St. Paul 12, Omatia3. Sr. Paul, Minn., Sept. 2.—[Special Telegram to The Ber.]—The Omaha aggregation wrestled with Fritz Schmidt's curves this afternoon, and the curves were triumphant, Walsh's home run in the fourth, Fagan's single in the fifth, Canavan's home run in the eighth were the only hits off the youngsters, but the four netted three carned runs. The local team fielded faultlessly and batted like flends. They were particularly hard on Fagan. It the eighth inning, when nise men went to bat, five of them snocked outsingles and two home runs. The fielding of the Nebraskans was ragged, especially so in the fourth iming, when bad throws were made by Canavan, Kearas and Harrahan. Abbey, the Omaha "kid" who wears a St. Paul uni-Jorm, did great execution with the stick, making a clean single every time hecame to bat. Canavan made a great catch at left. Walsh got in front of two very hard, hot grounders, and Newman made two fine throws to second. The weather was cloudy and the attendance did not amount to half a

THE CARPENTERS STRIKE. t Seems to Be a Sort of Triangular

Combat. CmcAGo, Sept. 2.- [Special Telegram to THE BEE __ The long contemplated carpenters'strike was declared on in Chicago today. but it has not had the effect of tying up the building trade. At the headquarters of the new Boss Carpenters' association reports received during the day were to the effect that not ore-half of the men had failed to report o work and that the places of the absentees had been immediately filled. The employers expected so trouble and were confident of having all the help necessary to carry on the contracts in hand. In point of fact, several

contracts were let up to noon. Congressman Frank Lawler and President O'Connell of the carpenters' council were around at headquarters and made the statenent that provided President Weeks would submit to a conference the strike would be declared off in twenty minutes. President Weeks refused to consider the matter with them and resented the interference of Mr Lawler, a politician. It would be a liberal estimate to say that 4,000 of the 8,000 Chicago carpenters have gone out and theleaders are

restly disappointed at the result The present fight is a sort of triangular combat—the Crarpenters and Builders' association and the Boss Carpenters' association might be put as two sides of the triangle—the strike to be represented by a diagram,—while the United Carpenters' council would have to be designated by the hypotenuse. Whether the usual geometerical relation exists between the sides and the hypotenuse remains to be demonstrated by the outcome of the strike. Just at present the three lines do not agree in any way. The carpenters' council people say that the strike order has been generally obeyed with promptness and unanimity by the men. Mr. Goldie, representing the old bosses, said that sone of his men had gone out and he had heard of none of the others having quit. Secretary McDermott of the new bosses had heard of only one job being abandoned by the ourneymen carpeaters. As a matter of fact, he jobs of the new bosses have fared worse thus these of the rival association. On the latter many of the carpenters employed are non-union men and most of these remainat

The box makers and sawyers at Hair & Ridgeway's factory struck this moraling be-cause the company were employing non-union men to take the places of the striking car-penters. A committee of the strikers called at the carpenters' council and assured them that no box makers would work with non-min carpenters. Not many box makers are anion carpenters. Not many box makers are out however.

This morning nine union men, who were at work for Phillips & fiamelton at 37% cents an hour, were ordered off. The strike committee looked into the matter and ascertained that the men had been paid 32% cents since August! and they were ordered back to work. At the same time the committee decided that all carpenters who had been paid 32½ cents since August 1 should continue to work. This is a concession, as the original programme of the strikers has been to entirely tie-up the building trade by calling out

WEBB TELLS OF THE STRIKE.

The Central's Vice President Before the State Arbitration Board.

New York, Sept. 2-The state board of arbitration began an investigation here to-day as to the difficulty between the New York Central and the Knights of Labor. Vice President Webb, the first witness, said the company had no controversey with its employes. On the evening of August 8 a large number of employes left, but their places had been filled. The alleged cause was that seventy-eight members out of 20,000 had been discharged. They were discharged for good discharged. They were discharged for good cause, but only seven of these men applied to the company for information as to why they were discharged. Subsequently a gentleman from another state called and wanted to know why the men were discharged. The witness declined to give the reasons. This gentleman was Holland. Witness discharged the mea on reports from members of the secret service of the company. The charge was unsatisfactory service. An engineer was unsatisfactory service. An engineer named Lee was discharged for unsatisfac An engineer tory service. The man Lee was very arrogant and insolent and said he would tie up every wheel between here and Buffaloif he did not get some of the Vanderbilt money.

Continuing, Webb said that several of the

men knew the cause for which they were dis-charged. Their relations with the Knights charged. Their relations with the kmi of Labor had nothing to do with their

Mr. Prvor endeavored to find out if the Knights of Labor question had been dis-cussed by the board of directors, but the board declined to admit the question. "That shuts us off," remarked Pryor, turning to the Knights of Labor committee Webb said he had arranged for theservices

of Pinkerton men sometime before the strike. When asked about the details of the arrangement Webb declined to answer. He did not seek the protection of the police prior to employing Pinkerton's men.

Webb was followed by members of the

Kaights of Labor dismissed by the New York Central. Their testimony went over the ground of the alleged and supposed cause of their dismissal and the incident connected therewith, already substantially covered in Holland and Devlin, executive committee-men, testified to their effort to bring about a settlement of the difficulties by arbitration. E. J. Lee introduced the correspondence be-

tween himself and Powderly. The latter advised him to move cautiously, as he was com-

peting with a corporation that controlled mil-lions of dollars wherea labor party controlled cents. On August 2 Powderly wrote: gret to hear of the condition of affairs. If there is to be trouble it will be when Depew is away. I advise you to avoid a strike at all hazards, as the order cannot support you now. Act on the following suggestion: Select from your men such a arrecord and relect from your men such as are good and reliable and secure places for them in the west Then have them ask for shorter hours and higher wages. This the road will not grant. higher wages. This he road will not grant. Then have them quit and take the new places secured for them. Do this secretly and wait until Depew returns.

He is a presidential candidate and would not care for a strike on his road.' General Master Workman Powderly was next called. Pending the strike he had no interview with any of the road's officials. He related his interview with Webb, but brought out nothing new.

Employers Combine Against Labor. SYDNEY, N. S. W., Sept 3 .- A meeting of employers of all classes today resolved that the time had arrived when it is necessary for employers and capitalists to form a protective association and co-operate in fighting the battles of the community against aggressive unionism. An employers' defense association was accordingly constituted and a committee appointed to draft a scheme of colonial co-operation.

The Trades Union Congress LIVERPOOL, Sept. 2.-At the session of the trades union congress today Watkin, the president, delivered an address in which he advocated the direct representation of labor is parliament, state control of railways and the

solution of the land question by naturalization. A resolution, was offered by one of the delegates consulting the committee appointed by the last congress for its failure to draft a bill for presculation to the house of commons providing for a legal working day of eight hours, as it had been instructed to do. The resolution occasioned a storay debate and was finally rejected.

Freight Brakemen Wantan Advance. Mescen, Pa., Sept. 2.-The freight brake men on the Pittsburg, Shennadonh & Lake Shore railroad wenton a strike this morning for an advance in wages, and all freight traffic is suspended in coasequence.

Will Remember Their Friends. LONDON, Sept. 2 .- At a meeting of trades union delegates today arrangements were made to raise a fund for the Australian dock abovers now out on a strike. Tillett, who presided at the meeting, said he believed that the generous assistance received from Australia during the strike of the London dockmen would now be repaid. Regarding the proposed union of ship owners Tillett and the men had no cause for fear.

Taking Back the Old Men. BUFFALO, N. Y., Sept. 2.—The New York Central road is talking back some of the old switchmen and discharging the new men. It is said that five were reinstated yesterday and others received and put to work today.

Shipping Union Formed. LONDON, Sept. 2.—The long projected ship-ping union was formed in London today. Its wowed object is to deal with labor questions broughout the world and especially to resist the tyranny of trades unions, to protect employes from terrorism and generally promote shipping interests. The union represents a capital of £160,000,000.

HIGH LICENSE VS PROHIBITION. Vermont's Election R turns Show

Gain for the Former. Bualingron, Vt., Sept. 2.—1 a. m.—Returns to the Free Press from amajority of towns in this section give Page (rep.) for governor, a lightmajority. Page's majority is estimated at 17,000 against 27,000 for Dillingham, the present governor, two years ago. The vote or Allen (pro.), for governor, is very light. about 1,50). The high license vote has largely increased the past two years, owing to the non-enforcement of the prohibitory law. Returns from the backwoods towns are coming slowly. The vote in this city was light, Edward

Wells, for representative and a high license republican, endorsed by the democrats, was elected. The majority for Page, republican candidate for governor, is 22. The demo-cratic candidates for sheriff and states attorney received a plurality on a splittleket. White Run Juxerrox, Vt., Sept. 2.—This state today voted for state officers, two representatives to congress and a full list of stat sensions and representatives. Twenty cities and towns, including Barlington give Page (rep.), for governor, 3,271; Brigham (dem.), 2,041; Allen (pro.), 113. In 1888 these towns gave Dillingham (rep.), 5,686; Shurtleff (dem.), 2,889; all others, 116. Returns thus

far received indicate not only that the reput licanvote is very light, but that the ticket has been cut. The decrease in the demoeratic vote is not nearly as large correspond-ingly this year as that of the republicans. The prohibition vote remains about the same o far. Fifty tows out of 243 in the stategive Page (rep.), 8,08; Brigham (dem.), 4,582; Allen pro.), 240; scattering, 3. The republican majority over all in the towns so far heard rom is 3,373, against 7,750 in 1888. If th tote in the remaining towns corresponds

with those heard from, the republican ma-ority will be the smallest since the instituion of biennial elections.

Later—Returns now in from 700 towns how a republican net loss, compared with the vote of 1888, of 7,764, a democratic gain of 100 votes. All others gain 11. One hundred and thirty-five towns give Page (rep), 22,343; Brigham (dem), 13,262; Allen (pro), 832; scattering, all for Lieuten-aut Governor Woodburr, 29. In these towns the republican vote has fallen off 9,868. The democrats have gained 41, while the prohibiion vote has fallen off but little. If the vote of the remaining towns are relatively the same as those heard from the republican majority will be only about 1,000 in the whole state. There were eighteen democrats n the assembly in 1888. Thirty-seven been elected in 135 towns already heard

and two farmers' league candidates. An un-expectedly large number of high license re-Federal Election Bill Exposed. SARATOGA, N. Y., Sept. 2.-The executive committee of the national league of republi-cans today decided to endorse the federal election bill and fight the next congressional

campaign on that issue. Democratic Gains in Arkansas. LITTLE ROCK, Ark., Sept. 2. - Returns from two-thirds of the counties received tonight by the Gazette maintain a large in crease in the democratic majorities over last vear already mentioned. The majority for Governor Eagle and the democratic state ticket will not fall below 30,000. No reports of disturbance at the polls from any where in

Sr. Louis, Mo., Sept. 2.—A special from Little Rock, Ark., says the counting of votes in the Third ward has not yet been completed and there are fears of trouble. The vote for Bastman township was brought in last night, closely guarded by armed men. The Capital Lity guards disbarded this morning and the adjutantgeneral took charge of their arms be-cause it was rumored that the arms might be used to make trouble. Returns are coming in slowly. A large vote was polled and several days must elapse before full returns can be

THE DOUGLAS COUNTY FAIR

A Very Satisfactory Attendance on the Grounds Yesterday.

FINE EXHIBITS IN ALL DEPARTMENTS.

Very Little Interest or Excitement Attendant on the Opening Day of the Omaha Fall Races.

People were astir at an early hour yesterday morning, and when the gates at the fair grounds were thrown open a fair-sized crowd

While the attendance was not so large Monday it was most satisfactory to the management. The condition of the atmosphere during the afternoon was threatening with indications of rais. This had a tendency to keep many who would have been fair goers at home.

The exhibits in all departments were more numerous and in much better shapethan Monday, as the work of putting things in their proper places had been accomplished, thus giving the displays a more attractive appear-

The display of stock, horses, cattle and hogs is excellent. There are some very fine animals from a distance. These of course, can not enter for premiums, but the managementhas made preparation for good accoumodations for all.

In the green house line the display made

by Mr. Haas, the marseryman, is exceptionally fine.

Perhaps the most complete and interesting exhibit on the grounds in its way is the dis-play of needle work in Art hall. There is some clever work with crayon and with the pen also in Art hall. The exhibits in some departments are not as complete as could have been desired, but the excellent racing will probably make up for this,

The Races

There were two races at the Omaha driving park yesterday afternoon, the first for foals of 1888, for a purse of \$200, and the sec-

ond the 2:50 class, purse \$300. The attendance was exceedingly modest there probably being as high as two hundred people in the grand stand at one time, while s the neighborhood of a dozes vehicles ornsmented the quarter stretch. Even the stable boys and rubbers were missing from the paddock, and it would have been a difficult matter for the most vivid imagination to have reveled in the delights and excitement of the opening day of Omaha's fall races. The judges were W. H. Barstow of Crete. Al Patter and L. Angene. Timers, George M. Swigart and Ed Cooke.

There were but three starters in the cold tables as follows: Fishered Wildo Omaha. stakes, as follows: Richard Wible, Omaha, b. f. Boo; Ed Pyle, Humboldt, Neb., b. s. Eddie Hayes; Dick Adams, Humboldt, b. f. Marie.

b. g. Toboggan; Arthur Everett, Lynne, Neb., b. g. Dr. Tilton; C. Gregory, Council Bluffs, Ia., ch. s. King Humbert.

The first heat was a pretty exhibition for the 2:50 class, Joe taking the heat by trotting the whole mile without a skip. Time-2:37.
It might be well to add here that Martin's horse. Tobogan, was allowed to go under protest. The idea seemed to prevail among everybody that he was a "ringer," and capa-ble of beating the field out hands down. The apprehensions of the other competing owners were verified in the second heat, which Toboggan took without an effort after ounding into the stretch. Hurley Burly took the lead at the send-off, holding it intil the home-stretch was entere Fobeggan pulled up easily and beat Hurly Burly out by a length and a half. Time—

Toboggan got much the best of the start in the third heat, and although Hurley Burks made a show of going after him, he couldn't reach, and Toboggan tretted in with the usual length the best of it. Time—2:3%. Pyle, however, made a kick, claiming the

heat for Burly on the grounds that Toboggan had maintained the lead simply by running and this being a plain fact, the judges set Martin's horse back, giving Hurley Burly the heat in 2:33, Toboggan second, Joe

the neat in 2:33, 10boggan second, Joe third.

The fourth heat was a very exciting struggle between Toboggan and Hurley Burly. The latter got off last of the whole bunch, although he had the pole. He buckled right down to his work, however, and passed the trailers in rapid succession. Joe was given the dust on the third counter, and Toboggan the dust on the third quarter and Toboggan ackied at the head of the stretch. It was Nipand Tuck down to the wire, but the litthe chestaut had been drawn on for too much and couldn't get his nose to the front. But Toboggaa's driver was compelled to throw the silk into his big frame at a lively rate, and he won by a scant head. Time—2:35. The fifth heat was an easy one for Tobog-gan, although he played with the balance of the gang until the head of the stretch was

eached, when he shot shead and woncasily. SUMMARY. atum L......

Killing of Ballard Branston by George W. Maspin.

LEXINGTON, Ky., Sept. 2.- Special Telegram to THE BEE. I-A special to the Transcript from Richmond, Ky., gives full particulars of the killing of Ballard Branston by George W. Maupia last night. They were prominent politicians and brothers-in-law. Branston was on yesterday remarried to his divorced wife, a sister of Maupin's wife. Maupin, who was county jailor, was asked to furnish a room for the married couple, but said he could not do so. Branston then cursed him and wanted to shoot it out. Maupin went and armed himself and on his return the threat to shoot was again made when he (Maupin) fired two shots, both balls piercing the brain. The men had been on good terms and the killing was wholly unex pocted. The affair has created great excite ment on account of the prominence of the parties.

Lord Sackville Denounced. Loxbox, Sept. 2.-[Special Cablegram to THE BEE. |- Lord Sackville, as lord of the the manor of Stratford-on-Avon, has presented to the town council a claim for eacroachment and reat in respect to the fountain and clock tower donated by Mr. George W. Childs of Philadelphia. At a county meeting today several speakers denounced the conduct of Lord Sackville in the matter and said the spot on which the fountain stands has not been used as a public market for 600 years. The council holds that there has been no encroachment unless Lord Sack ville can prove his manerial rights over th middle of the market square. Lord Sack ville's agent writes that if the council admits the claim, at the same time asking that it be not enforced, his lordship may refrain from levying rent. The council, however, has de-cleed to fight the claim.
