

VERTABLE REIGN OF TERROR

New Orleans People Greatly Wrought Up Over Chief Hennessy's Assassination.

MAYOR SHAKESPEARE RECEIVES A WARNING

He Sends a Message to the Council Declaring that Murderous Secret Societies Must be Driven From the City.

NEW ORLEANS, La., Oct. 18.—Joseph M. Claiborne and several other Italians were arrested today charged with being accessories to the murder of Chief of Police Hennessy.

At a special meeting of the city council this morning Mayor Shakespeare's message was read, denouncing the murder of Hennessy and declaring that terrible secret orders exist in New Orleans; that the chief of police, was assassinated for enforcing American laws; that any citizen performing his duty or under any circumstances incuring the animosity of these societies is liable to have the sentence of death passed on him and carried out by the assassins, who say nothing and know nothing; that some of the leading Italians are at the head of these orders, while others more peaceably inclined are blackmailed and threatened with death or obliged to leave the city if they do not comply with the edicts of the societies; that this state of affairs has gone on long enough and must be stopped. The council is called on to take the initiative steps to drive, if necessary, these people from the United States.

The resolution was adopted that the mayor appoint a committee of fifty or more if he deems proper to thoroughly investigate these secret orders and report.

This afternoon the mayor received an anonymous communication notifying him that he will be the next victim. Mayor Shakespeare says this will not deter him from doing his duty. He has appointed a committee of fifty.

The most intense excitement over the doings of these societies is in the Italian quarter of the city and there is danger of a riot. The council has decided to inaugurate a bloody race war against the Italians.

The meeting of the committee tonight was secret, but the committee announced that it would pursue the investigation to the end, bring the murderers of Hennessy to justice and break up the Italian associations existing in this city. One thousand dollars were raised on the spot and by next week the committee expects to have \$50,000 to assist in the work. One of the first steps is that the ship Elvira is coming up next week with 700 Italian emigrants on board. The mayor interviewed the custom house authorities, and ascertained that the Italian emigrants, the ship, and unless the emigrants satisfy the officers that they are desirable financially and morally they will not be allowed to land.

The mayor also interviewed the Italian consuls, and unless the emigrants satisfy the officers that they are desirable financially and morally they will not be allowed to land.

The lady owning the shirt who the assassins are supposed to have used in the murder of Chief Hennessy, the man who rented the place from them and paid a month's rent in advance. Several parties say they followed the assassin on the night of the murder and the Matrangas, also supposed to be the leaders in the affair, were eating a big supper while the shooting was going on. They were seen to be drinking and eating a good time, and when they parted Madecras is alleged to have said: "Boris, I've done the best I can. I'm only sorry that he was not killed at the spot."

Stamboul was driven by Goldsmith and was accompanied by a runner. His pace to the eighth was better than ever. The head of the stretch was passed in sixteen seconds. A round to the quarter it was even with the best time before. The stallion showed a desire to spurt. Goldsmith held him back, however, and the half was made in 1:04. The five eighths was passed in 1:25 1/2 with the horse still in restraint. At three quarters were made in 1:50 and at this point it seemed that the attempt to break the record would be abandoned. As soon as the horse was well straightened out, however, McDowell drove the runner up close and Goldsmith began a desperate fight with whip and voice. The stallion responded nobly and led down the home stretch faster than the last quarter had ever been covered. He crossed the line at the line in 2:11 1/2. The best of speed with which he finished was tremendous, the last quarter being done in 31 1/2 seconds, a 2:07 record.
