Many a weary night and many a mile have I traveled, resting the while on the soft side of a bench in a country school house, while you and your many informants were in bed I had one conviction, in which a new tria was granted; had two hung juries in one case, and the justices before whom the case was tried declared they would, and they did. resign before they would try them over, and which was a greater length than you would have gone, was it not, dear governor ! Thes ustices were both believers' in the law, and excellent men. I have tried their cases where the principal witness had absquatulated and, in short, in my own humble way and to the extent of my ability, I have gone for these fellows with an honest desire to sustain the law, and expect to do so still to the end of my time I am not in affiliation with the liquor inter-I believe in the law and have ached for est. a bucolic constituency from which to draw my juries and obtain my witnesses and whoop it up to them. I have not the moral force of your presence when home as they have there, nor the re fined, cultured and elevating influence of the capital of Kansas to boost me along; by the ise of this last expression, however, I do not Awant to predjudice my future political pros-pect in the county. was feeling real miserable with dyspepsia,

## When every prospect pleases. But only man is vile.

As I have heretofore remarked, when you suggest that I should pull off my gloves you betray a want of knowledge concerning local polley in this county. No man was ever county attorney of this county who ever wore gloves.

request for me to cut the bridges behind me cannot be complied with, as the entire control of these useful highway con-veniences is in the hands of the county commissioners, and I, at least I hope I am, a lawabiding citizen and will not, on any pretense whatever, ursurp or attempt to exercise any power or authority over them not clearly lodged in me by the law. The remaining adjurative in your letter, to

raise the black flag on the rum power, is im-possible, the appropriations raised at Osage City and elsewhere are exhausted, and 1 can not afford to be at the personal expense for the muslin necessary to make it and wait to be reimbursed by a legislative appropri-

ation. And in co-telusion, for the defense of my own manhood, I would say that neither the facts nor your position authorize the com-munication you have deemed proper to send

me. The constitution makes the governor the supreme executive power of the state, who shall see that laws are faithfully executed, but which cannot be interpreted to be an espionage over the surveillance of every act of

every office in the state. The county attorney is designated as the officer upon whom the law has charged the execution of the prohibition law; he is liable for misconduct, and, so far as this county is concerned, as an additional incentive to duty, the desire to escape the executive denunciation recently fulminated against certain officlais in other parts of the state. As a suggestion, I would say that the law

is defective in this regard upon the return to the jurisdiction to which you belong.

A recommendation to the special session of A recommendation to the special session of the legislature convened for that purpose can not change it as to make the executive primarily and soley chargable with the enforcement of it, and even then, dear governor, some of the puries I have had to deal with would give you tustic that would open your eyes to the act that men are human, and in the enformment of law you have out to take your constituency as you have got to take your constituency as you

You will observe, governor, that this letter is couched in a spirit of comity which should exist between executive officers of the same commonwealth, and it is devoid of any temver, which men less diplomatic than myself have urged. Yours, very respectfully, S. B. BRADFORD,

County Attorney, Osage County.

the company to make a rule that would apply to pupils allowing transfers. "We have been pounded on the back," said

Mr. D. H. Goodrich, the secretary of the company. "morning, noon and night, not alone by the parents of children in attendance on the high school, but by the papers as well. Until now, it has been impossible for the company to see their way clear in granting this long prayed for change in our transfer ararrangements, but I am happy to say that the natter has been finally settled in favor of the pupils. "On and after Monday, high school pupils

will be transferred from all lines to the ca-ble line going to the high school for one fare. In returning the pupils will be transferred from the cable line to lines intersecting the the cable.

"The transfer tickets will be marked 'student's tickets,' so that there can be no mis-take, and all the pupils will have to do is to ask for a high school transfer."

### WAS THE CHILD MURDERED?

### A Sequel to the Finding of an Infant's

Remains on Thirtcenth Street. Some weeks ago, it will be remembered the partially decomposed body of an infant was found in a cracker box in the woods on South Thirteenth street, near Van Camp's addition.

At the time foul play was suspected, but as the inquest developed nothing, the case was dropped and the body was buried by the county.

Yesterday some light was shed upon the subject and there is a possibility that the fact of a murder having been committed may established

Mounted Officer Byrnes, who patrols that pertion of the city, was riding through the lonely woods when his attention was attracted to a little hillock a few feet from where the body was found. He at once com-menced an investigation, and a few inches below the surface found two calico dresses that had evidently been saturated with blood. From the appearance of the clothing and the condition of the earth, he concluded they had been deposited at the same time as the body of the child.

#### Working on the New Boyd.

Work on the new Boyd theatre was resumed vesterday morning. Contractor Mc-Clure has placed a large force of men at work on the structure, the walls of which are now up to the first floor. The delay was caused by the failure of the iron work to arrive in St. Louis in time, to be properly dressed and shipped to Omaha when needed. This material has been shipped and will be on hand in due season. The work will be proceeded with as rapidly as possible, with a view to roofing the structure before snow falls.

#### The City Council.
