It is likely that the price of this metal will increase until it reaches this point and then we will have free coinage."

A Rate Withdrawn.

"The advance in rates," says a member of the Commercial club, "will not be detrimental to us. We have no complaints to make on that score. The only thing requiring special attention just now has reference to discriminations made against Omaha and in favor of Kansas City on certain territory. Here is a case that we have just succeeded in having adjusted satisfactorily with the B. & M. road. It had been giving Kansas City the same rates to Black Hills points as Omaha. We complained, and last Tuesday the Kansas City rate was withdrawn. A similar state of affairs exist on the Union Pacific from Grand Island west to Cheyenne, which we propose to have rearranged. The roads must either keep Kansas City out of Omaha's territory or give us an equal show to compete with Kansas City in the southwest." case that we have just succeeded in having

Medicine simply purgative, corrects no morbid condition, consequently their use is followed by greater costitueness. A remedy, to be effectual and permanent, must be composed of tonic, albertive, corrective and carthartic properties. These are admirably combined in Dr. Tutt's Liver Fills. They will, is a short time, cure all the sufferings that result from inactive bowels. DURING AUGUST

We must close out the balance of our summer goods. Fall stock is coming in and room must be made for it. In light weight men's suits we have not many left, but what there is we are ready to sacrifice and it will pay you to come in and see whether you can find anything to fit you. If you do you'll be sure to get it at less than half the worth of it. You will be astonish. ed at the price fine suits are going at now.

Same thing in our Boy's Department. We are offering a few extremely fine suits of dark shades at prices you could not buy them elsewhere for double the money. The shrewd. careful buyer knows that the house which is always selling at close prices in the busy season. is also likely to give you the greatest bargains in the dull season of the year.

In our Furnishing Department, we have every day something or other to close out. To-day its a little lot of odds and ends in underwear, to morrow, some flannel shirts broken up in sizes &c. On all such goods we make prices which will tempt you into buying whether you need the goods or not.

Commencing to-day we have reduced the prices of our two best brands White Laun. dried "Nebraska" Shirts as follows: The finest grade heretofore selling at \$1.25 will now be \$1.10, and the grade heretofore selling at 90c, will now be 85c. The quality of the shirts will be exactly the same as formerly, and the make will, if possible, be improved. We have during the past few seasons used such large quantities of these shirts that the manufacturer is able to make us concessions in the price, and as usual we give the benefit to our customers.
