He said that he answered the letter by stating solid facts, but he never saw his letter pub-lished in the Voice. In closing, Mr. Mahoney showed that in-stead of decreasing intoxication, prohibition increased it to a frightful extent. As proof of this he cited numerous instances which had come under his observation during his residence in Iowa. The opinion was generally expressed that it would be much better to extend the limits as the property was built up than to put a taboo on proposed improvements along the street by requiring all new buildings to be erected of brick and iron, particularly as there are whole blocks along the street with-out a building on them. It was argued that the value of the prop-erty would not stand such an ordinance, and that frame buildings must come first to a cer-tain extent before brick ones could follow. OUR SHOE DEP'T.

Is crowded with new goods for the fall, and notwithstanding the steadily advancing price of leather we are in a position to offer our fall goods at same moderate prices that have made our Shoc Department so popularin so short a time. Our stock for the fall was ordered very early, before the manufacturer's thought of advancing prices; the material was selected with care and the Shoes were made and finished in the best workmanlike manner, and we are now offering not only the largest assortment, but also the best made Shoes for Men and Boys, honest goods which me are not afraid to back with our guarantee.

To signalize the opening of the Fall Season in this Department we place on sale to-day. 2,000 pair fine Call Shoes, Congress and Lace, warranted Goodyear Weltat \$2. 50. This is the same quality and make which we sold last season as a great bargain at \$2.75. Shoes made with Goodyear Welt, arefully as good for wear and elasticity as Hand-sewed Shoes. The above are an extraordinary bargain. We know Shoe Stores would charge at least \$3.50 or \$4 for like goods.

Our "Workingman's" shoes for \$1.25, of which we sell thousands of pair severy season, are turning out better than ever this fall. We have placed early orders for enormous quantities and the manufacturer has greatly improved upon the make of them. No more honest shoe was ever offered for sale at such a low price. It is solid leather throughout, and the make and finish is perfect. Nothing short of \$2.00 will buy such a shoe elsewhere.

In the finer grades we show an exceptionally large assortment, all styles of toes, and all kinds of lasts, shoes to fit any foot.

All our other departments are loaded with new goods. In every line we have put in a big stock anticipating an increased trade.

# A HAVEN FOR PAUPERS.

## That is How Douglas County is Re garded By Some People.

Another pauper was foisted upon Douglas county yesterday afternoon. Bertha Desort, a young woman, a New York waif, was sent to Kansas several years ago. She found employment there, but a few weeks ago drifted northward and landed at Elkhorn. There she entered the employ of a Mrs. Knapp, but being subject to fits Bertha was turned adrift and next found shelter at the Open Door. Mrs. Clark kept her for a few days, but as the disease seemed incurable she was sent to the Industrial home at Milford. After being there less than a week the matron concluded that the girl must have another abiding place, so yesterday she took Bertha in charge and with her came to this city, with the inten-tion of turning her over to the county.

tion of turning her over to the county. At the depot a cab was procured, and into this the matron, an officer from Milford and Bertha were placed and driven to the court house. Upon reaching their destina-tion the girl was selzed with a violent spasm, which she was placed on a dray and taken to St. Joseph's hospital. Today the county commissioners will investigate the case, and if the girl is found to be a resident of this county she will be sent to the poor farm. When the matron of the Milford institu-tion was asked why the girl was brought to Douglas county she replied that she knew that Omaha was provided with hespitals where the sick and indigent could be cared for, and that she had also been advised by the state officials to pursue the course she had adviced

Postmaster Gallagher Injured. Postmaster Gallagher, who has been spending several days in Colorado, was quite seriously injured last Sunday. He was up on the mountains looking at a quarry near Tower, and in coming down upon the cable train he was thrown off and severely bruised about the hips and body. The accident was the result of the train passing around a sharp curve at a high rate of speed. As soon as possible the train was stopped, Mr. Gallagher put onto one of the cars and taken to the town, where he received medical attendance.
