Dave Rowe's Mountaineers All But Wiped Out of Existence.

FLOOD IS HAMMERED UNMERCIFULLY.

Omaha Knocks Out Twenty-Four Safe Hits With a Total of Thirty-Seven Bases and Twenty Runs.

The Omahas had on their butting habiliments yesterday afternoon and they all but spocked Mr. Flood off the earth.

Twenty-four safe drives, with a total of thirty-seven bases and twenty runs was the size of the Black Sox' work.

On the other hand, the Denvers could do nothing with Willis, and it was all they could do to scratch out three sate smashes. He not only twirled in matchless style, but was a host at the but.

The features of the game were Cleveland's tremendous smash over the left field fence for a home run and the superb stick work of Kearns, Newman, Hanraban, Willis and

Bandle umpired finely and the game was greatly enjoyed by a crowd of three or four hundred chronics. The score :

THE SPEED RING.

Salvator Breaks the Record.

New York, August 28.—[Special Telegram to THE BEE.]—The Monmouth Park meeting came to a close today in a burst of glory Haggius' grand herse Salvator lowered the mile record by three and three-quarter seconds, running the distance over a straight track with 110 pounds up in 1:35%. The fact that the trial was to be made brought a big crowd of people to the track, and it looked at one time in the day as if they would be disappointed, as it was announced by people who knew the stable that Matt Byrnes would not let Salvator start unless Murphy could ride him. Murphy was under suspen-sion for his action in the Firenzi race on Tuesday, and his riding of Salvator would mean his exeneration from all charges. ers were settled after the second race, when the executive committee, after deliberating on Murphy's case, decided to suspend him until after the Sheepshead bay and Brook-lyn meetings. It was not known by the public who would have the mount in the record-breaking race until the bookmakers put up their odds on the event. Then Ber-gen's name appeared, and at once there was a rash to bet. The "bookies" made Salvator the favorite, laying one to two against him, while eight to five was wagered that he would not break the record. There was a big plunge on Salvator, and his price fell one to three, while two to one were laid against the time. Some cooks laid four to five over or under 1:39, and did a large business.

There was a long delay after the horn sounded, and when Salvator did finally make his appearance, accompanied by Resetta and Namori, the pace makers, a loud cheer went up. Slowly the trio can tered up the straight stretch, and in a few minutes a cloud of dus marked their progress to the starting point, where Mr. Caldwell and half a dozen aides were awaiting them. Salvator and Namori went nearly a furlong past the post, leaving Rosetta behind. Namori went off in front and was ten lengths past the starting post before Salvator reached it, going at a hot pace. When the half mile pest was reached Salvator had dis-tanced Namori twenty lengths and was making rapid strides after Rosetta, who had just been started. Rosetta, who is very speedy for five furlongs, ran under a pull and made a splendid pace for Salvator. The people on the grand stand who held watche were standing in open-monthed amazement at the horse's wonderful speed. The quarter had been traveled in 33½ seconds, the half in 47½ seconds, and Salvator showed no signs of tiring. The watches showed 1:11½ at the three quarter post. Bergen brought Salvator past the wire like a whirlwind, and at once there fell a hush on the spectators. The way in which the time keepers acted indicated that the record had been broken, and when the figures "1:35'4" were put up there was wild excitement among the spectators, which lasted, in a measure, the rest of the day.

A. W. Lowense, Manager. Will Try Young Jellen.

The Omaha management is thinking seri ously of giving young Jellen, the Nonpareils' promising pitcher, a trial in the box, with the view of engaging him for the season of '91. Jellen is said to have masterly control of th ball, as well as some very puzzling curves and great speed. He is also somewhat of a hitter and anything but a slouch on the bases.

The Cowboys This Afternoon. The Cowboys, Poet Burns, Danny Stearns. Sliver Smith, Hugh Nicol, Park Swartzel, Hick Carpenter and all the other stars, wil be here this afternoon and try to take a ful out of the Black Sox. ANOTHER MOTOR VICTIM. Frank Fernandez Falls Under the

Wheels and is Terribly Injuried. The motor train added another victim to its ist at 6 o'clock last evening. Frank Fernandes, a moulder in the Union Pacific shops, and living at 2424 Parker street, was coming down town on train No. 1 of the Hanscom park line, which was in charge of Conductor B. F. Benbow and Motorman Wilson. As the train reached Capitol avenue, Fernandes, who was stand-ing on the front platform of the trailer, signaled the conductor to stop. The conductor signaled his motorman and then applied the

Trans-Missouri Freight Association Headquarters to Be Removed. Kansas Citt, Mo., August 28.- Special Pelegram to Tak Bra. |- The Trans-Missouri Freight association acadqua ters will be ordered moved to Chicago from this city at next Tuesday's meeting. Every road in the association, with the exception probably, of the Memphis, will force the reseval. The subject is on the call for discussion as a prominent feature of the September meeting and it appears already settled that the re-

moval will be quickly agreed to. There will be a violent opposition to the change from the Memphis. That road will take the position that an association dealing with trans-Missouri lines should operate in trans-Missouri territory.

The original plan of both the passenger and freight associations was to have organizations in a territory before that time neglected. except by some of the eastern associations. It was agreed, in support of the scheme; to put the organizations in the field, that there was The passenger department was recently

smuggled away to Chicago and merged with the new Western Passenger association, with a branch agent here, and now it is proposed to take the freight association to Chicago bodily and appoint an agenthere. Perhaps the Union Pacific will join the Memphis in its complaint that the association's headquarters should properly be here, but every other line that is a member will, it is understood, favor the removal.

Missouri Republicans.

St. Louis, Mo., August 28.-The republican state convention met today at Jefferson City, Mo., with Senator McGinnis as tempor ary chairman. After the appointment of the usual committees, a recess was taken until 3 o'clock this afternoon. Upon reassembling the temporary organi zation was made permanent. The platform endorses the present national administration, the wise and business-like course of the twenty-first congress in its work in crystal lizing into law the principles of party enunciated in 1888 rency, regarding the farming interest as lying at the base of all business presperity, and declaring it the primary duty of our leg-islators, national and state, to foster that in-interest so far as it can be done by legislation; opposes monopolies or trusts, affirms its con-fidence in the republican congress keeping the pledge made in the national platform that it will pass a tariff measure that will meet the condition of all classes of industries and labor and will enable the party, by adopting the sug-gestion of Secretary Blaine, to obtain among our sister republics that reciprocity in trade and internal good feeling that must in a short time make the western hemisphere the mar-ket of the world. Of course Speaker Reed

was endorsed. A resolution was offered by one of the negro delegates endorsing the force bill and urging upon the senate of the United States the necessity of passing it, so henest and fair elections may be held in the south. Considerable, and at times fervent, discussion followed. The resolution was finally adopted in a modified form.

Nominations followed. Alexander Mullin of Linn county was nominated for supreme judge, James K. Merrifield of Pettis county for railroad commissioner and Frank P. Sever of Newton county for superintendent

The Lake Shore Switchmen Go Out and Tie Up Local Traffia

ALL THE ROADS MAY BE AFFECTED.

Grievance Committees in Session with Representatives of the Mutual Aid Association to Decide What to Do.

CHICAGO, August 28 .- Twenty-seven switchnen in the employ of the Lake Shore road went out on a strike last night, completely tying up all the business of the road so far as Chicago is concerned. The trouble grew out of the stockyards trouble. Superintendent Amsden took a crew of men down to the stockyards yesterday afternoon, and when they reached there the men deserted. Another crew that was sent there also abandoned the engines. Superintendent Ansden then discharged all the men who had left their engines. This precipitated a strike of the night men.

At a meeting of the switchmen held this morning at which Superintendent Amsden was present, thirty-four of the sixty men present signed a paper agreeing to stand by the company and go to work wherever the company sent them. The remainder decided

to go with the strikers. Representatives of the Switchmen's Mutual Aid association met this morning with the crievance committees of the switchmen on all the roads running into Chicago. The meeting was called to devise means if possible to settle the difficulties which are now threatening the railroad traffic of this city.

the railroad traffic of this city.

Before the meeting opened Grand Organizor John Hall said to a reporter: "The situation is just this: If any road attempts to compel its switchmen to handle freight from the stockyards it will very speedily have a strike on its hands. In this way the matter will be brought to the attention of the association, which will make a fight of its own. In that way a general tie-up of all the roads may become a reality."

The Grievance Committee Meets. CHICAGO, August 28.-Visitors to Packingown and the stock yards would never have thought a strike in progress, such was the condition of affairs at that place yesterday. All was bustle and confusion,

The grievance committee of the Switchmen's association mot this morning. With but one exception, every railroad having in its employ members of the association had one or more representatives present. This meeting of the representatives of nearly twelve hundred switchmen was the most important that has been held for a long time in Chicago, as upon the result of their action depended much that was of interest,

not only to the railroad companies, that to the general public and thousands of workmen at the stockyards.

The switchmen resolved to handle the stockyards freight and do switching in and about Packingtown provided the chief of police would withdraw his extra force from the yards by 5 o'clock this morning.

The New York Central Strike. ALBANY, N. Y., August 28 .- | Special Telegram to THE BEE. |- There is no change in the strike situation here today. The chief of police in East Albany came near being killed last night by a Pinkerton man who fired at him, thinking he was a striker. The bullet just grazed his ear. Pinkerron claims freight trains have been stoned for the last few nights as they passed through East Albany. He said two shots were fired at a train passing through there at 13:45 this morning. The chief of police, who was near by at the time the shots were fired, could find no trace of the miscreants. Mr. Pinkerton has informed the chief of police that if this work is not stopped there will be trouble, and he will be

CHICAGO CARPENTERS.

The Proposed Labor Day Strike May He Averted. CHICAGO, August 28.—[Special Telegram to THE BEE.]-There is still a faint hope that the threatened carpenters strike of May 1 may be arrested. President Goldie of the Carpenters' and Builders' association is disposed to think, however, that the recent semiofficial communication to the executive committee from the carpenters' council, which purported to be a movement toward the settlement of the strike, was not in good faith. The council offers the alternative of ing union or non-union men as they and provides that wages shall be fixed by arbitration, the maximum to be 40 cents an hour, eight hours to constitute a day's work. A committee of the bosses will meet a com-mittee of the men in January to agree upon wages and hours for the year, the strike against the old bosses to be called off at once and the bosses to stop advertising for outside

carpenters. Ve expect the strike and perhaps a great deal of harassing from the carpenters' coun-cil, but our organization will pull through all right," said Mr. Goldie. "If the carpe strike Labor day we may decide to consider this compromise at the next regular meeting of the association, which occurs two days later. At present I don't think any individual can predict the future of the wrangle."
