

CITY COUNCIL'S ECONOMY.

It Saves a Few Dollars While the City is Overrun with Diphtheria.

THE FIGHT WITH THE BOARD OF HEALTH.

The Long School Surrounded with Dangerous Cases of Disease Which Extend to the Walnut Hill School.

Something of a sensation was sprung at the regular meeting of the board of health yesterday.

It seems that somebody had heard that Councilman Olson had told a person called Theodore Hemmingway that the board of health was rotten and was doing a good many foolish things.

This was heard before the gathering was called to order.

The meeting opened with a lot of random remarks regarding the stubbornness of the city council in adding even the most necessary bills that have been sent in by the board of health.

Chief Seavey finally proposed that the city attorney be requested to give the board his opinion on this question, and the council's attitude toward it on the point of finance.

Mr. Chaffee said that the city attorney was not in harmony with the board in the matter. The chief thought, however, that the city attorney would at least reply to such a request from the board and offer the following resolution, which was adopted:

Resolved, That the board of health in view of the prevalence of diphtheria and the sanitary condition of the city, respectfully request the council to inform the board, definitely as to whether any, and if any, what sum of money is at the command of the board for sanitary purposes.

The city physician remarked to the effect that if the attitude of the council toward the board was continued, the council would be Wheeler's attitude toward him, personally, he saw no occasion for such a situation. He, the doctor, had nothing against Wheeler personally and thought the latter had no occasion for displaying any spirit against either the secretary or the board itself on any such score.

The doctor thought, furthermore, that the council could be misled.

Health Officer Pettit said that Miss Hyde, a teacher in the Douglas school, had a brother at home sick with diphtheria, and was attending school without changing her clothes between her home and the school house.

After hearing several rumors to the effect that there were some nuisances here and there in some places in the city, the board went into executive session. Representatives of the press were excluded for about fifteen minutes and then admitted. Councilman Olson was found before the board.

"Tell us one foolish thing that you know of the board having done," Dr. Gagen asked him.

"Well, you hired a clerk when there wasn't any need of it," began Olson, "and when the mayor had one near by who hadn't so very much to do, and the council has lots of clerical help lying around that could have been called upon."

Then Dr. Gagen turned to the city ordinance entitled "Births and Deaths," which ordinance provides that the board of health shall keep a record of the births and deaths in the city and appropriate \$20 per month for that purpose. Another ordinance says that the secretary of the board of health shall keep a record of all the acts and proceedings of the board of health.

Mr. Wheeler, it transpired, construes the births and deaths to be an act or proceeding of the board of health, and it seems that upon this construction Olson had been led to believe that a clerk to the board was unnecessary even though such clerk received but \$30 a month.

The only reply was a series of "Well! well!" supplemented by an evasive remark to the effect that he couldn't help what was in the ordinance or statutes; he thought the board shouldn't employ a clerk, and that was all there was to it. He declined to say whether he did or did not think that two inspectors could look after the sanitary condition of the city.

"Don't you think there are just as sensible men on the board of health as are in the council?" asked Chief.

"O, well, I don't want to get onto that question," replied Olson.

"Yes, but I insist that you answer it," urged Chaffee.

"I suppose the members of the board are as sensible as the councilmen," said Olson, after considerable hesitancy.

At this point Chief Seavey offered a resolution that the council be requested to appoint a committee of three to cooperate with a like committee from the board to investigate the sanitary condition of the city. The resolution was adopted.

"Did you ever see a board should be investigated?" Dr. Gagen asked Mr. Olson.

"No, sir, I did not," exclaimed Olson, now considerably excited.

"You didn't see it, did you say so, or said so to me," said Hemmingway, who was present.

"Oh, you just imagined that," said Olson.

"No, I didn't—you told me that very thing."

Olson declined to carry the controversy further, and the board adjourned.

Unreported Cases. Sanitary Officer Bennett yesterday morning found several cases of contagious diseases that had not been reported to the board of health while making his rounds looking for garbage cesspools demanding attention.

One case of typhoid fever is at 755 North Twenty-seventh street, under the care of Dr. Spaulding. Three cases of typhoid fever are at the southeast corner of Twenty-fourth and Clark, in care of Dr. Jensen.

There is one case of diphtheria up stairs at 1425 North Twenty-fourth street in care of Dr. C. D. Sprague, and another at 2507 Patrick avenue under the care of Dr. Impey.

No placards were posted at any of these places, and the matter was reported to the city physician and board of health.

The Long School. It was stated that the Long school at Twenty-sixth and Franklin streets will be closed on account of the numerous cases of diphtheria in that neighborhood.

At the present time, on Franklin street between Twenty-fourth and Thirtieth, there are twenty-six cases of diphtheria placarded, most of which are within a block of the schoolhouse.

At Walnut Hill. At the board of education rooms yesterday it was reported that diphtheria was more prevalent in the vicinity of the Walnut Hill school than around the Long school, but the number of cases was not known.

Miles' Nerve and Liver Pills. An important discovery. They act on the liver, stomach and bowels through the nerves. A new principle. They speedily cure biliousness, bad taste, torpid liver, piles and constipation. Splendid for men, women and children. Smallest, mildest, surest. 30 doses for 25 cents. Samples free at Kuhn & Do's, 15th and Douglas.

Single-Taxers' Attention. All persons residing in Nebraska who style themselves single-taxers, or are inclined to consider the principle in the light of investigation, will please forward name and address to Rufus S. Parker, president of the Omaha single-tax club, care of the Omaha office, or to M. J. Lockwood, editor of the Grand Island Workman, Grand Island, Neb.

This is requested with a view to forming a permanent state organization.

COUNCIL BLUFFS RACES.

They Are to Open in Grand Style This Afternoon.

The prospects for one of the largest meetings of speedy horses and enthusiastic horsemen that has occurred in the west for a long time are most flattering. A reporter for The Bee visited Union park yesterday and viewed one of the loveliest scenes of the season. All the stands were filled with animals with low records, and hitched on the outside of the stables were more than a score who could not be given quarters.

SOUTH OMAHA NEWS.

Robbed of His Watch. Sunday evening some thief entered the home of G. H. Hammond and stole a gold watch valued at \$50 belonging to Edward Berry. One of the watchman saw a man enter, knowing Mr. Berry was in the building did not get a sight of the disappearing man so as to identify him.

Notes About the City.

Charles F. Seymour has found his lost horse. A daughter has been born unto Mr. and Mrs. Charles F. Seymour, Albright.

At the public Saturday night Peter Brennan won the horse, buggy and harness on a throw of 51.

The republican club will hold an important meeting this week to arrange for some public rallies.

The oyster supper by the young men of the Presbyterian congregation, will be given this evening in the church, Twenty-fifth and J streets.

Mr. Frank Lindner and Miss Amelia, daughter of Mr. and Mrs. Emil Jordan, sr., were married Saturday evening at the residence of the bride's parents, Twenty-ninth and U streets.

The South Omaha electric light and power company has filed amended articles of incorporation with the state, increasing its capital stock to \$100,000, and allowing others to subscribe for stock.

Samsonet Association. All members of the Samsonet association will please meet over No. 1321 Douglas street, Tuesday evening, the 7th, at 8 p. m.

SIAS CORR, Secretary.

Mrs. Martin O. Burgess died at her home, 3823 Charles street Sunday of heart disease. She was aged sixty-seven years and was the mother of D. J. Burgess, formerly deputy city clerk. The funeral services will be held from the residence of G. R. Armstrong, 3823 Charles street, today at 2 o'clock.

Scott Still Missing. The disappearance of W. H. Scott has not yet been satisfactorily explained. He left a position with the Union trust company worth \$125 per month in July, and while he was in-charge of personal property to some considerable extent, he could have wigged out in time in the opinion of his friends.

The trust company people traced him to Chicago, where the secret was lost. They are said to be of the opinion that Scott is alive and kicking and that he left here because he could not stem the tide of creditors. His friends claim that while he is a man of good character, he never had a dollar within his income, and that to this fact is due his trouble.

THE FIGURE "9". The figure 9 in our dates will make a long stay. No man or woman now living will ever date a document without using the figure 9. It stands in the third place in 1893, where it will remain ten years and then move up to second place in 1903, where it will rest for one hundred years.

There is another "9" which also comes to stay. It is unlike the figure 9 in our dates in the respect that it has already moved up to first place, and will permanently remain there. It is called the "9" High Arm Wheeler & Wilson Sewing Machine.

The "9" was endorsed for first place by the experts of Europe at the Paris Exposition of 1889, when, after a series of tests, it was pronounced the choice of the world. It was awarded the only Grand Prize given to family sewing machines, all others on exhibit having received lower awards of gold medals, etc. The French Government also recognized its superiority by the decoration of Mr. Nathaniel Wheeler, president of the company, with the Order of the Legion of Honor.

The "9" is not an old machine. Improved upon, it is an entirely new machine, and the Grand Prize at Paris was awarded it as the grandest advance in sewing machine mechanism of the age. Those who buy it can rest assured that they are having the very latest and best.

Both the method and results when Syrup of Figs is taken; it is pleasant and refreshing to the taste, and acts gently yet promptly on the Kidneys, Liver and Bowels, cleanses the system effectually, dispels colds, headaches and fevers and cures habitual constipation. Syrup of Figs is the only remedy of its kind ever produced, pleasing to the taste and acceptable to the stomach, prompt in its action and truly beneficial in its effects, prepared only from the most healthy and agreeable substances, its many excellent qualities commend it to all and have made it the most popular remedy known.

Syrup of Figs is for sale in 50c and \$1 bottles by all leading druggists. Any reliable druggist who may not have it on hand will procure it promptly for any one who wishes to try it. Do not accept any substitute.

Paving the Viaduct. The floor of the new viaduct is being laid, but the work progresses slowly on account of the numerous braces and bolt heads in the structure, which renders it necessary to frame every piece of timber that is laid. Machinery is being placed in position on the viaduct and a circular saw will soon be in operation to cut all of the timber that goes into the structure, and a gang-saw will be running in a row or two to cut the blocks for the paving.

As soon as the floor is laid to the south side paving will be commenced. This will be about the middle of next week. The blocks to be used will be saved in brick shape, and each block will be dipped in tar and pitch before it is laid.

The floor for the foundation is of six-inch timber and it will be covered with three layers of tar paper, which will be mopped with tar and pitching material just before the blocks are laid on it. A layer of men will be kept at work on the paving, laying it as fast as the timber is put in place.
