There are no new developments in the school board controversy, although Mesrs. They have not hesitated to avade the sancity of his home and have stoped his children on the street and sought to get from them something or other that could be used forevil against him. I have been told by several teachers whould not secure a re-election that they have been approached and asked to sign some affliavits to be used in the investigation before the board and which contained allegations detrimental to Dr. McNaughton. In some cases these teach-Dr. McNaughton. Insome assesthese teachers have been told their chances of re-election during the incumbency of the present board depended upon signing these affidavits. I much prefer to believe that these reports are not true, and if the affidavits are not presented at the next meeting of the board I will take it as conclusive evidence that my infor-mation has been unreliable. One of the serious charges I understand that they intend make against McNaughton is that he has been engaged in loaning his surplus money and another is that he voted against prohibi-tion last fall. These may be serious charges in a town like Council Bluffs, where it is well known that all the people favor prohibition and give their neighbors the use of all their spare cash without interestand without tak-ing any evidence of the obligation in the shape of a note. Failing to sustain the silly charges of incompetency a shift to this kind of charges indicates something worse than

They Got an Injunction. As predicted in The Brethe property own erson the west side of Beaton street who are occupying a portion of the street with their fences have called upon the courts to protect them in the fight with the city for what they esteem to be their rights. The whole street is in a disquieted and unsatisfactory condition. The contractor who started to fill the street without the consent and against the protests of a majority of the property owners hashalf finished his work and it has been left in that condition for a month past, and now the probability is that it will remain that way for a year or two. The grading cannot be completed until the fences are moved. The city marshal has been twice ordered to move them. One order was courtermanded by the mayor until the council could have a further opportunity to examine the situation and the engineer could report upon the city's rights. The report was made at the last meeting of the council and the uldermen wereled to believe that the property owners were tresspassers without a shadow of right to the portion of the street fenced in, and the marshal was given peremptory orders to remove the fences forthwith. He was preparing to lose yesteriay morning, notwithstanding the intimation that he wouldbe filled with builts if he attempted to do so, when he was again prevonted by the interested parties using out as injunction in the district court restraining him from in any way interferring with their fences. This makes it too late for the completion of the makes it too late for the completion of the work this fall, and the alleged improvements that were ordered against the desires of the property owners will have the effect of spoling a really handsome street and making it a miserable muday thoroughfase. The property owners, who would willingly have contributed \$190 a piece to the city if the conneil would have kept off the street entirely with undesirable and ruinous improvements, are thoroughly disgusted.

The Whittlesey Divorce Case. The Whittlesey divorce case was the center of attraction in the district court yesterday. The testimony was in line with that introduced on the day previous by the plaintiff and made a very bad showing for Mrs. Whittlesey, It implicated several young men about town whom the plaintiff had contemplated making co-respondents in his suit against his wife. The chief part of the testimony was given by Whittlesey's fellow employes of the Globe office, Charles and Willam Fisher, James Kirley, Isaac Troup and Cal Maynard. Reporter Wescott was also called to identify the letter introduced the day before alleged to be from Mrs. Whittlesey to Jack Cahoos. He detailed the circum-

stances connected with it while in his pos-session and how he obtained it by finding it in a desk purchased from Cahoon, and gave it to his wife, who subsequently gave it to Whittlesey. ExChief of Police Lucas and Whittlesey Ex-Chiefof Police Lucas and ex-City Marshal Guandla were called to tes-tify to the character of the road house kept by Mrs. Metcalf, where witnesses sworethey had sen Mrs. Whittlesey go in company with men. Some of the men connected with the present police were called for the same pur-pose and one of them testified that he underpose and one of them testified that he understood it to be a "place of pleasure." A number of affidavits were introduced, but a batch
from A bilene, Kan., where Mrs. Whittlesey
is an eged to have had an escapade, did not
arrive in time to be introduced during the
afternoon. The plaintiff claims to be withholding the most important part of his testimony for rebuttal today, and he promises
sours racy and sensational developments.

Ceremis. WASHINGTON, Sept. P2. I attribute the increase to other causes than ashortage in crops. The statement that this has been the lightest yield fortwenty years I cannot agree with. This may be the case with the barley crop. The advice herein contained seems to have been taken to heart last night by the people present to witness Ralph Lumley's three-act farce, "Aunt Jack."
