The Edge Only Settled Yet. Although we now number some a nation considerably more than sixty million souls there seems to be plenty of elbow room, and overcrowded centers is something of a misnomer on American soil. We have hardly settled around the edges as it were, of the immense public domain of the United States, and along the line of the Union Pacific railway, its branches and dependencies, there is land enough yet vacant to support half the present population of the country. And these lands are not barren wastes, but good fertile farm lands.

The only railroad train out of Omaha expressly for the accommodation of Omaha, Council Bluffs, Des Moines and Chicago business is the Rock Island restituted limited, leaving Omaha at 4:15 p. m. daily. Ticket office 1602, Sixteenth and Farnam sts. Omaha.

A Light in Every Berth. To the Chicago, Milwaukee & St. Paul railway belongs the credit of being the first in the country to reduce the matter of electric lighting of trains to scientific perfection. One of the novel features introduced in the sleeping cars is a patent electric reading lamp in each section. With this luxurious provision reading at night before and after retiring becomes as comfortable as by day, and when sleeping the light may be made in comfort and seclusion. The berth reading lamp in the Pullman sleeping cars run on the Chicago, Milwaukee & St. Paul railway, between Omaha and Chicago, is patented, and cannot be used by any other railroad company. It is the greatest improvement of the age. Try it and be convinced.

Sleeping cars leave the Union Pacific depot, Omaha, at 6 p. m. daily, arriving at Chicago at 9:30 a. m. Secure tickets and sleeping car berths at Union Ticket office, 1501 Farnam street (Barber Block), Omaha.
