Is crowded with new goods for the fall, and notwithstanding the steadily advancing price of leather we are in a position to offer our fall goods at same moderate prices that have made our Shop, Department so popular in so short a time. Our stock for the fall was ordered very early, before the manufacturer's thought of advancing prices; the material was selected with care and the Shoes were made and finished in the best workmanlike manner, and we are now offering not only the largest assortment, but also the best made Shoes for Men and Boys, honest goods which me are not afraid to back with our guarantee.

To signalize the opening of the Fall Season in this Department we place on sale to-day,

2,000 pair fine Calf Shoes, Congress and Lace, warrante Goodyear Weltat \$2.50. This is the same quality and make which we sold last season as a great bargain at \$2.75. Shoes made with Goodyear Welt, arefully as good for wear and elasticity as Hand-sewed Shoes. The above are an extraordinary bargain. We know Shoe Stores would charge at least \$3.50 or \$4 for like goods.

Our "Workingman's" shoes for \$1.25, of which we sell thousands of pairs every season, are turning out better than ever this fall. We have placed early orders for enormous quantities and the manufacturer has greatly improved upon the make of them. No more honest shoe was ever offered for sale at such a low price. It is solid leather throughout, and the make and finish is perfect. Nothing short of \$2.00 will buy such a shoe elsewhere.

In the finer grades we show an exceptionally large assortment, all styles of toes, and all kinds of lasts, shoes to fit any foot.

All our other departments are loaded with new goods. In every line we have put in a big stock anticipating an increased trade.

RAIL NOTES.

Wages of Northwestern Employes-The Passenger Association.

THE BEE contained the announcement a few weeks ago of the formation of an organ -Intion composed of the engineers and conductors of the Chicago & Northwestern system. A few days after the combination was formed the Northwestern conductors asked for an increase of wages and their demand is still under consideration by the management. Now the engineers are in line with a set of grievances relating to their hours of work and their pay. There is a feeling that trouble may result if the man-agement of the read refuses the request of either branch of the new alliance.

Western Passenger Matters.

Nothing came of the meeting of the Western Passenger association in Chicago Tuesday and Wednesday. The matter of rate cutting between Chicago and Denver was brought up and only resulted in a wrangle among the representatives of the western roads in an effort to lecate the source of the troubles. How to regulate one-way party rates to provent their manipulation by ticket brokers also came up for consideration but action was postponed for one month, to which date the meeting adjourned.

The Wages of Sin,

It was one of those quiet gloomy days at the pelice station. Not more than a dozen offenders were arraigned at Judge Helsley's bar and the wicked ones were disposed of in short order.

Mike Cunningham had mutilated the peace and good order of the city by spending the night in an alloy. For this offense he will do-mate five days labor to the city. Fannie Doran disturbed the quiet of the Third ward by attempting to paint that por-

then of the music pality a bright carmine hue. For indulging in this freak, she was com-pelled to contribute \$5,50 to the school fund. Henry Matson toos a hand in a Third ward fight, for which he will do five days at the county jail. The other party was the greater sufferer and he was sent on his way rejoicing.

The wooden crossings are all broken to pieces by teams, and new, in addi-tion to the mud (much more than ankle deep) are pieces of planks and large spikes strewn over the crossings, a standing menace not alone to vehicles and horse's feet, but to pedesitians. It is really too bad that a great city like ours should tolerate such an object ionable nuisance, and it is most mortifying to believe that any city government would al-low grasping contractors to perpetrate such outrages. Of course, citizens in the neighbor-hood are indignant, and it may be that at times indignation is unreasonable, but I venhood are indignant, and it may be that at times indignation is unreasonable, but I ven-ture to assert that should you, or one of your reporters, visit the locality in question today, either would blush to behold the wanton and worse than wretched condition of affairs, as stated herein, and I am confident that you would agree with me that this complaint is not over-estimated.
